Local.

THE QUOTAS.—We are indebted to Mr. F. L. Dodge, Clerk at the Provost Marshal's office, for the following complete list of the quotas of the several subdistricts in the 1st N. H. District, under the recent call for 500,000 men. These quotas are the real demands on the towns under the call: any excess on former calls will, of course, be deducted from the numbers here given.

The quota of the entire district is 2457.

HONOR TO WHOM HONOR IS DUE.—The Portland Press has this item:

The Universalist Society in Portsmouth, N. H., seem to have formed a Christian Commission on their own hook. They raised a large sum of money and sent out their minister, Rev. Mr. Patterson, who proved very efficient in giving aid to the soldiers from that state. Says the state agent, refering to Mr. Patterson, "he can find the ropes without offending the faculty. His cargo of supplies last week, which he sent into the trenches to our N. H. men, loaded seven teams of six mules each."

All true, and well said. It should not be understood however, that the Universalist Society here furnished *all* the funds for these extensive operations; as much of the money came from other sources. They did make a liberal contribution; and they did form a Christian Commission of their own by releasing for a season their Pastor, who proved to be a most efficient Commissioner,—for he not only applied the means in his own hands directly to aid and relieve men suffering at the *front*,—but he also set an example that is now being followed by the Sanitary and Christian Commissions,—and he opened the way through which both these bodies are now regularly sending supplies of needed delicacies to sufferers in the trenches,—where they have not been sent till recently.

Testimonials to this effect have been furnished by officers at the front, in Gen. Grant's army; which testimonials we presume will appear in due time.

[Communication.]

Messrs. Editors—Is there any person in this city empowered to abate a nuisance? If so, I wish to call that person's attention to an outbuilding in the rear of Nos. 6 and 8 School street, on property belonging to heirs of Robert Gray, the leakage from which into the subjacent yard of tenants on Hanover street is a crying nuisance by day and an intolerable one at night. Health officers, sanitary officers and police officers have all examined the premises, and all have decided the grievance to be a great one, yet still it is allowed to exist. The principal reason for its continuance appears to be that the parties who maintain the nuisance have a vegetable garden which it would be necessary, to disturb in order to abate the nuisance. O, tender-hearted guardians of the public health! *a vegetable garden!* A man for a few turnips or cabbages, then, may poison the atmosphere of a neighborhood and breed pestilence in our midst? It would seem as though our recent sad lesson—the fever—might have taught us not to invite malaria, but seek rather to avoid it, to which end persons who endeavor to keep their own premises clean should have some guarantee against the infiltration of filth from premises adjoining. X.

☞ Representative recruits are credited to the sub-district in which the principal resides. Representative recruits may be enrolled men, and in addition to the State and town bounties are entitled to the U. S. bounty. Drafted men and substitutes are not entitled to the U. S. bounty, and a substitute cannot be an enrolled man. No enrolled person can put in a representative recruit; only those can do so who are free from liability to do military duty.

☞ Gold declined to 248 1-2 in New York on Thursday. Flour declined from 20 to 30 cents per barrel; wheat 2 to 3 cents, and corn 1 to 2 cents per bushel, and pork 50 cents per barrel. The markets generally were dull and heavy.

— By a recent discovery at the British State paper office it appears that Daniel Defoe, the author of Robinson Crusoe and many other still popular works, was a hired spy and venal writer for the British Government in the time of George I.

— The New York World, copperhead, referring to the late Clifton House farce says, "the rebels naturally feel a deep interest in our presidential election, and their emissaries are in Canada with a view to influence its result."

BUSINESS NOTICES.

PRICES AND TERMS.

The price of the Daily Chronicle is $6 per year in advance; 60 cents per month—15 cents per week—3 cents per copy.

The (Weekly) N. H. Gazette $2 per year in advance—6 cents single copy.

Terms Cash—or all bills for Advertising, &c., to be presented at the pleasure of the publisher.

PARTICULAR NOTICE.—From this date our Carriers of Subscribers' lists are not allowed to sell copies of the Chronicle, nor to receive pay for any subscriptions, except when furnished by us with receipts for the same,—which will not be given for less term than 1 month, 60 cts., or 3 mos. $1.50, in advance. If any prefer to pay weekly, they can do so at our counting room only. Will all concerned please remember this, and thus aid in the more prompt and accurate delivery of our papers. July 18.

☞ Special attention is asked to Hunnewell's preparations, advertised on our inside columns. They are based on true medical laws, used very largely by Physicians, and most undoubted testimonials are in the hands of the proprietor, always open to inspection. Let Portsmouth and its vicinity bear testimony by a confidence to test them, which will be sacred.

TRIAL AND FRIENDSHIP.—Herrick Allen's Gold Medal Saleratus has had a trial among three million families, and is pronounced the best Saleratus in the known world. Its use always brings a smile to the household; it keeps them in health; it helps make the week strong, and saves hundreds from that dreadful disease, dyspepsia. As you value health, use it. Most of the Grocers sell it. Depot 112 Liberty Street, New York.

MEASLES ARE PROSTRATING THE VOLUNTEERS by hundreds, the hospitals are crowed with them. Soldiers, be warned in time. Holloway's Pills are positively infallible in the cure of this disease; occasional doses of them will preserve the health even under the greatest exposures.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 68 cents, and $1.40 per box or pot. 224

NEW HAMPSHIRE BIRD LAW.

PASSED JULY, 1862.

AN ACT to promote the interests of Agriculture.

Section 1. If any person shall, at any season of the year, take, kill or destroy any of the birds called robins, thrushes, larks, bluebirds, orioles, sparrows, swallows, martins, woodpeckers, bobolinks, yellow birds, linnets, fly-catchers or warblers; or shall, between the first day of March and the first day of August, take, kill or destroy any of the birds called snipes, wood-cocks, plover, rails, yellow legs, or sand pipers: or shall, between the first day of March and the first day of September, take, kill or destroy any of the birds called patridges or grouse, or quails; or shall, within the respective times aforesaid, sell, buy or have in possession any of said birds, taken or killed, whether in this State or elsewhere, he shall forfeit for every said partridge or grouse, quail, woodcock, snipe or plover taken, killed or had in possession, the sum of three dollars, and for each of the other birds named above, the sum of one dollar, to be recovered by complaint before any justice of the peace.

Sec. 3. It shall be the duty of the selectmen of towns, and of the mayor and aldermen of cities throughout this State, to cause the provisions of this act to be enforced within their respective limits.

Sec. 4. All forfeitures or penalties recovered for violation of any of the provisions of this act, shall enure—one half to the use of the complainant, and one half to the use of the town or city where the same shall be recovered.

"A Stitch in Time Saves Nine."

All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.
A full supply of Linings and Repair Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.
We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to
THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.
Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.
One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.
A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.
These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

Morning Chronicle.

☞ The New York World deceives itself and the public, by putting the number of soldiers which the President requested of the States for that really furnished by them.

Undoubtedly the losses by this war have been serious, and particularly so, because so much of the best blood of the country has been spilled in its defence. Probably some two hundred thousand men have died from their wounds or been killed on fields of battle. Three hundred thousand others have been permanently disabled. This is a fearful loss, truly, says the Transcript; but still, it makes only a small drain, comparatively, on the population of the loyal States.

The new draft will be enforced in Maryland, Missouri and Kentucky. Troops are daily joining the Union armies in Tennessee, Virginia, North and South Carolina, Florida, Louisiana and Mississippi. Taking into view the greatly enlarged jurisdiction of the United States, the tide of immigration, the natural addition to those coming to man's estate, the ability of the country to bear a draft of 500,000 men will be found to be ample.

Everybody is wondering at the tremendous power of the South, and sensible people begin to see that the quicker we make up our minds to let that people alone the better.—*Manchester Union.*

People have been "wondering at the tremendous power of the" devil this long time, but Christians will continue to resist him nevertheless.—*Mirror.*

— Ex-President Buchanan is writing letters urging the nomination of Judge Samuel Nelson for President, and Mr. Voorhees of Indiana for Vice President, at the Chicago Convention, and the New York Herald calls them "voices from the dead."

HIGHLY IMPORTANT

—TO—

UNFORTUNATE FEMALES!

DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and positively removes all the ills and all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.

His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.

Office, No. 33 Endicott street.

Persons at a distance can consult Dr. Briscoe, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients can board in the house.

Address Dr. Briscoe, at No. 33 Endicott St., Boston, Mass., stating symptoms. All communications is confidential.

Patients furnished with rooms and board if desired, and secrecy observed in every case.

Office hours from 9 A. M. to 9 P. M.

Boston, July 16, 1864. 1TSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 33 Endicott street.

N. B.—The sick and afflicted will do well to call on him at call. A short consultation will cost you nothing, but a world of friendly advice may save you years of suffering.

P. S.—Ladies who wish to stay in the city under his care a few days, can be furnished with kind nurses. Charges moderate.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 2 and 4 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and extensive experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that never failed to cure, when first introduced them, called to cure the most alarming cases of

GONORRHEA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, in its infancy, such as Gonorrhœa, Ulcers, pain and distress in the region of procreation; Inflammation of the Bladder and Kidneys, Hydrocele, Swelling of the Testicles, Bubo Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D... devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the ill and sad consequences produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Nervous Irritation, Dyspepsia, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Young men, or those contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr Dow's treatment a few days or weeks, will be furnished with pleasant rooms and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. These for $1 and a red stamp.

Highly Important to Females

RELIEF IN DELICATE INFLAMMATION.

DR. DOW, Physician and Surgeon, No's 2 & 4 Endicott Street, Boston, is consulted daily for all diseases incident to the female system, Prolapsus Uteri, or falling of the Womb, Floor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. at home, upon all difficult and chronic diseases of every name and nature, having by his unwarted attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 2 Endicott street, Boston. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

IODIDE POTASSIUM,

With the compound concentrated fluid extract o

VALUABLE MEDICINAL

ROOTS AND HERBS,

Prepared by WM. H. GREGG, M. D.,

Graduate College Physicians and Surgeons, N. Y. formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup

HAS PRODUCED

A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we are daily invited to the investigations of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as heretofore as ever encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that diseases can only be cured by the "slow recuperative process of Nature." This is our reply:

In health, the SCALE, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the disease of Man. All is required, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all hereditary DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stomach, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Struma, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritis, Neuralgia, Gout, Lumbago, Sciatica, The Dolorous.

If there is any disease in which the Constitution Life Syrup is a specific, it is Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced, and in a few days or weeks, of 20 or 30 years standing, have been cured by use.

Nervousness.

Nervous Debility, Confusion of Thought, Irritability, Loss of Power, Shattered Nerves, St. Vitus' Dance.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering woman will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Fishing of Weakness, Rotting of Bones, Foul Breath, Ulcerated Throat, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome, fatal ulcers. Parents, which diligence so many of the younger portion of the community, from six to twenty years of age, Young children are subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia; Dropsy, of the limbs and cavity, Ascites, or Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. The disease is eradicated from the system, and the Life Syrup will remove entirely. The remedy should be taken for some time, as the disease is exceedingly deep-rooted. Tumors of the Breast, should be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body, will be completely reduced without resorting to the knife or operations of any kind.

Epilepsy, Hysteria, sympathetic or Organic Diseases of the Heart (so palpitation, Disease of Valves, producing a grating or filing sound), Dropsy of the Heart Cases and all the affections of this important organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions,

Suffering from Indisposition to Exercise, Pains in the Back, Dimness of Vision, Premature Old Age, Insanity, Fear of Disease, Dimness of Vision, Dry Hot Skin and Extremities, Want of Sleep, Restlessness, Bad Dreams, Nervous Headache, Loss of Memory, Nervous Sadness, all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of Uterine Diseases, either of the Nose Throat, Tongue, Spine, Forehead or Scalp, no remedy has ever proved its equal.

Many Ladies upon the female face, corresponding upon a diseased action of the Uterus, are very unpleasant to the young wife and mother. A few bottles of Constitution Life syrup will correct the cause, cure the disease, and remove the deposit which is directly under the skin.

In Diseases of the Liver, giving rise to languor, dyspepsia, constipation, weak stomach, an ulcerated or cancerous condition of that organ, accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

To a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and those who are suffering from disease for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

POOR RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES.

It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and sickness, and increases and improves the food—Those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing! Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CURES FROM ONE TO THREE DAYS

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Gravel, Inflammation of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Fluor Albus (or Whites in females) where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an aid to the use of the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are healing, soothing and demulcent; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the cheap quack injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the various organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming oven attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is kept in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable, 200° at most of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the chamber, leaving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the dome can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney to roar as if on fire, and yet emitting no smoke.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

FAIR RAFFLING.—A correspondent of Wilkes' Spirit thus describes a pleasant incident of the recent great Sanitary Fair at St. Louis:

Of course you heard of the "Smiza Farm" raffle—the crowning scheme of a thousand of the same order, where a farm adjacent to the city, valued at $40,000, was given to the holder of the first number drawn. The chance of getting a fortune for a dollar got everybody by the ears, and the whole number of tickets—fifty thousand in all—were sold in less than three weeks!

Everybody bought them—ladies of the ton, gents and boot-blacks, draymen, hackmen, darkies and chamber-maids, Augustus, Patrick, Pompey, Dinah, Bridget, and Amelia, all had one or two or more, as they could afford, and each was tolerably certain that he or she would be the lucky drawer. I was never in a community so generally and so completely under the influence of an idea, as was that of St. Louis two days ago, the idea being "Smiza Farm."

Well, the drawing took place last evening, and it was essentially the culminating feature of the Fair. Of course there was an immense crowd and intense excitement—the former was one of the most incongruous mixtures of humanity I ever saw, and I was struck by the illustration offered of the "lust of gold," by seeing the fair face of an aristocratic lady peering from over the shoulder of a very rough-looking and perspiring Dutchman in the crowd.

The drawing was done "on the square," and presided over by Gen. Rosecrans and Major Thomas, on a raised platform. There was the time-honored "wheel-of-fortune," full of the paper checks, and they were taken out by the little naked arm and hand of Nelly Grant, the lovely daughter of General Grant, who has personated the "old lady in the shoe," in cap and spectacles, during the Fair. No 24,472 drew the farm, and it became painfully evident very shortly after the announcement that the multitude did not hold that number. Indeed, the holder did not turn up at all during the evening—like most lucky people, he was one probably who did not court it.

This was the grand raffle—there was a countless number of other minor raffles, tombolas, schemes, etc. Perhaps the principle is dubious, but the application was "happy" for the raffling "made" this Fair. They could not have disposed of the farm in any other way for anything like its value, and to raffle it off was to admit the same method of disposal for all the other things of any considerable worth. Latterly the place had assumed something of the character of a palace of *Dellucinand* was filled nightly by a jam of eager chance-takers.

EYE, N.H., Feb. 26, 1848. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with dizziness at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I CHESLEY, *Lee, May* 31, 1841

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA, and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. mav26

SPEER'S
SAMBUCI WINE,
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physician's Use, Females, Weakly Persons and Invalids.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs; very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by physicians and chemists as possessing medical properties superior to any other Wines in use, and as excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J.," is over the cork of each bottle.

Make One Trial of this Wine.

For sale by **W. R. Preston**, Portsmouth. The trade in Boston supplied by G. C. Goodwin & Co. and Weeks & Potter.

American and Foreign Patents.
R. H. EDDY.
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also to Patent in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate. The long and large practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their application in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability in his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications EIGHTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the most remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

Of Seminal Weakness, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsele and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that is life desirable and man happy. The reader is of course aware that the delicacy of the subject will prevent a more minute description of these delicate diseases.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. JELLER's great work for the Married or those contemplating marriage—300 pages—full of plates—price 25 cts Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture Love, or how to choose a Partner—a complete work on Midwifery, It contains hundreds of secrets, never before published.—Warranted to be worth five times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Michole's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, and unapproached, far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

Caution.—Married females in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, the Dr. will send a box of the Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

VERNATELLA.
Warranted to make the Soles of Boots and Shoes water and dampness proof, and to wear one-third longer.

VERNATELLA

Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,** Or retailed everywhere.

But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.

☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.

Use Vernatella on the Soles of your Shoes. It makes them water proof and by thereby protecting your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dew.

SATURDAY, JULY 30, 1864.

THE REBELLION.

Parties of rebel cavalry are reported to be crossing the Cumberland river and working their way into Kentucky.

Gen. Sherman is steadily drawing his lines closer around Atlanta. The rebel loss since our army crossed the Chattahoochie is estimated at 18,000. Gen. Howard succeeds Gen. McPherson, recently killed. Hood claims a victory at Atlanta, saying he captured many prisoners, cannon, colors, &c. The rebel Gen. Walker was killed, and three other rebel generals wounded. The latter statement is probably true; the other probably untrue, as most reports of rebel "victories" in that department have proved.

It is said that 40,000 Union troops can now be concentrated on the upper Potomac in a few hours, if necessary, to repel the rebel invaders. There is no later authentic news from that quarter. Among the contradictory reports are that the rebels have fallen back, preparatory to an advance in another direction, our troops being in pursuit; and that the rebels on Friday held some of our forts, and crossed the Potomac on Thursday evening at Falling Waters, at least 40,000 stong; they were also said to be crossing at Hancock.

The N. Y. Herald's correspondent reports a rebel attack on Gen. Foster on the 26th. His force being weak, he fell back half a mile to a stronger position, which he held until the arrival of the Second army corps. Gen. Sheridan crossed the Appomattox and James rivers to develop the enemy's forces. There was heavy cannonading on the same night in front of the 9th corps, and the rebels also opened their artillery on the 18th corps, but were soon silenced.

The N. Y. Tribune's City Point, Va., correspondent, writing on the morning of the 27th, says:

"I think I am safe in saying that the ball is about opening. There is heavy cannonading and musketry firing all along the lines this morning, particularly in Gen. Butler's department and up both sides of the James River. A strong pressure was made on Gen. Butler's lines yesterday, and the pressure is being returned this morning. Heavy movements of entire army corps were made last night. The wildest enthusiasm prevails among the troops, and the army is in magnificent condition."

On Tuesday night Gen. Grant sent a force to the north bank of the James river and surprised the enemy in position, attacking them on Wednesday morning and driving them from their entrenchments. Four large cannon were captured, and General Grant secured a very important strategic position above Bermuda Hundred, giving command of a good base of supplies only ten miles from Richmond. His attack was made because the rebels thought, from his movements of some troops, that an advance on Richmond by way of Malvern Hill was intended, and sent two divisions from Petersburg to check him. The rebels, after their defeat, fell back on reinforcements occupying strong works built two years ago. Our troops followed, taking up a position in their front and flanks. Our loss was very slight.

Two monitors went up the James River on Friday, there being a rumor that one of the rebel rams had sunk one of our gunboats, and that the rams contemplated an excursion to City Point.

ANOTHER MONITOR FAILURE.—The iron plated steamer Tunxis, built by a firm at Chester, Pa., having been delivered to the government armed and equipped, was lately ordered to Washington. The New York Post says she lay at the Philadelphia Navy Yard when the order was received, leaking at the rate of two inches and a half an hour. The officers considered it their duty to have her inspected by navy engineers, who reported her seaworthy in spite of the leaking. She left her wharf and steamed down the river accompanied by two tugs. The leak increased so fearfully that when opposite Cape Henlopen the captain advised her to be put about to return to Philadelphia. The steam pumps abaft the turret were worked to their utmost capacity, but the water gained rapidly. All hands were set to bailing with buckets. The officers expected her every minute to go down, as did also the pilots on the tugs, and the boats were made ready for immediate use. By hard work the vessel was brought back to the Philadelphia wharf, and the process of discharging commenced. She now lies there, and it is reported has been condemned as unfit for any sea service whatever.

— Orpheus C. Kerr's wife has run away from him. Will Orpheus seek her?

— The Dean of Westminster has consented that a monument to Thackeray shall be put up in the Abbey.

— It is indeed a pretty sight in the country to see a landed proprietor standing under his own ash, smoking a cigar.

FAST DAY PROCLAMATIONS.

THE PRESIDENT'S PROCLAMATION.

Whereas the Senate and House of Representatives, at their last session, adopted a concurrent resolution, which was approved on the second day of July instant, and which was in the words following, namely:

"That the President of the U. States be requested to appoint a day for humiliation and prayer by the people of the United States; that he request his constitutional advisers at the head of the Executive Department to unite with him as Chief Magistrate of the nation, at the city of Washington, and the members of Congress, and all magistrates, all civil, military and naval officers, all soldiers, sailors, and marines, with all loyal and law-abiding people, to convene at their usual places of worship, or wherever they may be, to confess and to repent for their manifold sins: to implore the compassion and forgiveness of the Almighty, that, if consistent with His will, the existing rebellion may be speedily suppressed, and the supremacy of the Constitution and laws of the U. States may be established throughout all the States; to implore Him, as the Supreme Ruler of the World, not to destroy us as a people, nor suffer us to be destroyed by the hostility or connivance of other nations, or by obstinate adhesion to our own counsels, which may be in conflict with His eternal purposes, and to implore him to enlighten the mind of the nation, to know and to do His will, humbly believing that it is in accordance with His will that our place should be maintained as a united people among the family of nations; to implore Him to grant to our armed defenders and the masses of the people that courage, power of resistance, and endurance necessary to secure that result; to implore Him in his infinite goodness to soften the hearts, enlighten the minds, and quicken the consciences of those in rebellion, that they may lay down their arms and speedily return to their allegiance to the United States, that they may not be utterly destroyed, that the effusion of blood may be stayed, and that unity and fraternity may be restored, and peace established throughout all our borders."

Now, therefore, I, Abraham Lincoln, President of the United States, cordially concurring with the Congress of the United States, in the penitential and pious sentiments expressed in the aforesaid resolution, and heartily approving of the devotional design and purpose thereof, do hereby appoint the first Thursday of August next to be observed by the people of the United States as a day of national humiliation and prayer.

I do hereby further invite and request the heads of the executive departments of this Government, together with all legislators, all judges and magistrates, and all other persons exercising authority in the land, whether civil, military, or naval, and all soldiers, seamen, and marines in the national service, and all other loyal and law-abiding people of the United States, to assemble in their preferred places of public worship on that day, and there to render to the Almighty and Merciful Ruler of the Universe such homage and such confessions, and to offer to Him such supplications, as the Congress of the United States have, in their aforesaid resolution, so solemnly, so earnestly, and so reverently recommended. ABRAHAM LINCOLN.

[Dated at Washington, July 7, 1864.]

THE GOVERNOR'S PROCLAMATION.

Whereas, the President of the United States has, at the suggestion of wise and patriotic councilors, set apart THURSDAY, the fourth day of August next, as a day of Fasting, Humiliation and Prayer; and such solemn recognition of our dependence on Almighty God is ever becoming in a nation, and especially appropriate in our present circumstances, I would recommend to the people of New Hampshire to assemble in their accustomed places of worship on the day designated by our Chief Magistrate, there to invoke the blessing of Heaven on our suffering country.

Let fervent prayer be offered that victory may crown the efforts of our noble soldiers in the field; that wisdom may be given to our rulers, and patient endurance to our people; that this terrible conflict which now desolates our land may end in a speedy, lasting and honorable peace. Nor let us forget the brave men who are suffering in camp and hospital, and the households which are forever saddened by the ravages of war. It is God alone who can save the nation in the hour of its peril. Let us not be ashamed to humbly confess our sins and implore forgiveness through the merits of Jesus Christ his son.

NOTES OF FORMER DAYS.

Collected and Collated — By UNCLE TOBY.

Preparations to take Canada in 1746—A French Fleet menacing New Hampshire and all New England—The Fleet destroyed by a storm.

In this time of suspense, Sir Peter Warren and Sir William Pepperell having arrived at Boston from Louisburg, Shirley had an opportunity of consulting them, and such other gentlemen as he thought proper, on the affair of the Canada expedition. The season was so far advanced that a fleet could hardly be expected from England; or if it should arrive it would be too late to attempt the navigation of the river St. Lawrence. But, as a sufficient body of troops might be assembled at Albany, it was judged prudent to employ them in an attempt against the French fort at Crown Point.—At the same time Clinton, Governor of New York, solicited and obtained the friendly assistance of the Six Nations of Indians, on the borders of his province. It was thought that if this attempt should be made, the alliance with these Indians would be strengthened and secured; and the frontiers would be relieved from the horrors of desolation and captivity, to which they were continually exposed. In pursuance of this plan the forces of New Hampshire were ordered to hold themselves in readiness to march to Albany, but it being discovered that the small pox was there, the rendezvous was appointed at Saratoga and the adjacent villages.

No sooner was this plan resolved on, and preparations made to carry it into execution, than accounts were received of danger which threatened Annapolis, from a body of French and Indians at Minas, and the probable revolt of the Acadians. It was thought that Nova Scotia would be lost, if some powerful succour were not sent thither. Orders were accordingly issued for the troops of Massachusetts, Rhode Island and New Hampshire to embark for that place, and "drive the enemy out of Nova Scotia." But, within a few days more, the whole country was alarmed and thrown into the utmost consternation by reports of the arrival of a large fleet and army from France, at Nova Scotia, under the command of the Duke D'Anville. It was supposed that their object was to recover Louisburg; to take Annapolis; to break up the settlements on the eastern coast of Massachusetts; and to distress, if not attempt the conquest of the whole country of New England. On this occasion the troops destined for Canada found sufficient employment at home, and the militia were collected to join them; the old forts on the seacoast were repaired and new ones erected. A new battery, consisting of sixteen guns, of thirty-two and twenty-four pounds shot, was added to Fort William and Mary, at the entrance of Piscataqua harbor; and another, of nine thirty-two pounders, was placed at the point of Little Harbor. These works were supposed to be sufficient to prevent a surprisal.—Military guards were appointed; and in this state of fear and alarm the people were kept for six weeks, when some prisoners who had been released by the French brought the most affecting accounts of the distress and confusion on board the fleet.—It was expected by the people of New England that an English fleet would have followed them to America. This expectation was grounded on some letters from England, which Shirley had received, and which he forwarded by express to Admiral Townsend at Louisburg. The letters were intercepted by a French cruiser, and carried into Chebucto, where the fleet lay. They were opened in a council of war, and caused a division among the officers, which, added to the sickly condition of the men, and the damage which the fleet had sustained by storms, and their loss by shipwrecks, dejected their commander to that degree that he put an end to his life by poison, and the second in command fell on his sword. These melancholy events disconcerted their first plan. They then resolved to make an attempt on Annapolis; but when they had sailed from Chebucto they were overtaken by a violent tempest off Cape Sable, and those ships which escaped destruction returned singly to France.—Never was the hand of Divine Providence more visible than on this occasion. "Never," says Dr. Belknap, in his history of New Hampshire, "was a disappointment more severe, on the side of the enemy,—nor a deliverance more complete, without human help, in favor of this country."

It is a well settled traditionary and historical fact that the religious people of New England, being greatly alarmed by the menaces of the French Fleet, set apart a day of fasting and prayer for deliverance from the danger, and kept it with their usual fidelity and zeal. With the result they were highly gratified, and considered it a direct answer to their prayers.

— Col. Mulligan has died from the effects of the wounds received on Sunday.

— Gen. Averill's wound was a slight one in the forehead, not sufficient to prevent his discharging his duties.

"A Wonderful Discovery."

DR. TEBBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

BOUNTY JUMPERS.—We published on Tuesday morning an account of the escape of Thomas Downey, a volunteer enlisted in this city, from the cars, while en route to Concord under guard, and of his subsequent capture at Exeter. The same man Downey was brought back to the Provost Marshal's office, and on Tuesday night was left in irons in a room in the third story. During the night, from some unexplained reason, his irons were removed, it is said by the guard left in charge of him, and before morning Downey took "French leave" through the window, sliding down by the spout as far as he could, and jumping the rest of the way. He somewhat severely sprained his ankle in so doing, but managed to walk to the North end, and secreted himself on board a schooner. Here he was discovered snugly tucked away, on Friday morning, by Officer Johnson, who had been on the lookout for him, and re-arrested. It is presumed that that man won't escape again. He had received $650 bounty, and says he gave $100 to the broker who enlisted him; that he gave up $500 more to an unknown man in citizens' clothes, who told him at the Provost Marshal's office, soon after he enlisted, that they would take it away from him as soon as he got into camp at Concord! *Perhaps* he was simple enough to do it, but his efforts to escape, with other incidents, tend to prove him to be not quite so quiet and ignorant as he now pretends to be. Probably he gave the money to an accomplice.

On Thursday afternoon a dispatch was received from Boston stating that one William Henry Thompson, a colored man, who had enlisted there, had run off, and was on his way to this city in the evening train. Officer Johnson accordingly arrested him at the depot on the arrival of the train. Thompson states that he signed no papers, that he was promised $800 if he would enlist, and that they slipped $100 into his pocket.

Per contra, officers who came down from Boston on Friday morning state that he enlisted, signed the papers, received his money, and was put on board the receiving ship Ohio, but managed to reach the shore before the man who took him to the vessel did so. He passed the guard by the use of some old discharge papers.

☞ Gov. Gilmore and Capt. Silvey have been appointed a commission to decide upon claims for credits for enlistments in the Navy during the rebellion. The Governor announces:

Applications for credits should be made to Capt. W. Silvey, A. A. P. M. G., New Hampshire, accompanied by such evidence as will establish not only the fact of service in the navy, and time of service beyond a doubt, (dates between which such service was rendered) but the fact that the person for whom credit is asked was liable to military duty under the provisions of the act for enrolling and calling out the National forces, &c.

The Board of Aldermen has initiated measures to secure for Portsmouth the credit she is entitled to in this respect. Any one having information regarding any of our citizens who are enlisted in the Navy and who should be placed to the credit of the city, is requested to communicate it to the special committee (Messrs. Shannon and Hadley) appointed by the Board of Aldermen, who have the matter in charge.

☞ The Traveller states that two letters, sent from this city to the same house in Boston, one containing a check for $4000, and the other a check for $6000, were both missing on the 5th of July, although they should have reached that city the day previous. Payment was stopped, and inquiries instituted, but no traces of them could be found until a day or two since when one of the clerks put on a coat he had not worn since the 4th, and found both letters in the pocket. We fear that clerk celebrated' the Fourth, and was 'oblivious' after it.

☞ On Thursday of last week, Capt. J. O. Chandler, of the National Guards of Manchester, was presented with a handsome sword, sash, &c., by members of his command while stationed at Fort Constitution. The presentation speech was by Capt. Bradly, and an appropriate response was made by the highly honored commander.

☞ Enrolled men, in anticipation of the draft, may put substitutes into the navy or marine corps, as well as into the army.

"TILL THE WHEELS RUST OFF."—One of the most careful railroad conductors that ever took a train over the Portland, Saco and Portsmouth Railroad, Wm. Akerman, was inquired of by an impatient passenger, while his train was holding up at a turnout, how long he intended to wait there. A passing train was over-due, and the passengers were in a hurry to get on, as all passengers are. "I shall wait," said Akerman, "unless the missing train arrives or I am directed by the proper authorities to go on, *until the wheels rust off.*" These words should be written in gold for the guidance of every conductor. They tell the whole story in a nutshell. How many lives would have been saved that have been cruelly crushed out by railroad disasters, if the rule of this model conductor had been implicitly obeyed!—*Eastern Argus.*

☞ The arrival at the Fifth Avenue Hotel, of Hon. Frank Fuller, formerly Secretary and for a long time acting Governor of Utah Territory, and more recently a prominent and successful stock and exchange broker in San Francisco, is announced in the New York papers. Gov. Fuller left San Francisco early in June on his overland journey, and on the second day out, while crossing the Sierra Nevadar, was thrown from a carriage and suffered a displacement of the left knee, which confined him to his bed for some weeks, and renders him still quite lame. He will visit Portsmouth in a few days.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began, and it is now arranged to make a general advance of 35 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,

The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

CITY COUNCIL.

BOUNTY ORDINANCE.—On Thursday evening both branches of the City Council passed an Ordinance providing for payment to men enlisting for the quota of Portsmouth under the last call of the President, as follows:—enlistments for one year, $100; for 2 years, $200; for 3 years, $300; also for raising money to meet the appropriation by a city loan.

STEAM FIRE ENGINES.—They also passed joint resolutions providing for the purchase of one or two steam fire engines for the use of the city, the matter being placed in the hands of the Mayor and a joint committee of five; and for raising the necessary money by a city loan of $8000, payable in not less than five years, at a rate of interest not exceeding six per cent.

CREDITS TO THE CITY QUOTA.—The following resolution passed the Board of Aldermen:—

That a committee consisting of Aldermen Shannon and Hadley, be and are hereby appointed to ascertain and make all such arrangements as shall be necessary to secure the credits to be received from the enlistments in the Navy, by which the quota of this City under the recent call of the President for 500,000 men, may be reduced; and the the Committee shall receive the sum of five dollars each per day in full for their services rendered; and are also empowered to employ two messengers or clerks, at a rate not exceeding two dollars fifty cents per day.

CITY OF PORTSMOUTH.

In the year of our Lord one thousand eight hundred and sixty-four.

AN ORDINANCE FOR THE PAYMENT OF BOUNTIES TO VOLUNTEERS AND OTHERS.

Be it ordained by the City Council of the City of Portsmouth, as follows:

SEC. 1. The Mayor is hereby authorized to pay to the order of any person who may be mustered into the service of the United States, under the call of the President dated July 18th, 1864, and allowed on the quota of this city, upon his receiving a satisfactory certificate of the same, the following sums of money in full for Bounties from this city:

For each man mustered for one year, $100.
For each man mustered for two years, $200.
For each man mustered for three years, $300.

And no larger bounties than the above shall be paid for any term of service. The Mayor is also authorized to advance the State Bounty to any such person, and to receive his assignment of the same.

SEC. 2. The City Treasurer under the direction and approval of the Mayor is hereby authorized to negotiate a loan on the credit of the City for a sum not exceeding Eighty One Thousand dollars, and issue City bonds for the same, payable in not more than twenty-five years from the first day of September next, with coupons attached, for the interest, at the lowest rate at which the same may be obtained, payable semi-annually, which bonds shall be approved by the Mayor, and countersigned and entered by the City Clerk, to be appropriated as follows: To pay bounties to drafted men and substitutes.

Passed July 28, 1864.

A true copy; attest,
MARCELLUS BUFFORD, City Clerk.

LAWS OF NEW-HAMPSHIRE.

Passed June Session, 1864.

AN ACT in relation to the taxation of National Banks

Be it enacted, &c. SECTION 1. All laws relating to the taxation of Banks and Stock in banks in force in the State shall be deemed to apply to National Banks now located and doing business, or which may hereafter be located and do business within the limits of this State, under and by virtue of the laws of the United States, and all duties now by law required of the officers of banks in this State, with the penalties for neglect thereof, are hereby imposed upon the officers of such National Banks.

AN ACT in relation to Police Courts.

Be it enacted, &c. SECTION 1. Whenever there shall be entered in any Police Court in this State, any action, complaint or proceeding in which both the Police Justice and the special or Assistant Justice of such Court, shall be disqualified from considering it, in consequence of any interest in the result thereof, said action, complaint or proceeding shall be postponed to a future day, and said Justice or said Special or Assistant Justice shall apply to some disinterested Justice of the Peace and of the Quorum for the County wherein such Court may be located, before whom such action, complaint or proceeding shall be entered and who shall then exercise the jurisdiction of said Court in all respects in reference to such action, complaint or proceeding.

SEC. 2. The compensation of such Justice of the Peace and of the Quorum for such services shall be equal to that of the Special or Assistant Justice of such Police Court for like services, with the addition of the fees allowed to a witness for travel to said Courts.

SEC. 3. This act shall take effect and be in force from and after its passage.

Approved July 16, 1864.

AN ACT relating to the removal of encumbrances from highways.

Be it enacted &c. SECTION 1. If any person shall encumber any highway or street with any timber, lumber, stone or other thing whatever, the surveyor of the highway or street may immediately remove such encumbrance and hold the same in his possession until the costs of such removal are paid.

SEC. 2. Such surveyor shall deliver to the owner of any such encumbrance the balance of the money received on the sale of the same, after deducting his costs of removal, keeping and sale.

SEC. 4. All acts and parts of acts inconsistent with this act are hereby repealed.

SEC. 5. This act shall take effect upon its passage.

Approved, July 16, 1864.

WHICH TO BELIEVE.—Lincoln and his advisers have been nearly a whole term in power, and have utterly failed either to subjugate the Rebellion or to open a way to peace.—*N. Y. World.*

And so the Rebels are placed in this dilemma, out of which nothing but miraculous luck can extricate them. They must abandon the South to save Richmond, or abandon Richmond to save the South, either horn of which is a vital blow to the hopes of the Rebellion.—*Same paper, adjoining column.*

The World should tell a little more truth in its political articles, or a little less when it treats of military affairs.—*Tribune.*

☞ The French Minister of Marine has made a report to the Emperor in relation to the establishment of a universal code of maritime signals, which will offer to all nations a uniform means of communicating at sea and with light-houses on the coast. The Emperor, upon receiving the report, issued a decree, in which he states the commercial code of signals for all nations—such as has been adopted by the Anglo French Commission—shall be the one employed for the interchange of communication by French vessels, either among themselves and with scmaphores on shore, or with the vessels of other nation.

☞ The Philadelphia Press assigns as one reason why the Round Table did not succeed that it was not purely a literary paper. One of its leading contributors was General McClellan, a gentleman understood to be a presidential candidate; and while it professed to be and was in some measure independent, its opinions were perceptibly influenced by the party in opposition to the administration.

— There is a widow lady living near Douglas, Mass., 74 years old, who sawed and split 5 cords of wood in the course of last winter and spring, doing it for her health. When she began, her limbs were so stiff that she could not lift her feet without assistance from her hands; but by degrees she entirely regained the use of her limbs and materially improved her health.

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract o
VALUABLE MEDICINAL
ROOTS AND HERBS,

Prepared by WM. H. GREGG, M. D., Graduate College Physicians and Surgeons, N. Y. formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the cest of diseases is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as never been less as ever encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that diseases can only be cured by the "recuperative process of Nature." This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down comes the balance, and we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stom'h, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Strume, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

[Arthritic], Neuralgia, Gout, Lumbago, Sciatica, Doloureux.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly allayed, and the swelling very much reduced. Cases, chronic or vicarious, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Spermatorrhœa, Sexual Virus [illegible]

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering woman will this medicine prove an invaluable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Foul Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Bad Taste, and curing the Weak Joints and Rheumatic Pains, which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmer than ever.

Constitution Life Syrup

Eradicates, root and branch, all kindred Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES,

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, to prevent Cancerous Ulcerating and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, from six to twelve years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia; Dropsy, of the limbs or abdomen, and the dreadful Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus; are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be taken in time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and enlargement of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Spleen Complaint, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—producing a grating or filing sound), Dropsy of the Heart Case and all Affections of the most important organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken-Down and Delicate Constitutions, Suffering from Indisposition to Exercise, Pain in the Back, Loss of Memory, Forebodings, Horror of Insanity, Fear of Disease, Dimness of Vision, Dry Hot Skin and Extremities, Weak Nerves, Sleeplessness, Bad Dreams, Universal Lassitude of the Muscular System, all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of Ulcerative Diseases, either of the Nose Throat, Tongue, Spine, Forehead or Scalp, no remedy has ever proved its equal.

MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.

In Female Weakness, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcerated or cancerous condition of that organ, accompanied with burning and other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and science have made the Constitution Life Syrup the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES.—It is the aim and object of this medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and child, prevents pain and disease, and increases and enriches the food—Those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

☞ Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!

The Long Sought For Discovered at Last,

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Inflammations of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhea, and is especially recommended in those cases of Fluor Albus (or Whites in females) where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is a powerful and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an slly or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and demulcent*; preventing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $3 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

INDIAN MEDICINE,
COMPOUNDED FROM
ROOTS, HERBS AND
LEAVES.

CHEROKEE
CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one that can rely on, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Prices, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

DR. WRIGHT'S
REJUVENATING ELIXIR,
OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out methods.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.
A few doses cure Hysterics in females.
One bottle cures Palpitation of the Heart.
A few doses restore the organs of generation.
From one to three bottles restore the manliness and full vigor of youth.
A few doses restore the appetite.
Three bottles cure the worst case of Impotency.
A few doses restore the low spirited.
One bottle restores mental power.
A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the worn-out, enervated, worn-down and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper reservoir for hot water; also a large tin waring-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely done with ease. The draft is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of rekindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and use of this valuable furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, it is free from that mischief so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, combining possibly but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, rush off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The size or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are forced back into the division of fire under the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the best portion of heat, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

HYPOCRICY REBUKED. — Wesley, reproved by one of his brethren for the light, lively character of some of the tunes to which he set his hymns, wisely responded that he disputed the right of the devil to a monopoly of all the best music. We feel very much like this when we hear the most vociferous champions of the sneaking theft of Texas from Mexico, the bolder robbery of New-Mexico and California, the defenders of the Ostend Manifesto, and of every atrocious, bloody-minded aggression which has disgraced our country's history, now groaning over the horrors of war and denouncing on the Christian blessedness of peace! What they really seek is a rehabilitation of the slave power: if this war were only making slaves instead of emancipating them—or if it were adding a new empire like Texas to the domain of the slaveholders—they would observe with *complacency* its prosecution throughout the next ten years. It is not war that they hate, but a war wherein slavery is getting worsted. But the hatred they affect, we feel; and we would have the people freshly assured that we are struggling for national existence against the most wicked and wanton rebellion that the world ever saw—that, if we continue at war, it is only because a few months more of wholesale agonies and devastations are the necessary prelude to a century of true, beneficent peace.

If seems to us the time, if it has not already come, must be near at hand, wherein the North and the South will be ready to exchange glances otherwise than over the crests of their rival intrenchments along the sights of their respective muskets—a mode of regard not conducive to geniality of temper, graciousness of manner, or comeliness of visage. In that day, the South will be made to comprehend that the North requires the extinction of slavery in one envious, inimical spirit—required it because its continued existence involves the cherishing of inbred though smothered jealousies, antagonisms, antipathies—because cordial Union, lasting *peace*, are attainable *only* through homogeneous institutions, based on *liberty* for all. And, if the superficially abortive effort at Niagara shall have served to hasten by but a week this most desired consummation, it will by no means have been made in vain.—*Tribune.*

— Persons doing business with the Government should understand that certificates of indebtedness are now transmitted free from the treasury by express. The adoption of this course of procedure is a blow at the middle men, who made money by commissions on collections, &c.

— Capt. Palliser of the British army has discovered a method of casting shot in cold sand molds. The shot pass solid through a target, and then split into fragments of four to eight ounces, being thus as destructive as shells. The cost, moreover, is reduced by over 90 per cent.

HIGHLY IMPORTANT
—TO—
UNFORTUNATE FEMALES!

DR BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in removing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and Suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.

His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.

Office, No. 23 Endicott street.

Persons at a distance can consult DR. BRISCOE, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.

Address DR. BRISCOE, at No. 23 Endicott St., Boston, Mass., stating symptoms. All communications are confidential.

Patients furnished with rooms and board if desired, and secrecy observed in every case.

Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1864. ThSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and all Female Complaints, at his old established office, No. 23 Endicott street.

N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.

P. S.—Ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.

SPEER'S
SAMBUCI WINE,
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physician's Use, Females, Weakly Persons and Invalids.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs; very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by physicians and chemists as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J.," is over the cork of each bottle.

Make One Trial of this Wine.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense business of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their application in the form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part cannot fail to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected application SIXTEEN APPEALS, EVERY ONE of whom was decided in *his favor*, by the Commissioner of Patents. **R. H. EDDY.**

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and made happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on the love to be shunned, choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to work three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr Teller has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

Dr. Teller still remains the only Agency in America, for the sale of Dr. Vichon's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of Five Dollars, one dozen Boxes will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

VERNATELLA,
Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.
VERNATELLA

Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,** at retail everywhere.

But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.

☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.

Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dew.

THE REBELLION.

The Boston Traveller thinks that as we have had no Union official or unofficial details of Friday's battle in front of Atlanta, there must be some truth in the rebel official account, which claims the capture of 2000 prisoners, 22 cannon and the camp at Decatur. The Traveller thinks that the energy which Hood has imparted to the rebel army is wonderful; and that Johnston is a great coward, who has been vastly overrated by the people of the South, and obtained a reputation which he has never done a single thing to deserve, just as has been the case with some of our Union Generals. But the Traveller's fears seem hardly called for. We have reports from Gen. Sherman, since Friday, which show that he has not retreated, and that more assaults have been made, at Hood's order, on his line, only to be easily defeated by the Union troops. Their attacks were very feeble, showing the diminishing power of the rebel army there. Meanwhile, Gen. Sherman is drawing his lines closer and closer around the doomed city.

An expedition of white and negro troops, from Helena, Ark., encountered a superior rebel force when 18 miles out, and after a short fight were compelled to retire, with the loss of twelve killed and fourteen wounded. The rebels pursued to within nine miles of Helena, where our troops made a stand. Reinforcements were rapidly being sent forward from Helena.

On the 21st Fort Sumter was undergoing another destructive bombardment from our batteries, and serious damage had resulted to some of the strongest portions of the fort. The fire on Charleston was also kept up. Adm. Dahlgren had left Port Royal for Charleston harbor.

The rebels moved large bodies of troops from Petersburg to Richmond on Wednesday, to guard against Gen. Grant's new movement. Cannonading was heavier than usual in front of Petersburg on the following night and Thursday morning, our forces probably trying to profit by the withdrawal of the enemy's troops. On Thursday afternoon the rebels again opening fire, our batteries replied and soon silenced them. Our mortars also opened and threw shells into the city until a late hour in the night, setting fire to several houses.

Gen. Hunter has not been relieved by Gen. Crook. As near as we can make it out, he commands the Department, while Crook commands the troops in the field.

Mosby, with 500 cavalry, has crossed into Maryland at Edwards' Ferry.

A Harrisburg dispatch reports that a large force of rebel cavalry entered Chambersburg, Pa., at 3 o'clock on Saturday morning. The citizens of Harrisburg were arming to repel the invaders. The rebels were advancing in three columns, and it is believed that they intend making a general rendezvous in Bufford county and adjacent mountains. Gen. Couch on Saturday was at Carlisle, directing the defensive movements; and Gov. Curtin issued a proclamation, stating that Chambersburg was occupied by rebel cavalry and artillery, and calling upon the people of Harrisburg to organize at once to defend their homes, saying they would be supplied with arms and ammunition as soon as they were organized into companies. A letter from Harrisburg to the Philadelphia Press, written Friday, would seem to indicate that the raid has been expected for several days. Special dispatches state that the force at Chambersburg is Imboden's cavalry, numbering 2000. One of the invading columns stopped at St. Thomas, 10 miles west of Chambersburg.

By Telegraph—Sunday noon.

But very little reliable information relating to the invasion of Pennsylvania has reached Washington. Advices direct from Hagerstown to day state that that place and Williamsport were entirely ignored by the enemy who crossed further up the river, it is supposed in the vicinity of Hancock. So far as is correctly known McCausland's division of rebel cavalry are the forces that first crossed the river and marched on Chambersburg, which place they occupied last night and continued to hold during to-day, destroying considerable public and private property. The authorities at Harrisburg represent to the Government that they are convinced that the invading column is a large one; and all preparations are being made in that belief to prevent it from farther advancing up the Cumberland Valley. Extensive preparations for the defence of Harrisburg are also being made. The reports of rebel demonstrations on the Potomac between Washington and Harper's Ferry turn out to-day to be untrue. Everything is remarkably quiet in the vicinity of Frederick and Harper's Ferry. It is sufficient to say that if any large force has entered Pennsylvania, most ample preparations have been made to thwart their design. If it turns to be a mere raid of cavalry by one or two rebel divisions they may succeed in getting back again, as the Potomac is so low that crossing can be effected at almost any place.

Advices from Atlanta show that the essential points of the situation of both armies remain unchanged. There is nothing later from Gen. Sherman. There is nothing new from the Army of the Potomac. Saturday was comparatively a quiet day.

Harrisburg, July 30.—Most positive information has been received that Gen. Averill has driven the rebels out of Chambersburg, and is following them westward towards Loudon, Franklin county. The best part of Chambersburg is said to be in ashes, and 3000 people have been rendered homeless. It is stated on the authority of rebel prisoners that Breckinridge is making a raid towards Wheeling, or about to return via the Kanawha Valley It seems by statements of these prisoners that it is the intention of Longstreet to threaten Washington, while Breckinridge makes his raid. In the meantime Early holds the Shenandoah Valley.

Harrisburg, 30th, midnight.—Censorship having been renewed by the military authority at this post, news that would be important and interesting to the public cannot be communicated by telegraph. This must not be misconstrued, as public safety and military success require it.

THE REBEL CRISIS IN GEORGIA.—July 9th Gov. Brown of Georgia issued a stirring appeal, calling out the entire military force of the State, or as he specifies it, "all the reserve militia between the ages of fifty and fifty-five years," and "all between the ages of sixteen and seventeen years." These were to repair to Atlanta by the nearest and speediest route. Those who presumed to disobey the order were threatened with terrible things. Still, it became necessary five days later for the Governor to write another proclamation, in which he says "sundry persons express a determination not to obey my late order and report at Atlanta, to aid the gallant army under Gen. Johnston in driving back the army of invasion which now threatens to overrun our beloved State, which is the key in the Confederate arch, and to devastate our homes." He exclaims again, "We are now in the midst of the crisis;" and orders the arrest of all recusants. He authorizes the officer whom he addresses to temporarily brevet such persons as are necessary to carry out this order, including all between fifty-five and sixty years of age, with all the guns in the country. This, it will be seen, takes in five years' older persons than the preceding order. Nothing could show more clearly the exhaustion of the fighting population of that section. The motive for all this exertion is thus stated by Gov. Brown: "If Gen. Johnston's army is destroyed, the Gulf States are thrown open to the enemy, and we are ruined."

— The U. S. Marine Corps has received a large number of recruits within three weeks, credited chiefly to the quota of New Jersey.

— Wm. H. Carter of Indiana has been sentenced to be hanged for contracting to furnish the rebels with supplies. This is right; and now will they hang him?

— A full blooded Oneida Indian, a son of Jacob Cornelius, chief of that tribe, graduated at the Appleton University, Wisconsin, recently, with honors.

— The York Mills, Biddeford, are decreasing their help and stopping part of their works owing to the scarcity of cotton. As soon as what they now have is used, the mills will stop entirely.

— The Portland Company is building thirty iron freight cars for the Panama Railroad. Wooden cars on that road are of no utility; they will not last any length of time.

— The Fenian is the title of a new weekly national Irish newspaper to be published in Boston, the first week in August, at $2.50 per year. The paper will be printed on a large imperial sheet, and will be mainly devoted to the general interests of the Fenian Brotherhood, whose organ it will be.

— Semmes has fallen so low in English estimation that Punch punches him with pointed lines, the purport of which is that the Captain's a coward. Semmes has fallen on hard lines. Capt. Winslow destroyed his position in England by sinking his craft in French waters.

— A letter from the front, dated July 24, reports that the principal works of the enemy around Petersburg have been mined, nearly twenty tons of power having been used in the operations. The writer is of opinion that a general assault will be ordered simultaneous with the explosion of the mines.

— Prices are higher by a hundred per cent. in India than they ever were before. The rupee, worth about fifty cents, will not buy as much as twenty-five cents will in England. Articles of ladies' dress there cost five times as much as they do at home. Yet India is draining Europe of specie, and keeps it all.

— The 20th Corps in Sherman's Army is composed of the old 11th and 12th Corps, formerly under Howard and Slocum. Hooker now commands it. In an open field fight on the 20th inst., as well as elsewhere it has made for itself a name beyond the Alleghanies, and proved that in Virginia it had learned how to rout the enemy.

A SOLDIER'S LETTER.—Below we publish, by permission of friends though not of the writer, a letter from a member of the 57th New York regiment, who is a native of this city and is well and favorably known to many of our citizens. There are many reasons why a letter from one who from patriotic and unselfish motives has volunteered to fight the battles of the Union, should have great influence with the public, and we therefore publish the letter all the more gladly. It gives in brief and terse terms the feelings and opinions of a soldier, and its words of encouragement and of warning should be alike regarded.

CAMP BEFORE PETERSBURG, VA., July 23d, 1864.

Dear Mother:—The siege of Petersburg, which commenced on the 15th of this month, continues slowly. Such operations are necessarily tedious, but this is being pushed forward with as much vigor as possible, and as to the final result I think there can be but little doubt. Unless the enemy are able to raise the siege, or make such a diversion as to compel Gen. Grant to suspend operations here, Petersburg will surely fall, and that will be followed by the speedy evacuation of Richmond, or its surrender. Every day many deserters from the rebel army come into our lines. Of course they are composed, in many cases, of a class who have no heart in the contest, but if their confidence in the ultimate success of their cause was unimpaired they would remain with their army. Yesterday a large squad—I don't know the number—led by an officer—a lieutenant—came in and delivered themselves up. They represent that there is no disposition to give up, but that the feeling that the Union army will eventually prevail is growing, especially among the rank and file. There is great scarcity of provisions, but the soldiers feel this less than the people, as the authorities do not hesitate to take from the latter to give the former.

When I hear how discontented and disheartened the people North are becoming, how Treason is allowed to stalk forth in broad daylight, and utter her damnable sentiments from pulpit and rostrum, I am sick at heart. The mass of the Northern people have not arrived at a full realization of the magnitude of this war. They hear the sound of the drum and fife; see regiments clad in army blue, with banners flying and music playing, marching through the streets *en route* to the front; occasionally a thrill goes through the community as the record of a bloody battle is received; but they have not learned the bitter lesson of self denial; have not seen their homes desolated, and the bread taken from the mouths of their children, and their country laid waste. All this have the people of the South suffered, and more, and apparently with far less complaint than the people of the North. If the citizens of the New England States and New York were called upon to suffer as the Union inhabitants of Maryland, Virginia, Kentucky, Tennessee, and the border States have been, they would learn with what a relentless foe they have to contend, and how utterly fallacious is all talk of peace but that gained by the triumph of our arms.

We have been blessed with a bounteous fall of rain, which proved very grateful to the parched earth, and to the soldiers, who were about as badly parched as the earth. The air now is deliciously cool and invigorating—no dust flying—everything "all serene." I lay off in the umbrageous shade of my bower with all the airs of a Brigadier. My health is gay and festive.

We are mining the forts of the rebels.—A day or two since one of them jumped up on the breastworks and shouted—"Say, Yank, when are you going to blow us up?"

There is a huge 100 lb. mortar mounted on a platform car on the City Point Railroad, which pegs away at the Johnnies in the most approved style. It makes an infernal racket when it goes off. The darling little shell goes screeching and yelling thro' the air for about three miles, and it is fun to watch it explode and see the dust it kicks up. Ever your affectionate son,

DANIEL J. VAUGHAN.

☞ Gen. McPherson, who was slain in the battle fought near Atlanta on the 22d, was the best officer of his class in our service, and was one of those commanders to whom the public mind was turned when it thought of the possibility of the fall of men of the highest military rank. He was young, being but thirty-six, but had already won fame, and had he lived, probably no man would have come out of the war with better reputation. With the tastes, the knowledge, and the ambition of the soldier, and with the patriotism of the citizen, he was ever anxious to be in active service: and he freely exposed his life, too freely, we think, if it be true that he fell because of his having proceeded too far in front just before battle was fairly joined.

— The rebel officers have not yet been placed under fire in Charleston harbor.

— Two escaped Union prisoners, who have reached Hilton Head, report seeing some rebel iron-clads in the Cooper river.

— The crops in Michigan are large,—corn never better, and wheat very fall and heavy.

— It is reported by a New Orleans letter that Gen. Banks was relieved from his command, July 20.

— Port Royal advices of the 21st state that the Vermont would sail for the north in a few days for repairs.

— The price of the Boston Commercial Bulletin (weekly) has been raised to $4 per year,—single copies 10 cents. It is worth it, in gold.

— Dealers in sugar, coffee, beef, pork and butter in Boston complain that they do not sell more than one-quarter as much as was disposed of six months ago.

— The milk dealers in Biddeford are to raise their price to eight cents per quart next month.

— The people of South Parsonfield, Me., and 'round about, are agitated by the phenomenon of fire issuing from beneath a rock on a farm in that town.

— The Biddeford Journal, alluding to the drought, states that nearly all of the early planted crops are past recovery, and the grain crop in York county is a failure Feed is giving out, and the milkmen are unable to supply milk in quantities asked for.

Brocksieper's Patent

Self-Acting Gas Regulator.

SOMETHING ENTIRELY NEW.

Patented 1864.

A brilliant and equal Light at a saving of 30 per cent. over any Gas Burner now in use.

This is not a Regulator to go on the Meter, but under every Burner in use.

Economy in the use of gas, with the advantage of having a more brilliant light than heretofore, is a point at once desirable. Inventors have for many years sought to attain this end by packing or checking in innumerable ways the flow of gas through the burner tips.

Not one of these has attained the result wished for, namely, "a pure, transparent flame, without waste at any and all pressures, obtained at any hour and in all localities."

The above results are fully obtained in

Brocksieper's Patent Gas Regulator.

We invite the most incredulous to examine and test in the most thorough manner.

RETAIL PRICE, EIGHTY CENTS.

A liberal discount made to Churches, Factories, Hotels, &c. The Regulators will be put on, and if they do not prove satisfactory may be returned. CHARLES T. EMERY,

NEW HAMPSHIRE BIRD LAW.

PASSED JULY, 1862.

AN ACT to promote the interests of Agriculture.

Section 1. If any person shall, at any season of the year, take, kill or destroy any of the birds called robins, thrushes, larks, bluebirds, orioles, sparrows, swallows, martins, woodpeckers, bobolinks, yellow birds, linnets, fly-catchers or warblers; or shall, between the first day of March and the first day of August, take, kill or destroy any of the birds called snipes, woodcocks, plover, rails, yellow legs, or sand pipers; or shall, between the first day of March and the first day of September, take, kill or destroy any of the birds called patridges or grouse, or quails; or shall, within the respective times aforesaid, sell, buy or have in possession any of said birds, taken or killed, whether in this State or elsewhere, he shall forfeit for every said partridge or grouse, quail, woodcock, snipe or plover taken, killed or had in possession, the sum of three dollars, and for each of the other birds named above, the sum of one dollar, to be recovered by complaint before any justice of the peace.

Sec. 3. It shall be the duty of the selectmen of towns, and of the mayor and aldermen of cities throughout this State, to cause the provisions of this act to be enforced within their respective limits.

Sec. 4. All forfeitures or penalities recovered for violation of any of the provisions of this act, shall enure—one half to the use of the complainant, and one half to the use of the town or city where the same shall be recovered.

"A Wonderful Discovery."

DR. TEBBETTS' "PHYSIOLOGICAL HAIR RESTORATIVE" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 60 different shades, and include all the new and fashionable colors—and are perfectly *fast*. Samples on silk and wool can be seen and the colors procured of THACHER Je30

Local.

☞ Mr. Freeman B. Teague, of this city, a private in the 12th U. S. Regular Infantry, was taken prisoner near the South Anna river, May 26, and is now confined in Libby Prison, Richmond.

☞ Brown & Pike's Combination Company open at the Temple to-night for a brief season. The company has been enlarged since their last visit to this city, by the addition of five new members, and doubtless will now give as good satisfaction to their audiences as they did then. The tickets remain at the old price—twenty-five cents.

☞ The quotas of the towns in Maine, in this vicinity, under the recent call for 500,000 men, are as follows: Eliot 38, Berwick 39, Kennebunk 45, Kittery 61, North Berwick 32, South Berwick 45, Wells 63, York 44.

INTERNAL REVENUE.—We are indebted to our young friend Legro, one of the clerks in the Collector's office at Exeter, for the following items concerning the tax:

Total amount, (annual list)	$49,184.64
" " (June list)	40,713.21

The largest income taxed in the District is that of Jonathan Sawyer of Dover, which is given as twenty-seven thousand eight hundred and one dollars. That of J. D. Sturtevant, Esq., Agt. of Norway Plains Co. of Rochester, comes next, being set at twenty-one thousand eight hundred and seventy-five dollars. The largest quantity of silver plate in this District is owned by a gentleman in Portsmouth, being 1300 ounces. Under the present law incomes from Railroad and Bank stocks are not returnable at the above office, and those largely interested in these stocks may return but a small income. The new law goes into effect soon, making them returnable for taxation.—*Rochester Courier.*

IMPORTANT LAWSUIT SETTLED.—The Biddeford Journal states that the great sewing-machine suit in the United States Court, between Shaw & Clark, of Biddeford on one side, and Wheeler & Wilson, Grover & Baker, Singer & Co., and Howe on the other, has been fully and finally settled. The Journal says, "The suit was brought by the large companies, who combined to prevent the defendants from making and selling sewing machines, which they alleged infringed their patents. The best patent lawyers to be obtained were employed by both parties. After several years of tenacious and expensive fighting, the complainants succeeded in establishing their patent, and got out an injunction; but Shaw & Clark in the meantime had obtained an interest in an older patent than theirs, and got the Government to extend it for seven years, with claims covering not only the machines made by the complainants, but all the sewing machines of any kind now made in the country. This, of course, placed the 'boot on the other leg' at once; the result being that the whole matter has now been settled by Shaw & Clark receiving an interest valued at one million five hundred thousand dollars, in the whole sewing machine business. The old patent, spoken of, is now considered the most valuable of any in existence, excepting the rubber patent, as it will control the whole sewing machine interest of the country. This is about the first instance which we are aware of where both parties to a lawsuit came out ahead, and shows that strategy is not entirely confined to war."

Messrs. Shaw & Clark intend to start a factory in Biddeford for the manufacture of their machines.

☞ Somebody remarked once that Paris (there was so much to amuse and use up attention therein) was the strangest of cities, for it allowed a man no time to get drunk. If that individual had lived hereabouts in these days he would have found himself prevented from inebriation by another cause. Just now a man cannot afford to get drunk. Owing to high prices and the drain of gold for exportation, both economy and patriotism are reducing the consumption of foreign liquors. If the incipient reform could descend to poor whiskey and drive that from use, in and out of the army, the country would have some compensation for the sufferings of war.

— The Portland Advertiser is informed that the work on Fort Preble has been suspended, and the workmen thereon discharged. The reason assigned is that the government authorities have decided that a fortification near the Cape Lights will better subserve the purpose of defending the harbor, and that formidable earthworks are to be erected at the latter place immediately.

— Cyrus W. Field is down east, preparing for the laying of the new Atlantic Telegraph. He visited Trinity Bay on Thursday, and Valentia Bay on Friday. Heart's Content is the place where the cable will be landed. Mr. Field proposes to build a land line thence to Placentia, 100 miles in length, over a good road the entire distance. The cable will connect Placentia Bay with Cape Breton.

—— Mr. James W. Tuttle of Manchester has been arrested by a United States officer, on the charge of dealing in counterfeit money, and taken to Concord. He was put under $3000 bonds to appear for trial.

—— In Epsom last spring some fishermen sought refuge from a shower under a friendly roof, leaving their poles and lines outside. A hen, in pursuit of worms, rashly swallowed one on a hook, and was found tugging at the line to get away. It was found impossible to extricate it and the line was cut, leaving the hook. The hen, however, was energetic, and survived it, and has continued to lay eggs daily in the most exemplary manner.

—— The Manchester Mirror narrates the following:

We know a man who rejoices in the good old name of Caleb, who will not work, and to beg is not ashamed; but his peculiarity consists in begging cheese—other food he can do without, but cheese he must have, and he has a way of walking into neighbor's houses, drawing on a doleful face, and saying: "Terrible pain, never saw anything like it—no appetite—can't eat—want to get a little piece of cheese." All sorts of ails and aches and pains are made excuses to beg cheese. But his common complaint for which cheese is a sovereign remedy is toothache. When we see Caleb come in, go into contortions, gyrating about and clapping his hand up to his face, we know he wants "a little piece of cheese." We will do him the justice to say that as long as his credit was good he bought his cheese and paid very liberally in promises.

All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them. If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.

A full supply of Linings and Repair Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the stove and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

☞ The N. Y. Express asks:

Suppose the South should insist upon the abolition of Unitarianism, or Universalism, or the Swedenborgian religion, North, before it would abolish Slavery; or, the exclusion from the country of the Jews; or, the non-naturalization of emigrants from Ireland and Germany—what should we say to all but this significantly—

"Mr. South, all this is none of your business. If we of the North choose to walk on our heads, we will do it."

Answer.—Whenever Unitarianism, Universalism, or any other ism, foments a rebellion against the Union and its lawful authorities, setting up in our country a rival government, confederacy and flag, we hold that it will thereby make itself "our business," and will have to be put down and abolished. Every citizen is free to believe as he will or must; but if his belief makes him a traitor, we must put down his treason and guard against its revival.—*Exch.*

☞ Mr. William E. S. Whitman of Augusta is engaged in writing a history of what Maine has done in the war for the Union. He is assisted in his laborious work by Mr. Chas. H. True, also of Augusta. The work will number some five hundred pages, octavo, and will be published by Mr. Nelson Dingley, Jr., of Lewiston. It will be got up in fine style, handsomely illustrated with steel portraits of eminent Maine officers, and will contain a faithful history of every corps that has gone from that State to battle for the maintenance of the Government. The work has the approval of Gov. Cony and Adjutant General Hodsdon, and may be regarded as being semi-official.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never before been introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Blotches, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of diseases, may be treated as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS

Dr D. devotes a great part of his time to the treatment of those cases caused by secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth: are Weakness of the limbs and loins, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, trembling, and the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or more, can be accommodated with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system, such as Whites, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new and rational principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the sufferer is soon restored to perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledged to be unequalled in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

In all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all diseases of a delicate character or any case of any kind and nature, having by his unwearied attention and extraordinary success gained a reputation which daily attracts from all parts of the country to obtain advice.

Among the physicians in Boston, none stand higher in the profession than the celebrated Dr. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

VALUABLE MEDICINAL

ROOTS AND HERBS,

Prepared by WM. H. GREGG, M. D., Graduate College Physicians and Surgeons, N. Y. formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup

HAS PRODUCED

A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cures which have no parallel in the history of the

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstinate and inveterate diseases, to an been lean as ever encountered by any Reformer.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that a protracted period is needed to the "slow recuperative process of Nature." This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when disease comes down goes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the body.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paralysis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stomach, Sick Headache, Want of Appetite, Flatulence, Bad Breath.

Scrotula.

Strume, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

[Arthritis], Neuralgia, Gout, Lumbago, Tic Doloureux.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Delusions of Thought, Epilepsy, Loss of Power, Shattered Nerves, St Vitus' Dance.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering females, this science proves an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the effects of Mercury, Relieving the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens spongy Gums and renders the teeth as firm as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES,

And all other difficulties of this kind, which so much disfigure the form and appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken for all diseases of the Glands, as it, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the larger portions of the community, from six to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous condition of the blood. These generally recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dropsy, Inflammation of the limbs or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the uterus are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. It has cured many before, and some times as the disease is exceedingly chronic and stubborn, and will not be removed without extra dose. Tumors of the Ovarian, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operating kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves producing a great variety of symptoms), Dropsy of the heart (these and all the affections of this important organ, or persons suffering from any acute pain in the region of the heart, will be cured by Constitution Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indigestion to Exercise, Pain in the Back, Loss of Memory, Forebodings, Horror of Insanity, Fear of Disease, Nervous Debility, Dyspepsia and Biliousness, Want of Sleep, Restlessness, Pale Haggard Countenance and Lassitude of the Muscular System, all respire the aid of the CONSTITUTION LIFE SYRUP.

For all forms of Ulcerative Diseases, either of the Nose Throat, Tongue, Spine, Forehead or body, Constitution Life Syrup has ever proved a

MOST PERFECT CURE.

Patches upon the female face, depending upon a diseased action of the Liver, are very annoying to the young and old. Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.

In Jaundice and the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an ulcerated or cancerous condition of that organ, accompanied with early death, are the results. The symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, as usually developed in the young, Spinal Diseases, Nervous Debility—Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, diseases and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES

It is the safest and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the food—Those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Constitution Life Syrup

Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CHEROKEE REMEDY

AND

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Inflammation of the Urethra, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Strictures, Gravel, Gleet, Gonorrhœa, and is unfailingly recommended in these cases of Fluor Albus or Whites in females, where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are healing, soothing and destroying all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the cheap quack nostrums.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write to us and we will mail free to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

INDIAN MEDICINE,

COMPOUNDED FROM

ROOTS, HERBS AND LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-abuse, such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Palpitation, Nervous Irritation, Hectic Flushes, Pale Countenance, Insanity, Consumption, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in one instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they have gone beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, when all other old doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacturer and one of the inventors of this Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke-pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been introduced, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, flow off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The fire or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different size, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

ENGLISH RAILWAY CARS AND MURDERS.—We have already published a brief account of the murder of a gentleman in a car upon the North London Railway,—he being wounded and thrown from the car.—A ray of light has been thrown upon it by the discovery of the watch chain which had been stolen from Mr. Briggs, and which has since been exchanged for another at the shop of a silversmith. The evidence of that tradesman and other circumstances point to the probability that the murderer, or one of them, if there were more, is a foreigner.—Of course very active exertions have been made by the police. The reward now offered for the apprehension of the murderer is £300. Some of the daily papers hint that important information has been received, and will shortly be made public.

Another "sensation" railway adventure is related in the English papers, by a gentleman of the name of Stokes. A young lady travelling on the South Western Railway was assaulted by a blackguard, and to escape his insults she opened the door of the carriage, got out, and remained standing on the step and clinging to the side of the step while the train was going at the rate of forty miles an hour. Fortunately Mr. Stokes discovered her in her perilous position, and managed to draw her to the door of the compartment he was in. He there held her tightly round the waist, and she fainted in his arms. In this awkward and dangerous position Mr. Stokes traveled with his fair burthen about five miles. At last, however, the guard, signalled by persons in the neighboring fields, stopped the train and rescued the young lady.

Railway carriages in England—and in fact on the continent—consist of compartments capable of containing eight persons only; and carefully walled and cushioned they form separate conveyances on a train. It is a rare occurrence that all the compartments are entirely filled, and one or two persons in each is the rule rather than the exception. Europeans have ridiculed the American "car" system, but the recent murders and the numerous outrages committed upon lone females have changed public opinion in this regard. A loud call has arisen for the abolishment of the compartment system, and daily papers now exhibit the utmost harmony of sentiment on the dangers of railway travelling. First came six leading articles, all levelled at directors, and demanding in the most imperative manner that means of communication should be established between passengers and the guard of a train. Letters—those inevitable parasites on leading articles—are already pouring in, and railway directors must look to it that the public do not compel them by force to do that which they decline to do peaceably.

—In Harrisburg, Pa., on Monday, the body of a young man named Robert Marlow was found in the yard adjoining a furnace, burned to death. He was coming home in the night from a funeral, and it is supposed that he crossed over the lot used for the deposit of red hot cinders, to find shelter for the night at the furnace. On climbing up a steep embankment, emerging into the road, he fell upon a new deposit and was so affected by the gas arising therefrom that he he was unable to gain his footing again. He was thus compelled to lie in the fireand be literally burned alive.

Please Look at This.

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as not to allow her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. Swett's PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, attended with nausea, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I CHESLEY, *Lee, May* 31, 1841

DR. SWETT: I permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY.

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. may26

American and Foreign Patents.

R. H. EDDY.
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to secute Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a Patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has acted for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

VERNATELLA.
Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.
VERNATELLA
Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,**
at retail everywhere.

But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the inside. M. LOWD.

☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.

Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dew.

TUESDAY, AUGUST 2, 1864.

THE REBELLION.

The rebels at Atlanta have been severely repulsed in an attempt, by attacking the 15th corps, to interrupt an important movement by Gen. Sherman.

Particulars of the fight near Helena, Ark., state that our loss was 62, and the rebel loss 250.

Gen. Grant is actively at work again. The successful movement north of the James was only a feint, and at daylight on Saturday morning the mine in front of the 9th corps, at Petersburg, was sprung, blowing into the air one of the largest and strongest works of the enemy, and burying many rebels in the ruins. It mounted 16 guns. The 9th corps, supported by the 18th, at once charged into the breach, the 2d and 5th being held in reserve. The first line of works were taken, with many prisoners and guns. The rebels were taken completely by surprise, and were asleep when the mine was sprung. Our artillery quickly opened, and 120 guns were continually playing upon Petersburg and the rebel works, while musketry blazed in one continuous line along the front of the 9th and the 5th corps. At 10 o'clock, when the mail boat left, our troops had captured the two outer earthworks and also the entire line of rebel entrenchments. The battle continued to progress with the greatest fury. Our losses were severe as the troops had to charge across an open field to reach the rebels.

Later advices state that our troops were unable to hold the ground, it being mostly commanded by an inner line.

We captured 500 prisoners in the assault; the loss on both sides was large—probably from 4000 to 5000. The repulse was occasioned by the negro troops becoming demoralized in an attempt to carry a hill, beyond the second line, which would have decided the contest. Our losses were very heavy, especially in officers.

☞ Gen. Dix is the oldest employed General now prominently before the public. He was born in New Hampshire in 1798; Hunter was born in Washington in 1802; McClernand in Kentucky in 1812; Meade in Spain of American parents in 1816; Canby in Kentucky in 1817; Hooker in Massachusetts in 1819; Sherman in Ohio in 1820; Grant in Ohio in 1822; Franklin in Pennsylvania in 1823; Hancock in the same State in 1824; Burnside in Indiana in 1824; Sigel in Germany in 1824; and Slocum in New York in 1827.

DON'T CROAK.—"Whatever else you do, or don't do," says the Boston Congregationalist, "don't croak. Croaking isn't the natural utterance of human voices. Let the bull-dogs and the copperheads have a monopoly of it. Be sure you're no true patriot if you croak; true patriots never croak, whatever happens.

If you want Jeff. Davis & Co. to prosper and swallow the North, but are afraid openly to help him, croak—that will help him indirectly a little. If you want Grant to fail to take Richmond, and to be whipped by Lee, but don't want to do any fighting on either side, croak—that will be the most efficient aid you can properly afford, with reasonable safety to your whole skin. Say, solemnly, with a long face, that gold will soon be 200; advise people to buy a barrel of sugar before the price goes up clear out of sight; sniffle over the dreadful times which are just ahead for the poor; turn up your eyes with holy horror at greenbacks, and just intimate that you expect to live to see them sold by the bushel for the price of paper rags! In short, croak, *croak*, CROAK.

But, if you are a true patriot; if you believe in God; if you want the country to succeed in putting down the rebellion; if you mean to do your part in aiding it toward that glorious consummation—don't croak!"

WHO KILLED LUTHER LADD.—Our Washington correspondent, "J. B. M.," writes us the following concerning the killing of the first to fall in our present struggle, Luther Ladd, of Mass. 5th, in the streets of Baltimore:—"I have recently learned the name, residence and subsequent fate of a very wealthy citizen of Williamsport, Md. He was a drunken, dissolute fellow, and, when intoxicated, boasted much of the part he took in the Baltimore riot, on the 19th of April, 1861, and particularly of his having killed that d—d Yankee boy soldier that shouted for the stars and stripes as he fell. This story is so well corroborated by other Williamsport rowdies that I think there is no doubt of its truth. But Wrench met a richly deserved fate in the summer of 1862. He became involved in a drunken quarrel in the streets of Williamsport, and after discharging two barrels of a revolver at a party he meant to kill, but missed, was himself shot through the heart and died instantly."—*Gazette.*

— From Ecuador, we have intelligence of dissatisfaction. A rising against the Government appeared at the Capital, Quito, and another at Manta, but both were quelled by the authorities. Ecuador appears to give Peru no sympathy.

CHAMBERSBURG.—The rebels ran away from Chambersburg on learning that Gen. Averill was in pursuit. They had demanded $100,000 in gold to save the town from burning, which it was impossible for the citizens to pay. The rebels burnt 265 of the most valuable and elegant public and private buildings, remaining long enough to see the flames get under sufficient headway. Speedily the scene became appalling: the crackling and roaring of the flames; the shrieks of terrified women, panic-stricken and suffering children, with the pitiful appeals of the old and helpless, formed an indescribable scene of horror. A train heavily laden with commissary stores was dispatched from Harrisburg on Saturday morning to Chambersburg to relieve the present wants of houseless women and children who now crowd the surrounding fields and woods. Prominent citizens of the town have issued an appeal to the benevolent people of the North for aid. Contributions can be sent to Rev. John K. Warren.

When Gen. Averill reached Chambersburg the flames could not be stayed. The rebels hurried off through McConnellsburg, which town they left just as Gen. Averill entered it. It is reported that a rebel major was killed and several prisoners captured by the citizens of Chambersburg. Apparently there have been very few rebels in Pennsylvania.—merely a marauding and plundering band. It is about time the citizens of that State awoke to defend themselves when attacked. They have certainly furnished some of the most striking specimens of poltroonery exhibited at the North during the war.

WHERE IT HURTS.—A Niagara Falls correspondent of the National Intelligencer, who has talked with the rebel emissaries, says their tone of feeling is subdued, that they half confessed the armies of Grant and Sherman had put them in a tight place, and one of the attachés said "he hoped almost any other man than Abraham Lincoln might be elected our next President; then they would submit to a proposition that even the State of Vermont would not reject." This is precisely the point. The rebel leaders see that the reelection of Mr. Lincoln will be a clean verdict against them that will make it impossible for them to secure any settlement that will keep themselves or their peculiar institution in power; and that there is no future for them on this continent unless his reelection is defeated. Hence the Niagara peace conference; and hence also the fixed purpose of the loyal masses to keep Mr. Lincoln in the presidential chair till he is in fact President of these United States.

—— 86,126 letters were sent from Manchester post office for the quarter ending July 1, 1864. There were delivered by the carriers 35,485 letters and 1,825 papers.

—— Stilman S. Davis, of Nashua, has been appointed Acting Assistant Paymaster in the Navy, and is to report to Rear Admiral D. D. Porter, for duty at Mound City, Ill. He will leave for his new business during this week.

— Gov. Curtin has called the Pennsylvania Legislature to meet Aug. 9.

— Civil engineers report that the volume of water which passes over the Falls of Niagara is ninety millions of tons per hour.

— There are now twelve first-class American steamers plying on the Yang-tzi-Kiang, a Chinese stream.

— The body of Col. Mulligan arrived at Chicago on Sunday night. It may be inferred, therefore, that he is dead after all.

— The mine at Petersburg was constructed by the 48th Penn. regiment, which is composed entirely of coal miners.

— A new mill is now in process of erection at Lawrence, on the site between the Atlantic and Washington mills. The building when finished will be 350 feet long by 184 wide, and three stories high.

— Two mammoth children are on exhibition at Keokuk, Iowa. They are brother and sister, and were born in Cass county, Illinois. The former is 12 years of age, and weighs 360 pounds; the latter is 6, and weighs 160.

— Jacob Strown, the great cattle king of Morgan county, Ill., challenged the county to match him with $10,000 to the Christian Commission. The county toed the mark and a thousand better. So that the commission gets $21,000.

— It is said that the Chili Congress has declared that that Government will not interfere in the Peruvian troubles, as the Spaniards merely hold the Chincha Islands until Peru pays some legitimate claims, which Chili thinks she ought to settle.

— At Waltham, Mass., on Thursday, two ladies, Mrs. Tinker, aged 19, and Miss Grace Gilmore, 25, were drowned while bathing. The latter could not swim, and was sinking, when the former went to her assistance.

— It is said that Secretary Stanton will supply the war bulletins, as he did some time since, over his own signature. The prospect of more activity, and the unsatisfactory reports already published, will make veritable and exact extracts from the reports of officers very acceptable to the public.

— The exportation of gold this year has reached thirty one million dollars.

— Gen. Sheridan, with a large force, is operating round the rebel right wing at Petersburg.

— A bald-headed woman was once so much pleased with a poet who praised the beauty and profusion of her hair, that she presented him with six hundred pounds.

— Hon. Edward Everett has sent a check to Gov. Andrew to procure a representative recruit. Mr. Everett two years ago sent one man into the Union army.

— Commodore Charles Stewart, "Old Ironsides," completed his eighty-sixth year on Thursday last, and he is yet as active and cheerful as a man of fifty.

— Ashes carelessly thrown from a tobacco pipe occasioned a conflagration last week which swept four thousand acres of Long Island land bare of everything like life and property.

— Crinoline is fast disappearing in Parisian circles. At the watering places it is quite abandoned, and it is said that in another twelvemonth the crinoline will be unknown in Paris.

— A delegation of New York City copperheads waited on E. N. Fuller, of the Newark, N. J., Daily Journal, on Saturday, and presented him with a gold headed cane.

— The N. Y. Times' dispatch states that the mine under the rebel works at Petersburg extended 400 feet. It is thought a whole rebel regiment was buried in the ruins.

— Every receipt for the payment of money, where the amount paid exceeds $20, must be stamped with a two cent stamp, under the provisions of the new Internal Revenue law.

— In some of the mining districts in Pennsylvania, miners earn from $300 to $400 per month, and common laborers $6 per day. Here we have a reason for the high price of coal.

— A drought, similar to that in the United States, prevails in England and Ireland. For nearly a month, ending July 12, no rain had fallen, and the crops were wilting.

— The N. Y. Herald's Army of the Potomac correspondence states that a recent election among the North Carolina troops resulted largely in favor of Holman against Vance (the peace on certain conditions candidate.)

— Fire broke out in the woods in the vicinity of Wellington Mines, Canada, July 2d, and one hundred and twenty houses were burned down. The fire was so fierce that the people were driven into the water for safety.

— A report comes from Texas that Union sentiments are gaining rapidly in that State, and that in Northern Texas there are already ten lodges of Union Leaguers, which are very secretly and cautiously but constantly increasing their numbers.

CHIRIQUI IMAGES.—We have had the pleasure of examining a quantity of gold received by Dr. J. C. Ayer & Co., from Honduras, in payment for their medicines, which are extensively sold throughout Central America. Among massive crosses, bracelets, and chains, are the rude images which have been taken from the graves of the Chiriqui chiefs—birds, tortles, serpents, boldly and reptiles done in solid gold. They carry us back beyond historic times, to periods and places where barbarism reigned supreme. They seem to come here now in mute appeal from the winding sheets of their ancestors, to ask for the simple Indians in the mountains, medical protection from cultivated skill, against diseases which gather them up in too early graves. Ignorant and unlettered as they are, they have learned of the white man enough to know where to apply for relief, and what will bring it. Our well known townsmen, above named, inform us that they require their remittances from foreign countries now to be made in silver and gold.—*Lowell (Mass.) Sentinel.*

"I don't think," said a would-be literary Duke, "you can find a single Irish character in all the works of Shakspeare."

"Yes, you can," boldly ejaculated young Edmund, "for I can cite two—Miss O'Phelia and Corry O'Lanus."

The noble Duke instantly started for Manchester.—*Punch.*

Ayer's Cathartic Pills

Are the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effect is have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not attested by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our preparations contribute immensely to the relief of our afflicted, suffering fellow men.

The Agents below named are pleased to furnish gratis our American Almanac, containing directions for their use, and certificates of their cures of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangement of the Liver and Bowels, Pimples, and other kindred complaints arising from a low state of the body or obstructions of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER's and take no others. The stock want the best aid there is for them, and they would have it.

Prepared by J. C. AYER & Co., Lowell, Mass., and sold by Brackett Hutchings, J. H. Thacher, W. R. Preston, David Kimball, and all druggists.

COLLECTOR'S NOTICE.

The Undersigned, Collector for the First Collection District in the State of New Hampshire, hereby gives notice to all persons concerned in

THE COUNTY OF ROCKINGHAM,

that he has received for collection the THIRD ANNUAL COLLECTION LIST within said District, made and committed to him by the Assessor thereof, in accordance with the Act of Congress entitled "An Act to provide internal revenue to support the Government, and to pay interest on the public debt," approved July 1, 1864, and the amendment thereto approved March 3, 1863; that the several duties, taxes and licenses, assessed, enumerated and contained in said Third Annual Collection List have become due and payable; and that the undersigned, Collector for said District, personally or by deputy, will attend, for the purpose of collecting and receiving the aforesaid duties, taxes and licenses assessed and payable within said County of Rockingham, at the places within said County, and at the times designated as follows:

AT EXETER, at the Office of said Collector, August 8th, 9th, 10th, 11th, 12th and 18th, 1864, from 9 o'clock A. M. to 12 M., and from 1 to 4 P. M., for the purpose of receiving the amounts assessed and payable within the said town of Exeter, and the towns of Stratham, Kensington, Hampton, North Hampton, Hampton Falls, Seabrook, East Kingston, Kingston, Epping, Brentwood, Fremont, Danville, Plaistow, Atkinson, Newton, South Hampton and South Newmarket.

AT PORTSMOUTH, at the Naval and Surveyor's Office in the Custom House, August 8th, 1864, from 10 1-2 o'clock A. M. to 4 P. M., for the purpose of receiving the amounts assessed and payable within the said city of Portsmouth, and the towns of Rye, Newcastle, Greenland, Newington and Gosport.

AT NEWMARKET, at the Newmarket Bank, August 9th, 1864, from 10 o'clock A. M. to 12 M., and from 2 to 4 P. M., for the purpose of receiving the amounts assessed and payable within the said town of Newmarket, and the towns of South Newmarket, Deerfield, Northwood, Nottingham and Raymond.

AT SALEM, at the Depot, August 10th, 1864, from 9 to 12 M. A. M., and at Derry, at the Depot, from 2 to 4 P. M., for the purpose of receiving the amounts assessed and payable within the said towns of Londonderry, Chester, Auburn, Sandown, Hampstead and Windham.

AT RAYMOND, at Prescott's Hotel, August 11th, 1864, from 10 o'clock A. M., to 2 P. M., for the purpose of receiving the amounts assessed and payable within the said town of Raymond, and the towns of Candia, Nottingham, Northwood and Deerfield.

NOTICE is also hereby further given, that all persons who shall neglect to pay the duties, taxes and licenses assessed upon them as aforesaid, to said Collector or his deputy within the times above specified, will be liable, under the provisions of Section 13 of the Act of Congress aforesaid, to pay ten per centum additional upon the amount thereof.

It is very desirable that persons having taxes to pay should remember that day and hour, as the Collector is instructed to enforce the law in all cases of delinquency.

Taxpayers will provide themselves with Government Currency, as only such will be received.

"A Wonderful Discovery."

DR. TEBBETTS' "PHYSIOLOGICAL HAIR RESTORATIVE" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxurious growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off, and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "RESTORATIVE" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

Local.

☞ On the 2d day of August, 1852,—just a dozen years agone this morning—the first number of this Daily Chronicle was issued to the public. Thanks to that public for the kind indulgence it then met, and the very liberal patronage which has ever since been bestowed upon it; all which enables us to now promise its probable continuance for another dozen years.

☞ Capt. Nath'l Wiggin, of Dover, Provost Marshal of the First N. H. District, has been obliged to resign the position on account of feeble health, much to the regret of all who have had occasion to do business with him. He was sick at home on Monday, and the office could do no business, greatly to the dissatisfaction of a large number of brokers and others concerned, who had fifty substitutes, or so, on hand. The new appointee to the important and onerous position is not yet announced; but rumor gives it to Capt. Daniel Hall of Dover.

Capt. Hall graduated at Dartmouth College in 1853, and was at once appointed by President Pierce to a position in the New York Custom House, where he remained three years. In 1856 he entered the law office of Hon. Daniel M. Christie of Dover, and there pursued his studies until he was admitted as a partner by that gentleman, being admitted to the Bar in 1859. At the breaking out of the rebellion he received an appointment in the regular army, and was on Gen. Fremont's staff, but was detached for service on Gen. Whipple's staff, remaining with that officer, and participating in all the battles, until Gen. Whipple was killed. Subsequent to the battle of Gettysburg he resigned on account of ill health, and has recently held a clerkship at Washington. With his military and legal knowledge and experience he would doubtless make an efficient officer.

☞ The rates for passengers and freight on the Concord & Portsmouth railroad were increased on Monday, Aug. 1. The fare to Newmarket Junction is now forty-five cents. The public notice says the tariff would be increased to an amount not exceeding 25 per cent.

On and after Monday next, the fare in the Kittery Omnibus will be as follows:—From Portsmouth to Kittery Point 35 cents; to Kittery Lower Foreside 25 cents; to Kittery Foreside 20 cents. Baggage extra.

POLICE COURT, Monday, before Bufford J.—Catherine Conroy, of New Castle, for an assault on Johanna Rooney, fined $3 and costs $4.92.

Johanna Rooney for breaking and entering a building in New Castle, was ordered to be bound over in the sum of $30 for trial.

Thomas Rooney also complained of Patrick and Johanna Rooney as common drunkards, but they were acquitted of the charge.

William Hurley, for fast driving in the streets of this city, on Sunday, was fined $5 and costs $8.40—$13.40 in all, rather a high price.

☞ Considerable excitement was occasioned on Market Square shortly before 5 o'clock on Monday afternoon, by a fight between a white man and a negro, in which the former received a severe blow over the back of the head with a cane, causing the blood to flow freely, and abruptly ended the fight.

☞ There was a fire in the woods on the farm near the Plains, belonging to the estate of the late John S. Pickering, on Monday afternoon, and Engine Co. No. 6 went out with their machine to check it in the evening. About 8 or 10 acres were burned over, but none of the buildings were injured. The fire was stopped by plowing around it.

☞ We learn that the Portsmouth Cornet Band have made arrangements for an excursion on Tuesday, Aug. 9, to Centre Harbor, via Newmarket Junction and Lake Winnipisogee, returning the same day.—The trip to the Lake will be made without change of cars, and the steamer Chocorua will take the party across that most beautiful of New Hampshire's many beautiful Lakes. The fare for the round trip will be $2 only.

To Let.

At Little Harbor, 2 miles from this city, a COTTAGE, with good stable, ocean view, and salt water privileges. Apply at this office. ad-3t

TRIAL AND FRIENDSHIP.—Herrick Allen's Gold Medal Saleratus has had a trial among three million families, and is pronounced the best Saleratus in the known world. Its use always brings a smile to the household; it keeps them in health; it helps make the weak strong, and saves hundreds from that dreadful disease, dyspepsia. As you value health, use it. Most of the Grocers sell it. Depot 112 Liberty Street, New York.

MEASLES ARE PROSTRATING THE VOLUNTEERS by hundreds, the hospitals are crowed with them. Soldiers, be warned in time. Holloway's Pills are positively infallible in the cure of this disease; occasional doses of them will preserve the health even under the greatest exposures.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 224

☞ Special attention is asked to Hunnewell's preparations, advertised on our inside columns. They are based on true medical laws, used very largely by Physicians, and most undoubted testimonials are in the hands of the proprietor, always open to inspection. Let Portsmouth and its vicinity hear testimony by a confidence to test them, which will be sacred.

MONEY SAVED BY USING EDDY'S PATENT

KEROSENE COOKING STOVE.

By the use of two or more burners sufficient heat is obtained for doing most of the cooking for a family, at a very small expense and with great facility.

Economy is perhaps their greatest recommendation in these times of high prices of Coal, for with one of these stoves tea may be prepared for a family at a cost for fuel not exceeding One Cent, and dinner not exceeding Two Cents.

They are portable, and burn without smoke or odor, hence they may be used in any part of the house.

All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them. If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.

A full supply of Linings and Repair Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,

The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

LAWS OF NEW-HAMPSHIRE.

Passed June Session, 1864.

AN ACT to regulate recruiting.

Be it enacted, &c. SECTION 1. No person shall within the territory or jurisdiction of this State recruit for or enlist in military service, except under the authority of the Governor thereof, or of the President of the United States; and every person so offending shall, on conviction, be punished by fine not exceeding one thousand dollars, or by imprisonment not exceeding one year, at the discretion of the court in which such conviction is had.

SEC. 2. If any person shall induce or hire, or offer to induce or hire, any inhabitant of this State to enlist in military service in any other State, or to leave this State for the purpose of enlisting in any other State, he shall, on conviction, be punished by a fine of not less than five hundred dollars, or more than two thousand dollars, one half of which shall go to the use of the prosecution.

SEC. 3. This act shall take effect on its passage.

Approved July 16, 1864.

AN ACT taxing Savings Banks.

Be it enacted, &c. SECTION 1. It shall be the duty of Treasurers of Savings Banks, and of the Treasurers or persons having charge of the funds of Loan Fund Associations, in this State, on or before the third day of April in each year, to make out notices in writing, and furnish the same to the assessors of the several towns or cities in which any of their several depositors are known by them to reside, stating the names of such depositors, and the sum deposited by each of them, said notices to be forwarded by mail, post paid to said assessors.

SEC. 2. Any Treasurer of such Bank, or person having charge of the funds of such association, who shall neglect or refuse to comply with the provisions of this act shall forfeit the sum of fifty dollars for each offence, to be recovered by indictment for the use of the town or city in which the depositor whose name is not so returned, may reside.

SEC. 3. All persons having deposits in said Banks or associations on the first day of April in each year, whose names are not returned by said Treasurer or person, as provided by this act, shall be deemed residents of the town or city in which said Bank or association is located, and shall be taxed accordingly; and all persons not residents in this State so having deposits on said first day of April, shall be liable to the same tax as citizens of the town or city where said Bank or Association is located, and it shall be the duty of said Treasurer or person to assess said deposit at the same rate of taxation as citizens of said town or city are assessed, and to pay to the Treasurer of the State, on the first day of August in each year, the amount of tax so assessed, for the use of the State.

SEC. 4. Said Treasurer or person may deduct the sum so paid to the Treasurer of State, from the deposit due from said Bank to the depositor on whose account such payment is made.

SEC. 5. If a wrong return is made, the assessors of the town or city to which such return is made, shall immediately notify the officer from whom such return issued, that no such person as named in such return, is a resident of such town or city, and the said officer shall forthwith return to the assessors of the town or city in which such Bank or Association is located, the name of such depositor, and the amount of his or her deposit, and said amount shall be assessed in said town or city in the same manner as the property of its citizens is assessed thereby, and the tax so assessed shall be paid into the treasury of the said town or city. The Treasurers of Savings Banks shall not return deposits of persons known to reside in this State, when not exceeding one hundred dollars.

Approved, July 16, 1864.

AN ACT to provide for the funding of the State debt.

Be it enacted, &c. SECTION 1. For the purpose of funding the present floating debt of the State and for meeting the war expenses of the Government not otherwise provided for, the Treasurer of this State is hereby authorized, under the direction of the Governor, with the advice and consent of the Council, to issue bonds or certificates of debt in the name and on behalf of this State, to an amount not exceeding three millions and five hundred thousand dollars. Said bonds shall bear interest not exceeding six per cent. per annum, payable semi-annually on the first days of July and January in each year, and shall be issued at such times and in such sums of such amount as may be fixed by the Governor with the advice and consent of the Council. All such bonds shall have interest warrants or coupons attached thereto, signed by the Treasurer, and said bonds and coupons shall be made payable at some Bank, in Boston, or at some Bank in the city of New York. Said bonds or certificates of debt shall be redeemable in not less than thirty or more than forty years from the first day of July, in the year of our Lord one thousand eight hundred and sixty-four, and not more than one million dollars of the same shall be redeemable in any one year.

SEC. 2. All said bonds shall be countersigned by the Governor, and shall be deemed a pledge of the faith and credit of the State. The Secretary of State shall keep a record of all the bonds countersigned by the Governor, in which record shall be set down the number and amount of each bond so countersigned, the time of such countersigning, the time when such bond is payable, and the date of delivery thereof to the Treasurer. The Treasurer shall keep a record of all the bonds disposed of by him, which record shall contain the name of the person to whom such bond may be sold, the number thereof, the amount received by him therefor, the date of such sale and the time for the payment of the bond. The Treasurer may from time to time, under direction in writing of the Governor and Council, sell such amount of said bonds or certificates of debt as the public exigencies may require, and for that purpose shall advertise for proposals for such amount as may at that time be required: *Provided*, that no sale shall be made at less than the par value of such bonds or certificates of indebtedness, and provided further, that no pledge, loan or hypothecation of such bonds or certificates of indebtedness shall be of any validity whatever.

SEC. 3. There shall during the present year, and annually, hereafter, be set apart from the railroad tax, as received by the Treasurer, the sum of fifty thousand dollars; and the Treasurer shall, under the direction of the Governor, with the advice and consent of the Council, invest the same in good interest-bearing securities, and the whole sum so received, with the interest annually accruing therefrom, shall constitute a sinking fund for the future purchase or final redemption of the bonds or scrip issued in accordance with this act, and if the said sum of fifty thousand dollars shall not be annually realized by the State from the tax on non-resident stockholders in said railroads, then the deficiency under said sum of fifty thousand dollars shall be raised by taxation, and appropriated to said sinking fund; and any sum or sums of money which may hereafter be received from the general government on account of the claims which this State has upon it for expenses incurred in support of the present war, shall also be applied to said sinking fund as above provided, and the faith of the State is hereby pledged to the setting apart, and application from time to time, of the sinking fund so derived from said railroad tax, other tax, and from the amount received from the general government for the redemption of said bonds or certificates of indebtedness, as they shall become due; or for their purchase in whole or in part prior to the time when they shall so become due, if in the opinion of the Treasurer, under the advice and consent in writing of the Governor and Council, such purchase may be expedient.

SEC. 4. This act shall be in force from and after its passage.

Approved, July 16, 1864.

Morning Chronicle.

A MYSTERY EXPLAINED.—The Atlanta Intelligencer publishes the following among its collected items:

It is a well-known fact that the reason assigned by many for the panic which caused our troops to break at the battle of Mission Ridge was that the enemy showed themselves in such overwhelming numbers that the boys thought the whole world was marching to attack them. We, to show the opinion prevailing among our boys, will relate the following anecdote, which we do not remember to have seen in print.

"As line after line and mass after mass of Yankees appeared, crossing the plain and ascending the hill-side, marching onward with seemingly resistless force, our troops began to waver, and many of them, to their shame, fled without firing a gun.—Some of them, however, stayed until the last, and among these was one fellow, who, to use his own language, 'stayed thar till they got so close that he heard one of the Yankee generals give the command: "Attention, World! By Nations, right wheel!! By States, Fire!!!" And then I thought it was time for this darned little Southern Confederacy to be gittin' out o' the way!' Don't blame him for it: it was about time to 'git out o' the way.'"

Semmes's memorandum book of captures has been found in a lot of other debris from the wreck of the Alabama, and it appears by this record, which is very detailed, and no doubt exact, that he has destroyed in all sixty-five Federal vessels, instead of sixty-two, as was supposed. The war steamer Hatteras is of course included in this list. The largest number of the captures were whaling vessels, and the total value was twenty-five millions of francs. This memorandum will no doubt soon be published, and contains all the information which the owners of the lost vessels may desire.—*Corres. N. Y. Commercial.*

— There are 1000 Jews in Melbourne, Australia, and a handsome synagogue has just been erected there.

— A servant girl living with a family in South Brooklyn attempted to beat a son of her employer, a smart boy of eleven years, and finding that she was likely to get the worst of it, she caught up a dish of hot water and threw it in his face, whereby he was scalded in a shocking manner. The girl then put on her bonnet and shawl, and ran off, and has not since been heard from.

GOLDEN SHEAF WHISKEY.

C. A. RICHARDS,
99 WASHINGTON STREET,
Boston.

Would most respectfully invite the attention and examination of all Grocers, Druggists, Gentlemen and Private Individuals desiring to sell or USE STRICTLY PURE

Liquors, Wines, Cordials or Bitters,

to the list of choice goods enumerated below, which are constantly on hand in large quantities in his Large and Spacious

Wine Store and Bottling Establishment,
99 Washington street, Boston.

First on the list, as a reliable pure stimulant, stands the celebrated and widely-known

Golden Sheaf Bourbon Whiskey,

made from Wheat, Rye and Corn, warranted for five years old. Put up in the neat style, each bottle in a paper box. In cases of one dozen each, the large and increasing sales of which convince the proprietor that no calculated advertisement is needed to extol its real merits. It will recommend itself on trial.

Golden Sheaf Cordial.

A delicious and healthful tonic, aromatic, with a rich ginger cordial, made from the pure Golden Sheaf Bourbon.

Golden Sheaf Bitters.

The best Tonic Bitter now offered to the public. Mingled with the rich flavor of the Bourbon are a number of other ingredients for restoring the appetite and imparting life and vigor to the whole system.

Golden Sheaf Punch.

Made from fresh, ripe lemons, and other articles, combined as a ready mixed Bourbon Whiskey Punch.

All the above put up full strength of the whiskey, and in cases of one dozen each. These articles improve by age, and no exposure of climate can affect them.

JOHN AND ROBERT DUNSTER'S

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract o
VALUABLE MEDICINAL
ROOTS AND HERBS,

Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y.,
formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots,
under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate disease, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opponents, we have been lean as ever contended for by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that disease can only be eradicated by a slow, intemperate process of Nature." This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down comes one side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP.

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paralysis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stomach, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Struma, Glandular Swellings, Ulcerations, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

(Arthritis), Neuralgia, Gout, Lumbago, Sciatica, The Dolorous.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and in kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced. Cases, chronic or vicarious, of 10 or 20 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Spinal Nervous, St. Vitus' Dance, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pimples, Blotches, Eruptions, Consumption, and all the direful complaints caused by departing from the path of nature.

This medicine is a simple vegetable extract and can be taken by the most delicate, it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain a world over the most skilful physicians.

To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

For full pamphlet, containing testimonials, to drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

Prices, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CURES FROM ONE TO THREE DAYS

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Gravel, Dropsy, Gleet, Gonorrhœa, and is especially recommended in these cases of Fluor Albus (or Whites in females) where all the old nauseous nostrums have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is a direct and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an aly or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and demulcent*; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*

By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full pamphlet.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

DR. WRIGHT'S
REJUVENATING ELIXIR,
OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine has been found the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.
A few doses cure Hysterics in females.
One bottle cures Palpitation of the Heart.
A few doses restore the organs of generation.
From one to three bottles restore the manliness and full vigor of youth.
A few doses restore the appetite.
Three bottles cure the worst case of Impotency.
A few doses cure the low spirited.
Per from weakness in any form.
A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness in any form, will find speedy and immediate and permanent relief by the use of this Elixir or Essence of Life.

Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

SUGAR-COATED.
FEMALE REGULATOR.
Health Preserver!!
CERTAIN AND SAFE.

For the Removal of Obstructions, and the Insurance of Regularity in the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that springs from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period, *except during the first three months*, during which the enfeebling nature of their action would infallibly *prevent* pregnancy.

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin water reservoir in the same, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodeling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air sufficient to warm a house as soon as the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have been total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Shaw, and others.

THE HANDFUL O' EARTH.

It's sailing I am at the dawn of the day,
To my brother that's over the sea;
But it's little I'll carry for my life anywhere,
For it's breaking my heart will be.
But a treasure I take for auld Ireland's sake,
That I'll prize all belonging aboye,
It's a handful o' earth from the land o' my birth,
From the heart of the land that I love.

And won't the poor lad in his exile be glad,
When he sees the brave present I bring?
And won't there be flowers from this treasure of ours
In the warmth of the beautiful spring?
Och, Erin Machree!, tho' it's parting we be,
It's a blessing I leave on your shore,
And your mountains and streams I will see in my dreams
Till I cross to my country once more.

A HEROINE OF THE LAST CENTURY.—Among the recent notices of deaths, we notice the decease in Troy N. Y., July 12, of Mrs. Ethelinda Seldon, aged 94. She was very highly respected as a woman of courageous and self-reliant character. Among other singular traits of character recorded of her, it is related that in the great fire which took place at Lansingburg in 1796, the practical courage of Mrs. Sheldon was remarkable exhibited. Warehouses in danger of conflagration were emptied of their contents into the middle of the street, and from one of them were thrown out several kegs of powder upon a quantity of shavings in the immediate vicinity of the fire. A man, on the top of one of the houses, called out to the people to acquaint them with the danger, and shouted to them to remove the cause of it. All were afraid to go near it. Mrs. Sheldon, a young woman of only twenty-two years of age, seeing the prospect of an immediate explosion, ran out from her own house and took the kegs one by one in her own hands and threw them into a well, while no one could be persuaded, by any urgency, to assist her. One of her sons was born with a turned foot—with extraordinary patience she held his foot straight night and day, for a long period, afterward designing a shoe to aid her, the result being a complete cure. The same son, when a child, broke a collar bone, and she asserted that the surgeon had set it so that the fractured parts overlapped. She waited a fortnight to be sure she was right, and then with a slight blow broke the bone, reset it, and in this instance she was perfectly successful.

A WOMAN JEALOUS OF A WOMAN.—A curious trial is coming off at the Lincoln assizes. A married woman of the name of Martha Howell had fallen, it appears, so desperately in love with a young woman of the name of Johnson, living at Gainsborough, that after various fits of wild jealousy and violence, caused by Miss Johnson's preference for other companions, she loaded a pistol and gave her her choice between returning to her old friendship or dying on the spot, after which Martha Howell intended to destroy herself. She put too much powder in the pistol, which jerked it upwards, so that, though the pistol went off, Miss Johnson escaped. Howell is said to be quite composed and clear in her mind, and to have expressed frequently her regret that she did not succeed, and her perfect willingness to be hanged if she had. Women's enthusiasm for each other is often of a vehement, frothy and hysterical kind; but the "your love or your life" sort of passion was, we thought, reserved for another relation.—*London Spectator.*

Army pies are so terribly tough that the soldiers call them leather pies. A poor fellow of Grant's army, whose arm had just been amputated, was being carried past a stand the other day where an old woman was selling pies, when he raised himself in the ambulance and called out, "I say, old lady, are those pies sewed or pegged?"

The pedigree of shoddy is thus given: These are the generations of Pshawdee. Pshawb, who came from Jonbool, begat Pedullah; and Pedullah begat Rheet Aylah; and Rheet Aylah begat Jobbah; and Jobbah begat Holz Ayl; and Holz Ayl begat Kaudphyesh; and Kaudphysh begat Pshawdee.

American and Foreign Patents.
R. H. EDDY.
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that *is now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him for their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. **R. H. EDDY.**

Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the latest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement, Recent Gonorrhœa and Gleet, Orchitis, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married state are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. Parties in or from any place aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, containing hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichot's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 2 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

VERNATELLA.
Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.
VERNATELLA
is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,**
at retail everywhere.
But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of Them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.
☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.
Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dew.

WEDNESDAY, AUGUST 3, 1864.

THE REBELLION.

Gen. Sheridan's movement to the right of the enemy, was countermanded after the repulse on Saturday.

Gen. Grant and President Lincoln were at Fortress Monroe on Sunday. All was quiet on that day. Gen. Burnside was slightly wounded while endeavoring to rally the negro troops on Saturday.

The latest reports from Gen. Grant state that the rebels have refused to receive a flag of truce to get our wounded off the field. Our loss on Saturday is stated at 2500. The lines of the two armies are about the same as before the battle. Picket firing has been constantly kept up since.

The invasion of Pennsylvania seemsto be at an end. The entire force which entered Chambersburg was not over 200. Averill came up with the raiders eight miles south of McConnellsburg and whipped them. The latter retreated rapidly, Averill pursuing. Gen. Couch is reconnoitering the western part of the State, with a view of erecting defenses for covering the border counties on the Maryland line. Active measures are being inaugurated in the eastern part of the State by Cadwallader.

The Vigilance Committee at Harrisburg have requested that Gen. Couch be removed, and Gen. Cadwallader appointed in his place. It is reported that Gens. Averill and Kelley met the enemy about six miles from Cumberland, and defeated them.

Accounts from Chattanooga state that on the 29th the rebels attacked Sherman seven times. The rebel loss in killed was over 2000. We captured over 2000 prisoners, 18 stands of colors, and over 5000 stands of arms. The total loss of the enemy that day cannot fall short of from 10,000 to 12,000. Our total loss was 3500 men and 10 guns. This is the fight in which Hood claimed a victory. On the 20th the enemy lost 6000 men and a stand of colors. The battle of the 28th was as complete a defeat of the rebels as that of the 22d. 642 rebel dead were buried by our troops after the battle. Gen. Thomas has issued a congratulatory order to the Army on the brilliant success they have won in these battles. The N. Y. Herald's dispatch states that Gen. Hooker has passed through Nashville en route for duty elsewhere. Gen. Rousseau succeeds him in command of the 20th corps.

It is said that the railroad leading from Atlanta to Macon, the last one left the rebels, has been cut.

Adm. Farragut has off Mobile nineteen vessels, carrying 201 guns.

☞ There was great rejoicing among the copperhead fraternity on Tuesday, over Gen. Grant's repulse at Petersburg; and some of the most eminent were drawn out of their holes, hissing forth their congratulations, while their beautiful countenances were wreathed in smiles. Loyal men, on the contrary, were grieved and disappointed, though not discouraged. They are more awake than ever to the formidable and bitter character of the rebellion; and should be thoroughly in earnest, all over the country, to put it down by all proper means, civil and military—in the elections and in the field.

PHRENOLOGICAL JOURNAL.—This valuable periodical, recently enlarged and improved, is a very interesting monthly, and especially so to readers interested in phrenology, physiognomy, physiology, and kindred sciences. It also contains many other articles of prose and poetry, fact and fancy, of interest to the general reader. Terms, $2 a year.

— Portland is in tribulation over the want of water. Even the city reservoirs are nearly empty, and being walled with stone the water will only remain in them as high as it is in the ground. Were one to be pumped full in the morning it would be empty in the afternoon.

— A Canadian journal reports that several droves of horses, purchased in Western Canada on Confederate account, have passed down on the royal mail steamers for the past few days, destined for Quebec, where, it is understood, they will be shipped for a Mexican port, and thence passed overland into the Confederacy.

— The November election in New York will be, besides the Presidential election, for a Governor, Lieutenant Governor, Canal Commissioner and State Prison Inspector, thirty-one Congressmen, one hundred and twenty-eight members of the State Legislature, and county and local officers are to be chosen.

— The rebel agents who lately presumed to talk of peace at Niagara are all heavy defaulters to our government. Sanders is behind about $30,000 as Navy Agent under Buchanan at New York. Tucker defrauded the Government out of about $80,000 through the Liverpool Consulate, given him by Buchanan; and Thompson, as Buchanan's Secretary of the Interior, engineered the great Indian bond fraud of $800,000.

NEW HAMPSHIRE ITEMS.

—— The quota of Manchester under the recent call is 420, and she has 150 men to her credit, leaving 270 to be raised.

—— Dr. W. W. Wilkins, Surgeon of the 10th N. H. V., returned home last week, having resigned his position on account of his health.

—— The telegraph line to Mount Washington has been completed, and the first dispatch from the summit was sent over the wires on Saturday afternoon.

—— Counterfeit treasury notes of $50 denomination are in circulation in Concord. The cashier of the State Capital Bank detected one in a package of money on Saturday. The counterfeit is a very good *fac simile* of the genuine notes, and can be detected only by the inferior character of the work, it being coarser, and the line, "American Bank Note Company" more indistinct than in the genuine.

☞ The New York correspondent of the Boston Post refers as follows to a proposed action on the part of a New York publisher, which may be strictly legal, but which does not seem to be just the right sort of thing to those who are less anxious to know how near one can come to an infringement of the laws without actually violating them.

A sensation of no common order is impending over the book trade, and I suppose I violate no confidence in ventilating in advance what little I know about the coming event whose shadow is already cast before it. An enterprising and progressive book-seller has discovered that the copyright privileges and immunities of Irving's "Sketch-Book," "Knickerbocker," "Bracebridge Hall," "Conquest of Granada," "Alhambra" and "Tales of a Traveller," have expired by lapse of time, and that therefore, the monopoly in that portion of the Irving literature has come to an end. The United States Copyright law of 1831 gives to an author the exclusive right of publishing for 28 years, and a right of renewal to himself, his wife or children, for 14 years more, making 42 years in all. Under this law, four of the books named are really outside the pale of our Copyright law; the other two are, perhaps, open to question on that point. The publisher to whom reference has been made purposes to reprint the original edition of these works from the copies bearing Lea & Blanchard's imprimatur. Irving's contract with this celebrated Philadelphia firm terminated in 1844, and for five years thereafter, no other publishers dared to undertake a new issue of Irving's works, when George P. Putnam took upon himself the labor con amore of introducing anew and in beautiful modern garb, our greatest prose writer to the people of his native land. How well Mr. Putnam has performed his work let millions of readers attest. It is certainly to be hoped that the somewhat adventurous privateer who now intends to do a little freebooting with Irving's name on his vessel, will succeed in pleasing the public as perfectly as Mr. Putnam has done.

☞ BUCKLEYS' splendid new Minstrel Hall, on Summer street, Boston, was lighted for the first time on Saturday evening, and opened to the public on Monday. On Saturday the audience was an invited one; and a large company of the friends of the proprietors were present and much interested in the improvements which have been made, and which render it one of the most beautiful as well as comfortable exhibition halls in the country. A collation was served, and the visitors were favored with some rare vocal and instrumental music to show the improved acoustic qualities of the hall. Our thanks to D. G. Waldron, Esq. for the compliment of an invite, which other engagements prevented our accepting. The Buckleys can't be beat in their line—nor Waldron either.

THE REPULSE.—There has again been terrific slaughter ending in a repulse. The galling fire of the enemy rendered all attempts to avail ourselves of a temporary success completely ineffectual. Charge upon charge was made in the most gallant and heroic style; one division even carried a second line beyond the fort, resting and holding the ground with the utmost determination, on account states, but volleys of canister and musketry drove them back. The negro soldiers suffered dreadfully and it is not surprising that they became demoralized. Their officers were nearly all swept away; and the men left to themselves became panic stricken and fled to the rear. The officers, judging from the large losses, behaved as fearlessly as ever, paying with capture or their lives the penalty of their devotion. Thus another chapter is added to the eventful history of the Army of the Potomac. What other scenes of carnage, suffering, disease or disaster has it yet to encounter? The country shudders at the record; but it has faith in its indomitable valor. Repulse only lends the men fresh courage and will inspire its officers to greater efforts. The end they strive for they will accomplish, and the result they are destined to achieve will be a glorious one if it restores the old Union, the old Constitution and the supremacy of the old flag.—*Boston Post.*

☞ Those who do not feel satisfied with the result of Saturday's operations before Petersburg, should bear in mind that at Vicksburg, in July, 1863, one rebel fort was blown up, and the enemy's works were assaulted, but line after line of strong defences were found, and would have had to be reduced in succession if the city had not surrendered. But an interval of nine days elapsed between the explosion of the mine on the 25th of June and the capitulation of Vicksburg.

— Gen. Sherman's father died in Washington last week.

— Col. Mulligan's last words were, "Lay me down, boys, and save the flag."

— Some of the large dealers who have contracts are paying more for milk in the country than they receive for it in Boston.

— Lieut. Grant, a nephew of Gen. Grant, was killed in Saturday's assault on Petersburg.

— Telegraph companies are to be taxed on their gross business, instead of upon each despatch transmitted.

— Richmond papers state that Vance has been re-elected Governor of North Carolina.

— Ex-President James Buchanan is a member of a company of 100 days' men in Lancaster, Pa.

— New wheat is selling in Michigan at $2 a bushel. The cry of short crops in that State is raised by interested parties.

— Iowa will market an immense amount of grain the present season. The yield of corn is 25 per cent. heavier than last year.

— Want of water in the reservoirs at the late fire in Springfield, caused a loss of $100,000.

— The installation of Bishop Spaulding, the new Roman Catholic Archbishop of Baltimore, took place at the Cathedral on Sunday with imposing ceremonies.

— The Herald of Progress, a widely circulated Spiritualist newspaper, has been forced to succumb to the high price of paper and is dead.

— The Atlanta Intelligencer speaks of "Butler, the Beast—Grant, the Butcher—Sherman, the Brute, — heaven-defying, monstrous specimens of humanity."

— The Liverpool fire-police have been supplied with felt helmets instead of the hats usually worn by this branch of the service.

— The Commissioner of Internal Revenue has decided that all articles of job printing not included under the list of bill heads, cards or circulars, are exempt from tax.

— A soda water apparatus in A Philadelphia drug store lately became unmanageable while the gas was rapidly generating, and a terrific explosion was the result, scattering and destroying the contents of the cellar.

— A stranger entering a Methodist prayer-meeting made some remarks, in the course of which he said: "If you don't believe I've got religion, go and ask my wife—she'll tell you."

— Mr. Stoddard B. Colby, of Vermont has been appointed successor to Mr. Chittenden, Registur of the Treasury Department. Mr. Chittenden's resignation, handed in several months ago, was to take effect July 15.

— The Detroit Tribune says Jacob Thompson, rebel Commissioner at Niagara Falls, in company with Clay and Holcombe, crossed the Detroit river at Gross Isle several days ago, and is now somewhere in the Western States.

— The oil wells of Pennsylvania are producing greater excitement than ever, several new wells having been struck recently, some of which are producing sixty barrels per day. Farms have been sold within a few days as high as $60,000.

"THEY'RE DEAR FISH TO ME."

The farmer's wife sat at the door,
A pleasant sight to see,
And blithesome were the woe, wee lairns
That played around her knee.

When, bending 'neath her heavy creel,
A poor fishwife came by,
And, turning from the toilsome road,
Unto the door drew nigh.

She laid her burden on the green,
And spread its scaly store
With trembling hands, and pleading words
She told them o'er and o'er.

But lightly laughed the young guidwife,
"We're no sae scarce o' cheer;
Tak' up your creel, and gang your ways—
I'll buy nae fish so dear."

Bending beneath her load again,
A weary sight to see,
Right sorely sighed the poor fishwife:
"They're dear fish to me!

Our boat was out sae fearfu' night,
And when the storm blew o'er
My husband and my three brave sons
Lay corpses on the shore.

I've been a wife for thirty years,
A childless widow three;
I maun buy them now, to sell again—
They're dear fish to me!"

The farmer's wife turned to the door—
What was't upon her cheek?
What was the feeling in her breast
That then she scarce could speak?

She thought upon her sin guidman,
Her lithesome laddies three;
The woman's words had pierced her heart—
"They're dear fish to me!"

"Come back," she cried, with quivering voice,
And pity's gathering tear;
"Come in, come in my poor woman,
Ye're kindly welcome here.

I kentna o' your aching heart,
Your suffering lot to drie;
I'll ne'er forget your sad, sad words:
'They're dear fish to me!'"

Ay, let the happy-hearted learn
To pause ere they deny
The need of honest toil, and think
How much their gold may buy—

How much of manhood's wasted strength,
Wife woman's misery—
What breaking hearts might swell the cry:
"They're dear fish to me!"

Brockelsper's Patent

Self-Acting Gas Regulator.

SOMETHING ENTIRELY NEW.

Patented 1864.

A brilliant and equal Light at a saving of 30 per cent. over any Gas Burner now in use.

This is not a Regulator to go on the Meter, but underevery burner in use.

Economy is the use of gas, with the advantage of having a more brilliant light than heretofore, is a point at once desirable. Inventors have for many years sought to attain this end by packing or checking in innumerable ways the flow of gas through the burner tips.

Not one of these has attained the result wished for, namely, "a pure, transparent flame, without waste at any and all pressures, obtained at any hour and in all localities."

The above results are fully obtained in

Brockelsper's Patent Gas Regulator.

We invite the most incredulous to examine and test in the most thorough manner.

RETAIL PRICE, EIGHTY CENTS.

A liberal discount made to Churches, Factories, Hotels, &c. The Regulators will be put on, and if they do not prove satisfactory may be returned. CHARLES T. EMERY,

COLLECTOR'S NOTICE.

The Undersigned, Collector for the First Collection District in the State of New Hampshire, hereby gives notice to all persons concerned in

THE COUNTY OF ROCKINGHAM,

that he has received for collection the THIRD ANNUAL COLLECTION LIST which said District, made and committed to him by the Assessor thereof, in accordance with the Act of Congress entitled "An Act to provide internal revenue to support the Government, and to pay interest on the public debt," approved July 1, 1862, and the amendment thereto approved March 3, 1863; that the several duties, taxes and licenses assessed, enumerated and contained in said Third Annual Collection List have become due and payable; and that the undersigned, Collector for said District, personally or by deputy, will attend, for the purpose of collecting and receiving the aforesaid duties, taxes and licenses assessed and payable within said County of Rockingham, at the places within said County, and at the times designated as follows:

AT EXETER, at the Office of said Collector, August 8th, 9th, 10th, 11th, 12th and 13th, 1864, from 9 o'clock A. M. to 12 M., and from 1 to 4 P. M., for the purpose of receiving the amounts assessed and payable within the said town of Exeter, and the towns of Stratham, Kensington, Hampton, North Hampton, Hampton Falls, Seabrook, East Kingston, Kingston, Epping, Brentwood, Fremont, Danville, Chalstow, Atkinson, Newton, South Hampton and South Newmarket.

AT PORTSMOUTH, at the Naval and Surveyor's Office in the Custom House, August 8th, 1864, from 10 1-2 o'clock A. M. to 4 P. M., for the purpose of receiving the amounts assessed and payable within the said city of Portsmouth, and the towns of Rye, Newcastle, Greenland, Newington and Gosport.

AT NEWMARKET, at the Newmarket Bank, August 9th, 1864, from 10 o'clock A. M. to 12 M., and from 2 to 4 P. M., for the purpose of receiving the amounts assessed and payable within the said town of Newmarket, and the towns of South Newmarket, Deerfield, Northwood, Nottingham and Raymond.

AT SALEM, at the Depot, August 10th, 1864, from 9 to 12 A. M., and at DERRY, at the Depot, from 2 to 4 P. M., for the purpose of receiving the amounts assessed and payable within the said towns of Londonderry, Chester, Auburn, Sandown, Hampstead and Windham.

AT RAYMOND, at Prescott's Hotel, August 11th, 1864, from 10 o'clock A. M., to 3 P. M., for the purpose of receiving the amounts assessed and payable within the said town of Raymond, and the towns of Candia, Nottingham, Northwood and Deerfield.

NOTICE is also hereby further given, that all persons who shall neglect to pay the duties, taxes and licenses assessed upon them as aforesaid, to said Collector or his deputy within the times above specified, will be liable, under the provisions of Section 19 of the Act of Congress aforesaid, to pay five per centum additional upon the amount thereof

It is very desirable that persons having taxes to pay should remember the day and hour; as the Collector is positively required by law in all cases of delinquency.

Tax payers will provide themselves with Government Currency, as no other will be received.

"A Wonderful Discovery."

DR. TEBBETS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and glossy, healthy and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

Local.

☞ Lieut. Doebler, 14th U. S. Regular Infantry, will have charge of the office and duties of the Provost Marshal of this District until a successor to Capt. Wiggin is appointed. Capt. Wiggin attended to his duties at the office on Tuesday, although the condition of his health was such as to render it extremely difficult for him to do so. Forty-five men were enlisted on that day after 9 o'clock in the morning,—a good day's work.

☞ Among the old friends who have called at our office within a few days, are Mr. Angevine Hanscom of Lawrence, Kansas, and Mr. John O. Hanscom of San Francisco, Cal; both having been absent about ten years, and each returning to visit their old home, bringing a family of three which they did not carry away with them.

Hon. Frank Fuller, who has been absent in Utah, Nevada and California for several years, has also just arrived here. He is lame from the effects of a stage accident on his ride overland.

☞ The woods burned on Monday belonged to the estate of Jacob S. Pickering, not John S., as printed. The flames caught from a fire built by careless boys to cook at a picnic, as did also recently the premises of Messrs. Davis, at Sagamore. It is utterly inexcusable, at this dry time, for anybody not a madman to start a fire in any exposed position; and reckless boys who do it should be warned and punished by the law, if they can't be prevented.

THE LYNDEBOROUGH ARTILLERY.—The Nashua Telegraph says, at the request of Gov. Gilmore, Capt. Tarbell called a meeting of this company to ascertain if the members would volunteer to do garrison duty at Fort Constitution. The entire company, together with other residents of Lyndeborough and vicinity, volunteered to the number of 150, but before word could be sent to Gen. Head, the Martin Guards of Manchester offered their services, which were accepted. The Lyndeborough boys will come in for the next chance.

THE UNITED STATES *vs.* RYE BEACH. In the great struggle between the United States and Rye Beach, the latter has been compelled to succumb. The hotels and boarding-house keepers, who, a short time ago, demanded gold, and who spoke of greenbacks as "your currency," have found that insolence, combined with repudiation of contracts, does not draw patrons, and we understand that "our currency" is now condescendingly accepted everywhere at Rye. Those who were most active in initiating the gold movement are now most anxious to take paper, even New Hampshire bank bills.

Thus enterprises of great pith and moment,
With this regard their currents turn awry,
And lose the name of action.

Boston Transcript.

A very good hit, except that the word "hotels" should have been left out—the gold movement, so far as we can learn, having been made by boarding-house keepers exclusively. The Transcript does well not to mention "landlords" this time: it was never fair to have done so, we think.

☞ We have already referred to the proposition (if it can be called such) for a new Daily in this city. Its object, it would appear, is not the promotion of the publisher's interests, nor even so limited as the city's welfare, or the State's; but "the salvation of the country." Here is our authority:

Mr. John F. Leverton proposes publishing a daily evening paper in Portsmouth, N. H., as soon as arrangements for it can be completed. He is a bold man to undertake such an enterprise when the cost of everything connected with printing is so high; but we understand he is one of the "unterrified." We wish him ample success. Now or never is the time for every patriotic citizen to use his abilities, his energy and his money for the salvation of his country.—*Boston Courier.*

☞ Capt. John S. Sides, of the Veteran Reserve Corps, formerly of the N. H. 2d Regt. and, who has long been really an "invalid," has resigned his commission on account of feeble health, and is at his home in this city.

☞ We are not very thin-skinned, Brother "Monitor," on the matter of newspaper credits, or any other—else our temper had been spoiled long ago; nor do we give or ask for acknowledgement of every trifling item appropriated; but when a paper is careful *never* to own its frequent indebtedness to our columns, perhaps we may make a note of it, though we believe that was the first time of our ever doing so. As to the Sawyer item, of the two reports from which our young friend condensed its item,—one was our own, and the other was stolen from us by another paper. Are any more stones needed?

☞ Our city was visited with beautiful but moderate showers, on Tuesday evening, the first for—well, we don't know how long, long.

All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them. If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.

A full supply of Linings and Repair Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,
The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three barrels full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

"The world is dark and full of gloom,
No sunshine cheers my lot,
I turn to thee, oh silent tomb!
Thou quiet resting-spot!"

My pleasures here are few indeed,
My hearts a sinking lure,
I pine, I know my spirit's need,
I languish more and more.

I faint beneath the weight of life,
I long to be at rest,
Away from care—away from strife—
Among the truly blest."

"I wish you were mum," Galen cries,
"From late hours, oyster chowders
I'll show you bliss, mum, right in this,
These fifty, simple powders.
Your trouble, mum, I here would say,
Lies in one word—*Dyspepsia*."

"Oh, cold unsympathizing man,
To shout my tender secret!
(Good Galen groans as he has can,
"Good" no long dot our reserves.")

"And thus I spend my tedious hours,"
("Better be at the tub!")
Drawing, alone, sure (birds and flowers"—

"This vulgar grovelling of brain,"
("Grovelling, if you make it so!")
"For stitching, and for food to plan,"
("Fool! why live and such no!")

"How, many, oh, how many days?
("The Lord be thanked! but few!")
"Shall this function of my ways"—
("She faints! here's work to do!")

"Ugh! sch! yeh horrid, mean creature!
You're stifling me almost to death!
Ammonia! oh! ugh! every feature
Is strangling as if for its breath!"

"Hem! hump! she'll live a while longer:
The woman's vitality's in her;
It only needs work to grow stronger—
The simplest of supper and dinner!")

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never failed in curing the afflicted them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment the poison of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Gravel, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending the class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D., devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, Melancholy, and many other evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be cheered, restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charged for board moderate.

Medicines sent to all parts of the country, with full directions for use, and the treatment pursued in your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and 3 stamps.

Highly Important to Females

DR. DOW, Physician and Surgeon, No 7 & 9 Endicott Street, Boston, is consulted daily for all diseases incident to the Female Frame. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief accomplished in the first stage. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted become happy in health and comfort.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, is assuredly more expertin his line than any other.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 9 A. M. to 9 P. M.

CERTAIN CURE

In all cases, or No Charge Made.

Dr. Dow is consulted daily, from 9 A. M. to 9 P. M. as above, upon all kinds of Private Diseases, diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to his office.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott Street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow continues to have for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and 4 red stamps.

SPEER'S

SAMBUCI WINE,

PURE AND FOUR YEARS OLD,

OF CHOICE OPORTO FRUIT,

For Physician's Use, Females, Weakly Persons and Invalids.

AS A DIURETIC it imparts a healthy action to the Glands and Kidneys, and Urinary Organs; very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by physicians and chemists as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains a mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

None genuine unless the signature of "ALFRED SPEER, Passaic, N. J.," is over the cork of each bottle.

Constitution Life Syrup,

COMPOSED OF

IODIDE POTASSIUM,

With the compound concentrated fluid extract of

VALUABLE MEDICINAL

ROOTS AND HERBS,

Prepared by WM. H. GREGG, M. D.,

Graduate College Physicians and Surgeons, N. Y., formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup

HAS PRODUCED

A REVOLUTION IN MEDICINE!

What may seem almost incredible, to Great many diseases hitherto considered hopelessly incurable are speedily cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cures which have so rapidly set the Medical World ajar.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with diseases and constitutions which have been lean as ever encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanence, and think that disease can only be cured by the "slow, conservative process of Nature." This is our reply:

It lays on the body, like a well-balanced scale, it is a state of equilibrium. Give to when into one cause down goes our side of the scale, we have the effects of disease. What is requisite is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP.

A positive and special remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all (hereditary) DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.

It is universally admitted that Constitution Life syrup is the only effective means of restoration to the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Heartburn, Sick Headache, Wind, Want of Appetite, Palpitation, Low Spirits, &c.

Scrofula.

Strume, Glandular Swellings, Ulceration, Tumors, Erysipelas, Salt Rheum.

This taint (hereditary or acquired) filling life with untold misery, is by all usual means and remedies incurable.

Rheumatism.

Arthritic, Neuralgia, Gout, Sciatica, Tic Doloureux.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—swollen and stiffings are reduced. Cases, chronic or vicarious, of 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thought, Epilepsy, Loss of Power, Shaking Nerves, Loss of Vital Energy, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pain in the Back, Diseases of Women, Consumption, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full information, get pamphlets from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatise on Life and Health.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CURES FROM ONE TO THREE DAYS

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, inflammation of the Bladder, Gravel, Stone in the Bladder, Stricture, Gravel, Gout, Generalgia, and is especially recommended in these cases of Fever Albus or Whites, to females, where all the old nostrums medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and discharge*, removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack Injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

THE GREAT

INDIAN MEDICINE,

COMPOUNDED FROM

ROOTS, HERBS AND LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pain in the Head, Confusion of Ideas, Nervousness, Insanity, Consumption, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full information, get pamphlets from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatise on Health and Life.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

DR. WRIGHT'S

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

The medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.

A few doses cure Hysterics in females.

One bottle restores the vigor of the heart.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and full vigor of youth.

A few doses restore the appetite.

Three bottles cure the worst case of impotency.

A few doses cure the low spirited.

One bottle restores a single organ, will aid important organ, or persons suffering from any acute pain in the region of the heart, will be greatly benefited by a dose or two.

Broken Down and Delicate Constitutions, Suffering from Indisposition to Exercise, Pain in the Back, Loss of Memory, Forebodings, Horror of Insanity, Fear of Decline, Dimness of Vision, Dry Hot Skin, Hot Flashes, Wind in the Stomach, Wind in the Bowels, Pale Haggard Countenance and Languor of the Muscular System, all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of **Ulcerative Diseases**, either of the Nose throat, tongue, Spine, Forehead or Scalp, no remedy has ever proved its equal.

ULCERS upon the Spine, Liver, Lungs, depending upon a diseased action of the Liver, are very supposed to the young wife and mother. Six bottles are guaranteed to cure, and prevent the secretion, and remove the deposit which is chronic under the skin.

Ulcerated Sore Throat, giving rise to languor, dizziness, indigestion, weak stomach, or an unclean and unwomanly condition of that organ, accompanied with a feeling of weakness, unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivaled by any preparation in the world.*

Diseases of the Spine, as usually developed in the young, slip disc, curvature, neuralgia, and all Nervous Affections, Ladies who are suffering from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth disease and early death are the results. We have placed within the means are at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES.

It is the most safe and efficacious medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the food—Those who have used it think it indispensable. It should be used both before and after confinement, as it prevents disease attendant upon childbirth.

Health Preserver!!

CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and the Insurance of Regularity in the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They are suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Hearty, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period, *except during the first three months*, during which the nauseating nature of their action would imitate a severe pregnancy.

All letters seeking information or advice will be promptly answered, if properly addressed.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, this Stove cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as none of the air will be connected with the fire-pot as used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed, which is the solution, so common in other furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They are regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

Boston.
After an extensive practice of upwards of twenty years, continuing to secure Patents in the United States; also in Canada, England, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove this. MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their application in form to secure for them as early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have imparted their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now active in all the duties of life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to benefit three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER's skill is unlimited, and the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the well known and celebrated Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unsurpassed, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
Ladies should not venture on certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 9 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No assistants are boys employed. Notice this, address all letters to

VERNATELLA.
Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.
VERNATELLA
Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,**
at retail everywhere.
But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.
☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.
Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dew.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, AUGUST 4, 1864.

THE NATIONAL FAST, kept this day, should be truly a day of humiliation and prayer, for the blessings of permanent peace, rational liberty, and honest prosperity. It is a day of prayer in the time of a dreadful civil war, brought on by a gigantic rebellion, which in its turn was caused by heartless oppression, unhallowed ambition, and insatiable avarice.

Our burdens, caused by it, are grievous to be borne, and there are some men, wise in their own conceit, who advise us to get rid of the burdens by increasing the evils which created them.

A better course, however, is to humble ourselves, forsake the sins that led us into to the snare, and in earnest devotion to-day dedicate our future life to God and humanity, truth and duty.

One present duty seems to be, to "endure hardness, as good soldiers of Jesus Christ," in other words, as Christian citizens and patriotic men.

We expect the soldier in the field to endure hardness, to stand firm when his life is in peril, and when repulsed or defeated to try again.

We expect this of the army of the Potomac just now,—and the following item from a N. Y. correspondent now at the front, intimates that the men there are yet courageous. He states that the blunder is not irreparable, and that one of its worst consequences is the delay which must necessarily precede further active operations. The affair of Saturday has be says, "lost to us the labor of a month's preparation, and, worse than all this has sacrificed thousands of valuable lives. But the result does not dishearten the Army of the Potomac, and it should not depress the people. The soldiers who fought on Saturday have received the baptism of blood on other fields, and know how to bear reverses manfully, as they bear success modestly. They bate not a jot of heart or hope, and they only ask as the lesson to the country from to-day's mishap that their thinned ranks shall be promptly reinforced. The army is still unfaltering in its faith, and will try and try again until the day of decisive victory."

When men in the field feel so,—when soldiers like our young friend Vaughan, having both ventured and suffered, still hold their way onward,—how base and cowardly it is for any of us at home, to be groaning over high prices and taxes, and cultivating misery instead of cheer.

With the prayer let us mingle Thanksgivings for our successes in Georgia, for the destruction of the Anglo-rebel ocean pirate, for the copious and valuable rain, descending on the just and the unjust, and for the disposition of all good and true men to commit their cause in Prayer to the Judge of all the Earth, who will surely do right.

☞ There was quite a severe tornado at the Shoals on Tuesday afternoon, but we do not hear of any damage having been done.

There was a smart thunder shower in Portland on the same afternoon, the rain pouring down freely for an hour. During that time there was a violent tornado, which twisted large limbs from trees, etc. A small house in Cape Elizabeth was blown down, and another, containing a woman and a child, was moved about six feet. Much other damage was done. A British brig in the harbor dragged her anchor and went ashore. Two boats were swamped, but no lives were lost. The wind was quite strong in Wells, Me., also, and much rain fell.

There was a heavy thunder shower, with the much needed rain, on the north side of the Merrimack river on Tuesday. No rain fell in Newburyport. At Haverhill, a man named James Joyce was struck by lightning, and instantly killed. Three others were prostrated.

While the train was standing at the Bradford depot, Tuesday afternoon, the lightning struck the side of the cars, prostrating four men and killing one of them, an employee on the Boston and Maine Railroad.

— In the Municipal Court, Portland, on Tuesday, Henry B. Hussey, the engineer on the construction train that collided with the regular freight train on the Grand Trunk Railway, last week, was arranged for manslaughter. He pleaded not guilty, waived an examination, and furnished sureties in the sum of $2,500, for his appearance at the November term of the Supreme Judicial Court.

— The Newburyport Herald thinks that "Of all the political Generals, Butler is the only one who has been able to head West Point. He has fairly driven Baldy Smith and Gilmore from the Army of the Potomac. Ben is a brick, any way."

— Gen. Bartlett of Massachusetts was taken prisoner at Petersburg, and is uninjured. He is the youngest General in the Union army.

— Gen. Rousseau succeeds Gen. Hooker in the West.

THE REBELLION.

It was currently rumored in Washington on Tuesday that Gen. Hooker had been tendered the highest command in the Army of the Potomac.

The rebel loss in Saturday's assault on Petersburg is estimated at 2000 killed, wounded and prisoners, — much heavier than was supposed. Their treatment of the negro wounded and prisoners is reported to have been barbarous in the extreme. Two who escaped to our lines are said to have previously had their tongues cut out. Our loss is estimated at 3000, of whom 1300 are prisoners. The 31st and 32d Maine were captured almost entire, it is said. The latter is Col. Mark A. Wentworth's regiment, and contains many soldiers from York county.

The rebels, under McCausland and Bradley Johnson, attacked Gen. Kelly at Cumberland, Md., on Monday afternoon, and after a three hours' fight were completely routed, leaving their dead and wounded on the field, together with several cannon and a large amount of plunder they had captured in Pennsylvania. The enemy is in full retreat to Oldtown, with Gen. Kelly close at his heels.

Early, it is said, now holds Martinsburg, and vicinity. Rebels have been committing depredations again at Hagerstown, Md.

Charleston harbor is garrisoned by the 1st S. C. Artillery, 1st S. C. Infantry, 32d Georgia and the 48th Mississippi. In the interior of South Carolina there are no troops, except a few small detachments of various commands acting as provost guard.

1000 exchanged Union prisoners, from Texas, have reached Cairo in a suffering condition, having been treated by the rebels in a most cruel and shameful manner.

A large expedition started up the Mississippi from New Orleans, July 26 The rebels were reported to be advancing on Morganzia.

NEW HAMPSHIRE ITEMS.

—— Mr. W. S. Barrett, of Concord, has been appointed State Auditor.

—— John Ordway of Hampstead, President of the Derry Bank, has resigned, and Hon. John M. Noyes of the Governor's Council has been elected in his place.

—— The term of the medical School connected with Dartmouth College commences Aug. 31. Dr. Lyman B. How, of Manchester, has been appointed Demonstrator of Anatomy.

—— Mr. David C. Page of Hampton left on Monday evening to set his fishing trawl, since which time he has not been heard from. There is no doubt that he was drowned. Mr. Page was a worthy man, and leaves a wife and six children.—P. S. It will be seen by an item elsewhere, that he is safe.

—— A tornado of wind passed over the the east part of Hampton on Tuesday evening, doing considerable damage. The chimneys of the Boar's Head Hotel were blown down, and a number of camping parties on the beach were unhoused without much ceremony. One party from Newburyport lost a considerable amount of clothing.

—— On Saturday last a drive of logs, embracing between eight and nine million feet of lumber, arrived at the waters above the dam at Pawtucket Falls, from the head waters of the Merrimac river. It is owned by Otis Allen, Esq., of Concord, and was started by a large gang of hands on the 22d day of April. The river has been unusually low this season, and consequently the progress of the drive has been greatly retarded. The logs, excepting what were left at Mr. Allen's mill, at Hooksett, found a ready market at Lowell.

— There was a rumor at New Orleans on the 21st ult. that Gen. Banks was to be succeeded by Gen. Gordon Granger.

— In 1851 there were but seven thousand miles of electric telegraph line in existence, and in 1863 there were one hundred and sixty thousand miles.

— Frank Leslie's Illustrated Newspaper, immediately after Sec. Fessenden's appointment, contained what it called his portrait,—when it was an old one of Theodore Frelinghuysen, given by mistake.

— Lieut. Col. Chas. G. Halpine (Miles O'Reilly), recently Adjutant General on Gen. Hunter's staff, has resigned on account of ill health. The Secretary of War has accepted his resignation in a highly complimentary letter.

HAMPTON CORRESPONDENCE, Aug. 3d. *Fire.*—The house and outbuildings belonging to heirs of Nehemiah Sanborn, in Hampton, on the Eastern Railroad, were entirely consumed by fire, Tuesday night. Nothing saved but a small portion of the furniture in the lower story; loss large, partially insured; cause of fire, defect in chimney.

Mr. David C. Page, the missing fisherman, is safe. His boat capsized, and he succeeded in getting on to the bottom, to which he clung until he was taken off by a passing vessel and carried into Boston. He was very much exhausted, having been on the boat between 8 and 9 hours Monday night, drifting about at the mercy of the waves. J. J. L.

SKETCHES OF NEWCASTLE, N. H.

From its earliest Settlement to the present time.

Compiled from various sources. BY T. B. P.

No. 2.

As the settlements in New Hampshire continued to increase, the government of Massachusetts began to assume control over many of the colonies, and to give grants of land lying in this province, wholly out of their jurisdiction. Their conduct at this time was the means of causing great trouble, and disputes often occurred in regard to the titles of granted land. This fact coming to the knowledge of Robert (Tufton) Mason led him to apply to the king for redress. Upon his representation four commissioners were appointed by Charles the Second, and vested with power to examine and determine all matters of dispute between the colonies, and to provide for the welfare and security of them all. These officials were looked upon with distrust by the government of Massachusetts, who viewed their appointment as a violation of their charter; consequently at the time of the arrival of the commissioners in Boston the reception extended to them was not very cordial. They arrived at Portsmouth in June, 1665, and meeting with a more favorable reception, proceeded immediately in the discharge of their duties. The claims of Mason were again examined, but no decision was given concerning them, and the inhabitants of the vicinity were given to understand that they were soon to be released from the government of Massachusetts, but they expressed themselves satisfied with its administration.

In 1666 the commissioners were instructed by the king to have the harbor fortified, but the Governor and Council not liking their proceedings took the responsibility of appointing a committee to make an examination of the harbor, and determine upon the best site for a fort. They visited the island and decided that Fort Point would be the most suitable place, consequently the fortification was ordered to be erected there.

In 1661 a windmill was placed upon this Point by Capt. Pendleton, with permission of the Selectmen of the town, in consideration of its being of public use; but no other buildings were allowed to be erected, as the land was appropriated for the fortification of the harbor.

The commissioners being openly opposed by the government of Massachusetts, made an unfavorable report of their treatment to the king. Col. Nichols, one of these officials, is described as a man of a mild and pleasant disposition, but the others were men who were self-willed and arbitrary.—These individuals having rendered themselves odious to the people, proceedings were instituted against them, and they were recalled by orders of the king, without having accomplished the objects for which they were chosen. After their return Massachusetts continued to exercise the same jurisdiction she had formerly done, which relation she held until 1677, when it was decided, after a full hearing before the lords chief justices of the King's Bench, that Massachusetts had no right whatever to interfere with or control the affairs of this province.

On the 19th of June, 1666, the citizens of this vicinity assembled and voted that "for the better carrying on of the fortifications at Fort Point, all persons over the age of 16 years should work upon the fort one whole week between this date and the last of October following, as notice should be given them, working ten hours per day, and receiving as a compensation three shillings each per diem. Men taken from the companies of militia of Great Island and Kittery were placed under the command of Richard Cutts, Esq., and ordered to garrison the post. They were also ordered to be excused from all other military duty. We have no means of knowing the length of time Cutts remained in command, as no record has ever been made,—but he was doubtless succeeded by Capt. Elias Stileman, who seemed to exert a great influence upon the people. Stileman was a man of piety, and was one of the nine persons who entered into a covenant and composed the first church in this plantation. He was a resident of this town, and was several times appointed to responsible positions. When New Hampshire was formed into a province, free from the jurisdiction of Massachusetts, and permitted to have a President and Council, appointed by the king, he was elected Secretary of the Province. This position he held nearly one year, when Richard Chamberlayne was appointed to fill his position. In 1683 he was dismissed from his command in the fort by order of Governor Cranfield. Being dismissed from the Council a short time prior to this event, it is supposed that some evil influence was brought to bear against him, tending to cause his removal. He was succeeded in command by Walter Barefoote, who the preceding year was deputy collector of customs for this harbor. He was afterwards made a judge in the Council by the Governor.

Soon after the accession of William and Mary to the throne of England their names were applied to this fortification.

To be continued.

— The Drought of 1864 has had no parallel for years. The drought of 1854 was the most marked of any that had previously occurred of late years. Then it occurred late in the season—the month of August being almost without any rain. In that year we had more rain in June than in the same month this year. This season, though dry, is not so dry as that of 1854.

— A telegram announces the death, on the boat from City Point, of Professor Hadley, of Union Theological Seminary. He was acting as agent on the Relief Corps of the Sanitary Commission, and had been at the front since the last of June, showing the greatest energy and efficiency.

— The bad results of a picnic: Mrs. Edward Edwards and her husband, of Mahoning county, Ohio, went to a picnic, quarrelled, and threw stones at each other. One thrown by the husband hit the wife on the forehead and killed her.

— Dates from Nassau are to the 25th ult. Blockade running is not active just now, owing principally to the Wilmington quarantine regulations; but in the meantime the blockade runners are making extensive preparations for the fall business.

— Gen. Canby has consolidated the twenty-five or thirty negro regiments raised by Gen. Banks into ten, and required their officers to pass an examination as to their qualifications for command.

— Another New Jersey editor, of Hackensack, has been arrested for the alleged offense of counselling resistance to the draft in an article published in his paper.

— The Lynchburg Republican says that the greater portion of Gen. Early's captures in Maryland have arrived at a safe place east of the Blue Ridge mountains.

— The Christian Commission has appealed for contributions on the National Fast day.

— Pennsylvania on Tuesday voted to allow the soldiers to vote.

— Gen. Burnside was not wounded on Saturday as reported.

Brocksieper's Patent
Self-Acting Gas Regulator.
SOMETHING ENTIRELY NEW.
Patented 1864.
A brilliant and equal Light at a saving of 80 per cent over any Gas Burner now in use.
This is not a Regulator to go on the Meter, but under every Burner in use.
Economy in the use of Gas, with the advantage of having a more brilliant light than heretofore, is a point at once desirable. Inventors have for many years sought to attain this result by packing or checking in innumerable ways the flow of gas through the burner tips.
Not one of these has attained the result wished for, namely, "a pure, transparent flame, without waste at any and all pressures, obtained at any hour and in all localities."
The above results are fully obtained in
Brocksieper's Patent Gas Regulator.
We invite the most incredulous to examine and test in the most thorough manner.
RETAIL PRICE, EIGHTY CENTS.
A liberal discount made to Churches, Factories, Hotels, &c. The Regulator will be put on, and if they do not prove satisfactory may be returned. CHARLES T. EMERY,

"A Wonderful Discovery."

DR TEBBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy, and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HAIR" in New England can be restored in less than sixty days.

NO DAILY CHRONICLE on Friday.

FAST DAY SERVICES.—The National Fast will be observed to day on the part of the Society worshipping in the Court Street Christian Church by a prayer and conference meeting, to commence at 9 A.M., holding one hour. All of every denomination are cordially invited to be present and unite with them in seeking God's blessing upon our smitten country and our brave armies now in the field.

THE BLESSED MUSICAL RAIN.—The most joyfully-greeted showers on Tuesday evening, were but the *avant courier* of a steady rain,—a real old-fashioned storm, of which the memory lingered dimly in the mind through the protracted drought. Never was rain more welcome than it was yesterday; and fain were we to write jubilantly regarding it. But the following, which we find in a New York paper, is almost as good as anything we could get up, and we therefore appropriate it:

It came early yesterday morning.—the longed for, prayed-for Rain. Just at daylight it began slowly trickling down, gradually increasing in violence until it poured in torrents. Every drop was of priceless value—its weight in gold is no fit comparison; and like all the blessings of Heaven, it was abundant and for all men. Until nearly noon the showers continued at intervals, finally ceasing about that time. The wind was from the East and quite strong, so that the rain was driven into the foliage of trees and grain, until bolls and stalks were thoroughly drenched. We have heard grand natural and artificial music in our day, at Niagara's awful front and in "cathedrals dim and old," but the music of the "Rain upon the Roof" yesterday morning, the patter of drops—wind swept against the panes, was the most welcome music of all. And if so welcome in the city, how it must have lifted up with thanksgiving the entire heart of the parched and seemingly blighted country, where crops were on the extremest verge of ruin—where a week, perhaps a day, longer of pitiless sunshine, would have produced nearly a famine? But "the dark hour before dawn" has passed; the glorious showers of yesterday have saved the perishing crops; the prayers of the people have been answered; for hath He not said;

"And it shall come to pas, if ye shall hearken diligently unto my commandments which I command you this day, to love the Lord your God, and to serve him with all your soul, that I will give you the rain of your land in His due season, the first rain and the latter, that thou mayest gather in thy corn, thy wine, and thine oil; and I will send grass in thy fields for thy cattle, that thou mayest eat and be full."

☞ Pleasure travel in this vicinity did not begin so early in the season, as last year; but multitudes are now visiting the Shoals, Rye and Hampton Beaches, &c., and all goes gay and festively as ever. Chancing to be at the C. & P. Depot, the other morning, when the Concord train arrived, we heard numerous enquiries for hacks to the Shoals boats; but all carriages were already full, from the Eastern train.

Happening at Rye, about dinner time, a few days ago, we improved the opportunity to dine at the Surf House; and rarely have we seen a more beautifully spread table, or sat at a more bountiful one, than that laid by Messrs. Jenness. Not only were the viands excellent, but the floral decorations were really artistic, and it seemed a pity to despoil them.

The old Atlantic House, under pioneer Philbrick, also still stands firm—"as good as gold;" and in its combination of marine and rural attractions, is not often rivalled, anywhere. Mr. Lougee, the patrons of the house are fortunate still to have to serve them, as clerk.

☞ We know of no spot more beautiful than the former site of the old Piscataqua Bridge, at the head of our river—with its picturesque scenery of land and water—and bright, clean, sparkling, rushing, health-giving *salt* water, too; and the islands, bays and rivers in view. What a charming place for a pic-nic, or indeed for a summer residence.

And as we were praising it, recently, on returning from a sunset drive there—one of the veterans quite excited our regrets for the old times condition of things, by telling us that thirty years ago or so, the big hotel lately on the Island, and another very large boarding-house there, were thronged with summer boarders; and the scene was gay and lively, where all is now so quiet. This was before Rye or Hampton Beaches were in such high and general esteem, as watering places, as of late years. The natural facilities of the place are certainly fine; and with a bridge there, (especially if for that Dov. R. R.) and a steamboat plying the river, a great hotel business might be revived.

☞ The abundant rain of Wednesday revives the hope of the Corn crop, and tends to increase the chance for late potatoes. It also comes at the very nick of time to provide fall feed in the pastures, without which our great hay crop must have been consumed prematurely. Its importance and value can hardly be over-estimated.

☞ In the lists of the wounded in the assault at Petersburg on Saturday, we find the following: Irving W. Rand, Co. B, 6th N. H. regiment, in head.

☞ The wharf and shipping accommodations of the Concord & Portsmouth Railroad in this city, are excellent; but they were pretty well tested a few days ago, when no less than eleven vessels were lying there at one time, waiting to discharge their cargoes of coal, lumber, lime, cement, sand, &c.—With the full revival of the factory business in Manchester and elsewhere, the present freight accommodations of the road would be altogether insufficient for their immense business.—And by the way, what other reason can be given for the lack of more West India and general importing business for our home and interior trade, except want of enterprise?

A GOLDEN ITEM.—We are indebted to our old friend Stillman B. Allen, Esq., of Boston, for a superb pamphlet, being a "Statement of the Suffolk Gold Mining Company, of Gregory District, Gilpin County, Colorado." The book is printed on very heavy, tinted (golden-tinted, of course) paper; and ornamented with several illustrations of the mining district; and besides its special value to those who invest in mining companies, is of interest to the general reader. Mr. Allen is President of the company, which the mommercial Bulletin says has the best prospects.

— Sec. Fessenden was at the Revere House, Boston, on Wednesday.

— The last number of the Peterburg Register has but one merchant's advertisement, and he desires to sell out.

— A yacht is building in New York, which is to be propelled by pumping water from a pipe on each side against the air!

— Cotton sells in New Orleans at $1.65 per pound—higher than it is in Boston, which has not been before within the memory of this generation.

— The regiment blown up by Gen. Grant's mine in front of Petersburg was the First N. C. regiment; it numbered only 250 men, having been badly cut up in previous service.

— The 17th Vermont, which entered the service on the 1st of May last, now numbers only sixty men for duty. It has been in all of the battles from the Wilderness to the last assault upon the enemy's works at Petersburg, where it lost heavily.

— The New York and New Haven Railroad Company lately received a new engine, which was built in Patterson, for which they are to pay $14,000, according to contract. The builders offered to keep it, and pay the company $30,000.

— The German Catholic Church at Joliet, Illinois, was struck by lightning on Sunday last. The building was filled with worshippers. Five of them were killed and fourteen were seriously injured. Three of the latter have died.

BUSINESS NOTICES.

☞ We are pleased to notice the success which attends the performances of Browne & Pike's Dramatic Company, now performing at the Temple. The Company is decidedly the best we have had for years: the scenery and appointments are excellent. This evening (Thanksgiving) the popular play of Rosina Meadows and a laughable farce constitute the entertainment.

☞ Wives, Mothers, and Sisters, whose Husbands, Sons, and Brothers are serving in the Army, cannot put into their knapsacks a more necessary or valuable gift than a few boxes of Holloway's Pills and Ointment. They insure health even under the exposures of a soldier's life.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 224

All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them. If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.

A full supply of Linings and Repair Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.

We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to

THE MODEL COOK.

IT IS, IN FACT,
The Best Stove Out,

for economy, convenience and dispatch.

Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.

One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.

A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.

These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

LAWS OF NEW-HAMPSHIRE.

Passed June Session, 1864.

AN ACT authorizing cities and towns to aid the families of persons in the service of the United States in the army or navy.

Be it enacted by the Senate and House of Representatives in General Court convened:

SECTION 1. That every city and town shall raise money by taxation or otherwise, and if necessary, apply the same under the direction of the Mayor and Aldermen of such city, or a committee by them appointed for that purpose, or of the Selectmen of such town, or a committee chosen at any meeting duly held for that purpose, for the aid of wife, children and adopted children under sixteen years of age, and parents who reside in such city or town, and are actually dependent upon any volunteer, drafted man or substitute for a drafted man, who has been or may hereafter be mustered into the service of the United States, as one of the quota of this State.

Provided such persons are indigent and unable to support themselves, and stand in need of relief, and the same is imperatively demanded by the circumstances of the case.

Provided also, that in all cases when any soldier shall, for no good reason, neglect or refuse to pay or allot at least one quarter part of his monthly pay for the aid of those dependent upon him, relief shall be afforded only to prevent extreme destitution. No disabilities of any kind whatever shall be created by reason of aid so furnished and received.

SEC. 2. Any town or city may raise and apply money as aforesaid, for the aid of the aforesaid dependents upon any person who has been duly mustered into the service of the United States as a part of the quota of any other State before July 9, 1862. Provided that said person receives State aid from no other State.

SEC. 3. Of the sums paid or applied by any city or town for the support of the family or dependents of any person who may be actually engaged in the service of the United States, as provided in the foregoing sections of this act, there shall be annually reimbursed from the treasury of the State to such city or town, a sum not exceeding four dollars per calendar month for the wife, and four dollars per calendar month for each child and for each parent of such person dependent upon him for support as aforesaid.

Provided, That the whole sum so reimbursed shall not exceed twelve dollars per calender month for all the persons named in this section so dependent upon any such person in service as aforesaid.

SEC. 4. Any town or city may apply money in accordance with the provisions of section 1st of this act, for the aid of the widow, children or parents dependent as aforesaid, upon any person mustered into the service, as aforesaid, who may have died while in the active service of the United States, or for the aid of such person himself, who may have returned home discharged from disability; and the sums so expended shall be reimbursed by the State, under the rules and limitations provided by this act in other cases.

Provided, however, That there shall be no reimbursement of more than eight dollars per month for any such disabled person, nor of expenditures made more than six months after death or discharge of such person.

SEC. 5. Until before the first of May in each year, a full and particular report, certified and sworn to by a majority of the Selectmen or committee of each town, and by the Mayor and a majority of the Aldermen of each city claiming reimbursements for money expended, as aforesaid, shall be made to the State Treasurer; such a report containing a statement of the names and service of the soldiers whose families or dependents have been aided, and the time for which the notice of this act; the names and ages of the persons assisted, and the relations which such persons severally have to such soldiers respectively, the circumstances of each case, showing the nature and kind of the relief afforded, and the same was imperatively demanded, as aforesaid, the sums paid to or for the support of each person, and the full amount the town or city has paid for aid furnished. In accordance with the provisions of this act. And no reimbursements shall be made from the State Treasury to any town or city until such report shall be carefully examined, scrutinized and approved by the State Treasurer, the Governor and Council, and by the Legislature.

SEC. 6. This act shall not authorize the reimbursement of any money applied for the aid of any dependents upon any volunteer, drafted man, or substitute mustered into regiments of any other State who receives aid from such other State.

SEC. 7. That whenever the authorities of any city or town have unjustly refused, or shall unjustly refuse to pay the family or dependents of any person in the service of the country, in the army or navy, or such person himself, the aid provided in this act, application may be made to the Governor and Council, who, if they are satisfied upon investigation, that the aid is unjustly refused, may allow and pay the same out of any money in the treasury not otherwise appropriated, and the Governor is authorized to draw his warrant therefor.

SEC. 8. This act shall take effect upon its passage, and all acts and parts of acts inconsistent with the provisions of this act are hereby repealed.

Approved July 16, 1864.

AN ACT to exempt volunteers and conscripts from the poll tax.

Be it enacted, &c. SECTION 1. Every person voluntarily enlisting or conscripted into the military or naval service of the United States, shall be exempt from the payment of a poll tax during his term of such service.

SEC. 2. This act shall take effect from and after its passage.

Approved, July 15, 1864.

EPE. N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, and nothing seemed to effect her hands very much. A large gum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I purchased some less, or more bottles of Dr. SWEYT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Sweyt's in removing the various kinds of humors. I have sold to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited my food. I was advised immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWEYT'S PANACEA, which fully cured me, so that I have not had the least pain from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I. CHENEY, *Lee, May 21, 1861*

DR. SWEYT: Permit me to testify, as I did in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1858, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHENEY

VALUABLE MEDICINAL

ROOTS AND HERBS,

Prepared by WM. H. GREGG, M. D., Graduate College Physicians and Surgeons, N. Y. formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup

HAS PRODUCED

A REVOLUTION IN MEDICINE!

A WHOLE SYSTEM REVOLUTIONIZED!

Diseases which are most incredible, in that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and sensible to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as heinous as ever encountered by any Reformers.

Rapidity of Cure.

Some say, "Your cures are too quick," while others doubt their permanency, and think the disease can only be cured by the "slow recuperative process of Nature." This is our reply:

In health, the body, like a well-balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have disease. What we want to do, what nature is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP.

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and all the secondary DISEASES transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paralysis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stom'h, Biliousness, Want of Appetite, Flatulence, Bad Breath.

Scrofula.

Sworn, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling life with untold misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritic, Neuralgia, Gout, Lumbago, Sciatica, Tic Doloureux.

Where is ANY disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings, of long, chronic or violent, are reduced in 20 or 30 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Shattered Nerves, St. Vitus' Dance.

Thousands who have suffered many years will bless the day on which they read these lines. Particularly to weak, suffering woman will this medicine prove an inestimable blessing—directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Feeling of Weariness, Aching of Bones, Bad Breath, Ulcerated Throat, Mouth, Nose, Sores.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, and curing the Weak Joints and Aching Bones which have been left by Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmly as ever.

Constitution Life Syrup

Eradicates, root and branch, all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES,

And all other difficulties of this kind, which so much disfigure the outward appearance of both sexes and females, filling them with a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disarge so many of the younger portion of the community, from six to twelve years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases soon recover by taking a few bottles of Constitution Life.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia; Dropsy, of the limbs or abdomen, and in the female Dropsy of the Uterine and womb, generally accompanied with inflammation and ulceration of the uterus; are permanently by Constitution Life Syrup, the disease known as Goitre or swelled neck, the Life Syrup will remove entirely. The remedy should be taken perseveringly. Time, as the disease is according, chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Palpitation, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—producing a grating or filing sound), Dropsy of the Heart, Tumors and all the affections of this important organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions,

Suffering from Exposure, Hard Work, Pain in the Back, Loss of Memory, Forebodings, Horror of Insanity, Fear of Disease, Dimness of Vision, Dry Hot Skin, Pimples on the Face, Blotches, Stiffness, Pale Haggard Countenance and Loathing of the Marriage System, all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of **Ulcerative Diseases**, either of the Nose Throat, Tongue, Spine, Forehead or Scalp, no remedy has ever proved its equal.

MOTHERS—Ulcers upon the breast, or depending upon a diseased action of the Liver, are very unpleasant to the young wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is directly under the skin.

In *Diseases of the Liver*, giving rise to languor, dizziness, indigestion, weak stomach, or an inherited or cancerous condition of that organ, accompanied by costiveness or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, are those which we are enforced from diseases for which they are at a loss to know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, these and early death are the results. Do not delay when the means are at your hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES It is the most safe and most effectual medicine ever discovered for purifying the system and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and increases and enriches the food—Those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CURES FROM ONE TO THREE DAYS

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Gravel, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhea, and is especially recommended in those cases of Fluor Albus or Whites, in females; where all the old numerous nostrums have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all its channels freely and vigorously; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites, to effect a healing, soothing and cleansing; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the cheap quack injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

THE GREAT

INDIAN MEDICINE,

COMPOUNDED FROM

ROOTS, HERBS AND LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhea, Seminal Weakness, Impotency, Sterility, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has never failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have long suffered with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the Cherokee Cure will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

THE MAGEE COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being thicker, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and children heater combined, by which the odor of broiling meats are prevented from entering into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as it can be done without any escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would also invite those about remodelling or erecting buildings to examine this truly valuable article.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to headache so much complained of in other Furnaces, is entirely obviated.

The pipes aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, upon possessing little advantage over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The fire or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 50 per cent. of the properties of the best in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the ashes of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Daily Morning Chronicle

ESTABLISHED 1852. PORTSMOUTH, N. H. SATURDAY, AUGUST 6, 1864. VOL. XXV. No. 31.

Advertising Rates,
IN THE CHRONICLE AND THE GAZETTE.
Per Inch—$1 for one or three insertions; 25 cts. each insertion after—in either paper. 1 inch in *Daily* one month $5, three mos. $8, six mos. $12, one year $20; in *Weekly*, six mos. $3, one year $5.
Yearly Advertisers, in Daily, $30 each inch per year, and all excess at any time charged at half the above special rates.
Funeral notices, and Advertisements of articles Lost and Found, Wants, &c., one or three insertions, $1. Advertisements kept inside, 25 per ct. extra. Special Notices 50 per ct. extra. Editorial Notices 17 cents per line. Cuts or large type charged double measure and kept on 4th page.

The Chronicle.

☞ It is officially announced that the increased postage of forty-five cents per single rate, which the public was notified would be charged on and after July 1, 1864, upon letters addressed to the Australian colonies and New Zealand, and transmitted to the British mail via Southampton, will not be collected—the British office having given subsequent notice of its decision not to carry the proposed change into effect at present. All letters, therefore, addressed to the colonies of Victoria, New South Wales, Queensland, Tasmania, South Australia, Western Australia and New Zealand, will continue to be chargeable with the old rate of postage, viz: thirty-three cents for the single rate of half an ounce or under, prepayment required.

— It is a remarkable fact that the contest before Atlanta, brought together three old class-mates from West Point. Gen. Hood, Maj. Gen. McPherson and Brig. Gen. Schofield were old "chums," being room mates during the last year of their cadet life. McPherson and Hood were particular friends, yet one fell by the hands of the other.

— On Tuesday night July 20th, the court house and jail at St. Scholastique, Canada, were burned to the ground, and three prisoners of the name of Richer (a mother and two daughters), who were confined in the upper story of the jail, were burnt in the flames. Four other prisoners were saved; the jailor and his family also escaped, but with difficulty.

— The Newburyport Herald asks what is the value of flour?—One day last week an Irishman purchased a barrel of flour, and in payment gave a five dollar gold piece. He took his receipt for his barrel of flour, and received back $1.30 in currency. Before the war we should know that he paid three dollars seventy cents for the flour. What did he pay for it now?

— The Herald states that the Newburyport City Council have authorized the Committee on public property to finish the chamber of the store on Federal street belonging to the city, for a lodging room for truant boys, and $400 was transferred from incidentals to defray the expense of the same.

'Wake up and pay for your lodgings,' said the deacon, as he nudged a sleepy stranger with the contribution-box.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, No. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a
PRIVATE OR DELICATE NATURE.
By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of
GONORRHŒA AND SYPHILIS.
Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distression the region of protection, inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of all other symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.
SEMINAL WEAKNESS.
Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, omitting the unfortunate individual for business or society. Some of the end results of youthful effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.
Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.
Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
DR. DOW, Physician and Surgeon, No. 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the feminie system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has no doubt had a greater experience in the cure of diseases of women and children, than any other physician in Boston.
Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
☞ N. B.—All letters must contain four red stamps, or they will not be answered.
Office Hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.
☞ N. B.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.
Boston, April 7, 1864.—eodly.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Also, Reissues, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now *pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him for the procurement of patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the describer, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of them was decided in *his favor*, by the Commissioner of Patents.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Bites, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Marriled Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsle and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 50,000 boxes establishes their reputation as a female remedy, unsupprossed, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should not use them, for reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 2 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing the price, or a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

VERNATELLA.
Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.
VERNATELLA
Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,**
For sale by all dealers everywhere.
But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.
☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.
Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dew.

SATURDAY, AUGUST 6, 1864.

THE REBELLION.

The rebels at Petersburg are busily repairing their lines. A court of inquiry is to investigate the cause of the disaster on Saturday. Our loss then is now stated at 3640. Gen. Hooker has reached Washington. It is stated that he was relieved by Gen. Sherman at his own request, Gen. Howard, his junior in rank, having been appointed to the command of the army of the Cumberland. The reports that he is to relieve Gen. Meade are denied. It would be a good move to give him command of the troops to repel the invaders.

The people of the Cumberland valley are sending away their valuables, in anticipation of another extensive rebel raid; business is at a standstill. Gen. Couch has called upon the dwellers on the border to put their rifles and shot guns in order, and to supply themselves with ammunition.

It is reported that several thousand rebels crossed the Potomac at Hancock on Thursday morning, and drove in Gen Averill's pickets at Cumberland. Gov. Curtin has called for 30,000 militia for the immediate defence of Pennsylvania, stating that the rebels occupied Hagerstown on Friday morning. Moseby and Imboden, with cavalry and mounted infantry, 7000 strong, are reported to be threatening Harper's Ferry; while Early, with 12,000 infantry, is guarding trains of plunder at Bunker Hill, being about to start up the valley. Rebel parties are gathering in grain and cattle, and conscripting all the men they can lay hands on.

An expedition from Newbern to the Chowan river destroyed a large amount of rebel stores, recaptured the steamer Arrow and some prisoners, and brought back $100,000 worth of cotton and tobacco.

Our fleet off Mobile has captured a large blockade-running steamer: another was driven ashore, but the rebels saved her cargo and machinery and then burnt her.

Gen. Washburn is making important military movements at Memphis. General Smith is again on the war path. He seems to have used up Forrest and Lee pretty effectually at Tupelo. Forrest is said to have died of lockjaw at Columbus, Miss, July 22. Per contra, he is said to be with Hood.

Gen. Sherman is reported to be again in motion, by the left flank. Gen. Stoneman's recent cavalry expedition, of 3200 men, was very successful, having destroyed 15 miles of the Macon railroad, and captured a rebel train of 500 heavily-laden wagons, with nearly 500 men, including 127 officers. The wagons contained, among other things, whiskey and Hood's private papers. Our troops drank the whiskey, burnt the train, and started to return; but were attacked by the rebels in force and surrounded, and although many escaped after a desperate fight, nearly 2000 were captured,—another sad instance of Union defeat and loss thro' the effects of rum drinking.

The rebel troops lately in Mississippi have gone to Hood's assistance and were with him in the fight on the 28th. On the 28th 500 rebel deserters came into our lines, including a colonel, lieutenant colonel, major, 11 captains, 3 adjutants, and 46 lieutenants.

MAINE EDITORIAL CONVENTION.—The printers of Maine are in for a good time next week. The convention of editors and publishers to be holden in Portland on the 10th and 11th inst. bids fair to be successful beyond anticipation. The Portland Price Current in regard to the matter says:

The business men and merchants, appreciating the importance and advantages to be derived from such an assemblage in Portland, are taking a lively interest in the matter, and arrangements are being made with a degree of enterprise and liberality that cannot fail to insure an occasion that will reflect credit upon the city.

The Portland "Press" says: "Every paper in the State will be represented, with perhaps two or three exceptions. Members of the Boston press and others will be present as invited guests."

We hope to be able to accept our invite, and be there or thereabouts on the occasion, to represent "the oldest paper in America," and help enjoy "an occasion which it is expected will not only prove beneficial in a business sense, but high-ly pleasant socially." But of course none of the fraternity will be elevated too "high" by the event; though we suppose the Portland Transcript man and he of Brunswick will keep a sharp eye on each other.

— The U. S. steamers Niagara and Sacramento were at anchor off Antwerp on the 19th. Recently reported naval engagements are all supposed to be canards

— An arrival from England reports that Lord Palmerston had replied to an inquiry in the House of Lords, whether England intended to act with other European powers in the endeavor to bring about a suspension of hostilities in America, that he thought no advantage would be gained by meddling.

NEW HAMPSHIRE ITEMS.

—— Rev. Mr. Eaton, of Marlow, has accepted a call to the Pastorate of the Baptist Church at Goffstown Centre.

—— William Thompson, of Wolfborough, was quite seriously injured a few days since by the falling in of a brick wall which he was assisting to take down.

—— Rufus L. Tay, Esq., formerly a merchant of Boston, died on the Webster farm, at Franklin, of which he was the proprietor, Tuesday morning.

—— Geo. W. Wadleigh, Esq., of Fisherville, was kicked by a horse in Sutton a few days ago, which broke his jaw and otherwise injured his face.

—— The Merrimack County Agricultural Society will hold their annual Fair on the grounds of the Society, on the plains in Concord, on the 25th, 26th and 27th of September.

—— A valuable set of farm buildings in Chichester, belonging to Amos Hoyt, were struck by lightning and destroyed on Tuesday. A large stock of hay and grain was burned.

—— Over 100 enrolled men in Exeter have subscribed $30 each, and citizens not liable have subscribed enough more to make up $4000, to procure substitutes for those who may be drafted in September.

—— The roof of the building on the corner of Court and Bow streets, Exeter, caught fire from a spark on Monday afternoon last. Exertions on the part of neighbors extinguished the flames and prevented an extensive conflagration among the wooden buildings in that vicinity.

—— The price of the Manchester Weekly Mirror and Journal of Agriculture has been increased to $1.50 a year in advance, and the price of Clubs will be increased fifty per cent. on former rates. The price of the Daily Mirror and American has been increased to $6 a year.

—— Capt. Francis W. Butler, late a prominent officer upon the staff of Maj. Gen. Wm. F. Smith, died at the residence of his father at Bennington, on Saturday last, in the twenty-third year of his age, from the effects of a wound received before Petersburg on the 30th of June.

—— Dr. George H. Hubbard, of Manchester, has been ordered to erect on the Rensselaer Co. Fair Grounds, Troy N. Y., a general hospital for 1000 beds; the whole matter to be left to his discretion. It is a position of responsibility and honor, and one which Dr. Hubbard is abundantly able to fill.

—— Rev. S. S. Fletcher of Exeter, during the shower on Tuesday afternoon was at the depot in Saco, Me., and he informs the editor of the Ballot, that the lightning was very terrific at that place, there being frequent reports as of pistol shots as the electric fluid struck the rails. Mr. Fletcher suddenly found his left hand paralyzed, and was told by a bystander that a ball of the fluid had passed between his feet and the rails.

—— A "female secessionist" in Wolfborough was observed the other evening to kiss very affectionately a photograph of Jeff Davis which she purchased of a pedler. So says the News; which also tells the following:

One of our leading politicians, of the copperhead stripe, was quite joyful on hearing it announced that Gen. Sherman had won a brilliant victory. But on observing that the countenances of several Union men, who were standing near by, were expressive of equal satisfaction, he began to suspect that something was wrong. To assure himself he inquired if Sherman was not a rebel general. On being informed how the matter stood, his head drooped like a pullet's tail in wet weather.

—— In one of the churches in Lancaster a few years since, the preacher, a young clergyman, apparently making his debut during a country trip, announced his text, "Be ye steadfast, unmovable, always abounding in the work of the Lord." "This text," said the reverend expositor, "may at the first glance seem somewhat contradictory, for how can one be steadfast, unmovable, and yet always A BOUNDING? But we shall find, as we progress, that no contradiction is involved," and he proceeded gravely to demonstrate this somewhat novel theory in gymnastics, much to the quiet amusement of his audience. The Coos Republican is responsible for this.

—— The Lancaster Republican of the 2d states that fires are raging in the woods and open lands in all direction, involving much loss. A fire, kindled by a boy a week since, near Jefferson Mills, has endangered all the buildings in the vicinity, swept across the ridge toward the east part of Lancaster, and consumed on Monday, Aug. 1st, the house and barn of Mr. Alden Lewis, on the Marden Brook, together with 20 tons of hay. Loss at least $600. Fires are running on the Bray Hill, in Whitefield, in the direction of Jefferson Mills, consuming timber and crops. Buildings have been saved only by great exertion. It learns that the damage to Mr. Gile's timbered lands in Whitefield is very considerable. There are less serious fires in Lancaster and neighborhood, and many citizens are constantly engaged in defending property from the ravages of this element.

THIRTY-SECOND MAINE.

A private letter, from Adjt. Calvin C. Hayes, of the 32d Maine Regiment, to his brother in Kittery, gives the following list of casualties in that regiment in Saturday's assault on Petersburg. We hope to be able to give his account of the fight in Monday's Chronicle.

Our regiment has passed through another fearful battle, and by the kindness of Providence I am again spared, but the regiment is about used up. Out of 16 officers engaged, 13 were wounded or taken prisoners; three only escaped, and I was one of these. Col. Wentworth was shot through the left side; Lt. Chase in the head, Capt. Hunt in the shoulder, Lt. Whitehouse shoulder, Lt. Goodrich arm; Lt. Pierce is a prisoner; do. Lt. Bearce, Capt. Fall, Capt. Sargent, Lt. Whitten, Lt. Hall, Capt. Burbank, and Lt. Mitchell. Capt. Hammond, Lt. Barker and myself escaped.

Of our men, as far as can be ascertained, 10 were killed, 31 wounded, and 74 taken prisoners; making 128 officers and men killed, wounded and missing, out of about 150 engaged. From Kittery, Chas. W. Billings was killed, Thomas Hubbard wounded in the head; Sergt. Geo. W. Damon, Howard J. Marden, Albert S. Hurd, Alex'r Stackpole, Chas. H. Cole, George Matthews and John Fernald were taken prisoners. Sergt. Jno. D. Anderson is wounded in the arm.

NEW HAMPSHIRE PRINTERS. — The Newspaper editors and publishers of this State recently held a Convention at the Phenix Hotel, Concord. About 20 of the thirty offices in the State were represented; and it was unanimously decided, as an absolute necessity, to increase the price of Weekly papers to $2 a year, and smaller ones to $1.50. Also to raise the rates of Advertising and Job Printing materially.

REBELLION RECORD.—Part 43 of this valuable work is received. It contains portraits of Brig. Gen. Wm. B. Hazen and Brig. Gen. O. B. Wilcox, with Diary of events, Documents, poetry, &c., as usual. Putnam & Holt, N. Y., publishers. Price 50 cents a number, monthly.

— National banks must take out a banker's license the same as other banks.

— Gov. Curtin has given $1000 to the Sanitary Commission.

— The Boston Post speaks of "the *melancholy* odor of decaying bone."

— George Francis Train, it is reported, drives the most stylish turn-out at Saratoga.

— The New York Times argues that no existing law can compel the surrender of Semmes.

— Hon. D. E. Somes has declined the appointment as Consul at Curacoa, tendered him by the President.

— Fourteen counterfeiters of greenbacks have been arrested at St. Louis, and their material, bills, etc., seized.

— Rev. Dr. Sunderland, late chaplain of the U. S. Senate, has left for Europe to assume charge of the American chapel at Paris.

— In the English House of Lords, the bill for the establishment of the decimal system in weights and measures passed to a second reading, July 4.

— Bangor is to vote on Tuesday on the act of the Legislature authorizing it to loan its credit to the amount of $500,000, to the European and North American Railway company.

— 30 companies of volunteers for one, two or three years, are to be raised in Maine,—the officers to be men who have served at least nine months in the field. They must be mustered in before Sept. 5.

— M. H. Schiff, a French chemist, in a monograph on some derivatives of ethylidene, states that he has succeeded in obtaining a chloride of *dimercurodiethylidenediphenammonium*. We are very glad to hear of it.

— Late English advices report that evidence accumulates against a German named Muller for the recent murder in an English railway carriage, and a detective is coming to New York with a duplicate warrant for his arrest. It was not considered certain, however, that he is the murderer, and another man had been arrested at Stafford on suspicion.

To the Public.

Once again I desire to give public expression to my thanks to the PISCATAQUA INSURANCE COMPANY, of which F. W. DeROCHEMONT is the very gentlemanly and fair Agent in this city, for their prompt and satisfactory settlement of all my claims against them for loss by the late fire. This is the second time that the firm has tried me and that company; and no more just and liberal treatment could be asked than has on both occasions, and as I believe in all others, been accorded by them.

DR. S. O. RICHARDSON'S

BLOOD ROOT ELIXIR

Has been thoroughly tested and proved in his medical practice, for a period of THIRTY YEARS, and is now presented to the public as an effectual cure for

COSTIVENESS,

and the best remedy ever prepared for

Diseases of the Liver,

SCROFULA,

All Humors and Impurities of the Blood, and Diseases of the Skin.

The preparing and combining the Blood Root Elixir, is attended with results to medical science next in importance to the inhalation of ether in surgery. Roots and plants, in themselves pungent and disagreeable, are, by a new and scientific process of extracting (in vacuo,) rendered MORE EFFECTIVE IN THEIR OPERATION, entirely divested of the griping and distressing pain which attends the action of all other purgative medicine. They are also made to become

HIGHLY PLEASANT AND AGREEABLE TO THE TASTE,

and by their peculiar combination work so perfectly in HARMONY WITH NATURE that no unpleasant reaction will follow its operation. It also possesses

A Diffusive and Alterative Effect,

which can only be attained by medicine in a fluid state. These are new elements in purgative medicines.

The hard and compact manner in which pills are prepared renders them indigestible— and when taken are *forced* through the stomach and bowels, half-dissolved, causing only PARTIAL ACTION, thereby creating irritation and pain to the parts connected with their passage.

One pill dissolved, is more effective, will produce more medicinal and physical effect than five in a crude state.

The BLOOD ROOT ELIXIR has no partial action upon the bowels, but is *equally diffused there* and throughout the whole circulation of the blood, imparting a tonic and *invigorating action* to the STOMACH AND BOWELS, LIVER, LUNGS, KIDNEYS, and gently stimulating dormant and morbid secretions through the whole system.

A single dose will produce a cheerful and exhilarating COMMOTION, which will inspire the patient with confidence and assurance of IMMEDIATE RELIEF. A continuance for a short period will DRIVE the obscure and hidden humors to the surface of the skin, and relieve or check SCROFULOUS AFFECTIONS—and by thus purifying and strengthening the blood, will remove the most fruitful

CAUSE OF CONSUMPTION.

It incites the various organs of the system to act their allotted part, removing the causes which induce RHEUMATISM AND NEURALGIA, HEADACHE, LOSS OF APPETITE, DYSPEPSIA, COSTIVENESS, and the various diseases which arise from a derangement of the Stomach and Bowels, and obstructed circulation of the Blood.

COUGHS and COLDS, in their early stages, will immediately yield to the effect of the Elixir.

The BLOOD ROOT ELIXIR contains no mineral, no pernicious botanical element, no excitant, but stimulates the secretions by its mild diffusive action. It is an effective and painless aperient—has a decided, salutary action upon the Liver, and *there has been no medicine prepared for common family use which possesses equal merit.*

Travellers, both by sea and land, will find the Elixir a complete antidote for the evils which they are obliged to endure from a change of climate, of water, or of diet.

See the pamphlet around each bottle for a history of this Elixir.

The proprietor of the Blood Root Elixir, (Dr. S. O. Richardson,) has been long and favorably known to the public by his celebrated SHERRY WINE BITTERS, the best tonic medicine ever discovered, and which has been in use over thirty years. He is a graduate of the New Hampshire Medical College, and many years associate member of the Massachusetts Medical Society, and has made the study of medicine his profession since 1829.

And so fully convinced is the Doctor of the wonderful curative effects of his Blood Root Elixir, that he hereby offers to each and every person who will use one-half of a bottle of his Elixir and not be conscious of a good effect therefrom, to refund to said person the amount which he paid for the same, by returning the village bottle to his office.

Price $1.50 per Bottle.

Sold in Portsmouth by J. H. THACHER, opposite the Post Office, and No. 12 Market Square; and by Dealers in Medicine generally, and at Dr. Richardson's Office, No. 51 Hanover street, Boston.

"A Wonderful Discovery."

DR. TEBBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "Dye," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

Local.

☞ The spell is broken, and once more God blesses the earth with rain. So "Old Brown" may lay by his Street Sprinkler for a little, and let his jaded horses rest.—But do we all really appreciate what a great comfort this machine has been to us, especially in the late fearful drought? We have sometimes thought not, when we heard complaints from some subscriber of a paltry five dollars, towards the public-spirited managers of the wetting-down institution, who, notwithstanding their at first self-imposed labors, worth perhaps yearly as many *hundreds*, are perhaps sometimes unable to answer all demands, reasonable and unreasonable, petulantly made by those whose duty it is, as well as theirs, to do what they can for the public welfare, and who are themselves really as much responsible for the sprinkler as those same well-intentioned managers.

We never had any interest in the matter, except the trifling yearly subscription which we hope always to have the privilege of paying—no matter what route the cart may run—and the regard which every decent man ought to have for the well-being of the city;—but we like to see and hear fair play, and no favors asked.

And by the way, we are glad the rain, when we got any, falls on the unjust as well as the just, so as to cover up the dry spots which Brown skips by shutting off his water, for non payment of dues, or rather refusal to subscribe; for we would as soon be caught stealing our reading of the Chronicle, as failing to do our share to support so beneficent a public necessity as the Sprinkler. But, Brown, we hope it will rain so hard and so long that your old cart will not be seen for a fortnight, and your team may lay on a streak of fat.

☞ The officers of the Lyndeborough Artillery company, which arrived at Fort Constitution on Tuesday evening, are: Joel H. Tarbell, Captain; Eli C. Curtis, 1st Lieutenant; Charles H. Holt, 2d Lieutenant. They are a fine looking company, and number eighty men and three officers. They were mustered into the U. S. service for ninety days, to garrison Fort Constitution. They were accompanied to this city by the Wilton Cornet Band—a fine band, having the well-known Carl Krebbs as leader.

The Strafford Guards, which had recruited up to full numbers for the purpose of doing garrison duty for a further term of 90 days, have been discharged.

☞ A bold robbery was committed on Market Square early on Friday afternoon. A fine span of horses, owned by Col. C. March of Greenland, had been fastened in front of the Rockingham Bank, and a fellow jumped into the wagon to which they were attached, and drove off. As soon as the team was missed City Marshal Dresser started in pursuit with another team, being accompanied by one of the men in Mr. March's employ. Fortunately they got on the track of the theif and overtook him late in the afternoon near Newburyport, recovering the team and arresting the thief.

☞ The Band's Excursion next Tuesday offers a rare opportunity to those who have never visited the Lake; and those who *have* been there before will be all the more glad to go again, and the better prepared to enjoy the trip. Get your tickets early, for at the last minute you may be too late. The price is low, and the splendid music alone is worth the money.

☞ A blind truck horse belonging to Mr. John R. Oxford, while hoisting stone from a vessel at the Pier on Thursday, slipped into the dock. He was rescued with much difficulty some time after his involuntary introduction to salt water.

☞ An exquisite piece of wood carving is that on exhibition at Mr. Shores' bookstore. It is the work of our skilful and artistic townsman, Mr. H. H. Adams; and will no doubt readily sell in Boston for $200 or $300.

☞ Capt. Daniel Hall, of Dover, has been appointed Provost Marshal of the first New Hampshire District; and assumed the duties of the office in this city.

☞ Corp. Robert E. Shillaber, of this city, of the First N. H. Cavalry, has been appointed Quartermaster Sergeant.

☞ Rev. A. J. Patterson will deliver a lecture, (his health permitting) at the Universalist Church, to-morrow evening, on his experience in the Army.—Services commence at 7 o'clock.

☞ Among the New England soldiers who died in the Washington hospitals, on Tuesday, as reported, was Thomas Kennedy, 1st Mass. Heavy Artillery, a native of Portsmouth.

Constant Mayer, the artist who painted that most beautiful composition known to the public as "Consolation," a wounded soldier and a sister of charity, has completed, with the help of Mr. Carl Hecker, a striking portrait of little Miss Agatha Yeaton, daughter of C. C. Yeaton Esq., who altho' only three years of age, is a skilled horsewoman, if we may apply this term to so young a person. The painting represents the little girl and her pony, and the fidelity of both portraits is remarkable. These are the work of Mr. Mayer's pencil, the landscape being painted by Mr. Hecker. The painting as now finished reflects great credit upon both artists.—*N. Y. Herald.*

BUSINESS NOTICES.

☞ The play of Rosina Meadows, always popular, will be performed at the Temple this evening: an overflowing and enthusiastic audience witnessed the play on Thursday evening and by their repeated marks of approbation attested the excellence of the performance. *

☞ Wives, Mothers, and Sisters, whose Husbands, Sons, and Brothers are serving in the Army, cannot put into their knapsacks a more necessary or valuable gift than a few boxes of Holloway's Pills and Ointment. They insure health even under the exposures of a soldier's life.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 224

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.
We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to
THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.
Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.
One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.
A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father but one! We sold him a Stove before he left, and there has been no complaint since.
These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

From the Portsmouth Journal.

SECOND LEGISLATIVE SESSION.

For the first time, we think, since the establishment of our State Government, our Legislature is called together by the Governor's special proclamation, and next week will again convene at Concord. The main object is not, as has been intimated, to do anything which might have been done at the late session, but to provide for some contingencies which have occurred since the adjournment. The cause for the call, as we have heard from various sources, is thus explained:

The Legislature, at the recent session, authorized the borrowing of one million five hundred thousand dollars, to be reimbursed in bonds bearing six per cent. interest. This amount was deemed adequate to meet the State expenditure, presuming that the bonds would be readily taken up.—But since the adjournment of the Legislature, the Secretary of the Treasury has thrown upon the market a large amount of bonds at seven and three-tenths per cent. interest. It is found that the State cannot successfully compete with the General Government with this disparity of interest.

It will be found necessary either to alter the rate of interest, or pass a law which will enable the State to receive from the State Banks money for its bonds.

This, with some amendment of the military law, will probably be the sole business of the session, which will probably last but three or four days.

ENLARGEMENT OF THE CAPITOL.—The reduction of our State Legislature to its proper size—150 members of the House and 36 Senators, would leave the present State House a far more convenient place for business, than the constructing of a room which covers half an acre, in which the man from Carroll will have to use a speaking trumpet to be heard by the man from Gosport. We wish the operation of the law could be suspended until a State Convention for amending the Constitution in this respect could be held, and the State House, which is handsome enough for any State or age, retained.

COMMENDABLE PROMPTNESS.—The Portsmouth tax is much larger this year than ever before. The amount of the whole assessment is $105,000. The tax bills were issued on the 1st day of July, offering 6 per cent. discount to all who pay in thirty days. Within the time limited $86,500 were paid—leaving only $18,500 unsettled. All called upon the Collector and made payment at his office. It speaks well of the ability as well as the willingness of our citizens to do their part in bearing the public burden.

The Grist and Saw Mill on the Great Works river, in South Berwick, belonging to Isaac P. Yeaton, Esq. was burnt on Saturday morning, 16th ult. at 3 o'clock. An incendiary set fire to a corn house near by, from which the flames communicated. It was insured $2000 in Portsmouth Mutual, and 2000 in Cocheco Co. of Dover. About $500 worth of corn and flour was also lost, on which was no insurance.

COPPERHEAD CANE

E. N. Fuller, editor of the Newark Journal, who was arrested a few days ago for publishing an alleged treasonable article, has been waited upon by a delegation from New York, and presented with a valuable gold-headed cane. The Newburyport Herald thinks it is an intimation from the donor that he had better make tracks.

Aside from his Secesh proclivities, Fuller is a very clever fellow.

EXECUTIVE APPOINTMENTS.—The following appointments have been made by the Governor and Council:

Samuel Cooke, Concord, Chaplain State Prison.

Improved Spectacles,

READING AND EYE GLASSES.

H. S. BODGE, corner Congress and High streets has just received a large stock of improved Spectacles.

Periscopic, Convex and Concave SPECTACLES, READING GLASSES and OPERA GLASSES, &c. which will be found of a superior quality, and at about half the price charged by itinerant pedlers.

BEWARE OF PEDDLERS.—A spectacle peddler one day this week, called upon an old gentleman of this city, to sell a pair of spectacles. He presented a pair fitted to the eyes; and to show their superiority over those he had been using, asking him to look first thro' the new and then through the old ones, giving the latter a rub with a piece of wash-leather. The difference was very striking; and the old gentleman was delighted. After the wandering trader had gone, the spectacle wearer picked up his old glasses, which he regarded as worthless, and after wiping them would take a farewell look through the "eyes" that had served him so well for years, when he found he could see through them as well as through the new ones. It was all explained this way: the peddler instead of cleaning the old glasses with his wash-leather, had actually put something on them to obstruct the sight. His spectacles, for which he asked a double price, were not worth a cent more than the old pair. So come out nine persons in ten who trade with peddlers or go abroad to purchase of those whom they do not know, instead of relying upon our own merchants, whose honesty is unquestioned, and who have had experience in their business.—*Newburyport Herald.*

Morning Chronicle.

— A new hotel is to be opened on Broadway, Newburyport, by Mr. Dan'l Hamblet, late landlord of the Franklin House. He has purchased the old Thomas house at the head of Mercantile wharf, of Mr. Joseph Moulton, and is having it renovated and repaired throughout, for a "Broadway Hotel."

— An advertisement in the Herald, states that gas will be shut off in Newburyport a week, for repairs of the works. What a pity that the political gas of the country couldn't be cut off, isn't it?

A fellow contemplated in utter wonderment the magnitudinous dimensions of a bystander's feet, and in a tone of astonishment said, as he surveyed the man's proportions, "You'd have been a tall man if they hadn't bent you so far up."

Sir Harris Nicolas was hard on Lord Strangford, in the brief dialogue: "My dear Nicolas, I am very stupid this morning; my brains are all gone to the dogs." "Poor dogs!"

Nautical Question—is the name of "Jack Tar" for a sailor derived from the Latin *Jactari*, to be tossed about?

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract o
VALUABLE MEDICINAL
ROOTS AND HERBS,
Prepared by WM. H. GREGG, M. D., Graduate College Physicians and Surgeons, N. Y. formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.
Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!
What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite investigations of the Medical student and scientific to cures which have no parallel at the present day.
Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from medicine, those who have been pronounced by other physicians—are
Invited to use Constitution Life Syrup.
During the past five years we have contended with obstacles and overcome opposition as bench lean as ever encountered by any Reformers.
Rapidity of Cure.
Some say, your cures are too quick," while others doubt their permanence, and think that diseases can only be cured by the "slow recuperative process of Nature." This is our reply:
In health, the fluid, like a thoroughly balanced scale, is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the state of disease. Health is the equilibrate is, to restore the normal balance of the scale.
CONSTITUTION LIFE SYRUP.
A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all DISEASES OF THE DISEASES transmitted from PARENT TO CHILD.
Paralysis.
Hemiplegia, Paresis, Paraplegia, Partialis Agitans.
It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.
Dyspepsia.
Indigestion, Liver Complaint, Constipation, Weight at Stomach, Dyspepsia, Want of Appetite, Flatulence, Bad Breath.
Scrofula.
Strumo, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.
This taint (hereditary or acquired) filling life with untold misery, is by all usual medical remedies incurable.
Rheumatism.
(Arthritis), Neuralgia, Gout, Lumbago, Sciatica, The Dolorous.
It takes a few days in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated, swelling and redness reduced. Cases, chronic or vicarious, of 20 or 30 years standing, have been cured by us.
Nervousness.
Nervous Debility, Confusion of Thoughts, Epilepsy, Loss of Power, Fits, Spasms, Nervous Headache.
Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering woman will this medicine prove an invaluable blessing—redirecting their footsteps to a Hope which fadeless more than it promises.
Mercurial Diseases.
Salivation, Feeling of Weariness, Rotting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.
Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and makes the Teeth as firmly as ever.
Constitution Life Syrup
Eradication, root and branch, all Eruptive Diseases of the Skin, like
ULCERS, PIMPLES, BLOTCHES.
And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.
CONSTITUTION LIFE SYRUP
Cures all Swellings of the Glands,
Either of the Face, Neck or Female Breast, and should be taken as soon as the swelling is detected, thus preventing their breaking and producing troublesome Discharging Sores, which disfigure so many of the younger portion of the community, down to twenty years of age. Young children are very subject to Discharges from the Ears, which depends upon a Scrofulous constitution. These cases are rendered by taking a few doses of the Life Syrup.
All scrofulous persons suffering from Debility, Emaciation, Dyspepsia, Costiveness, Pain in the abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation and ulceration of the womb, are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will cure, and is the remedy should be taken for some time, as the disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swelling of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.
Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—producing a pulsation in the Throat), Ossification of the Heart Case and all the affections of this important organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.
Broken Down and Delicate Constitutions, Suffering from Indisposition to Exertion, Pain in the Back, Loss of Memory, Forebodings, Horror at Disease, Nervous Diseases, Diseases of Vision, Dry Hot Skin and Extremities, Want of Sleep, Restlessness, Pale Haggard Countenance and Lassitude of the Muscular System, all require the aid of the CONSTITUTION LIFE SYRUP.
For all forms of **Ulcerative Diseases,** either of the Nose Throat, Tongue, Spine, Forehead or Scalp, no remedy has ever proved its equal.
MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very unpleasant to the lady, wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which disfigures under the skin.
In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an uneasy sensation of fullness after eating, or pain accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.
☞ *As a general Blood-Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*
Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from disease of the Spine, should at once, if you know what to do, we would advise the use of CONSTITUTION LIFE SYRUP. It will restore their pained countenance, strengthen their weak back and side, give them new energy, new life and happiness.
THE RICH AND POOR are liable to the same disease. Nature and Science have made the Constitution Life Syrup for the benefit of all.
PURE BLOOD produces healthy men and women; and if the constitution is neglected in youth, disease and early death are the results. Do not delay when the means are so near at hand, and within the reach of all.
TO MOTHERS AND MARRIED LADIES.
It is the safest and most effectual medicine ever discovered for purifying the system, and relieving the suffering attendant upon childbirth. It strengthens both the mother and the child, prevents pain and disease, and indeed everything that tends to those who have used it think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.
Constitution Life Syrup
Is the Poor Man's Friend and the Rich Man's Blessing!—Buy it, take it, and be cured.—It is Universal in its effects

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.

CHEROKEE REMEDY
AND
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.
CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhea, and is especially recommended in thousands of Fluor Albus (or Whites in females) where all the old numerous medicines have failed.
It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.
It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.
CHEROKEE INJECTION is intended as an adjunct to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhea, Gleet, Fluor Albus or Whites, its effects are healing, soothing and anodyne; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the cheap quack injections.
☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.
For full particulars get our pamphlet from any drug store in the country, or write to us and we will mail free, to any address, a full treatise.
Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.
Sent by Express to any address on receipt of price. Sold by all druggists everywhere.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large capacity Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We would refer to the following purchasers;

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.
The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist as a greenhouse—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the smoke pipe or chimney without being consumed. This objection, so common in other furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air below the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
So testing apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common furnaces.
For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

☞ Acting Commissioner Rollins, of the Internal Revenue office, gave a decision on Tuesday, to the effect that 7-30 bonds and certificates of indebtedness are not included in the term "U. S. bonds," as defined in the bank section of the revenue law, but that the term "United States bonds" is confined only to that class of securities known as registered and coupon bonds, of various dates and denominations, payable in ten years or more, though redeemable in some cases in less time, and that only such securities can be deducted from the capital of a bank in determining the amount of its capital stock subject to taxation. This is an important question to banks subscribing to the new 7-30 loan.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)

76 State street, opposite Kilby street, **Boston.**

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Specifications, Reissues, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any of the Patents furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT FIRE PATENT OFFICE. Those who have tried, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

Thus, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay thereby, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

The Old Established Hospital.

No. 5 Beaver Street, Albany, N. Y.

QUICK CURES AND LOW PRICES.

Over Twenty Thousand Patients Cured Annually!

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that by consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A Book for Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Lichoit's Italian Female Monthly Pills. The sale of more than 50,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies in certain delicate situations should not use these pills. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.

N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing the money. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

VERNATELLA.

Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.

VERNATELLA

Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,**

For sale by all druggists everywhere.

But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the main object, of making Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.

☞ LADIES, READ THIS! ☜

SAVE YOUR HEALTH.

Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet and dampness from the ground is always more or less moist, either from rain or the morning and evening dew.

MONDAY, AUGUST 8, 1864.

THE REBELLION.

Gen. Kelly defeated an invading force near New Creek on Thursday afternoon. Our loss was 29 killed and 50 wounded. Three regiments of rebel cavalry and two of infantry held Hagerstown on Friday. In the evening a force had entered Middleburg, 11 miles north of Hagerstown.

Gen. Cadwallader has appealed to the citizens of Philadelphia to form companies and proceed to Harrisburg for defence of the State Gen. Couch's circular, calling upon the people of the lower counties to become bushwhackers, instead of organizing for defence, it is said is strongly censured in military circles at Washington.

The rebels in North Carolina are going into the rum business largely. Lively times are expected by our naval officers there.

Gen. Gregg's cavalry on the 5th attacked the rebel cavalry on the Jerusalem road, below Petersburg, and drove them, inflicting severe loss. Our loss was 75.

A dispatch from the rebel Gen. Iverson asserts that Gen. Stoneman had surrendered to him with 500 men. Another rebel dispatch, of the 30th, says Atlanta had been shelled furiously for two days, and that the Union troops had been easily repulsed in an attack on Cheatham. A Union raiding force captured Fayetthville, July 29, and burned some wagons, tore up the railroad, &c.

Gen. McCook's loss was much less than was reported—not exceeding 800. He has returned with many of his men to Marietta, after his fight on the return from destroying the Macon railroad. Few rebel troops remain at Mobile, Charleston and Wilmington,—all having been sent to Atlanta. Those west of the Mississippi are expected to go thither also. Fires in Atlanta on the 31st indicated that Hood was destroying a large amount of property.

The attack on Mobile has at last begun. A New Orleans letter to the N. Y. Herald reports that Adm. Farragut had passed Forts Morgan and Gaines and was bombarding the upper defences. He had six iron-clads, and two more left New Orleans, July 20th, to join him. The bombardment had continued three days. Gen. Granger commanded the land forces.

Gen. Ullman met and defeated the rebels near Atchafalaya, July 28. He holds Morganzia, and although there is daily skirmishing, no heavy fighting is probable.

An expedition from Pensacola, July 19, captured Fort Hobson, the rebels running away after a sharp fight, leaving everything.

The Union troops have evacuated Brownsville, Texas, sending all their stores to Brazos and New Orleans.

By Telegraph—Sunday noon.

Intelligence direct from Frederick, Md., states that the enemy are making no demonstrations towards that place, but are moving into Pennsylvania. The whole upper tier of counties in Maryland are in a serious panic, and farmers are hurrying into Washington with fabulous stories of the numbers and designs of the invading forces. It is announced in that city that Gen. Sheridan commands all the cavalry operating against the Rebels on the Upper Potomac. The rebels evacuated Hagerstown on Saturday morning, retiring along the Potomac river in the direction of Shepardstown. The last dispatch from the operator at Greencastle said he was about proceeding to Hagerstown to re-open telegraphic communication.

The situation in front of Petersburg is unchanged. Gen. Hancock has commenced investigations into the late disaster.

The Navy Department has information from Adm. Farragut, dated July 26, that he would make an attack on Mobile as soon as the land forces were ready, which would be on the 29th or 30th. Two of his iron-clads could pass Dog river bar up to the city.

Stragglers along the Mississippi river, near Island No. 34, Aug. 3, report that a fight had taken place at Osceola between 800 rebels under Bowen, and a Union force, commander unknown,—resulting in the defeat of the rebels, who lost largely in killed, wounded and prisoners, and also all their arms and equipage. Bowen was killed.

— The soldiers call Gen. Thomas "Old Safety."

— Many of the light draft monitors have proved failures in consequence of sinking so low in the water. G. W. Lawrence, of Portland, hopes to prevent this in the case of the Wassac, which he is building, by increasing the depth of the hull twenty-two inches.

— Vanderbilt, the capitalist, has five horses, valued at $75,000, at Saratoga. He has a span of mares for which he has been offered $17,000; they have made their mile in 2:23 and 2:24. "Post Boy," another of his horses, he values at $32,000, and considers him the fastest horse in the world. He has made his half mile, in harness, with "Rockingham," in 1:10 and 1:11.

NEW HAMPSHIRE ITEMS.

—— A musical convention is to be held in Temple commencing Aug. 16th, and continuing four days, under the direction of Prof. C. M. Wyman of Keene.

—— Frederick N. Freeman, of Claremont, has received the appointment of Superintendent of the Pennsylvania Coal Company, at a salary of $2600.

—— The Sanborn House, burnt in Hampton, the other day, was on the Exeter (Bride Hill) road—not Eastern road, as printed.

—— Three cows, valued at $150 and belonging to Moses Meader, of Dover, were killed by lighting during the shower on the 2d inst.

—— A boy named Murphy, about 12 years of age, had his leg severely crushed by the cars in Dover on Tuesday evening last, having attempted to get on the cars and ride a short distance from the depot. This practice is becoming too frequent, and this, we trust, will be a timely warning.

——The Mirror states that Maj. Jesse F. Angell, of the 10th N. H. V., wounded in the abdomen, near Drury's Bluff, on the 13th of May, arrived home four weeks ago, and felt confident that soon he should be comfortable, and able to be about the city. But he was greatly prostrated by his journey, and last week his wound was much worse, and had several spells of copious bleeding. He is now very feeble, but it is hoped that he will recover.

—— Mrs. Rebecca Belknap of Peterborough, completed her 100th year July 29. She has been blind, for the past sixteen years, but her health is good and her memory accurate. She had eleven brothers and sisters, of whom two are still living. One of them died when about sixteen years of age. The remaining eleven attained great ages. Sarah, the eldest, died at the age of 75, of injuries received from her clothes taking fire. Had it not been for the accident she would, doubtless, have lived some years longer, as her health was quite good at the time she was burned. The average age of the eleven is 87 years, 8 months; average of the six oldest, 93 years, 2 months.

JOHNSON'S FORCE PUMP [we think *Hand* Pump would be a better name, although the little squirter is a suction and force pump, sure enough, and a mighty powerful one, too,] is one of the most valuable inventions ever offered to the public. It will throw water enough to drown a fellow, or put out a fire, and is as easily worked as an umbrella. It is about the size of a common walking-stick—a little pipe of brass, with a rubber tube attached; and is so simple and strong in its construction that it is almost impossible to get it out of order. It is the best of all aids in washing windows, carriages, &c.; and for watering gardens, sprinkling sidewalks, &c., is very convenient—and will do more good with a single bucket of water, than a dozen thrown by hand.

But it is as a protection against fire that its chief value consists. And from what we have seen and know of this little hand fire engine, we have no hesitation in saying that no house should be without one, and that their general use in a place will reduce the insurance risk one-half.

Numerous wonderful testimonials to their value and success are given on every hand. Among others, Mr. Bailey, the Agent for their sale in this city, has the following:

From the Oneida (New York) Sachem.

We are assured by persons present at the fire on Friday morning, that the residences of Mr. Thompson, Mr. Randall and several others, would have inevitably been destroyed, had it not been for the good execution of two Hosse Fire Engines (Johnson's Portable Force Pumps) which were on the ground. Every home in the village and every farmer should be supplied with one. In preventing the spread of fire to other buildings, or in suppressing seasonably a fire in your own house, they are of incalculable value.

True as a gun—as is also the machine in its action—for it has been well tested, and not found wanting, in this city! At the late fire, but for the vigorous use of one of these miniature water-spouts, in the hands of Mr. Edwin R. Laighton, the house of Mr. Howell, on Linden street, must have been destroyed. It caught several times, and was put out by the exertions of a few persons supplying a wash tub with water, which was judiciously and effectually applied, as above.

But we need not multiply words in favor of this wonderful little pump, nor bring further evidence to recommend it. "Seeing is believing"; and any one who examines its construction must at once understand its simplicity of construction; while all who witness its operations will wish to possess one for their own use.

"*Johnson's Champion Force Pump*" is for sale in Portsmouth by JOHN H. BAILEY, the Agent here; who receives his supply of the desirable article from Albert L. Price, Boston, manufacturer's agent.

— All the Maine regiments lately in the Department of the Gulf, with the exception of the 2nd cavalry, are now in Virginia. They are the 12th, 13th, 14th, 15th, 29th and 30th.

THE 32D MAINE REGIMENT

AT PETERSBURG.

I will now give you a brief account of the fight. About 100 yards in front of our lines was a strong rebel fort: this the engineers had under-mined by digging thro' the ground a trench, about 500 feet in length. Directly under the fort was placed 300 barrels of powder. At 4 1-4 A. M. the fuse was lighted, and our brigade (the 2d) was selected as one of those to charge thro' the breach. With a noise like thunder, and the shock of an earthquake, the fort blew up. For a few minutes the air was filled with powder, dust, sand-bags, legs, arms and bodies.

Across the field we charged, on the double quick; the rebels pouring it into us. The first brigade charges into the fort, but will go no further; the fire is too hot. The 2d brigade comes in with the 31st and 32nd Maine at its head. Gen. Bartlett, of Mass., stands on the top of the fort (on his wooden leg) waving his cane and cheering us on; (the rebs have him now). As Col. Wentworth of the 32nd came up, Bartlett caught him by the head saying, "Boy —, Col., I am glad to see one Colonel who is not afraid to do his duty."

The first brigade opened a road for us, and on we went. As we leaped over the other side, we caught hail, I assure you. Six stood on the top at the same time; five fell, killed and wounded, and I alone escaped; a ball just grazed my cheek burning it a little—on we went. I hear the Colonel is wounded,—look and see him about 25 or 30 feet from me, but I cannot reach him. So push forward and carry their line of rifle pits. Our work was done and I then went to the fort to see about the Colonel; I found him on a stretcher and full of pluck. The fort is filled with soldiers dead and wounded, federals and rebels. Gen. Griffin orders me to see that the Colonel is carried to the rear. We start back with him; as we gained the field over which we charged a short time before, the Rebs give it to us, but miss. One canister of grapes burst almost under the stretcher, but did not hit one of us. We ran across the field, jumped our old breastworks and are comparatively safe, up to this time. But now comes the sad part of the day's work. The negroes were ordered up to help (?) us; they crowd into the pits; the rebs rally and sweep down upon us. The negroes break and create a panic; the Rebs regain their ground and take a large number of prisoners, among which are a large number of the 31st and 32nd Me. Regiments. Those only escaped who had come to the rear with the wounded. So we gained nothing and simply hold our old position.

This repulse will not affect the progress of the siege materially. One thing is sure, they cannot do much more with the 32nd. Capt. Hammond, Dr. Kimball and myself are all the officers left. Barker not being mustered, and we have about 50 guns in the regiment. Barker is acting Q. M. Dr. Trafton has gone home on leave of absence for a short time, Q. M. John Hall is sick; Maj. Arthur Deering and the Chaplain, Patten, are in Philadelphia; Cols. Wentworth and Brown wounded, Dr. Smith, detached to take care of some Battery, sick; thus leaving Dr. Kimball and myself to represent the Field and Staff, and Capt. Hammond the Line officers of this Regt. I don't know what they will do with the rest of us, but reckon we shall make no more charges at present.

I have been with the Colonel nearly all the time since he was hit. He suffers a good deal, but I think will come out all right in the end. He calculates to leave here Wednesday (the 3d) for home. Capt. Hunt will also probably go then. The fellow who shot Hunt, had the muzzle of the gun within 18 inches of him. Hunt turned, received the ball in his arm, and then cut the fellow's head almost off with his sword, killing him instantly. I wish we had an army like Capt. H. Lt. Rounds was here to-day; he came with some prisoners and left for Elmira, N. Y., to-night. He is on duty there.

Our brigade suffered heavily in commanding officers. Col. Wentworth, 32nd Me., wounded; Col. White, 31st Me., wounded and a prisoner; Col. Howard, 2nd Maryland, killed; Capt. Hough, commanding 9th N. H., killed; and the Major command 17th Vt., killed. The 6th N. H. were nearly all captured. Keep up good courage, for the God who has borne me thro' our battles thus far will still protect me.

AUG. 1st, AFTERNOON.—We buried our dead this morning under a "Flag of Truce." I was all over the ground, Rebs and Feds were mingled together, protected by the "white flag of Peace." There were about 400 men lying dead before the fort. For two days and nights they had been exposed to the sun and fog, and the stench was almost intolerable. The rate of killed to wounded was about one seventh. Col. Wentworth is comfortable to-day.

Yours, ADJ. C. L. HAYES.

A. M. Hayes, Kittery, Me.

Brocksieper's Patent

Self-Acting Gas Regulator.

SOMETHING ENTIRELY NEW.

Patented 1864.

A brilliant and equal Light at a saving of 20 per cent. over any Gas Burner now in use.

This is not a Regulator to go on the Meter, but under every Burner in use.

Economy in the use of gas, with the advantage of having a more brilliant light than heretofore, is a point at once desirable. Inventors have for many years sought for this end by packing or checking in innumerable ways the flow of gas through the burner tips.

None of these has attained the result wished for, namely, "a pure, transparent flame, without waste at any and all pressures, obtained at any hour and in all localities."

The above results are fully obtained in

Brocksieper's Patent Gas Regulator.

We invite the most incredulous to examine and test in the most thorough manner.

RETAIL PRICE, EIGHTY CENTS.

A liberal discount made to Churches, Factories, Hotels, &c. The Regulators will be put on, and if they do not prove satisfactory may be returned. CHARLES T. EMERY,

U. S. INTERNAL REVENUE.

COLLECTOR'S NOTICE.

The Undersigned, Collector for the First Collection District in the State of New Hampshire, hereby gives notice to all persons concerned in THE COUNTY OF ROCKINGHAM,

that he has received for collection the THIRD ANNUAL DIVIDEND LIST within said District, made and committed to him by the Assessor thereof, in accordance with the Act of Congress entitled "An Act to provide internal revenue to support the Government, and to pay interest on the public debt," approved July 1, 1862, and the amendment thereto approved March 3, 1863; that the several duties, taxes and licenses assessed, enumerated and contained in said Third Annual Collection List have become due and payable; and that the undersigned, Collector for said District, personally or by deputy, will attend, for the purpose of collecting and receiving the aforesaid duties, taxes and licenses assessed and payable within said County of Rockingham, at the places within said County, and at the times designated as follows:

AT EXETER, at the Office of said Collector, August 8th, 9th, 10th, 11th, 12th and 13th, 1864, from 9 o'clock A. M. to 12 M., and from 1 to 4 P. M., for the purpose of receiving the amounts assessed and payable within the said town of Exeter, and the towns of Stratham, Kensington, Hampton, North Hampton, Hampton Falls, Seabrook, East Kingston, Kingston, Epping, Brentwood, Fremont, Danville, Plaistow, Atkinson, Newton, South Hampton and South Newmarket.

AT PORTSMOUTH, at the Naval and Surveyor's Offices in the Custom House, August 8th, 1864, from 10 1-2 o'clock A. M. to 4 P. M., for the purpose of receiving the amounts assessed and payable within the said town of Portsmouth and the towns of Rye, Newcastle, Greenland, Newington and Gosport.

AT NEWMARKET, at the Newmarket Bank, August 9th, 1864, from 10 o'clock A. M. to 12 M., and from 2 to 4 P. M., for the purpose of receiving the amounts assessed and payable within the said town of Newmarket, and the towns of South Newmarket, Deerfield, Northwood, Nottingham and Raymond.

AT SALEM, at the Depot, August 10th, 1864, from 9 to 12 A. M., and at Windham, at the Depot, from 2 to 4 P. M., for the purpose of receiving the amounts assessed and payable within the said towns of Londonderry, Chester, Auburn, Sandown, Hampstead and Windham.

AT RAYMOND, at Prescott's Hotel, August 11th, 1864, from 10 o'clock A. M., to 3 P. M., for the purpose of receiving the amounts assessed and payable within the said town of Raymond, and the towns of Candia, Nottingham, Northwood and Deerfield.

NOTICE is also hereby further given, that all persons who shall neglect to pay the duties, taxes and licenses assessed upon them as aforesaid, to said Collector or his deputy within the times above specified, will be liable under the provisions of Section 19 of the Act of Congress aforesaid, to pay ten per centum additional upon the amount thereof.

It is very desirable that persons having taxes to pay should remember the day and hour, as the Collector is instructed to enforce the law in all cases of delinquency.

Tax payers will provide themselves with Government currency, as only such will be received.

"A Wonderful Discovery."
DR. TEBBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

Local.

MR. MARCH'S TEAM.—When Mr. M. found his horses were stolen and had gone Newburyport-way, several teams were soon started in pursuit—Mr. March himself and Marshal Dresser being among the pursuers. $100 reward was offered for the recovery of the property, and arrest of the bold and foolish thief, by the owner. But none quite came up with him, for he had a smart team and a pretty good start; though Marshal Dresser was near him when he reached Newburyport.

The Herald states that "on Friday afternoon, about 2 o'clock, Marshal Flanders received a telegraphic dispatch from Portsmouth, stating that a span of horses attached to a buggy had been stolen, and that it was supposed they were on the way to that city. In the course of half an hour a vehicle drawn by two horses was seen to enter the bridge from Salisbury, when the Marshal took position at the toll-house and awaited the new-comer. As he approached the Marshal jumped into the buggy and took possession. In a few moments the thief was stowed away in the Station house. Marshal Dresser of Portsmouth soon appeared and took team and driver back to Portsmouth," the pursuers' teams and all making quite a procession, retinue or escort, to Greenland, where they arrived about midnight. The horses were in this city next morning, and thus did their fifty miles in three-quarters of a day, and were not at all abused or injured.

The prisoner calls himself G. A. Wing, and says he is a native of Canada, and 20 years old; that he came to Portsmouth to go for a soldier, and having no money, but desiring to go Boston, he took the first conveyance which came handy. We are informed by Mr. March that he expresses himself willing to be enlisted as one of Greenland's quota—and that half his bounty will go to pay the expenses attendant on his ride.

AN OLD WHIP—not one of the old stage drivers, human "whips;" we don't mean them—but something older than even the oldest of them. We have in our office "a whip for the horse," belonging to Mr. Joseph Moulton of this city, which was once the property of Governor Wentworth, and given by him to one of his horsemen. It is none of your modern bow concerns, but a regular handle and lash whip, of whalebone, buckskin, and silk; and the silver ferule on the butt is inscribed: "Joseph Moulton, 1764, to Joseph Moulton, jr., 1807." It has whipped Old Time for a century, and is in a good state of preservation still; but will have to go down before him yet. We should set as much store by it, were it ours, as the sportsmen of England do by the champion whip.

☞ Portsmouth was never so full of people, as now. The hotels are doing a large business, boarding houses are crowded, and tenements in great demand. Frequent applications are made at the watch-house for lodging by respectable men who can get no other accommodations for the night.

☞ The workmen at the Navy Yard are getting short of funds, as Uncle Sam has not paid them off for some time. But never mind—they'll have all the more when it comes; and the old gentleman is good for all he owes.

☞ A clothes-line at the South End was stripped on Tuesday night last; but the thief was probably frightened at something, (or nothing) for he dropped most of his dry goods (or wet goods) on the premises.

Another locality, on Middle street, was visited on the same night, and a clean sweep made of all the articles on the line. It is to be hoped that the petty thieves do not intend to fight it out on this line all summer, for if they make successful raids, how shall honest men be arrayed—except against the thieves?

☞ Don't forget that Band Excursion to *the* Lake, to morrow; and don't fail to go if you can. See advertisement—and remember the splendid music extra.

— Twelve hundred acres of timber land, on the Machias river, were burnt over during the drought.

— Collector Goodrich of Boston has given $25,000 to Williams College. Prof. H. H. Boody of New York has given $50,000 to Bowdoin.

— Hall's Journal of Health for August contains four Health Tracts for the season, and a sensible article on Retiring from Business.

— Mr. Thomas D. Shimmin, a wealthy citizen of Boston, while leaning out of the window of his residence on Beacon street, on Thursday, fell to the pavement below, a distance of about 40 feet, and died almost instantly.

— An Irishman, fishing in the rain, was observed carefully keeping his line under the arch of the bridge. Upon being asked the reason, he replied as follows: "Sure, an' won't the fish be crowding here to keep out of the wet, ye spalpeen?"

The Catholic population of the world is double the Protestant—the former 185,041,000, and the latter 95,915,000. The Catholic Church is one in form and faith and baptism all over the world, governed by an hierarchy composed of the ablest men, and from among these most pious, in Christendom. The college of Cardinals consists of 70 persons—six bishops, 50 priests, and fourteen deacons, and the elect one of their number to be the superior Pontiff at Rome. The present Pope has occupied the chair for 18 years, or since 1846: he is advanced in years and is in poor health, but he may yet survive for a long time.

"A Stitch in Time Saves Nine."
All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them. If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.
A full supply of Linings and Repair Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.
The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.
We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to
THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.
Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.
One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.
A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.
These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

Morning Chronicle.

— The distance from Chattanooga to Atlanta is one hundred and thirty-four miles; from Atlanta to Macon, where many of our prisoners are confined, is one hundred and three miles.

— A robin's nest was found lately in a tree at the Oneida community, which had interwoven in the structure twenty-nine ladies' collars, all of which had been purloined by the birds from the grass-plot where they were placed after the wash.

— A youngster in Newburyport observing a female whose dress trailed some fifteen inches on the pavement, informed her that she was losing an important part of it; and when informed of his mistake, the unsophisticated meddler replied that he couldn't help thinking so!

Please Look at This.

RYE, N.H., Feb. 26, 1866. "Thereby certify that my daughter has had the salt rheum for a number of years—some of the time quite bad—to prevent her labor, never even rots—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c. &c., but she has obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his HUMOR WASH, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the worst forms of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it." JONATHAN JENNESS.

PORTSMOUTH, April 21st, 1865.

I have for several years been afflicted with dis tress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which helped me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. MARY A. LOWD.

From ELDER I. CHESLEY, *Lee, May 31, 1861*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1859, she had been confined for a number of months, without her natural rest by day or night. She had suffered to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISAAC CHASE.

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. mav26

Constitution Life Syrup,
COMPOSED OF
IODIDE POTASSIUM,
With the compound concentrated fluid extract o
VALUABLE MEDICINAL
ROOTS AND HERBS,

Prepared by WM. H. GREGG, M. D.,
Graduate College Physicians and Surgeons, N. Y. formerly Assistant Physician Blackwell's Island Hospitals, late Medical Inspector New York State Volunteer Depots, under Gov. Edwin D. Morgan.

Constitution Life Syrup
HAS PRODUCED
A REVOLUTION IN MEDICINE!

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully invite the investigations of the liberal minded and scientific to cures which have no parallel at the present day.

Our medicine is peculiar, by it the seat of disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised nostrums, those who cannot be cured by other physicians—are

Invited to use Constitution Life Syrup.

During the past five years we have contended with obstacles and overcome opposition as heretofore, as ever encountered by any Reformers.

Rapidity of Cure.

Some say, "it cures too quick," while others doubt their permanence, and think that diseases can only be cured by the "slow recuperative process of Nature." This is our reply.

In health, the body is like a well-poised scale, it is in a state of equilibrium. But when from any cause down goes one side of the scale, we have the effect of disease. The Constitution is, to restore the normal balance of the scale.

CONSTITUTION LIFE SYRUP,

A positive and specific remedy for all diseases originating from an IMPURE STATE OF THE BLOOD, and for all diseases of a LOCAL DISEASE transmitted from PARENT TO CHILD.

Paralysis.

Hemiplegia, Paresis, Paraplegia, Paralysis Agitans.

It is so universally admitted that Constitution Life Syrup is the only effective means of restoration in the various forms of Paralysis, that we need not reiterate that it is emphatically the Great Life-Giving Power.

Dyspepsia.

Indigestion, Liver Complaint, Constipation, Weight at Stom'h, Biliousness, Want of Appetite, Costiveness, Bad Breath.

Scrofula.

Strumous, Glandular Swellings, Ulceration, King's Evil, Erysipelas, Salt Rheum.

This taint (hereditary or acquired), filling life with unfeeling misery, is by all usual medical remedies incurable.

Rheumatism.

Arthritis, Neuralgia, Gout, Lumbago, Sciatica, The Dolorous.

If there is any disease in which the Constitution Life Syrup is a sovereign, it is in Rheumatism and its kindred affections. The most intense pains are almost instantly alleviated—enormous swellings are reduced, and a cure effected, without the 10 or 20 years standing, have been cured by us.

Nervousness.

Nervous Debility, Confusion of Thought, Epilepsy, Loss of Power, Hypochondria, Mental Gloom, Death.

Thousands who have suffered for years will bless the day on which they read these lines. Particularly to weak, suffering woman will this medicine prove a sure friend, by directing their footsteps to a Hope which fulfils more than it promises.

Mercurial Diseases.

Salivation, Tremblings, Weakness, Wasting of Bones, Bad Complexion, Aches in Bones, Depressed Spirits.

Constitution Life Syrup purges the system entirely from all the evil effects of MERCURY, removing the Bad Breath, and curing the Weak Joints and Rheumatic Pains which the use of Calomel is sure to produce. It hardens Spongy Gums and secures the Teeth as firmly as ever.

Constitution Life Syrup

Eradicates, heals and cures all Eruptive Diseases of the Skin, like

ULCERS, PIMPLES, BLOTCHES,

And all other difficulties of this kind, which so much disfigure the outward appearance of both males and females, often making them a disgusting object to themselves and their friends.

CONSTITUTION LIFE SYRUP

Cures all Swellings of the Glands,

Either of the Face, Neck, or Female Breast, and should be taken as soon as the swelling is detected, thus preventing the disfiguring and sometimes troublesome Discharging Sores, which disfigure so many of the younger portion of the community. From six to twenty years of age, Young children are very subject to Discharges from the Ears, which depends upon a scrofulous constitution, which we can soon recover by taking a few doses of the Life Syrup.

All scrofulous persons suffering from Debility, Emaciation, Dyspepsia, Dropsy, of the Head or abdomen, and in the female Dropsy of the ovaries and womb, generally accompanied with inflammation, Ulceration and Cancer of the uterus; are permanently cured by Constitution Life Syrup. The disease known as Goitre or Swelled Neck, the Life Syrup will remove entirely. The remedy should be used in the early stage, and when the disease is exceedingly chronic and stubborn, and will not be removed without extra effort. Tumors of the Ovaries, Tumors of the Breast, and swellings of other glands of the body will be completely reduced without resorting to the knife or operations of any kind.

Epileptic Fits, Sympathetic or Organic Diseases of the Heart (as Palpitation, Disease of Valves—producing a great variety of symptoms), Dropsy of the Heart Case and all the affections of this important organ, or persons suffering from any acute pain in the region of the heart, will be greatly relieved by Constitution Life Syrup.

Broken Down and Delicate Constitutions, Suffering from Indisposition to Exercise, Pain in the Back, Loss of Memory, Forebodings, Horror of Disease, Fear of Pulmonary Consumption, Dry Hot Skin and Extremities, Want of Sleep, Restless and Pale Haggard Countenance and Languidness of the Muscular System, all require the aid of the CONSTITUTION LIFE SYRUP.

For all forms of **Ulcerative Diseases,** either of the Nose Throat, Tongue, Spine, Forehead or scalp, we know of no remedy that will equal

MOTH PATCHES upon the female face, depending upon a diseased action of the Liver, are very troublesome to many young wife and mother. A few bottles of Constitution Life Syrup will correct the secretion, and remove the deposit which is disfiguring the face of the skin.

In Diseases of the Liver, giving rise to languor, dizziness, indigestion, weak stomach, or an aliment of the Kidneys, or any other vital organ, accompanied with burning or other unpleasant symptoms, relief may be obtained by the use of CONSTITUTION LIFE SYRUP.

☞ *Purifying Agent, the Life Syrup stands unrivalled by any preparation in the world.*

Diseases of the Spine, as usually developed in the young, Hip Disease, Neuralgia, and all Nervous Diseases, and Ladies who are suffering from diseases for which they are at a loss to know what to do, we would say that the use of CONSTITUTION LIFE SYRUP. It will restore their pallid countenance, strengthen their weak back and side, give them new energy, new life and happiness.

THE RICH AND POOR are liable to the same diseases. Nature and Science have made the Constitution Life Syrup for the benefit of all.

PURE BLOOD produces healthy men and women, and if the constitution is neglected in youth, disease in early death are the results. Do not delay when the means are so near at hand, and within the reach of all.

TO MOTHERS AND MARRIED LADIES. It is the safest and most effectual medicine ever discovered for purifying the system and relieving the early sufferings upon delicate frames, it strengthens both the mother and the child, prevents pain and disease, and increases and enriches the blood—those who have used it, think it indispensable. It is highly useful both before and after confinement, as it prevents disease attendant upon childbirth.

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Gravel, Inflammation of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Fever Alias Ague Waites in females where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all its healthy purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and demulcent;* removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will send free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Sent by express to any address on receipt of price. Sold by all druggists everywhere.

THE GREAT
INDIAN MEDICINE,
COMPOUNDED FROM
ROOTS, HERBS AND LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Nervous Irritability, Dyspepsia, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all other fearful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with the astounds treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have tried with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not;* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

Price—Per bottle or three bottles for $5, and for warded by express to all parts of the world.

DR. WRIGHT'S
REJUVENATING ELIXIR,
OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the pure vegetable kingdom, being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.

A few doses cure Hysterics in females.

One bottle cures Palpitation of the Heart.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and full vigor of youth.

A few doses restore the appetite.

Three bottles cure the worst case of Impotency.

A few doses cure the low spirited.

One bottle weakness of a single organ.

A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will find immediate and permanent relief by the use of this Elixir or Essence of Life.

THE MAGEE COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large boiler for hot water, also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodeling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is, that the combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the dome can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

The Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Meadum,
Henry F. Wendell,	John Sise, and others.

The Chronicle.

☞ A paper wishing to be loyal, but yet dreadfully afraid Slavery will get killed, says:

This, therefore, is the ultimatum of Mr. Lincoln and the present administration. We can have peace whenever the rebellious States are willing to abolish slavery and come back into the Union.

It is true the peace may be made when the rebels do these things,—and the president says so—in his late proclamation "to whom it may concern."

The same paper then adds these hints:

If these States say they will again acknowledge the authority of the Union, and come back where they were before, that is not enough; they cannot come back until they shall consent to abolish slavery! And Mr. Lincoln says he will not treat for peace until they lay this down as a condition precedent.

The President has *not said exactly this*, though the papers of the copperhead persuasion have circulated it all over the country, and other papers have seemed to admit it.

When we sent out commissioners to Ghent, fifty years ago, they offered terms of peace to Great Britain, embracing three or four conditions, on which we would make peace. The British commissioners *rejected* every one of them, and then we made peace without any!

It is one thing to say we *will* make peace on a certain condition, and quite another thing to say we will *not* make peace without it!

The former the President has said; the latter he has not. We believe, however, that a vast majority of the intelligent *people* in the loyal States are convinced now that the rebellion and slavery must be crushed out together, or that they together will crush out the Union and destroy our republic. They have seen and felt bitterly the treachery, falsehood and domineering spirit of the oligarchy, and so have little hope of *real* healthy peace till the poisonous plant is dug up by the roots.

On the other hand, Jeff. Davis *has* said, recently, "Nothing short of Independence will satisfy us." And he might have added, that the grasping desires of the oligarchy which he represents never will be satisfied, as certainly they never ought to be. A few of his allies at the north understand the extent of his aim, and do all they can to aid him;—the great majority of their dupes do not, but they help him by their voices and votes.

— All the new lines of telegraph between eastern and western cities, have been consolidated under the name of the U. S. Telegraph Company. Capital stock, about two millions of dollars. James McKay is President.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under Act of 1857.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to procure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure them the largest and fairest consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such uninterrupted success proves the ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of whom was decided *in his favor*, by the Commissioner of Patents. R. H. EDDY.

VERNATELLA.
Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.
VERNATELLA
Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. Price 25 Cents Per Bottle, at retail everywhere.
But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.
☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.
Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dew.

Morning Chronicle.

TUESDAY, AUGUST 9, 1864.

THE REBELLION.

The rebels have tried Gen. Grant's game, having on Saturday morning sprung a mine under Fort Warren on the line held by the 5th corps. The fort was only partially destroyed. Our men had anticipated it, and had evacuated the place and mounted Quaker guns. As soon as the small storming party reached the opening, a most terrific enfilading fire opened on them. They lost largely in killed and wounded. Our loss was trifling. We took about 70 prisoners. The N. Y. Commercial Advertiser of Saturday evening says: "We have private information from Washington that Gen. Grant is making new and important movements."

The rebel ram Albemarle attempted to surprise our fleet, July 31, but was discovered, and retired to Plymouth, N. C. A report comes from there that our gunboats off Plymouth intended to give battle to the ram Aug. 4.

The report of the attack on Mobile is probably correct; the reports of successes gained are probably premature. The vessels off there are the flag-ship Hartford, 5 iron-clads, 8 screw sloops, including the Oneipee, 4 double-enders, one of which is the Sebago, 6 screw gunboats and 5 tugs—total, 32 vessels, carrying 231 guns. The rebels are said to have 4 iron-clads, 3 cotton-clads, one steamer, and four other small steamers, —total, 12 vessels with 50 guns.

The rebels are reported to have run away from Maryland in great haste on Sunday morning, their rear guard crossing at Shepardstown at 11 o'clock. The rest crossed at Hancock. They took four prominent Union citizens of Hagerstown as hostages for rebel citizens arrested by Gen. Hunter. Early has been moving up the valley towards Winchester with his harvest train.—He had been gathering grain and conscripts for a week. They are now all moving off toward Staunton.

Gen. Stoneman was captured by the rebels in Georgia, as stated.

Louisville is to have more defensive fortifications for possible contingencies.

CHEEKY.—We have heard an anecdote of two men who were one night at the Eastern depot in this city, talking about a horse which one wanted to sell the other. Buy my horse, says No. 1. What do you ask for him? inquires No. 2. A hundred and twenty-five dollars, replies 1. Whew! says 2—I'll give you seventy-five. Well, replies the seller, I never let a *small* difference break a trade; I'll take it. And the trade was made.

Now our lowest price for advertising in our Weekly is $5 an inch per year, cash in advance of course. But an obscure Advertising Agency in New York, one L. P. Fontaine & Co., sends us an advertisement which measures 8 inches, and being mostly comprised of an unsightly cut, for which we charge double, should really count 14 inches,—which would amount to $70 for the year, cash. Well now, what do you suppose they offer us for it? Why "$13 per year, less their commission of 25 per cent., and payable quarterly" at that. That is we are to send four receipts for $9.75, if we should ever get it. Ye Gods and little fishes! Was ever the like heard before? We don't like for a small difference to break a good trade either, but we can't discount quite three-quarters. For reference, they offer us the Boston Post and Courier; which would be satisfactory enough, if we asked or took *any* reference but the money now-a-days. Which reminds us of another anecdote. A certain clergyman or rector who had just come to Portsmouth, (this was eight or ten years ago,) and was imbued with the idea that the cloth ought to be paupers in the show business, though we don't see why—applied at the Cameronian lyceum, for admission. The door-keeper very properly asked for his ticket; upon which the Rev. bristled up, and replied that he was a clergyman, and could bring the best of reference. The ticket-taker replied that it was not reference he wanted, but tickets or money. So with us—"we want no trade (and will have none) except for cash."

By the way, those second hand, one-horse New York Advertising Agencies must think we down-east printers are green —(and some of the profession must be green, too, enough to accept some of their starvation offers, else the tribe would not persist in making them) for they keep sending advertisements, at prices which will hardly pay for setting the type. So far as we are concerned, they had better save their postage and express.

And while we have no regard for a mean Advertising Agency, we do like a good, strong, fair one, such as Niles, and Pettengill & Co. of Boston, and Pettengill & Co. and John Hooper & Co. of New York. But such as this Fontaine & Co., and Richardson & Co., we want nothing to do with, for we have no faith in men who want work done for nothing, and when it is done, won't pay even that.

EDITORIAL JOTTINGS.

Some of our friends, who do us the honor to read these crude and hurried "jottings," seem to think that the writer can't do much else beside go the rounds of his fancies and pleasures. But there are few men who do more work in a year than we [none *ought* to]; and it is only by taking time by the forelock that we are enabled to enjoy a brief respite from business occasionally.—We say this simply to show the can't-get-away club that most of them *might* go about much more than they do, if they really wanted to, and were willing to work and arrange matters to that end. We refer now to those who prefer to play part of the time, rather than work all their days and half their nights; for we pity if not despise those who have lost all love and relish for everything but business and money-making—like a friend of ours who really once had some musical taste and talent, but had pitched his tune so long on golden notes that he had lost all ear for sweeter, higher music; and on our inviting him to a concert, said, "No, I'd rather stay here (in his old shop), and pull in the change." Very well, or rather very sad—he is bound to his idol, and let him alone we suppose we must; but before we get so low, and so poor, and so base as that, we hope our ears will be closed to all earth's sweet sounds, and our hand forget all its cunning in grasping after filthy lucre! And we are sure that all business men might, as well as not, take double the time and occasions they do, for recreation, with their families and friends, and yet get through all the business they now do, would they but believe it.

Thus much for episode—now a word for a brief trip we made last week,—not this time into the country, but to "the city," though it was for rusticating we went, and not on business.

On Thursday morning, (after writing letters, and disposing of the Chronicle lists and other business interruptions to pleasure seeking—between the hours of half past three and six,) Conductor Philbrick's early train took us to Boston. Here, with a party of friends, and many other passengers, both ladies and gentlemen, we went on board steamer Bellingham, which plies between Boston and the military encampment at Galloup's Island, and of which our old friend Capt. Thos. B. Rand, formerly of Portsmouth, is military commander.—This sail of eight miles down the harbor, as far as the redoubtable Fort Warren, gave us a better idea of Boston's sea communications, and the numberless islands, than we ever had before; and with Capt. Rand to do the agreeable on the occasion, was a very enjoyable trip.

The bursting of a boiler flue detained us a couple of hours, but enabled us to see several of the captured blockade runners—the Greybound, Jupiter and others, and the Cunard English steamship, at East Boston.

Capt. Rand had before seen a year's hard service in one of the Massachusetts regiments, where the smell of gunpowder and the whizzing of lead prevails; but for the past year has been in command of this boat to transport men and supplies to and from the Island camp, where there are now about 2000 troops; and he has proved the wary and efficient officer the position calls for, to deal successfully with the thousands of substitutes and other troublesome men who come under his charge.

Among the latest additions to the troops at the island was a cargo of 400 German volunteers or recruits, who recently came in a British steamer from Germany, and are now in camp there. As the brokers paid them but $100 bounty [they were engaged at home to come over here "farming,"] and received $700 or more for them from towns, they made a very good thing of it, besides furnishing the Government with half a regiment of good soldiers.

A ride next day to Mr. Hunnewell's famous country seat, will be to us a joy forever, so many things of beauty did we see.—Our route was over the Worcester railroad to Newtonville, and thence per horse and carriage through Auburndale, Newton Falls, &c., to Wellesley. Here lives Mr. Hunnewell, in the most charming grounds we ever visited, and all open to the public enjoyment. At one entrance is a "rock-ery"—a natural and artificial ledge, covered with rare exotic and tropical plants of many varieties, and one of the chief curiosities of the place. All about, in the numerous bowers and hedges of all sorts of trees and shrubs, are to be seen the broad-leaf magnolia, and the black-leaf maple; while giant cactuses and the stately palm-trees of many varieties rear their stranger heads from mammoth pots.

But we shall attempt no description, or even enumeration of the beauties of this paradise. Driving in and leaving our team in the place assigned for visitors' horses, we roamed through the extensive domain at will. The Italian garden is a bold-rising shore of a beautiful lake—crescent shaped, and finely terraced—and abounding in superb flowers, rare shrubs, statuary, &c., an Eden indeed. On the pond float several boats; and at the extremity of quite a long wharf is placed a summer-house, surrounded by water.—The Chapel is an octagonal building, high up on a bluff; of the most beautiful and artistic rustic finish, inside and out, furniture and all complete—with two windows (of the four) of rich stained glass. It will contain quite an auditory, (though doubtless most of the sermons heard here are from the stones, and the most interesting book found in the running brook,) and the miniature temple must have cost a farm.

Here were rhododendrons, by the acre almost; verbenas, jillies, and everything else in proportion. The rose garden was in full bloom, despite the drought, and contained many rare specimens. It was, after all the wonders and rarities of the place, the gem of the whole scene. After a ramble of an hour or two, through the numberless paths and groves, we drove out a gate perhaps an eighth of a mile from our entrance; and as we went, could but be thankful that *some* of the possessors of wealth thus know how to enjoy it, by letting others help them by participating; and we also could not fail to compare the liberal, roomy mode of building so generally prevalent almost everywhere else, with the squat-up plan which in our good city leads every man who does build a house to jam it in between two others, somewhere, where there was not half room enough before. Alas!

On Saturday, a call on one in ten of the old friends we would *like* to have seen, as usual; a peep at the deer caged on the Common, on the way to the Public Garden; a look round that, and at the gloriously-battered and stained battle-flags of Massachusetts regiments, in the rotunda of the State House; a seat at the quarters of friend Wm. P. Harvey, on the premises of the Metropolitan Horse R. R., where they carry scores of thousands of passengers daily, (on the 4th of July counting up to nearly 60,000) and then for a day at Lexington, with Dr. Lewis, from which we anticipated much pleasure, and realized more. But of that to-morrow, if we get time. F.

— Gen. Ames was dangerously wounded on Saturday morning.

— Gen. Grant has been on a brief visit to Washington.

— There are more rumors of troubles in the Cabinet.

— The Mediterranean is twice as salt as the Atlantic.

— Maj. Gen. Franklin is ordered to Maryland.

— The Union officers placed under fire at Charleston have all been exchanged.

— The Baltimore American speaks encouragingly of the probable result of a fight on the upper Potomac.

— A man in Chickopee, Mass., makes three barrels of hair-pins per day, by machinery.

— Several schooners and luggers are reported to be on Lake Pontchartrain, capturing and burning fishing sloops.

— Three men in Westminster, Vt., lately sheared 700 merino sheep in three and a half days.

— The best three miles of trotting on record is that of Dutchman, who did it in 7m. 22 1-2s.

— It is claimed in Paris that eleven million of dollars worth of silks have been exported to this country the last year.

— Probably the oldest house of public resort in the United States is the Hancock House in Boston.

— Upwards of 1500 bales of cotton were destroyed by an accidental fire in a warehouse at Columbia, S. C., on the 31st ult.

— It is now stated that Gen. Stoneman succeeded in escaping from the rebels who captured his command near Macon.

— The rebels made a miscalculation at Petersburg on Saturday, exploding their mine five rods from our fort.

— A little daughter of Mr. Geo. L. Hill, of Auburn, died last week from injuries received by falling upon a pen-knife, which she held in her hand.

— There was considerable frost on the hills at Cummington and Windsor, Mass., on the night of July 21. At Cummington a field of corn was partially destroyed.

— The amount of subscription to the 7-30 loan up to Aug. 6 was $8,024,250. The subscription on Saturday amounted to $926,850.

— A man was arrested at Pittsfield, Mass, on Sunday and put in the lock-up for threatening to kill a man whom he caught kissing his wife.

— A curious writer in the Country Gentleman newspaper, says the end of a spotted dog's tail is always white; and that of a spotted cat, black.

— Emerson Etheridge of Tennessee, formerly Clerk of the House of Representatives, is stumping Illinois against the Administration.

— Hon. R. W. B. Cobb, of Alabama, who was elected a member of the first rebel Congress, was at Nashville on the 2d inst. He is said to be a Union man, and is reported to be on his way to Washington.

☞ It seems there is a new route to Philadelphia,—the Raritan and Delaware Bay Railroad Company. By the foolish and absurd laws of the State of New Jersey the Camden and Amboy Railroad Company have the exclusive right to convey freight and passengers from New York city to Philadelphia. The depot of the new company is located at Brooklyn, from which place they can legally take passengers. The new route is expeditious, cheap and pleasant, says a New York paper,—and we hope the public will improve it, and so shun the monopoly route.

☞ By New Zealand papers of April 30, received from our correspondent, we notice that the rebellion there is spreading, and that "the rebels along the whole line of the east coast are in arms." Misery loves company—we have a slight rebellion here.

Proceedings relative to the World's Fair, to be held in New Zealand in 1865, occupy a large space in the papers.

— The people of Salem were alarmed one afternoon last week by the appearance in the harbor of "a long, low, black, rakish," and altogether very suspicious looking craft, that worked slowly up the channel Sunday all the way, and when nearly within range of the guns of Fort Lee, suddenly went round and stood out to sea.

Ayer's Cathartic Pills

Are the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effect here abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow disorder, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with health to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our preparations contribute immensely to the relief of our afflicted, suffering fellow men.

The Agents below named are pleased to furnish gratis our American Almanac, containing directions for their use, and certificates of their cures of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Dyspepsia or Indigestion, Foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a state of the body or obstructions of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by J. C. AYER & Co., Lowell, Mass., and sold by Brackett Hutchings, J. H. Thacher, W. R. Preston, David Kimball, and all druggists.

Brocksieper's Patent

Self-Acting Gas Regulator.

SOMETHING ENTIRELY NEW.

Patented 1864.

A brilliant and equal Light at a saving of 30 per cent. over any Gas Burner now in use.

This is not a Regulator to go on the Meter, but under every Burner in use.

Economy in the use of gas, with the advantage of having a more brilliant light than heretofore, is a point at once desirable. Inventors have for many years sought to attain this end by packing or checking in innumerable ways the flow of gas through the burner tips.

Not one of these has attained the result wished for, namely, "a pure, transparent flame, without waste at any and all pressures, obtained at any hour and in all localities."

The above results are fully obtained in

Brocksieper's Patent Gas Regulator.

We invite the most incredulous to examine and test in the most thorough manner.

RETAIL PRICE, EIGHTY CENTS.

A liberal discount made to Churches, Factories, Hotels, &c. The Regulators will be put on, and if they do not prove satisfactory may be returned. CHARLES T. EMERY

DR. TEBBETS' "PHYSIOLOGICAL HAIR RESTORER" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE!" and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely obstructed. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "RESTORATIVE" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days

Local.

AN INTERESTING OCCASION.—Rev. Mr. Patterson's familiar talk on the war, or what he saw of it on his recent mission, drew an audience which crowded his church, Sunday evening; and his thrilling recital was listened to with the deepest attention and sad interest. He proved a faithful messenger indeed, and those who were instrumental in adding to his powers of doing good reap rich reward in his success.

He mentioned with honor Mrs. Marden of this State, and a young lady who has long left her pleasant and easy home at Sagamore in this city, to share the perils of life and health at the hospitals. We wish every citizen could hear Mr. Patterson's story in some way.

☞ Lieut. Com'r Edward Y. McCauley, U. S. N., has been ordered to temporary duty at the Portsmouth Navy Yard.

Lieut. Com'r Thomas C. Harris has been detached from the command of the Mingoe, and ordered to the command of the Yantic.

☞ Mr. Henry Peyser, an exempt, on Monday put in a representative recruit,—the first of our citizens to perform that patriotic service. The number of men enlisted at the Provost Marshal's office averages about thirty daily.

☞ Corp. James W. Plaisted, of this city, has been promoted Orderly Sergeant, Co. D, 3d. N. H. Regiment.

NEW HAMPSHIRE ITEMS.

—— The Legislature meets to-day—Tuesday.

—— Hon. Frederick Smyth of Manchester has put in a representative recruit.

—— Over thirty young men of Concord have pledged themselves to enter the Navy for one year, and others will follow.

—— The Union men of Bath a few days since ran up a flag bearing the names of Lincoln and Johnson. At night the ballards were cut, probably not by a member of that party.

—— A letter to the Manchester Union from the 8th regiment, states that they have been changed into infantry again, and are at Carrolton, La. Capt. Healey has resigned.

—— Among the recent dismissals from the army reported are those of Capt. Thomas C. Trumbull, 10th N. H. Regiment, for signing false certificates; and Lieut. Michael T. Maguire, same regiment, for drunkenness.

—— There will probably be a State encampment of N. H. Militia this fall; and if held at all, it will no doubt be at Portsmouth, as arranged last year. Can any one tell why the Horse Guards should not be considered as part of the Militia of the State; and receive the same proportionate pay, when ordered out with the rest?

—— Capt. Robert L. Ela, of Concord, commanding the 6th regiment, was one of the wounded in the charge on Petersburg after the blowing up of the fort on the 30th of July. He was struck in the thigh by a spherical case shot, which severely bruised without fracturing the limb. He is still with his regiment. Capt. Ela was severely wounded at the second Bull Run battle, from which he is still a sufferer.

—— The names of Daniel S. Dickinson and Ex Senator Preston King, are mentioned in connection with the Union nomination for Governor of New York.

— A storm at Hong Kong early in June destroyed $500,000 worth of property and a large number of lives. A waterspout at Whampoa drowned 200 Chinese.

— The Boston Saturday Evening Gazette is fifty years old. May the editors live to see it complete its century, and not grow "old" themselves.

—Mr Thomas Jenness, one of the leading merchants in Bangor, died at his residence in that city on Saturday morning. He had occupied the same stand between thirty and forty years

— A Callao letter of the 13th says: "The Government has reconsidered its determination of keeping all the ships awaiting cargoes in this harbor, and soon after the sailing of the last steamer, commenced dispatching them for the islands. Fifteen have already left for the Chinchas, and the balance all leave, if nothing prevents, within their lay days."

— A gentleman in Hartford, on Wednesday, found five chickens hatched in his pantry, from eggs purchased of his grocer. They had been placed near a chimney which completed the work begun by the hot July sun. So says the Hartford Times, which adds that the owner of the chickens has refused an offer of $5 apiece for them.

— On Saturday, July 23, Mr. Reedy, father-in-law of John Morgan, and formerly the representative in Congress from Tennessee, took the amnesty oath. He has been the head of all the rebels in Murfreesboro', who seemed to move under his guidance. He said he "regarded the Southern Confederacy a failure, and though once honest in its support, would now gladly return to the old Government."

ROBBERIES.—The residence of Rev. Joseph Driver in Salem was robbed on Thursday last. A man called at the house and falsely stated that Mr. D., who is a chaplain in an army hospital, was very sick at some point which he mentioned, and desired his wife to come on immediately. Mrs. Driver was at church, and the woman at the house went to the meeting house to notify her. On her return home, she found that the house had been entered and robbed of clothing and other articles. Another house was robbed on Friday afternoon of about $65 in money and $150 worth of jewelry and plate, during the temporary absence of the family. A house in South Danvers was entered on Friday night, and a pocket book, containing $400, taken from the pocket of a pair of pantaloons.

Collector Washburn, during his remarks at the meeting of the merchants at the Exchange on Saturday, stated that he understood it was the intention of the government to make Portland a fortress. It was for that purpose that work was suspended upon Fort Preble. The work would be finished eventually but upon different plans, making it smaller. Mr Washburn also said he understood that there were to be some five or six more forts and fortifications constructed, rendering the city impregnable both landward and seaward. We learn that important changes will be made upon Fort Scammel, and Fort Gorges will be altered slightly. The reason of all this is perhaps owing to the fact that there is a new man at the head of the engineer department.—*Argus.*

— Some New Yorkers are engaging in a movement to supply the soldiers with tobacco and pipes.

The inventor of Herrick Allen's Gold Medal Saleratus must be the happiest man in existence, for we hazard nothing in saying that the use of the Gold Medal Saleratus cannot fail to make a happy household. Our better half says she does not tear of our ever trying, as long as she can get the genuine Herrick Allen's. We say success to the inventor, and if everybody knew how good it is, no other would be used. A good many of our Merchants have it. Their depot is 112 Liberty Street, New York.

HUNNEWELL'S STANDARD PREPARATIONS.—On our inside columns will be found a notice of these justly celebrated and standard preparations, of unbounded reputation in New England, profess only what they are remedies for, are for sale by all wholesale and retail dealers, and confidence is asked to test them. "A Stitch in Time Saves Nine."

All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.
We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to
THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.
Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.
One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.
A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.
These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in the city and vicinity, and give the best of satisfaction.

Morning Chronicle.

☞ The Rev. Dr. Duncan Dunbar, for many years pastor of the Macdougal street Baptist Church, New York city, died in New York, July 31, at the age of seventy-three years. He was a native of Scotland, but has been in this country nearly fifty years. He was for a short time the preacher in Portsmouth: and is remembered here as an earnest speaker, of decided doctrinal views, on which he laid great stress. He was the oldest Baptist minister in New York city, and an influential man there.

The benevolent ought to remember that at this period of the year the weather is exceedingly disastrous to life and health on the coast of South Carolina and on the Mississippi river. We must have 8000 sailors and marines stationed in those latitudes, and some vegetables from friends and well-wishers at home will be a godsend to them.—*Boston Journal.*

A recent Paris Charivari has the "unkindest cut" that England has ever received from its hands. It is entitled England's Crockett. The English lion, with the royal crown upon his head, with the tamest and most subdued expression, is marching into its den, reduced to a mere dog kennel; while a military figure, representing the Holy Alliance of Russia, Austria, and Prussia, whip in hand, stands over him. This print is a most capital picture of the public opinion of France just now with regard to England on the Danish question.

— A Buffalo alderman drafted got a convict pardoned under promise that he would serve as a substitute. But the convict, fairly out of jail, vamosed, leaving the alderman to reflect upon the wickedness of human nature.

— There is a large room attached to the picture-gallery of the Paris Industrial Palace, in which pictures rejected for the latter are placed, so that artists who feel aggrieved can seek for praise from a less fastidious public.

— The Calais Advertiser says that the new City Hall building in that city is progressing finely, and, when finished, will be a lasting monument to the enterprise, energy, and perseverance of the ladies of that city.

DR. S. O. RICHARDSON'S

BLOOD ROOT ELIXIR

Has been thoroughly tested and proved in his medical practice for the space of FIFTEEN YEARS, and is now presented to the public as an effectual cure for

COSTIVENESS,

and the best remedy ever prepared for

Diseases of the Liver,

SCROFULA,

All Humors and Impurities of the Blood, and Diseases of the Skin.

The preparing and combining the Blood Root Elixir, is attended with results to medical science next in importance to the inhalation of ether in surgery. Roots and plants, in themselves purgent and disgreeable, by a process of scientific refinement of extracting (in vacuo) rendered MORE EFFECTIVE IN THEIR OPERATION, entirely divested of the griping and distressing pain which attends the action of all other purgative medicine. They are also made to become HIGHLY PLEASANT AND AGREEABLE TO THE TASTE,

and by their peculiar combination work so perfectly in HARMONY WITH NATURE that no unpleasant reaction will follow its operation It also possesses

A Diffusive and Alterative Effect,

which can only be attained by medicine in a fluid state. These are new elements in purgative medicines.

The hard and compact manner in which pills are prepared renders them indigestible—and when taken are found through the stomach and bowels, half-dissolved, manifesting only PARTIAL ACTION, thereby creating irritation and pain to the parts connected with their passage.

One pill dissolved, and diffused, will produce more medicinal and physical effect than five in a crude state.

The BLOOD ROOT ELIXIR has no partial action upon the bowels, but is diffused throughout the whole circulation of the blood, imparting a healthy and invigorating action to the STOMACH and BOWELS, LIVER, LUNGS, KIDNEYS, and gently stimulating the vascular and morbid secretions through the whole system.

A single dose will produce a copious and exhilarating COMMOTION, which will inspire the patient with confidence and assurance of IMMEDIATE RELIEF. A continuance for a short period will DRIVE the disease from the bowels to the surface of the skin, and relieve or check SCROFULOUS AFFECTIONS—and by thus purifying and ameliorating the blood, will remove the most obstinate

CAUSE OF CONSUMPTION.

It incites the various organs of the system to set their allotted part, removing the causes which induce RHEUMATISM AND GENERAL DEBILITY, HEADACHE, LOSS OF APPETITE, DYSPEPSIA, COSTIVENESS, and the various diseases which arise from a derangement of the stomach and Bowels, and restricted circulation of the Blood.

COUGHS and COLDS, in their early stages, will immediately yield to the effect of the Elixir.

The BLOOD ROOT ELIXIR contains no mineral, no powdered botanical element, no caustic, but stimulates the secretions by its mild diffusive action. It is an effective and painless operation—has a decided, salutary action upon the Liver, and *there has been no medicine prepared for common family use which possesses equal merit.*

Travellers, both by sea and land, will find the Elixir a complete antidote for the ennui to which they are obliged to endure from a change of climate, of water, or of diet.

See the pamphlet around each bottle for a history of the Elixir.

The proprietor of the Blood Root Elixir, (Dr. S. O. Richardson,) has been long and favorably known to the public by his celebrated SHERRY WINE BITTERS, the best tonic medicine ever discovered, and which has been in use ever thirty years. He is a graduate of the New Hampshire Medical College, and many years associate member of the Massachusetts Medical Society, and has made the study of medicine his profession since 1822.

And so fully convinced is the Doctor of the wonderful curative effects of his Blood Root Elixir, that he hereby offers to each and every person who will use one-half of a bottle of his Elixir and not be conscious of a good effect therefrom, to refund to said person the consideration which he paid for the same, by returning the village bottle to his office.

Price $1.50 per Bottle.

Sold in Portsmouth by J. H. THACHER, opposite the Post Office, and 12 Market Square; and by Dealers in Medicine generally, and at Dr. Richardson's Office, No. 51 Hanover street, Boston. aug—3moo&W

SPEER'S

SAMBUCI WINE,

PURE AND FOUR YEARS OLD,

OF CHOICE OPORTO FRUIT,

For Physician's Use, Females, Weakly Persons and Invalids.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs; very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by physicians and chemists as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

☞ None genuine unless the signature of "ALFRED SPEER, Passaic, N. J.," is over the cork of each bottle.

Make One Trial of this Wine.

For sale by **W. R. Preston**, Portsmouth. The trade in Boston supplied by G. C. Goodwin & Co. and Weeks & Potter.

CURES FROM ONE TO THREE DAYS

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhea, and is especially recommended in those cases of Fluor Albus (or Whites in females) where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an aid to or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and detersive*; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the so-called quick injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any druggist in the country, or write to us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

THE GREAT

INDIAN MEDICINE,

COMPOUNDED FROM

ROOTS, HERBS AND LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Impotency, and all diseases arising from self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the diseases consequent upon departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

Those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, and write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

DR. WRIGHT'S

REJUVENATING ELIXIR.

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.

A few doses cure Hysterics in females.

One bottle cures Palpitation of the Heart.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and full vigor of youth.

A few doses restore the appetite.

Three bottles cure the worst case of Impotency.

A few doses cure the low spirited.

One bottle restores mental power.

A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing victims of indiscretion or pleasure.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

CHEROKEE PILLS!

SUGAR-COATED.

FEMALE REGULATOR.

Health Preserver!!

CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and the Insurance of Regularity in the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause and with it ALL the effects that spring from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate, their function being to substitute strength for weakness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period, *except during the first three months*, during which the unfailing nature of their action would infallibly *prevent* pregnancy.

All letters seeking information or advice will be promptly, freely and discreetly answered.

Full directions accompany each box.

☞ Price $1 per box, or six boxes for $5.

Sent by mail, postage free, on receipt of price.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The draft is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove; as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The fire or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on one side of the fire can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the destroyer of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert K. Hatch, Esq., Aaron H. Hill, Charles H. Mendum, Henry F. Wendell, John Sise, and others.

ESTABLISHED 1852. PORTSMOUTH, N. H. WEDNESDAY, AUGUST 10, 1864. VOL. XXV. No. 34.

The Chronicle.

—"M B G." writes to us from Washington as follows: "The painful fact that M. J. Geo. P. Folsom, of Dover, Paymaster of the army, has been thrown into the old Capitol Prison as a defaulter, has been made public. Maj. Folsom was made paymaster in June, 1861, and has been held in high estimation by the Department as a correct and reliable public officer. The facts in the case are, it is believed, substantially these: While stationed at Newbern in 1863, he took from the Treasury, on one occasion, $800,000 and having no time then to count it, went immediately to work, disbursing it to the other paymasters in the department, in large sums, finding—when he came to make up his account—that he was short some $8,000 this clerk, Mr. Charles Wilson, now paymaster, revised the whole account, and confirmed the fact of the deficiency. Maj. Folsom in much distress communicated the matter to confidential friends in Washington, and finally contrived to keep quiet, hoping the deficiency would somewhere be found in the examination of his account by the Government. Recently, at New Orleans, he notified the senior paymaster that there appeared to be a deficiency in his account of $10,000, and asked to be sent to Washington to have his accounts adjusted. He was ordered to Washington immediately, and since his arrival has been arrested and incarcerated in the Old Capitol. I understand that he professes a readiness to make good any deficiency that shall appear on full investigation. He is well known, here and everywhere, to be a man of the most unexceptionable habits; prudent, economical and temperate. Maj. Wilson testifies that such are his impressions of his character, and that he has never seen aught to make him suspect for a moment that he ever used a dollar of the government money in speculation. Under this statement of the matter Maj. Folsom's friends are hopeful that a thorough examination of his accounts will relieve him from the apparent defalcation; and that he will be in due time again assigned to duty."—*Concord Statesman.*

☞ On Monday night July 31, in New York City, a very serious collision occurred between a gang of rowdies and the police. It began early in the evening, in a lager beer saloon, *alias* Sunday drunkery,—and an officer who attempted to quell it was attacked,—but the police arrested three ringleaders. Afterwards, they were again attacked by a large crowd of roughs, led by one Michael Crane. The officers were knocked down, and very badly beaten, when they drew their revolvers and fired on their assailants. Crane was shot, and died while being conveyed to the station house,—a very appropriate end of the row.

Allow me, said a host in his most persuasive tones to a friend dining with him, allow me to help you to a piece of Washington pie. "Sir," replied the gentleman oratorically, waving his napkin, "George Washington was first in war, first in peace, and first in the hearts of his countrymen. I admire him for his purity, his piety, and his patriotism, but I detest his pies."

SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Research made into American or foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is HOME SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that of no other office of the kind are the charges for professional service so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

Hence, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay thereby, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable decision at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. E. H. Eddy has made for me THIRTEEN applications, all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability in this profession, I cannot withhold from inventors, to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made no *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of them was decided in *his favor*, by the Commissioner of Patents.

WEDNESDAY, AUGUST 10, 1864.

THE REBELLION.

The Richmond Sentinel gives rebel official accounts of great Union success at Mobile. The rebel Gen. Maury reports under date of Aug. 5, that 17 of the Union vessels—3 ironclads and 14 ships, passed Fort Morgan on that morning, although the monitor Tecumseh was sunk by the Fort. The rebel ram Tennessee, on which they had counted so much, surrendered after a desperate fight. Its commander, Adm. Buchanan, lost a leg and is a prisoner. Of the other rebel iron clads, the Selma was captured, and the Gaines beached. The Union fleet had approached the city, and a monitor had been engaging Fort Powell all day. Richmond papers of Saturday announced that our forces had taken possession of Dauphin Island, south of the harbor and in the rear of Fort Gaines.

Gen. Averill overtook the rebel raiders near Moorefield on Sunday, attacked them, and captured all their artillery and 500 prisoners. Gen. Averill's loss was only 7 men. He utterly routed the rebels, and captured Gen. Johnson, (though he afterwards escaped,) and his whole staff, with their headquarters colors, and all the rebel artillery trains and a large number of small arms. He pursued them 24 miles, but his horses were too exhausted to follow them into the mountains.

General Sheridan has been placed temporarily in command of a new division, called Middle Military Division, consisting of the department of Washington, Middle Department, and Departments of the Susquehanna and Northwestern Virginia. His headquarters are at present at Harper's Ferry, and he commands all the forces in the field.

The invasion panic has subsided. It is thought by some that the movement was a feint to cover the sending of reinforcements to Hood. Gen. Kelly's victory at New Creek on the 4th was quite decided. The rebel loss was very severe. They retreated during the night, leaving their killed and wounded in our hands. Our loss was light. Gen. Wallace has been in command of the 8th corps.

5000 rebels, under Cooper and Standwaite, with 12 pieces of artillery, made a demonstration against Fort Smith, Ark., July 31. Gen. Thayer went to meet them, with cavalry, infantry and artillery, and in half an hour had completely routed them, driving them from the field. Our casualties were small. Aug. 1 the rebels were in full retreat, pursued by our cavalry. Fort Smith is thoroughly fortified.

We again have reports of important movements by Gen. Grant.

Preparations are making at Buffalo to resist an anticipated rebel raid from Canada.

— The Mobile news brought gold down to 253 3-4.

— An unknown iron plated ram, bearing the U. S. flag, passed the Isle of Wright to the westward July 26th.

— There is double the amount of flour and grain now in store at Chicago, there was last year at this time.

— Paymasters are to take three millions of greenbacks to the Army of the Potomac immediately.

— The receipts from internal revenue last week averaged about one million per day.

— Prof. Snell, of Amherst College, who has kept a meteorological register for 28 years, says that Monday, the first of August, was the hottest day during that period.

— Illinois has sent to the army over 180,000 three years' men and 35,875 over all calls excepting that of July, 1864, from a population of 1,700,000.

— On Friday a Boston lady, visiting Newburyport, started in a coach for the depot, but on reaching it she was found faint and speechless, and died before the coach could return to the house.

— Judge Russell of New York has decided that Gen. Dix, in suppressing the Journal of Commerce and World newspapers, is amenable to the civil law, and that the case must go to the Grand Jury.

— The N. Y. Tribune says it is currently reported that a difference between two Major Generals, as to which should rank and command the other, was the main cause of our late sanguinary repulse before Petersburg. Before the dispute could be authoritatively settled, the golden moments had passed.

— Adm. Dahlgren has published a letter in relation to the orders alleged to have been found upon the body of his son, Col. Ulric Dahlgren. Having procured a lithograph copy of the document, the Admiral pronounces it a "forgery—a barefaced, atrocious forgery—so palpable that the wickedness of the act is only equalled by the recklessness with which it has been perpetrated and adhered to."

GOVERNOR'S MESSAGE.

The Legislature assembled in special session at 11 o'clock on Tuesday forenoon, Speaker Chandler in the chair. Benjamin Gerrish, Jr., Clerk, was absent by reason of sickness, and Edward Sawyer, Esq., of Concord, was chosen Clerk pro tem. Two hundred and fifty-two members responded to the roll call. A message from Gov. Gilmore was then read by the Clerk. The message is as follows, as telegraphed to the Boston Journal:

Gentlemen of the Senate and House of Representatives:

I regret exceedingly the necessity which compels me, so soon after the close of the longest session which our Legislature has held for many years, to summon you to reassemble in this place. I have not created that necessity; I do not think I have exaggerated it. It exists, beyond all question, by no action or failure to act on my part. I foresee, if it is true, while you were yet in session, the inadequacy of your legislation on many important points, to meet the ends which all loyal men professed a desire to accomplish.

I remonstrated in the strongest terms with prominent members of the Legislature against the passage of bills which have since become laws. I was willing even to meet the members of the Legislature in conference, and submit to them the arguments which induced me to differ from them on some matters of vital importance. I ought, perhaps, to have interposed a veto upon some measures which were adopted, and thrown the responsibility of their final enactment where it justly belonged. But unwillingness to further prolong the session—the scanty time allowed me for consideration—the thought that your judgment might be better than my own—the comparative certainty that a veto would afford but a temporary obstacle to the passage of any act which you had once endorsed—induced me to give a reluctant assent to certain bills which I regarded with about as much favor when I signed them as I do now.

I do not propose, gentlemen, to call your attention to any new subjects of legislation. I would not even call up those subjects—such as the assumption of the town debts, the Agricultural College, the redistricting of our representation and the right of soldiers to vote—which demanded but did not receive action at your hands during your recent session. Their consideration at the present time would perhaps be a greater impertinence than their previous neglect.

But I do call upon you in the name of the people of New Hampshire, in the name of the cause of God, to give us in place of the crude, incomprehensible and unsatisfactory "military bill" which was hurried through at the very close of the last session, some act which can certainly be understood, and may possibly enable the executive department to meet the demands of the general government upon us. I call upon you to devise some means of replenishing the Treasury which you have so carelessly guarded.

A brief statement of the circumstances in which I found myself after the close of your protracted session will best indicate my decision to call you together again to revise and perfect your work, and may indicate what legislation will be required at your hands.

Your honorable body, by the enactment of a law more stringent in its provisions than that of any other State, provided that no claim upon the State Treasury should be paid without the examination and approval of "Auditor of Accounts." Even salaries fixed by statute law (with the exception of your own pay and that of the Hon. Council,)—even disbursements ordered by yourselves must receive the sanction or I could not draw my warrant for their payment. And yet no such officer existed in the State. Claims in regard to the correctness of which there was no question, which you had yourselves endorsed, could not legally be satisfied. There were in camp in this city, five full companies of three years' men, ready to go to the front and needed there, who could not receive the bounty which you had voted them and forwarded to their regiment, because you had neglected to designate the proper official to go through the empty form of endorsing their demands.

In this emergency I summoned the Judges of the Supreme Court, and asked if I might legally make an appointment to the office which you had created but failed to fill. Contrary to general anticipation, they advised me that I might make such appointment, and acting with the advice and consent of the Executive Council I have done so. Mr. Edwin S. Barrett has given bonds in the excessive sum required by law, and already entered upon the duties of his office as "Auditor of Accounts." But now that I have access to the Treasury I find it empty, and likely to be so without further and more generous legislation. The Finance bill, enacted last session, proves utterly inadequate to meet the exigencies of the occasion. It limits the amount of interest which we are allowed to offer to six per cent., while the United States has just thrown upon the market a loan of 200 millions at seven and three-tenths per cent., with an apology for offering no higher rates, and the very best business paper can only be cashed by paying eight to nine. And yet we are forbidden to dispose of these bonds for less than par. We cannot even avail ourselves of favorable circumstances and dispose of them at a premium, without throwing them into an open market. We are allowed to employ no agents for the disposal of our bonds, while the United States pays one quarter per cent commission on the sale of its securities. Then the very long time which must elapse before the maturity of these bonds tends apparently to make them an unpopular investment; and capitalists whom I have consulted assure me that greater confidence would be felt in the sinking fund which the finance act creates if provisions were made that $50,000 per annum should be lodged in the hands of permanent trustees, to be designated by the Legislature, and by them securely invested to meet these bonds at maturity.

I would urge upon you that the time is past when New Hampshire State Sixes will bring 15 per cent. premium, and that every moment's delay modifying our action may possibly cause our State to suffer from increased stringency in the money market. There can be no doubt that the present is the best time to fund the State debt, and I desire only such modification of the finance act as will enable us to do so.

The act, as it stands at present, and in the present condition of the money market, is a nullity, and might as well not have been passed. By an increase of the rate of interest you have authorized me to offer, or by removing the restriction which forbids the disposal of these bonds for less than par, you can meet the emergency. I have hopes that a large proportion of the amount of bonds which you authorize, bearing interest semi-annually at 6 per cent., might, with the guaranty of an adequate sinking fund, be disposed of at par, if made payable one million in twenty years, one million in twenty-five years, one million in thirty years, and half a million in thirty-five years. The discount on the whole amount would be slight. It would be more in accordance with my ideas, as a business man, to offer no more than 6 per cent. interest, and leave these bonds to be disposed of at the discretion of the Governor and Council to the best advantage of the State. As a supplement to the Finance Bill a joint resolution was passed at your late session, empowering the State Treasurer to borrow a million and a half of dollars for the immediate wants of the State, at a rate of interest not exceeding 6 per cent. The State certainly wants thus much money immediately if I am to pay upwards of three millions in bounty to meet the present requisitions upon us for troops. And this, as I understand it, the Military bill authorizes me to do. But it is not so easy a task as it seems to borrow a few hundred thousands even for the use and benefit of the State of New Hampshire, at two or three per cent. less than the current rate of interest, and with no guarantee for payment but the Treasurer's note. "The pledge or hypothecation" of bonds as yet unsold might facilitate the operation; but that you have strictly prohibited. In this emergency I know of no better course than to authorize the State Treasurer to call upon all the banks in our State for the loan of each percentage of their capital as may supply this temporary demand without seriously embarrassing their ordinary business transactions. I know not whether the opinions of legal advisers would sanction this measure, and am especially in doubt whether its adoption would not compel us to discriminate unjustly in favor of national banks within our borders. But something must be done, and that with as much speed as is consistent with due consideration. What action is demanded in this emergency, I leave it to your wisdom to decide.

While I am thus practically destitute of funds to carry on the business of the State, a call is made by the General Government for 5502 men from the State of New Hampshire, and, on turning to the Military bill enacted at your recent session to inform myself what measures I am permitted to take to meet this requisition, I find myself utterly unable to understand its provisions, even if I had the means to carry them into effective operation. Nor can I find any one rash enough to attempt its exposition. I have, however, issued my proclamation announcing the payment of the largest bounties authorized by the act, and commissioned agents to recruit for the State of New Hampshire in the insurgent States of our Union. I do not, however, regard the bounties offered as adequate to the end proposed, nor do I anticipate any great success in recruiting in insurgent States under the system inaugurated in this act. Very few men will enter upon a distant and untried service without a guarantee that their expenses, at least, shall be paid. The law gives them no such guarantee; nor does it authorize me to place any money at their disposal to pay bounties, even if I had it at my command. Again, the law is in open violation of the first paragraph of the "Regulations for Recruiting in Rebel States" issued seven days before its passage. That paragraph reads as follows: "Experience has shown that these agents should not be paid for each recruit, but should be allowed a fixed compensation for their services; otherwise fraudulent measures may be resorted to for the pecuniary benefit of the agent, to the great prejudice of the State and military service." How long the agents whom you authorized me to appoint would be permitted to recruit for New Hampshire in the very teeth of this stringent regulation of the War Department is a problem of very easy solution. In point of fact I know of only two of the recruiting agents whom I have appointed that have as yet entered upon their duties; one of them has filled the quota of his town with money advanced by selectmen in palpable violation of the military bill as I understand it. The other writes me that he can get men enough if we will only give him the money to pay their bounties.

I do not find that your legislation has put a stop to that unhealthy competition between cities and towns which has wrought so much mischief in the past. Those towns which voted excessive bounties before the passage of the military bill still continue to pay them with the sanction of the best legal advisers. Other towns manage to evade the law in order to place themselves on an equality with their neighbors. The price of substitutes at our State Capital is $1000, and these men are in most cases such as will prove a curse to our army. The quota of New Hampshire lacks 5000 men of being full. Only twenty-three working days intervene between the date of your assembling and an inexorable draft to meet all demands upon us. In consideration of these facts I can but express a hope that the present cumbrous and inefficient act, which I cannot criticize minutely because I cannot understand it, may be supplanted by some simple, economical and feasible plan for making the most of the few days that yet remain in which to fill our quota by voluntary enlistments. And, I appeal to you, gentlemen, as you shall answer it to your constituents, to throw aside all partisan feeling, local jealousies and personal spite, and do your utmost to repair the immense injury which your hasty and injudicious legislation has inflicted upon the people of this State. Let your action be as prompt as may be; but let it not be so in-hasty as to demand revision within a fortnight.

COUNCIL CHAMBER, Concord, Aug. 9.

The severe strictures of the message caused considerable sensation among the members. Applause followed the conclusion of the document.

NEW HAMPSHIRE ITEMS.

—— Concord is again the rendezvous of drafted men, etc., in this State.

—— Col. Walter Harriman, of the 11th regiment, was among the officers recently exchanged at Charleston.

—— Washington correspondence says that Col. Henry O. Kent of Lancaster, Postmaster of the U. S. Senate, has been removed by the Sergeant-at-Arms, and a German Assistant Postmaster appointed to fill the vacancy.

—— There was considerable excitement at Fisherville, on Saturday evening last, by charges being brought against two citizens for abducting a young man and inducing him under false representations to go as a substitute in the army. One of them was quite roughly handled by a large and excited crowd who rode him upon a rail. The other offender, a merchant of the place, was closely pursued, but he took refuge in his home. He is yet threatened.

Ayer's Cathartic Pills
Are the most perfect purgative which we are able to produce or which we think has ever been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into healthy action, and restore to them a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent cases have occurred which we leave their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our preparations contribute immensely to the relief of our afflicted, suffering fellow men.

The Agents below named are pleased to furnish gratis our American Almanac, containing directions for their use, and certificates of their cures of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangement of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions.

Do not be put off with unprincipled dealers with other preparations which they make more profit on. Demand AYER'S and take no others. The sick want the best aid there is for them, and they should have it.

PREPARED by J. C. AYER & Co., Lowell, Mass., and sold by Brackett Hutchings, J. H. Thayer, W. E. Freon, David Kimball, and all druggists.

NEW HAMPSHIRE BIRD LAW.
PASSED JULY, 1862.
AN ACT to promote the interests of Agriculture.
Section 1. If any person shall, at any season of the year, take, kill or destroy any of the birds called robins, thrushes, larks, bluebirds, orioles, sparrows, swallows, martins, woodpeckers, bobolinks, yellow birds, linnets, fly-catchers or wood-peelers; or shall, between the first day of March and the first day of August, take, kill or destroy any of the birds called snipes, wood-cocks, plover, rails, yellow legs, or sand pipers: or shall, between the first day of March and the first day of September, take, kill or destroy any of the birds called patridges or grouse, or quails; or shall, within the respective times aforesaid, sell, buy or have in possession any of said birds taken or killed, whether in this State or elsewhere, he shall forfeit for every said partridge or grouse, quail, woodcock, snipe or plover taken, killed or had in possession, the sum of three dollars, and for each of the other birds named above, the sum of one dollar, to be recovered by complaint before any justice of the peace.

Sec. 2. It shall be the duty of the selectmen of towns, and of the mayor and aldermen of cities throughout this State, to cause the provisions of this act to be enforced within their respective limits.

Sec. 4. All forfeitures or penalties recovered for violation of any of the provisions of this act, shall enure—one half to the use of the complainant, and one half to the use of the town or city where the same shall be recovered.

EYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years, so much so that she could not do her own work, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWEET'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicine has equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about two years ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I have good health. M. LOWD.

From ELDER I CHESLEY, Lee, May 31, 1841
DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY.

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay back if it do not agree with the taker, or is not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. may26

Brocksieper's Patent
Self-Acting Gas Regulator.
SOMETHING ENTIRELY NEW.
Patented 1864.
A brilliant and equal Light at a saving of 30 per cent. over any Gas Burner now in use.
This is not a Regulator to go on the Meter, but under every burner in use.
Economy in the use of gas, with the advantage of having a more brilliant light than heretofore, is a point at once desirable. Inventors have for many years sought to attain this end by packing or checking in innumerable ways the flow of gas through the burner tips.
Not one of these has attained the result wished for, namely, "a pure, transparent flame, without waste at any and all pressures, obtained at any hour and in all localities."
The above results are fully obtained in
Brocksieper's Patent Gas Regulator.
We invite the most incredulous to examine and test in the most thorough manner.

It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

Local.

POLICE COURT, Monday.—Two Irish boys named Cornelius Caine and Michael Coffil, were convicted of breaking and entering a freight-car of the Eastern Railroad, on Sunday, with numerous other lads, and stealing therefrom fruit and other merchandise. They were fined $2 each, and each to pay half costs $4.80, and together the sum of $19.50 to the Railroad; and failing to pay the same, the foolish little scamps were committed to jail.

Tuesday.—Alfred Mitchell, a sailor, was fined $2 and costs $4.80, for fast driving in the streets; which he paid.

Thomas Cotton, James Forman and John White, three sailors, were each fined $10 and costs $4.80, for disturbing the theatrical performances at the Temple, on Monday evening.

☞ "The street" is the devil's own school, sure; and parents who allow their boys and girls to graduate in it need not be surprised that they follow close in the footsteps of their teacher. Numerous are the juvenile outrages committed even in this little, quiet city. One day last week, a lady at the South End caught a boy in her garden, and kept him while she sent for the police to take him; and frequent are the offences which never become public. Keep your children where you can see to them, or you may rue it.

☞ Information has been received of the death of Mr. Moses H. Stickney, of Co. I, 11th N. H. regiment. He was a correspondent of the Ballot, having been foreman in that office prior to enlisting in the Army. He was a worthy and industrious young man, of exemplary character. He was formerly a resident of this city, and we think was born here. He leaves a wife and child in Exeter.

☞ The Mayor and some of the Aldermen visited Manchester on Monday, to confer with Hon. E. A. Straw, Agent of the Amoskeag Company's machine shop, in reference to procuring a steam fire engine for this city.

Messrs. Editors:—I had laid the accompanying Testimonial away, thinking to keep it as a private relic of my late army campaign. But as the gratitude it expresses is due more largely to the home-givers than to the bearer of their bounty, I submit it for publication. To me, the Paper possesses peculiar interest on account of its associations. While it was being written, a mortar shell came into the house occupied by Col. Stevens as headquarters, and split the table into fragments. His private secretary sat at the table using the pen, two other officers were sitting around it with him, while the Colonel was walking the room dictating the paper. Fortunately the shell did not explode until they had time to escape from their perilous position, and none of them were injured.

If any person should think I violated the trust committed to my keeping, by carrying supplies into the entrenchments, instead of confining my efforts exclusively to the hospitals, let me say that I did so after thoroughly acquainting myself with the needs of hospital and field, and in accordance with the united recommendation of a large number of surgeons, chaplains and army officers. I am confident that I accomplished more for the efficiency of the army than I could have done if I had confined my efforts exclusively to the hospitals. A little change of diet, many times, will keep men in their regiments who otherwise would go to the hospitals and be lost to the service for weeks, may be months—may be lost to their family and the country and the world. It would be a work of economy, as well as humanity, for the State to keep a man continually in the field distributing sanitary stores in the entrenchments, to our regiments. I spent comparatively little time in that department of labor—only devoting to it days when I was not especially needed in the hospital. A. J. PATTERSON.

IN THE TRENCHES, ON THE APPOMATTOX, One Mile from PETERSBURG, VA., June 25, 1864.

Rev. A. J. Patterson:

Dear Sir—The undersigned, officers of the 10th and 13th N. H. Vols., for themselves, and in behalf of the men of their commands, desire, while you are with them here, and while they are enjoying the fruits of your enterprise and christian benevolence, to tender you in this communication their warmest thanks for the kind, brave and generous manner in which you have distributed to these regiments from time to time, while on duty "at the front," and in most happy season, the donations of our friends at home. We feel assured that you will not be surprised at our desire to show in this manner our appreciation of your noble conduct, for you have mingled with our officers and men in the field and trenches, and have seen the help and cheer that the comforts and luxuries of home impart to the worn and wearied soldier when on duty. Such comfort and such cheer—timely and substantial—delicate and healthy—the old home wiands that bring with them the memory of tender friends and the graces of the fireside, you have brought to us, when most needed, and under circumstances of danger and discomfort to yourself, which have not failed to win for you, dear Sir, the admiration and gratitude of the soldier on duty.—It is but justice to you, Sir, to say that of all the many Sons of New Hampshire whom public or private philanthropy has sent out with the comforts and delicacies of friends at home, you alone have brought them to these regiments in the field and in the trenches. In this you have given us "material aid," for the timely gift has brought health and strength and renewed hope to the weary and the sick in the field, and kept them at their posts in the repeated struggles through which we have passed.—We feel that it is but a slight tribute to your fidelity in the hour of danger to thank you for all this.

Fortunate were the good people of Portsmouth, and your parishioners, in selecting as the almoner of their bounty one who could find us when we were nearest the enemy. Fortunate are we, the recipients of that bounty that comes to us so timely, when most we needed it, and before failing health and strength had rendered it useless. Please accept, dear Sir, for those whose generosity you represent, and for yourself, our heartiest wishes for continued prosperity and happiness to you all.

He is the happiest who does most to make others happy. The inventor of Herrick Allen's Gold Medal Saleratus must be the happiest man in existence, for we hazard nothing in saying that the use of the Gold Medal Saleratus cannot fail to make a happy household. Our better half says she does not fear of our ever frowning, so long as she can get the genuine Herrick Allen's. We say success to the inventor, and if everybody knew how good it is, no other would be used. A good many of our Merchants have it. Their depot is 112 Liberty Street, New York.

Facts for the People.
The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.
We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to
THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.
Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.
One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.
A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.
These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

SELF CONTROL.—"He who desires to influence others must learn to command himself," is an old aphorism, on which, perhaps, something new may be said. In the ordinary ethics of the nursery, self-control means little more than a check upon temper. A wise restraint, no doubt, but as useful to the dissimulator as to the honest man. I do not necessarily conquer my anger because I do not show that I am angry. Anger vented often hurries to forgiveness; anger concealed often hardens into revenge. A hasty temper is not the only horse that runs away with the charioteer on the road of Life. Nor is it the most dangerous, for it seldom runs away far.

— A journeyman blacksmith in New York who wouldn't "strike," was murdered on Thursday by a mob of the Horseshoers' Union, one of whom buried a hammer in his skull. The murderer has been arrested.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, No. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. Dow has the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most stubborn cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Gleets, painful distress in the region of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest stings of a child.

SEMINAL WEAKNESS.

Dr D., devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which, when indulged to excess, unfits the unfortunate individual for business or society. Some of the sad and melancholy effects produced by this habit are Nervous Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervous irritability, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, nervous apprehension, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consider the nature of the disease, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for sale the French Pills, which are warranted to relieve. Order by mail. Three for $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, No 7 & 9 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the effect of his treatment of the most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of a private nature, and for longer time, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 9 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 9 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extensive practice gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians to whom, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1864.—eodly.

Putnam Clothes Wringer.

It is the only reliable Self-Adjusting Clothes Wringer.—No wood-work, to swell or split.

No Screws to become loose and rusty.

Warranted, with or without cogs.

It took the First Premium at fifty-seven State and County Fairs in 1863, and is, without an exception, the best Wringer ever made. Patented in the United States, England, Canada and Australia. Agents wanted in every town, and in all parts of the world. Enterprising agents can make from $2 to $10 per day. Sample Wringer sent, express-paid, on receipt of price. No. 2, $6 50. No. 1, $7 50. No. 0, $8 50. No. A, $9 50.—Manufactured and sold, wholesale and retail, by

THE PUTNAM MANUFACTURING CO.,

No. 13 Platt street, New York; Cleveland, Ohio, and Bennington, Vt. S. C. NORTHUP, Agt.

WHAT EVERYBODY KNOWS, viz:

That iron well galvanized will not rust.

That a simple machine is better than a complicated one.

That a Wringer should be self-adjusting, durable and efficient.

That Thumb-screws and Fastenings cause delay and trouble to regulate and keep in order.

That wood soaked in hot water will swell, shrink and split.

That wood bearings for the shaft to run in will wear out.

That the Putnam Wringer has all the advantages and not one of the disadvantages above named.

That all who have tested it pronounce it the best Wringer ever made.

That it will wring a thread or a Bed-Quilt without adjusting.

We might fill the paper with testimonials, but insert only a few to convince the sceptical. If such there be; and we say to all, test Putnam's Wringer. Test it thoroughly with any and all others, and if not entirely satisfactory, return it.

PUTNAM MANUFACTURING CO: Gentlemen:—I now from practical experience believe that iron well galvanized with zinc will not oxidize or rust one particle. The Putnam Wringer is as near perfect as possible, and I cane cheerfully recommend it to be the best in use. Respectfully yours,

JNO. W. WHEELER, Cleveland, Ohio.

Many years' experience in the galvanizing business enable me to endorse what the above says in all particulars. JNO. C. LEFFERTS,

New York, Jan. 24, 1864. 100 Bowlerun St.

We have tested Putnam's Clothes Wringer by practical working, and know the it will do. It is cheap; it is simple; it requires no room when not at work or at rest, and a child can operate it; it does its duty thoroughly, it saves time and it saves wear and tear. We earnestly advise all who have much washing to do, with all intelligent persons who have any, to buy this Wringer. It will pay for itself in a year at most.

REJUVENATING ELIXIR.

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of the old and worn out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.
A few doses cure Hysteria in females.
One bottle cures Palpitation of the Heart.
A few doses restore the organs of generation.
From one to three bottles restore the manliness and full vigor of manhood.
A few doses restore the appetite.
Three bottles cure the worst case of Impotency.
A few doses cure the low spirited.
One bottle restores mental power.
A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior boiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning is grate are far superior to those on any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who now use them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

Portsmouth.

J. Woodman Moses, John R. Holbrook, George Billah, Frank Jones, George L. Tread[illegible], Henry L. Richards, John M. Flynn, John Warburton, Asel Quimby, Louis Green, Robert King, George B. with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of the valuable Furnaces, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, each possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases having further time to pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The fire or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to filth and go out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq., Aaron H. Hill, Charles H. Mendum, Henry F. Wendell, John Sise, and others.

WHAT IF GOVERNMENT SHOULD NOT SUCCEED?—"If the Government does not succeed, greenbacks will be worthless."—*Exchange paper.*

The Boston Commercial Bulletin, one of the most sensibly loyal papers, and always in favor of specie payments, too, thus closes an article exposing the absurdity of the above extract, which is so generally adopted by the press:

Certainly, no one is absurd enough to suppose that the South has either the design or ability to make a conquest of the North; and if our efforts to bring the former, *nolens volens*, back in the old Union, should ultimately prove abortive, the loyal States will stand together, a great power confessed among the nations of the earth, combining all the elements of wealth and progress. *They*, at least, will stand by the Government which they have expended so much blood and treasure to maintain.—They neither lose their unity, institutions nor credit in any possible event of the war. Their resources will be amply sufficient to redeem every dollar of Federal obligation incurred during its prosecution; and greenbacks, instead of being worthless, must ultimately stand on a par with gold, with the revolted States either in or out of the Union.

If the South fail to establish its separate independence, its financial case will be somewhat different, as the Confederate Government, which guaranteed its issues, will then have ceased to exist. Confederate scrip may or may not be worthless at the close of the war; but to talk of greenbacks being worthless, is to suppose the people of the North faithless and fraudulent to themselves, and must be regarded as the veriest crotchet of an excited brain.

Not a doubt of it—greenbacks will be "as good as gold" yet—and ought always to have been kept so, by Government paying specie.

DR. S. O. RICHARDSON'S
BLOOD ROOT ELIXIR
Has been thoroughly tested and proved in his medical practice, for a period of THIRTY YEARS, and is now presented to the public as an effectual cure for
CONSTIPATION,
and the best remedy ever prepared for
Diseases of the Liver,
SCROFULA,
All Humors and Impurities of the Blood, and Diseases of the Skin.

The preparing and combining the Blood Root Elixir, is attended with results to medical science next in importance to the inhalation of ether in surgery. Roots and plants, in themselves pungent and disagreeable, are, by a new and scientific process of extracting (in vacuo) rendered MORE EFFECTIVE IN THEIR OPERATION, entirely divested of the griping and distressing pain which attends the action of all other purgative medicine. They are also made to become HIGHLY PLEASANT AND AGREEABLE TO THE TASTE,
and by their peculiar combination work so perfectly in HARMONY WITH NATURE, that no unpleasant reaction will follow its operation. It also *possesses*
A Diffusive and Alterative Effect,
which can only be attained by medicine in a fluid state. These are new elements in purgative medicines.

The hard and compact manner in which pills are prepared renders them indigestible—and when taken are *forced* through the stomach and bowels, half-digested, causing only PARTIAL ACTION, thereby creating irritation and pain to the parts connected with their passage.

One pill dissolved, *secundem artem*, will produce more medicinal and physical effect than five in a crude state.

The BLOOD ROOT ELIXIR has no partial action upon the bowels, but is *equally diffused there* and throughout the whole circulation of the blood, imparting a *healthy and invigorating action* to the STOMACH AND BOWELS, LIVER, LUNGS, KIDNEYS, and gently stimulating dormant, inert and morbid secretions through the whole system.

A single dose will produce a cheerful and exhilarating COMMOTION, which will inspire the patient with confidence and assurance of IMMEDIATE RELIEF. A continuance for a short period will DRIVE the obscure and hidden humors to the surface of the skin, and cleanse or check SCROFULOUS AFFECTIONS—and by thus purifying and strengthening the blood, will remove the most fruitful

CAUSE OF CONSUMPTION.

It invigorates the various organs of the system to act their allotted part, removing the causes which induce RHEUMATISM AND NEURALGIA, HEADACHE, LOSS OF APPETITE, DYSPEPSIA, COSTIVENESS, and all those diseases which arise from a derangement of the Stomach and Bowels, and restricted circulation of the Blood.

COUGHS and COLDS, in their early stages, will immediately yield to the effect of the Elixir.

The BLOOD ROOT ELIXIR contains no mineral, no pernicious botanical element, no excitant, but stimulates the secretions by its mild diaforesis action. It is an effective and painless aperient—has a decided, salutary action upon the Liver, and *there has been no medicine prepared for common family use which possesses equal merit.*

Travellers, both by sea and land, will find the Elixir a complete antidote for the evils which they are obliged to endure from a change of climate, of water, or of diet.

See the pamphlet around each bottle for a history of the Elixir.

The proprietor of the Blood Root Elixir, (Dr. S. O. Richardson,) has been long and favorably known to the public by his celebrated SHERRY WINE BITTERS, the best tonic medicine ever discovered, and which has been in use over thirty years. He is a graduate of the New Hampshire Medical College, and many years associate member of the Massachusetts Medical Society, and has made the study of medicine his profession since 1829.

And so fully convinced is the Doctor of the wonderful curative effects of his Blood Root Elixir, that he hereby offers to each and every person who will use one-half of a bottle of his Elixir and not be conscious of a good effect therefrom, to refund to said person the amount which he paid for the same, by returning the allege bottle to his office.

Price $1.50 per Bottle.

Sold in Portsmouth by J. H. THAGHER, opposite the Post Office, and No. 12 Market Square; and by Dealers in Medicine generally, and at Dr. Richardson's Office, No. 51 Hanover street, Boston. aud—3moeod&w

American and Foreign Patents.
R. R. EDDY.
SOLICITOR OF PATENTS,
Late Assist. of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all papers for the Patent Office, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or ability of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through its extensive and advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
Inventors, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. R. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now *pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargements of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody—startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love; or how to choose a Partner—a complete work on Midwifery, 100 pages, hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie, or postage stamps inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 9 A. M. to 8 P. M., and on Sundays from 9 to 2 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

VERNATELLA,
Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.
VERNATELLA
Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through the copper itself. Price 25 Cents Per Bottle.
For sale at retail everywhere.
But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.
☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH
Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dew.

THURSDAY, AUGUST 11, 1864.

THE REBELLION.

Gen. Averill's captures at New Creek, Va., were four pieces of artillery, a large quantity of small arms, four hundred horses and equipments, and four hundred and twenty prisoners, including six field and thirty-two company officers. On Sunday 25 rebel wagons laden with grain, were captured near Aldie, London county.

Maffit, formerly of the pirate Florida, commands the rebel ram Albemarle, which is reported to be in thorough repair at Plymouth, N. C. The rebels are building another.

The operations at Atlanta have settled down to a regular siege, and our forces are pounding away on every side. The rebels have garrisoned the forts and entrenchments with the militia, and use their veterans to operate when required. On the 31st they made a demonstration along our lines, but were driven back and their rifle pits captured, with a picket reserve of 125 men. At the same time they opened a tremendous artillery fire, which developed many heavy rebel guns.

Chief Engineer Latimer, just from Mobile, says Fort Morgan was considered impregnable from the front, but being once passed could be readily reduced by an attack in the rear. Official dispatches say it is not the intention of Adm. Farragut to capture Mobile, but merely to relieve a portion of the fleet. It is not believed at the Navy Department that the Tecumseh was sunk, as she would not engage Fort Morgan.

The Nashville Union claims to have official authority that General McCook's loss on his late raid will not exceed 500. It was first stated at 2000.

The official report of the fight at Atlanta, July 22d, gives—Union loss 3521 killed, wounded and missing, and 10 cannon; rebel dead buried by us 3220, prisoners 1017, wounded prisoners 1000; total rebel loss at least 10,000; we captured 18 stands of colors and 5000 stands of arms; the rebels made 7 assaults on our lines and were 7 times repulsed.

Gen. Sickles, it is said, has been tendered the command of the Veteran Reserves, but would prefer to command the colored troops in the field.

LICENCES.—The Commissioner of Internal Revenue gives notice of a provision of the new tax law which requires the payment of a license fee of ten dollars by every person "engaged in any business, trade or profession for which no other license is required," whose gross annual receipts exceed one thousand dollars. Under this ruling, clerks, boarding-house keepers, teachers, farmers, artists and many other persons who have not hitherto been required to take out licenses, are included in the catalogue; and the fee of ten dollars is distinct from the two income taxes already imposed. Office-holders, whether under the Federal or State Governments, are exempt—the Commissioner ruling that the holding of a public office "is not either a business, trade, or profession."

GEN. BUELL.—Ex-Maj. Gen. Buell has been writing a letter explaining how it was that he came to leave the army, after more than twenty years' service, and in it he makes the following extraordinary statement:—

I believed that the policy and means with which the war was being prosecuted were discreditable to the nation and a stain upon civilization, and that they would not only fail to restore the Union, if indeed they had not already rendered the restoration of the Union impossible, but that their tendency was to subvert the institutions under which the country had realized unexampled prosperity and happiness; and to such a work I could not lend my hand.

Here is an unblushing confession that, while he held a high command in the Union army, he regarded the policy of the war as a stain upon civilization. Surely such an ill-disguised traitor is better out of the army than in it.

— Among the rebel marauders who plundered Hagerstown was the Rev. Dubosy Ball, formerly pastor of the Wesleyan Church in that town. He was perfectly delighted with the proceedings of his rebel confreres.

— $1200 or $1500 worth of tobacco was stolen from a store in Portland on Monday night. The police subsequently found it on a truck wagon, in some dry goods boxes, on the way to the depot, but did not catch the thieves.

— Adm. Buchanan, who has been taken prisoner at Mobile, was commandant of the Washington Navy Yard in 1861. He resigned on the 19th of April, and afterward asked to be restored, but his request was refused. He commanded the Merrimac in her attack on our fleet in Hampton Roads, and in the battle with the Monitor, and blew her up when Norfolk was occupied by Gen. Wool.

EDITORIAL JOTTINGS.

DR. LEWIS'S MOVEMENT CURE.—After a very pleasant hour at the rooms of the Mass. Horticultural Society, in Boston—spent in examination and admiration of their regular Saturday afternoon exhibition of fruits and flowers; we were ready for Lexington and our cordial friend Dr. Lewis. So we entered the branch train of the Fitchburg Road, and after more stoppages than we ever before experienced in so short a ride, we found ourselves ten miles from Boston, on the hallowed "classic" ground of '76.

Here at Lexington Dr. Lewis has recently purchased a large hotel, (formerly the "Lexington House,") with fine grounds and out-buildings; for the practice of his Movement Cure system, in connection with his extensive New Gymnastic institution in Boston. The theory of pure air, sunshine and water, with appropriate and judicious use (or "movement") of the muscular system, is so eminently natural and sensible, that it cannot fail to attract everybody who candidly examines it. But the results of the scientific application of the same are really astonishing.

We did not visit the Dr. professionally, and shall not attempt to describe any of his processes. One thing only will we mention, on account of its popular bearing—the fact of all patients here, as at all curative institutions, and indeed of persons in health in many other positions in life, eating but two meals a day. And all persons whom we ever knew to try the plan like it after getting accustomed to it; and experience has proved its entire success, even with the most severe exertion,—of men or animals. There can be no gainsaying the fact that almost all people eat too much and too often, not to mention the other outrageous abuse of their stomachs, in the injurious *quality* of the food they eat.

Dr. Lewis's Movement Cure establishment is pleasantly situated, and, already, in the first quarter of its opening, is well filled with patients and boarders. And the Dr. well proves, among other things, that he can keep a hotel. And notwithstanding he has an establishment of a hundred rooms, he was obliged to refuse several applicants admission, on the day we spent there, for lack of accommodations. There is connected, a stable for fifty horses, and excellent fixtures for the manufacture of gas from coal oil, and abundance of soft water throughout the house.

Among the Dr.'s family of patients is one young lady from Portsmouth; and all sorts of weaknesses and diseases for which this sort of practice is designed may here be found in successful treatment.

Mrs. L. is a fit helpmeet indeed, even for such a physical reformer as Dr. Lewis; and with so cordial a host and hostess, and the courteous attention of Mr. Taylor, his assistant, and Mr. Miller, who has charge of the house—it was no wonder we found the day we could spare too short for our visit.

How pleasant it was to roam about Lexington—to walk and ride the streets and roads where the continental militia and the king's troops first mingled their blood; to tread the green by the little old church, now gone; and read the State's inscription on the monument to those first martyrs. Singular, one of them was named John Brown, wasn't it?

We also visited the old Hancock residence here, built by the uncle Thomas, of the great John, (as was also the Boston house) and here were hidden the said John Hancock and Samuel Adams, to arrest whom was part of the British troops' errand, which cost them and their master so dear. All visitors must drink from the old pump which still stands just outside the door of the house. Everything is in good repair, and part of the rooms are yet in their original unpainted condition.

In several houses, and other buildings near the green, or common, are yet to be seen the holes said to be made by the balls which flew on that memorable day of Lexington; and the elderly people tell you with evident pleasure and pardonable pride the traditions of their fathers.

We must not forget to mention that Dr. L. is building a sea-bath; a structure without roof or shade of any sort; where invalids may be benefited or cured of sickness or weakness, by the application of that very health giving influence of which we are all too much afraid, and the want of which no doubt causes much disease.

Feeling desirous of visiting old Concord, now we were so near, on Monday morning, though with less than a couple of hours to spare after breakfast, we could not resist the temptation to accept the Dr.'s kind offer of one of his good teams for the ride.—The distance was only six miles, but the road hilly and sandy, and the weather hot; and we shall not soon desire to be placed in a position where we feel obliged to bury ourselves and our horse out of such pleasant and interesting scenes as the beautiful old shire town presents. The Revolutionary monument, the old grave-yards, residences of Horace Mann, Emerson, Thoreau, Hawthorne, and others, we could give only a passing look, and away. As it was, we *just* made our connections with the train; and but for the civil conductor delaying his start a moment for our companion, and the wide-awake brakeman putting on his brakes pretty smartly and stopping its way for us, that Boston and down-east appointment would have failed that day, sure.

But we are too full of the pleasures and memories of that trip, and must cut off, without telling half the attractions of Lexington, or anything of the merits of Dr. Lewis's system, to whom commend us always.

NEW HAMPSHIRE ITEMS.

—— The camp meeting at Epping will commence Aug. 29.

—— The Amoskeag Company received, last week, orders for a steam fire engine for China, and for three for Washington.

—— Among officers dismissed the service by order of Gen. Meade is Capt. James Blaisdell, 9th N. H. regiment.

—— The bedstead manufactory of J. D. Moulton, at Ossipee, was entirely destroyed by fire on Tuesday night, 2d inst. Loss from $15,000 to $18,000. Supposed to be the work of an incendiary.

—— A. A. Hanscom, Esq., recently editor and proprietor of the Saco, Me., Democrat, has purchased Mr. C. Lamson's interest in the Manchester Daily Union, and will be associated with Mr. Campbell in the editorial management of that paper.

—— The Concord correspondent of the Union states that after a protracted and distressing illness, Mr. Edward Gilmore, second son of the Governor, was again very low on Tuesday morning. The estimable lady of Hon. Matthew Harvey died on Tuesday afternoon, in the 81st year of her age. Judge Harvey is 83, but still makes his daily walks, rising at 4 in the morning.

—— "M. B. G.," writes to the Statesman: "Rev. Thomas L. Ambrose, chaplain of the 18th N. H. V., has been brought to the Chesapeake Hospital, Fortress Monroe, with a ball through his thigh." Col. Potter, while in Concord, wounded, after the battle of Chancellorsville, said for the conduct of Chaplain Ambrose on that bloody field he ought to be made a Brigadier General. It is not his fearless exposure in the hour of conflict that has made his name dear to his regiment, but especially the dignified, discreet, singular fidelity which, from first to last, he has brought to the discharge of his duties as a christian teacher and exemplar in scenes where so many have been swept from their moorings in the great tide.

Messrs. Editors—As I was about starting home, the surgeon in charge placed in my hands the following statistical record of the 18th Army Corps Hospital, for the month of June. It can but be of interest to your readers. This hospital is at present located near Broadway landing, on the south side of the Appomattox, about four miles above City Point. The surgeon in charge is a New Hampshire man, as are many of his assistants. New Hampshire men are largely represented and occupy enviable positions in this department of the service. The 18th Corps Hospital is a model of care, neatness and comfort. Cedar and other trees have been planted along all the streets, not only protecting the tents from the burning sun, but affording sweet suggestions of home scenes—of New England streets and gardens. When the trees wither they are removed and fresh ones take their places. The motto is: "Make the hospital cheerful and comfortable, though you spoil Virginia forests." All the patients in this hospital have clean and comfortable cots now, (except in the convalescent camp,) and nearly everything is done for their restoration that could be done at home. The limited percentage of mortality speaks more eloquently in its behalf than could any words of praise. Fortunate indeed is the sick or wounded man who finds here a temporary home. God bless the surgeon in charge, the entire staff, and all connected with the 18th Army Corps Hospital. A. J. PATTERSON.

General Remarks.—The 2d, 4th, 10th, 12th and 13th New Hampshire regiments are attached to the 18th Corps, and members of those regiments are now and constantly have been under treatment. The efficient Matron of the establishment is a New Hampshire lady, sent out by the N. H. Relief Association. The wants of men from our own State have been carefully attended to.

Several regiments of colored troops are also represented here. The present number of colored men in Hospital is 140.

— The Savings Institution in Bangor was entered Friday night, the safe blown open, and robbed of some what less than $200.

— A New Bedford pilot recently pulled twenty-five miles in an open boat to reach a vessel.

—The Chicago people are raising funds to purchase a handsome property for Mrs. Col. Mulligan.

—The Northampton Gazette thinks somebody will get bitten one of these days by holding on to his butter for a rise in price.

—The U. S. ship of the line Vermont arrived at New York on Tuesday from Fort Royal.

☞ The Salem Gazette states that during the years 1858, '59, and '60 Mr. Thomas H. Renton, of Groveland, worked shoemaking (losing but one day in the three years) making ten pairs of women's shoes each day, and 9390 in the three years. From Feb. 28th, 1862, to June 1st, 1864, he worked at the bench, without losing a single day, making ten pair of women's channel-nailed shoes per day, or 8000 pair in two years and three months.

Brocksieper's Patent

Self-Acting Gas Regulator.

SOMETHING ENTIRELY NEW.

Patented 1864.

A brilliant and equal Light at a saving of 30 per cent. over any Gas Burner now in use.

This is not a Regulator to go on the Meter, but under every Burner in use.

Economy in the use of gas, with the advantage of having a more brilliant light than heretofore, is a point at once desirable. Inventors have many years sought to attain this end by packing or checking in innumerable ways the flow of gas through the burner tips.

Not one of these has attained the result wished for, namely, "a pure, transparent flame, without waste at any and all pressures, obtained at any hour and in all localities."

The above results are fully obtained in

Brocksieper's Patent Gas Regulator.

We invite the most incredulous to examine and test in the most thorough manner.

RETAIL PRICE, EIGHTY CENTS.

A liberal discount made to Churches, Factories, Hotels, &c. The Regulators will be put on, and if they do not prove satisfactory may be returned. CHARLES T. EMERY,

BATCHELOR'S Celebrated Hair Dye
Is the Best in the World!
The only Harmless, True and Reliable Dye Known!
This splendid Hair Dye is Perfection—Changes Red, Rusty, or Gray Hair instantly to a *Glossy Black* or *Natural Brown*, without injuring the hair or staining the skin, leaving the hair soft and beautiful; imparts fresh vitality, frequently restoring its pristine color, and rectifies the ill effects of bad dyes. "A Wonderful Discovery."

DR. TEBBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HAIR" in New England can be restored in less than sixty days.

☞ The engine for the fine new steamer, built by Mr. Townsend and to run between this city and the Shoals, has been received from the Amoskeag Manufacturing Company of Manchester, and will be put in immediately. ☞ Col. M. F. Wentworth, of the 32d Maine Regiment, arrived at his home in Kittery on Tuesday last. His wound at the battle of Petersburg was made by a Minie ball passing through the fleshy portion of his thigh. We are informed that it is not considered dangerous and we trust he will soon recover.

☞ Wednesday was one of the *hot* days, the mercury going to great lengths. The Shoals must have been attractive, and the beaches alluring to all the denizens of dusty cities. The Can't-get-away Club, however, seemed largely represented on our streets.

A TRIP TO THE LAKE.

After three or four weeks of severe sickness, ending with a protracted season of general debility, your correspondent thought it proper to accept a polite invitation from the Portsmouth Cornet Band to attend their excursion to Lake Winnipissocogen on Tuesday last. Our numbers were not large,—(about two hundred) but a more quiet and well behaved company it has never been our good fortune to join. We will not weary the patience of your readers by a detailed account of the journey, because a majority of them have, doubtless, availed themselves of an opportunity of visiting this beautiful portion of the old Granite State, with its hills and valleys, beautiful scenery and hospitable inhabitants. No one could have failed to see the disastrous effects of the late drought on the farming lands all along the route. Fires have been of frequent occurrence, and acres of fine woodland and pastures have been desolated by the devouring element. In many places, the "cattle upon a thousand hills" look in vain for a scanty blade of green grass, and content themselves by browsing the underwood and small trees. We who are disposed to murmur at the results of the severe dry weather of this season in this section of the State would do well to take a trip back into the interior, and note the difference between the appearance of vegetation here and there. And we could not help querying in our mind, as we viewed this sad appearance of many farms, how some of those poorer families, those who depend for a winter's living upon their crop of corn and potatoes, are to subsist during the long season of cold weather. Surely, not upon this year's crop. If, perchance, they are fortunate enough to have a large remnant of last year's ingathering, they can manage very well; otherwise, there must be an actual want of the common necessaries of life.

On taking the Dover & Winnepissogee railroad we discovered Superintendent Kimball in his shirt sleeves on the engine, acting in the capacity of engineer. He is certainly an instance of Yankee enterprise and pluck. It matters not what the character of the work may be, whether laying a rail, running an engine, conducting a train or superintending the interests of the corporation, he is at home in the business in all its branches. He is a practical machinist, a live man, and a good fellow. Conductor Brown, also on the same road, seems to be the "right man in the right place," and discharges his duties with a degree of ease and readiness, refreshing to a nervous individual.

It was our good fortune at the end of the route to fall into the care of Capt. Wiggin of the steamer Chocorua, who every inch a gentleman, and doubtless can "keep a hotel," if he understand its management as well as the conducting of this commodious steamer over the lake. Every facility for the comfort of the traveler is afforded on this craft. Owing to the hard times, there has been a decrease of travel in this direction during the present season, but we have no fears for the success of Capt. W. if he maintains his courteous manner of managing the business in which he is engaged.

We were enlivened on the passage across the Lake by the excellent music of "Our Band," and it is perhaps needless to say that the members of the P. C. B. acquitted themselves in such a manner as to reflect credit upon themselves, and upon the community of which they are members. We are glad to learn that the prospect of a dissolution of this organization is not imminent, and we trust it will be maintained, and receive at the hands of our citizens the encouragement it so richly merits. Another excursion at an early day is anticipated by them, when, we trust, many will avail themselves of the cheap fare, good managers, &c., to go and have a good time.

We were advertised to return to Portsmouth at 7 o'clock, P. M., and if our watch told us the correct time, we landed in this city at precisely 7; a rare thing for an excursion party, special trains not being so reliable as regular trains. And now we will close this rambling account by saying that we had a tip top time, and intend to try it again when an opportunity favors.
REP.

— Our soldiers have found a way to get rid of vermin. They seek an ant-hill, inhabited by myriads of ants, and place the uniform over it. The tiny chaps immediately commence a search, and each ant seizes a louse and takes him away for his winter commissary supplies.

— The rebels have lost thirty-nine general officers during the present campaign.

— The Veteran Reserve Corps is again being prepared for active service.

— The Sacramento put into Queenstown July 28, short of coal.

— Semmes was still in Liverpool July 29.

— A newspaper has lately been started in Reading, Pa., with the quaint title of "The Father Abraham."

— In Chicago they are talking of female conductors for street cars. Street yarn may decline.

— A lady in London recently recovered by law the value of a dress which she had damaged by the fresh paint on a shop-door, which she was entering.

— Orders had been given to dispatch the necessary ships to Mexico to take troops back to France. The ships are to sail early in August.

— Prof. Phelps, of Andover Theological Seminary, has leave of absence for the coming year, in order that he may have opportunity to recruit his health.

— A gang of burglars took passage in a steamer from Albany to New York on Saturday night and entered staterooms after the occupants had retired, and stole money, watches, &c. One man lost $700.

— In Springfield, Mass., the wells on the low ground were nearly dry during the past month, while those on Armory Hill had as much, and some of them more, water than usual.

— The blockade runner Falcon, with three smoke stacks and one mast forward, left Halifax on Saturday afternoon, it is reported for Wilmington direct, with a cargo on board.

— Millard Fillmore is gaining considerable strength among the Copperheads of Illinois as a candidate for the Presidency. Pendleton of Ohio has also many warm supporters among the extreme radical men.

— The Navy Department on Monday engaged a fast steamer at New York, which is to be immediately loaded with ice and fresh provisions and dispatched to the fleet off Mobile.

— The house in which William Penn and his family lived in Philadelphia was recently sold and will soon be demolished. It is about 175 years old, and is the last relic of the Penn family.

— There are two brothers and a sister, by the name of Litchfield, now living in Scituate, Mass., who were born at one birth, their sixty-eighth birthday coming Aug. 11.

— The telegraph sometimes makes queer statements. Thus it said a few days since that "a German Assistant Postmaster" had superseded Col. Kent as Senate Postmaster. It meant—A. P. Gorman, Assistant Postmaster.

— The Portland Press learns from Mr. Fessenden himself that he considers his occupancy of a seat in the Cabinet as a mere temporary thing; he does not consider his strength adequate to the laborious and unremitting duties of the place.

— The Reformatory at St. Vincent de Paul, ten or twelve miles from Montreal, was burnt on Sunday morning. There were seventy five boys in the institution, two of whom are missing, and are supposed to have been burnt to death.

A TRUE AIM.—It has not been the aim of the proprietor of Hunnewell's great preparations, advertised on our inside columns, to base a false reputation by long and unmeaning advertising, but a real one by true results, to which all who try them will cheerfully assent. See advertisement.

SYMPATHY.—Sympathy is a lovely and beautiful thing, for it exhibits the angelic part of human nature. We deeply sympathize with those who cannot obtain Herrick Allen's Gold Medal Saleratus, for they are deprived of one of the greatest luxuries the world affords. But we have no sympathy with any family who will use any other Saleratus or soda, if this article can be purchased. We see most of our Merchants have it. One trial will convince any one. Their depot is 112 Liberty Street, New York.

SOLDIERS, ATTENTION!—Pain, disease and exposure, with a hot climate, muddy water and bad diet, will be unavoidable, but armed with Holloway's Purifying and Strengthening Pills, you can endure all these and still retain good health.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the account, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 220

SPEER'S WINE.—This article, upon trial, we find quite palatable. It is recommended for weakly females and invalids generally.—[Portland Argus.

All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them. If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.
We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to
THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.
Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.
One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.
A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.
These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

Morning Chronicle.

JOHNSON'S FORCE PUMP [we think *Hand* Pump would be a better name, although the little squirter is a suction and force pump, sure enough, and a mighty powerful one, too,] is one of the most valuable inventions ever offered to the public. It will throw water enough to drown a fellow, or put out a fire, and is as easily worked as an umbrella. It is about the size of a common walking stick—a little pipe of brass, with a rubber tube attached; and is so simple and strong in its construction that it is almost impossible to get it out of order. It is the best of all aids in washing windows, carriages, &c.; and for watering gardens, sprinkling sidewalks, &c., is very convenient—and will do more good with a single bucket of water, than a dozen thrown by hand.

But it is as a protection against fire that its chief value consists. And from what we have seen and know of this little hand fire engine, we have no hesitation in saying that no house should be without one, and that their general use in a place will reduce the insurance risk one-half.

Numerous wonderful testimonials to their value and success are given on every hand. Among others, Mr. Bailey, the Agent for their sale in this city, has the following:

From the Oneida (New York) Sachem

We are assured by persons present at the fire on Friday morning, that the residences of Mr. Thompson, Mr. Randall and several others, would have inevitably been destroyed, had it not been for the good execution of two House Fire Engines (Johnson's Portable Force Pumps) which were on the ground. Every house in the village and every farmer should be supplied with one. In preventing the spread of fire to other buildings, or in suppressing seasonably a fire in your own house, they are of incalculable value.

True as a gun—as is also the machine in its action—for it has been well tested, and not found wanting, in this city! At the late fire, but for the vigorous use of one of these miniature water-spouts, in the hands of Mr. Edwin E. Leighton, the house of Mr. Howell, on Linden street, must have been destroyed. It caught several times, and was put out by the exertions of a few persons supplying a wash tub with water, which was judiciously and effectually applied, as above.

But we need not multiply words in favor of this wonderful little pump, nor bring further evidence to recommend it. "Seeing is believing"; and any one who examines its construction must at once understand its simplicity of construction; while all who witness its operations will wish to possess one for their own use.

"*Johnson's Champion Force Pump*" is for sale in Portsmouth by JOHN H. BAILEY, the Agent here; who receives his supply of the desirable article from Albert L. Rice, Boston, manufacturer's agent.

WRONG IN THE APPLICATION.—About ten years since there were living in Great Falls, N. H., two clergymen whose names were McColum and Hooper. The difference of opinions on creeds and tenets did not prevent them from being warm friends. Meeting on the sidewalk one summer morning, McCollum says: "Come, Hooper, let's take a walk." Hooper, looking up at the sky, answered: "I think I won't; I am afraid it's going to rain." "What!" says Mac, "you a Baptist and afraid of water?" "Oh no," replied Hooper, "it is not the water, but the method of application that I object to."

Glad News for the Unfortunate!
The Long Sought For Discovered at Last.

CURES FROM ONE TO THREE DAYS

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, exerts a tonic effect upon the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Strictures, Gravel, Gleet, Gonorrhea, and is especially recommended in these cases of Whites (in females) where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are healing, soothing and detersive; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

☞ For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

☞ Price of CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $3 per bottle, or three bottles for $6.

Sent by Express to any address on receipt of price. Sold by all druggists everywhere.

Dr. W. R. MERWIN & CO., Sole Proprietors, No. 59 Liberty street, New York.

THE GREAT
INDIAN MEDICINE,
COMPOUNDED FROM
ROOTS, HERBS AND
LEAVES,
CHEROKEE
CURE.

An unfailing cure for Spermatorrhea, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Weak Nerves, Difficult Breathing, Trembling, Nervousness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the direful complaints caused by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medical aid, we would say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Prices, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

Dr. W. R. MERWIN & CO., Sole Proprietors, No. 59 Liberty street, New York.

DR. WRIGHT'S
REJUVENATING ELIXIR,
OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most empirical test of all—time—and has been pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.

A few doses cure Hysterics in females.

One bottle cures Palpitation of the Heart.

A few bottles restore the organs of generation.

From one to three bottles restore the manliness and full vigor of youth.

A few doses restore the appetite.

Three bottles cure the worst case of Impotency.

A few doses cure the low spirited.

One bottle restores mental power.

A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The listless overtasked youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debilitation or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

CHEROKEE PILLS!
SUGAR-COATED.
FEMALE REGULATOR.
Health Preserver!!
CERTAIN AND SAFE.

☞ For the Removal of Obstructions, and the Insurance of Regularity in the Recurrence of the Monthly Periods.

They cure or obviate those numerous diseases that spring from irregularity, by removing the irregularity itself.

They cure Suppressed, Excessive and Painful Menstruation.

They cure Green Sickness (Chlorosis).

They cure Nervous and Spinal Affections, pains in the back and lower parts of the body, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Hysterics of Spirits, Hysteria, Sick Headache, Giddiness, &c., &c. In a word, by removing the irregularity, they remove the cause of and with ALL the effects that spring from it.

Composed of simple vegetable extracts, they contain nothing deleterious to any constitution, however delicate. Their function being to substitute strength for weakness, which, when properly used, they never fail to do.

They may be safely used at any age and at any period, *except during the first three months,* during which the unfailing nature of their action would infallibly prevent pregnancy.

All letters asking information or advice will be promptly, freely and discreetly answered.

Full directions accompany each box.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water, also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. It is now regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass out into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the application of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and supports for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Shaw, and others.

THE COMING CONFLICT.

The Newburyport Herald has the following remarks on the approaching Presidential election:

The Democratic party is making ready for its Chicago Convention and nominations. We may thank them for the relief gained by their adjournment from the 4th of July, for after that Convention we shall have little peace till after November; and what will come after, God only knows. We look for the hottest political canvas this fall that has ever been known in this country—one that will not only be exciting, but actually hostile; and if military affairs remain as at present, they will be favorable to wide-spread agitation. It is difficult to say who will be their candidate for the Presidency; probably all the rest of the country will stand back for New York, Pennsylvania and Ohio to name the man who will be most popular with them. The utmost effort is now making to bring all the different interests and factions into harmony, that he may receive their united support, be he who he may, while a like effort is making to render a division of the Republicans by Fremont's nomination as wide as possible. With their candidate they will issue an address to the people, reviewing the administration, charging unconstitutional acts on Congress, usurpation of power on the part of the Executive, and exciting the people to hostility against Mr. Lincoln, declaring, as does their Congressional Address, that his defeat is a necessity for peace and Union. From the Convention they will go out swarming over the country, and exciting by the most passionate appeals.

This is their programme. Say what they will, no arrests will be made, for that would be turned into a denial of the opposition to discuss the claims of candidates for office, and would be declared the first act of hostility, that would justify others.* We must prepare, then, to tolerate the largest liberty of speech, and to endure an outbreak of political disputation such as we never have seen in the past, and which can do no good in the future. Happily the struggle will be short; and when it closes we see as yet no reason to change our opinion *that Mr. Lincoln will be elected.* To be sure the military operations of the season have not been favorable to him, and the draft, if it should not be postponed, as was the last, from one period to another, would likewise be against him; but the people are for the war, against all concessions and compromises, and set upon rooting out slavery from the land; and the opposition, to be anything, must look to peace based on compromise, and a restoration of the old order of things, as it existed prior to 1860, slavery included. The issues will be distinct and clearly drawn, and nobody will be mealy-mouthed in the discussion.

*It is hardly worth while to be too positive about arrests. Libel and slander are always liable to prosecution. Vallandigham was arrested, and yet he came off second best in an election. Free lying may be too common; but now and then a libeller comes to grief,—and a libeller and traitor likewise.—ED. CHRON.

A PHOTOGRAPH.—When the war broke out a young man belonging in Boston enlisted and carried to the field with him a potograph of his betrothed. He was taken prisoner and confined for a long period in the Libby prison at Richmond. While there one of the rebel officers on duty, happening to have seen the photograph, appropriated it and refused to return it to the owner. The officer seemed infatuated with the likeness of the northern beauty; and, in order to have opportunity to talk about her, made himself the instrument of many kindnesses to the captive. At last the young soldier was exchanged and in due time joined his regiment. During a recent battle he was at the front, and seeing a rebel officer very prominently engaged in directing his command, the Massachusetts soldier levelled his piece and shot the rebel commander. Our men advanced at the same moment, and on passing the spot where the dead rebel lay the soldier recognized him as the officer who had appropriated his lady love's potograph. The officer's pockets were searched and the missing picture found. The above is no romance, but a veritable incident among the many curious ones which crowd the history of the war.—*Journal.*

American and Foreign Patents.
R. H. EDDY.
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all cases touching the same. Copies of the claim of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none CAN MORE SUCCESSFULL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them a prompt and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable success attests skill and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twenty* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syhilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose and Minor Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Copy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it—25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still continues the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A.M. to 8 P.M., and on Sundays from 9 to 5 P.M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

VERNATELLA.
Warranted to make the Soles of Boots and Shoes water-proof, and wear one-third longer.
VERNATELLA
Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,** at retail everywhere.
But its cost to the purchaser is really NOTHING, as it makes the sole wear enough longer to save more than pay for it, leaving as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.
☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.
Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more less moist, either from rain or the morning and evening dew.

FRIDAY, AUGUST 12, 1864.

THE REBELLION.

We have further glorious news from Mobile, by rebel official advices, which, of course, do not exaggerate our successes. The rebels evacuated and blew up Fort Powell on Sunday, and Fort Gaines was surrendered on Tuesday. It is a powerful work, having a garrison of 600 men, provisioned for six months. The rebels denounce the surrender as shameful, inexplicable and humiliating. A rebel official dispatch, of the 6th, states that the Morgan, the only rebel gunboat which was not either beached or captured, had succeeded in getting over the bar and reaching Mobile.

Gen. Sheridan reports his forces moving against the enemy up the Shenandoah. On Wednesday afternoon they were skirmishing about ten miles from Winchester.

Portions of Gen. Stoneman's command, at Atlanta continue to arrive, and Sec. Stanton states that his total loss will not exceed 1000.

Gen. Smith has started on his new expedition in the south west,—destination unknown.

☞ A terrible explosion occurred at City Point on Tuesday afternoon, by which very many men were killed and wounded, and several of Gen. Grant's staff severely injured. An ammunition barge blew up, utterly destroying the large Government wharves and warehouses at that place, and sinking several vessels in the vicinity by the force of the explosion. It is believed that it was occasioned by the careless handling of ammunition. A court of inquiry has been called to investigate the matter. The loss of the Government will amount to two million dollars.

The explosion occurred while negroes were unloading the boat, and the only theory yet advanced is that one of them dropped a shell. The noise lasted about 30 minutes (!) witnesses say, and the shock was felt for a long distance. The casualties are believed to be 50 killed and about 100 wounded.

NOT TRUE.—Speaking of a lately-reported conspiracy at the West and elsewhere, the New York News says:

It has "*departed*" from its usual cunning. Democrats are not in the habit of joining secret, oath bound political lodges—they have denounced them in times past.

The secret political order of the Know Nothings was made up in New Hampshire of numerous great Democrats, as well as other people. And it was only when they found that they could not *rule* the order and turn it to their own account, that they *denounced* it, and urged their followers to leave it. How it might be elsewhere, we know not: but it was well known to be so here.

— A propeller burst her boiler on Lake Erie on Tuesday night, killing 12 of her crew.

— It is officially stated that England is now ready to recognise the new Empire in Mexico.

— A tornado at Point Lookout, Aug. 6, destroyed $20,000 worth of Government property

— The English Government, at the prorogation of Parliament, promised continued strict neutrality in American affairs.

— It is intended by the English Government to recall, during the coming fall, the whole of the silver coins now circulating throughout the United Kingdom, and replace them by an entirely new coinage.

— The crops of peaches and apples in the Middle States are immense. In Maryland, Delaware and New Jersey, the peach trees are literally breaking down beneath the weight of fruit. Both apples and peaches are small but numerous.

— Gounod, the Composer of Faust, receives $50 every time that his opera is performed in France, England or Germany.—He has an equal daily income from the sale of copies and arrangements of the music.

— Mr. Trask, the indefatigable publisher of Temperance Tracts, Fitchburg, Mass., sends us a store of spicy tracts, among which are The Drunkard's Home, The Street Smoker, Moderate Drinking, &c.—All readable, and many of them rich.

— An officer of Gen. Mower's staff, who has arrived at Cairo, gives information, considered positive, of the death of the rebel Gen. Forrest at Holly Springs, Miss., on Wednesday of last week, of hospital gangrene.

— For reasons too well known to require enumeration, the price of the Boston Daily Advertiser, Post, Journal, Traveller and Transcript, on and after Monday, Aug. 15, will be Five Cents per copy, or Thirty Cents per week. The Herald will charge Three Cents per copy, or Eighteen Cents per week.

THE LEGISLATURE.

The Senate on Tuesday adopted a joint resolution to confine its legislation to military and financial matters. The House has passed a resolution referring to appropriate special committees the several subjects referred to in the Governor's Message; and also instructing a special committee of ten to inquire and report "whether or not the charges made by the Governor against the Legislature as to the responsibility for the necessity of its re-assembling are founded on fact and justifiable, whether or not the Legislature has been guilty of the gross neglect charged by the Governor, whether or not His Excellency has taken proper and efficient means to raise money and troops, and to carry out the legislation of the last session, and also what number of troops have been raised in the State since the adjournment of the Legislature." On Wednesday a bill was introduced in the House, to assume by the State the bounties paid by towns to volunteers, drafted men and substitutes,—bonds payable in 20 or 40 years at 6 per cent to be issued to the towns or sold at not less than par. Read twice and referred. The House passed a joint resolution authorizing the Treasurer to borrow $500,000, on such terms as the Governor and Council may approve, and $1,500,000 in addition, on the advertisement for proposals, on such terms as the Governor and Council may approve, and suspending all usury laws so far as this loan is concerned. A bill was introduced, read twice and referred,—to enable the soldiers to vote for electors of President and for Representatives in Congress, (not for State officers), providing that they shall vote by companies, line officers to act as judges of election; voters to put their name and residence on the back of the ballot, and a statement of the result to be certified by the judges and transmitted to State officers, and the ballots also transmitted to the Secretary of State.

NEW HAMPSHIRE ITEMS.

—— Capt. Joseph J. Ladd, 8th N. H. regiment, has been sentenced by Court Martial to be dismissed the service.

—— The Monitor understands that the Citizens' Committee of Concord on the enlargement of the State Capitol, have resigned.

—— Col. Harriman has arrived at his home in Warner. His health is poor, and he is in much need of rest, but he is not so much exhausted as might have been expected from the severe treatment he received from the rebels while a prisoner.

—— Smith Seavy, of Laconia, employed on the steamer Lady of the Lake, was drowned on Tuesday afternoon. The lifeboat of the steamer got loose and went overboard, and Mr. Seavy put off in a small boat to secure it. On coming alongside, the paddle-wheel of the steamer struck him, throwing him into the water, and he sunk before help could reach him. He was about 23 years of age, and leaves a wife and two children.

— Gen. Grant has shaved off his moustache and trimmed his whiskers.

— The U. S. steamer Powhattan was at St. Thomas on the 27th ult.

— The blockade runner Lynx, from Wilmington, arrived at Bermuda on the 2d.

— Gen. Hooker has left New York city to visit his relatives in the interior of the State.

— Lyon has a new steam fire engine from Manchester—the "cost of arms" on it being a lady's gaiter boot.

— A large and enthusiastic McClellan meeting was held in New York on Wednesday evening.

— Pennsylvania votes, 194,306 to 103,665, to allow soldiers to vote—five counties to hear from.

— Gen. Kilpatrick has recovered and resumed his command in Gen. Sherman's army.

— Joel Day, of Wesley, Me., lost seven of his nine children within a space of two weeks, by diptheria. At one time four were sick and three dead in the house.

— The vote in Bangor on Tuesday on the loan of the city credit to the European and North American Railroad Co., stood—yeas, 261; nays, 29—a very small vote.

— Gen. Patrick has issued orders to prevent State recruiting agents from enlisting negroes within the lines of the Army of the Potomac, under the late act of Congress.

— The Parisians use horse flesh for food to a great extent. Official returns show that the amount brought to the capital from a single department of the country is 30,000 lbs. annually.

— Joseph Joy of Ellsworth, one of the returned veterans of the Maine 6th, was in the service more than three years, was never sick a day nor wounded during his service, nor did he fail to be on duty at any time, nor fail to be in all the fights of the regiment.

LETTER FROM NEW YORK.

From our Regular Correspondent.

NEW YORK, August, 1864.

Dear Chronicle:—

Rogers, the Modelist, of your State, studio at 205 Fifth Ave., has finished another of his groups, which is called the "Wounded Scout, or a friend in the Swamp.' In the reeds of the swamp stands the strong athletic form of a negro fugitive, tattered and torn, his face full of indignation, mingled with solicitude for the approach of the foe, and supporting with his arm the scout, wounded, exhausted, fainting.

The attitudes of the figures, and the delineation of the details,—the torn shirt and pants, and bare feet of the slave—the snake in the swamp grass—the swelled veins of the wounded and bandaged arm, the head drooping on the negro's shoulder, and the hand by his side, all bespeak for it a mead of excellence equal if not superior to that accorded to others before mentioned in this correspondence. All of Rogers's groups have been finely photographed, and are for sale by J. H. Williams, 353 Broadway, and may be ordered by mail. They number about a dozen, and can be purchased singly or in sets, at 15 cents each.

In the allusion to the views of Portsmouth, in my last, those of the Glen Cottage, and Jackson's Express building, should have been mentioned as the work of Mr. Gregory, and not Mr. Meinerth. Mr. M. sends me, this week, a finely executed *carte* of the "Kearsarge preparing for sea at the Portsmouth Navy Yard," to which attaches special interest in consequence of the recent destruction of the English corsair Alabama by the gallant craft which it so truly delineates.

I am advised by my esteemed friend and former teacher, Mr. Aurin M. Payson, of the progress of the new volume, the "Poets of Portsmouth," and take pleasure in this brief heralding of a volume which will surely prove a String of Pearls, well worthy to accompany the "Jewels."

I condense for you the following items:

Ten bone-boiling establishments have been banished beyond the city limits.

Forrest will play a season of eight weeks in New York this winter, and one of six in Boston, and these only.

Dan Bryant (the minstrel) is making a great bit in white character, in Colleen Bawn, Irish Emigrant, and Handy Andy. He promises to make one of the best comedians on the boards. He performs at Wallack's, the regular company of that theatre being on a rusication till September.

It is rumored that Mrs. Hoey will build a new theatre for herself—not probable.—Her husband, Mr. John Hoey, of Adams' Express Co., is worth a couple of hundred thousands.

It is positively untrue that a tender of the Secretaryship of War was made to McClellan at the Astor House last week. The King of Spades has been rusticating at Hempstead, L. I., for some time. His time hasn't come yet. Every one knows he *can* wait.

Costs fifty cents—One drink and a cigar at Delmonico's.

Cost $3.25 per pair—Kid gloves.

The latest ticket proposed for the Chicago Convention—Fillmore and Guthrie.

At Lucille Western's benefit at Niblo's to night, the programmes will be scented with Phalon's extract of N. B. C., and holders of reserved seats will be presented with cartes de visite of the talented actress, and their ladies with bouquets. For once I'm glad I'm not a lady.

Perhaps you won't believe that it has been so warm here during the last six weeks that all the cows in the country round about give *boiled* milk. N.

Berks County, Pennsylvania, gives 1,500 majority against allowing Pennsylvania's noblest sons, who are fighting for their country in other States, to vote at her ensuing elections. It is needless to add that Berks votes heavily the Copperhead ticket, while the soldiers vote the other way.—*Exchange.*

This straw shows very plainly which way the wind blows. And as the whole State of Pennsylvania has voted by a good majority, say 80,000, to let the soldiers vote at the Presidential and other elections,—so it is now pretty clear that her vote this fall will *not* be in favor of the Copperhead ticket. It is worth while for every candid Democrat in New England to ask himself, Why should *not* the soldier vote? and why should I vote so as to please a Copperhead leader, or his master Jeff. Davis? U. T.

☞ The Portland Press comes to us printed on a very strong, white paper, which is said to be *one-half straw*;—and the Press says it is "perfectly bleached, tough, soft, and in all respects of first quality. In some particulars the straw paper is superior to that made entirely of rags. It is tougher, and though it requires more water to prepare it for the press, it takes less ink for a good impression. Its toughness tends to lessen the number of sheets unavoidably spoiled on a cylinder press, which is no small consideration when every perfect sheet costs at least two cents."

MISNOMERS.—The Democrat, of St. Louis, is not Democratic, and the Republican is not Republican. The former is Republican and the latter Democratic. Add to these the Free Press, a new paper, which says that it will live a second year, "Providence and general orders permitting existence that long," and you have a trio of names most whimsically misapplied.

JOSH BILLINGS ON CATS.—I hev studyed cats for years, and hev found them addicktod to a wild state. They haint got affekshun, nor virtue of enny kind; tha will skratch their best friends, and wont ketch mice unless they are hungrey. It hez been said that they are good tew make up into sassiges; but this is a grate mistake. I hev ben told by a sassige maker that tha don't kompare with dogs.

Thar is one thing sartin, tha air very ankshus to liv; yu ma turn one inside out, and hang him up bi the tale, and as soon as yu air out orv site he will manige to turn aback summerset and sum around all rite in a few dazz. It is verry hard work to luze a cat. If one gits carried off in a bag bi mistake a grate waze into the country, tha wont sta lost only a short time, but sune appear tew make the family happy with thare prezence.

Old maides are verry fond ov kats, for the reason, I supposs, that cats never marry if tha hav ever so good a chans. Thare is one thing about cats I don't like—if yu step onto thare tales bi ackesident, tha git mad rite off, and mak a grate fuss about it. Thare is another thing about them which makes them a good investment for poor folkes. A pare ov cats will yeld each year, without enny outlay, sumthin over 8 hundred per cat. It is a very singular fakt that cats don't like a millpond. I never knu one to git drowned by enny acksident.

—The Lawrence Mills have increased the wages of their employees, which are now nearly 75 per cent higher than they were two years ago.

Brooksieper's Patent

Self-Acting Gas Regulator.

SOMETHING ENTIRELY NEW.

Patented 1864.

A brilliant and equal Light at a saving of 30 per cent over any Gas Burner now in use.

This is not a Regulator to go on the Meter, but under every Burner in use.

Economy in the use of gas, with the advantage of having a more brilliant light than heretofore, is a point at once desirable. Inventors have for many years sought to attain this end by packing or checking in innumerable ways the flow of gas through the burner tips.

Not one of these has attained the result wished for, namely, "a pure, transparent flame, without waste at any and all pressures, obtained at any hour and in all localities."

The above results are fully obtained in

Brooksieper's Patent Gas Regulator.

We invite the most incredulous to examine and test in the most thorough manner.

RETAIL PRICE, EIGHTY CENTS.

A liberal discount made to Churches, Factories, Hotels, &c. The Regulators will be put on, and if they do not prove satisfactory may be returned. CHARLES F. EMERY

"A Wonderful Discovery."
DR. TEBBETIS' "PHYSIOLOGICAL HAIR RESTORATIVE" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "Dye," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It makes the scalp moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "HYGEIANA" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

Local.

☞ The draft for the money for the payment of the June pay roll of the mechanics and laborers on the Portsmouth Navy Yard was received on Thursday, and the workmen will receive their pay forthwith. Considerable impatience has been manifested on account of the non-arrival of this money, but when we remember that our soldiers in the field get their pay only once in six or eight months, and sometimes wait a much longer time, we should not grumble if a payment is delayed a few weeks, if there be a good cause for it, as we understand there has been in the instance above referred to.

☞ We learn that Geo. L. Wentworth, of Salmon Falls, was arrested Wednesday evening, by U. S. Marshal Ela, on a charge of robbing the mail in its transit from the cars to the Post Office. He was brought before Commissioner Webster, of this city, and held to bail in $2000 bail for examination.

☞ The Boston Agency of the U. S. Christian Commission acknowledges the receipt of the following contributions in aid of the wounded soldiers: Fair, North Parish, Portsmouth, $397.12; from Greenland $27.71; from Hampton $9.50; High street M. E. Church, Great Falls, $61.50.

Police Court, Wednesday.—Charles Ross was found guilty of making a brawl and tumult, and was fined $3, and costs taxed at $4.80, which he paid.

Thursday.—Mathias O'Driscoll, for brawl and tumult, was fined $5, and costs taxed at $4.80. Committed.

— In some portions of the West complaint is made that so much rain has fallen as to damage the crops and wash away the bridges and mills. In other sections they are beginning to suffer further from a drought, or fear that there will be something of the kind.

— A matrimonial newspaper is to be established in Paris, to be devoted exclusively to winning the happiness of its subscribers and correspondents. Every day the "Echo Nuptial" will publish "Wants" and "Offers," correspondence between the advertisers, and a review of the matrimonial market, announcing whether blondes are in favor; whether browns rule high, and whether there is a brisk demand for widowers or widows.

Sharks on the Connecticut Coast. The shoals of fish as they come to the coast this year are attended by many sharks, which hang upon their skirts and make prey of great numbers. At a recent haul of the seine near the mouth of the Connecticut River, no less than twenty-one sharks were caught. The largest were about four feet long. Although these are a variety of the shark, they are different from the blue-nosed, shovel-mouthed monster which inhabits the waters of the tropic seas, and sometimes seizes upon human prey when he can get no other. But even among these the instances of attack upon men are very infrequent.—*Wilkes' Spirit.*

Some papers sneer because the wife of a camp follower, who has made a fortune out of the sale of soap grease, chooses to wear diamonds. If those wear diamonds who never earned a penny in their lives, why may not those who have by hard work and industry secured the means of buying them?

— The boat in which Hammill rowed Ward up the Monongahela river, in Pennsylvania, weighs only 37 pounds, although nearly thirty feet long. It is built of Spanish cedar, and fore and aft is covered with oil silk. The sculls are nine and a half feet long, and both together only weigh four pounds.

BUSINESS NOTICES.

PRICES AND TERMS.

The price of the Daily Chronicle is $6 per year in advance; 60 cents per month—15 cents per week—3 cents per copy.

The (Weekly) N. H. Gazette $2 per year in advance—6 cents single copy.

Terms Cash—or all bills for Advertising, &c., to be presented at the publisher.

Particular Notice.—From this date our Carriers of Subscribers' lists are not allowed to sell copies of the Chronicle, nor to receive pay for any subscriptions, except when furnished by us with receipts for the same,—which will not be given for less term than 1 month, 60 cts., or 3 mos. $1.50, in advance. If any prefer to pay weekly, they can do so at our counting room only. Will all concerned please remember this, and thus aid in the more prompt and accurate delivery of our papers. July 18.

A True Aim.—It has not been the aim of the proprietor of Hunnewell's great preparations, advertised on our inside columns, to base a false reputation by long and unmeaning advertising, but a real one by true results, to which all who try them will cheerfully assent. See advertisement.

Sympathy.—Sympathy is a lovely and beautiful thing, for it exhibits the angelic part of human nature. We deeply sympathize with those who cannot obtain Herrick Allen's Gold Medal Saleratus, for they are deprived of one of the greatest luxuries the world affords. But we have no sympathy with any family who will use any other Saleratus or sods, if this article can be purchased. We see most of our Merchants have it. One trial will convince any one. Their depot is 112 Liberty Street, New York.

Soldiers, Attention!—Pain, disease and exposure, with a hot climate, muddy water and bad diet, will be unavoidable, but armed with Holloway's Purifying and Strengthening Pills, you can endure all these and still retain good health.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 220

All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them. If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.
A full supply of Linings and Repair Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.
The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.
We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to
THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.
Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.
One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.
A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one. We sold him a Stove before he left, and there has been no complaint since.
These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

Morning Chronicle.

A lady "fair, fat and forty," expecting her husband to return to London by a certain train, went to the depot to meet him. After searching through the cars (or railway carriages, as they are termed in England,) for some time, she astonished her companions by throwing herself into the arms of a venerable looking, white-chokered son of Adam, exclaiming in a hurried and dulcet voice, "Oh, you dear old Charley, I've found you at last!" After sundry salutations of the basial order, she released the object of her warm regard, and on taking a second sight, exclaimed in bashful accents, "Oh, dear, sir, I'm afraid I've kissed the wrong man." The awed and gallant Lothario, taking off his hat, replied, "Madam, I cannot but regret that I am not the right man and in the right place. Allow me to salute you for Charley."

☞ The large cities are generally supposed to be the places where rascality is exhibited in its coolest forms; but, according to the Gazette, Haverhill, Mass., has some enterprising specimens. A few days since an agent for the sale of an article for washing windows was in town, offering them for sale, when he was confronted by a scamp who told him he was an officer of the town, and demanded of him his license for peddling. The agent having inadvertently left it at home, told the man that he had procured a license, and would telegraph home and satisfy him; but the rascal could not wait, and offered to compromise the matter by the payment of $10. The agent rather than be delayed in his business, and to save trouble, paid the fellow $10, and he has not been seen or heard of since.

"THE MAN WITH THE GLASS EYE."—It is stated that one of the deserters lately shot in the army, enlisted and was discharged or deserted twelve different times. He had lost one of his eyes, and falling into the hands of a substitute broker in Boston the latter furnished him with a very neat glass eye and enlisted him, and he was sent to the army. There he soon lost his eye again, or rather removed it and put it into his pocket and obtained his discharge. This process he several times repeated, and when unable to get his discharge, deserted. Unfortunately thirteen proved an unlucky number for him, and the trick being discovered, he was tried and sentenced to be shot.

The Paris correspondent of a London paper asserts that he has just read a curious and authentic account of the dismissal from the French army, as unfitted for service, of a young man who had "panophobia." This extraordinary youth could not swallow bread, or indeed any farinaceous food, which, if forcibly or secretly administered, produced the effect of poison. He lived on rations of meat and potatoes, but the doctors declared he was "afflicted with an involuntary intolerance of the organs incompatible with military service," and so he got his discharge.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 EMBOUCHUR STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never failed in curing, notwithstanding them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Ulcerations, Gleet, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Tumors, Bubos, Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases called by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Nervous Irritation, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The frightful effects of this habit can not be dreaded, loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, Hypochondria, are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use and the strictest secrecy, by your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important to Females

IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, No 7 & 9 Embouchur Street, Boston, is consulted daily for all Chronic Incident to the female system, Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new and philosophical principles, and speedy relief guaranteed in a few days. No more risky certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr Dow is consulted daily, from 8 A. M. to 9 P. M. to above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stand higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Would most respectfully invite the attention and examination of all Grocers, Druggists, Apothecaries and Private Individuals, desiring to sell or USE STRICTLY PURE

Liquors, Wines, Cordials or Bitters,

to the list of choice goods enumerated below, which are constantly on hand in large quantities at their Wine and Spirit Warehouse,

Wine Store and Bottling Establishment,

99 Washington street, Boston.

First on the list, as a reliable pure stimulant, stands the celebrated and widely known

Golden Sheaf Bourbon Whiskey,

made from Wheat, Rye and Corn, warranted for five years old. Put up in unique style, each bottle is a paper box, in case of one dozen each, the large and increasing sales of which convince the proprietor that no extended advertisement is needed to extol its real merits. It will recommend itself at trial.

Golden Sheaf Cordial.

A delightful and healthful beverage, aromatic, with a delicate ginger cordial, made from the pure Golden Sheaf Bourbon.

Golden Sheaf Bitters.

The best Tonic Bitter ever offered to the public. Mingled with the rich flavor of the Bourbon are a number of other ingredients for restoring the appetite and imparting life and vigor to the whole system.

Golden Sheaf Punch.

Made from fresh ripe lemons, and other articles, combined as a whole into a fine rich

Bourbon Whiskey Punch.

All the above put up full strength of the whiskey, and in cases of one dozen each. These articles improve by age, and no exposure of climate can affect them.

CURES FROM ONE TO THREE DAYS

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Obstruction of the Urinary Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Fluor Albus or Whites in females, where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with the medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and demulcent*; removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will send one, free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.

A few doses will cure Hysterics in females.

One bottle cures Palpitation of the Heart.

A few doses restore the organs of generation.

From one to three bottles restore the manliness and full vigor of youth.

A few doses restore the appetite.

Three bottles cure the worst case of Impotency.

A few doses cures the low spirited.

One bottle restores mental power.

A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, worn-down and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression, the individual suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of the Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure, the reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 50 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the escape of heat, which are liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq., Albert R. Hatch, Esq., Aaron H. Hill, Charles H. Mendum, Henry F. Wendell, John Shee, and others.

PASSED JULY, 1862.

AN ACT to promote the interests of Agriculture.

Section 1. If any person shall, at any season of the year, take, kill or destroy any of the birds called robins, thrushes, larks, blue-birds, orioles, sparrows, swallows, martins, woodpeckers, bobolinks, yellow birds, linnets, fly-catchers or wrbiers; or shall, between the first day of March and the first day of August, take, kill or destroy any of the birds called snipes, wood-cocks, plover, rails, yellow legs, or sand pipers; or shall, between the first day of March and the first day of September, take, kill or destroy any of the birds called patridges or grouse, or quails; or shall, within the respective times aforesaid, sell, buy or have in possession any of said birds, taken or killed, whether in this State or elsewhere, he shall forfeit for every said partridge or grouse, quail, woodcock, snipe or plover taken, killed or had in possession, the sum of three dollars, and for each of the other birds named above, the sum of one dollar, to be recovered by complaint before any justice of the peace.

Sec. 3. It shall be the duty of the selectmen of towns, and of the mayor and aldermen of cities throughout this State, to cause the provisions of this act to be enforced within their respective limits.

Sec. 4. All forfeitures or penalties recovered for violation of any of the provisions of this act, shall enure—one half to the use of the complainant, and one half to the use of the town or city where the same shall be recovered.

EYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her nearly every much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., but no lasting benefit could obtained. I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his HUMOR WASH, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the worst kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH DANIELS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. J. C. HOWARD.

From ELDER I. CRESSEY, *Lee, May 31, 1841.*

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night, she had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISAAC CRESSEY.

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. may20

Ayer's Cathartic Pills

Are the most perfect purgative which we are able to produce or which the world has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distempers, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be used for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Numerous testimonials, which surpass belief, were they not substantiated by men of such exalted position and character as to forbid any suspicion of untruth, have been given by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.

N.B.—Persons at a distance can be cured at home by advice and medicine. Dr. J. Ayer encloses a remittance. Medicines securely packed from observation, sent to any part of the world. All cases confidential. No charge for advice.

VERNATELLA.

Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.

VERNATELLA

Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,**

at retail everywhere.

But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, having as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.

☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.

Use Vernatella on the Soles of your Shoes. It makes them water proof, and thereby protects your feet from dampness, for the great majority of cases of colds, coughs, &c., are caused by wet feet, either from rain or the morning and evening dew.

American and Foreign Patents.

R. H. EDDY.
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Conducts Interferences, Reissues, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent can be obtained by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty-five years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, in all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leaves me no embarrassment in inventory to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

SATURDAY, AUGUST 13, 1864.

THE REBELLION.

Gen. Slocum commands Gen. Hooker's old corps, Gen. Washburn taking his place at Vicksburg. It is thought that the rebel army west of the Mississippi, is about to make a serious effort to cross to the relief of Hood. Gen. Sherman is knocking away at Atlanta with 4 1-2 inch rifle shells.

Gen. Sherman reports that all the Georgia militia are in his front. The Macon (Ga.) Telegraph of a late date notices the departure of 1600 militia from that place for Atlanta, and says a like number will leave daily for a week. Governor Brown, with Generals J. Johnston, Bragg, Anderson of Tennessee, Wayne and Hindman, was in Macon two weeks ago. The State troops are under Gen. G. Smith, the New York traitor, and will form an army in themselves.

Richmond papers report a severe engagement at Atlanta on the 4th; in which they lost an important position on the left, but say they regained it with but little loss.

Gen. Banks sends a private dispatch that the steamer Clyde arrived at New Orleans from off Mobile and reports that 3 monitors and 14 gunboats passed the forts at 8 A. M. of the 5th. One monitor (the Tecumseh) was blown up opposite the forts by a torpedo. Gen. Banks confirms the report of the capture of the rebel ram Tennessee and of Buchanan, who lost a leg. Gen. Banks adds—"This gives us possession." A Washington dispatch gives a report that Beauregard has been sent to command the defenses at Mobile. Richmond papers of the 10th say their loss by the Fort Gaines surrender was six hundred prisoners, fifty guns, and an immense amount of supplies of all sorts.

Advices from New Orleans report a successful Union expedition up Grand Lake, which destroyed many flatboats just completed by the rebels, and captured lumber, small arms, etc. In a fight near Morganzia Gen. Ullman's scouts defeated the rebels, who left their dead and wounded, besides several prisoners.

A rebel pirate was reported, Friday, 60 miles south east of Sandy Hook. She captured a pilot boat on Thursday.

Sec. Stanton mentions a report brought by deserters, of the surrender of Mobile.

THE LEGISLATURE.

Wednesday. — A resolution was introduced, requesting the Governor to ask permission of the War Department to recruit two new regiments in this State,—to accommodate young men who are willing to enlist if they can go into companies by themselves and not with substitutes. The committee on railroads were instructed to inquire whether any condition in the charter of the C. & P. Railroad has been disregarded in the adjustment of the tariff of fares. A resolution authorizing the Governor to refund the amount, not exceeding $300, paid by drafted men to substitutes, was referred.

Thursday.—The Senate passed a resolution authorizing the Adjutant General to procure a set of colors for the 1st Cavalry. In the House, the committee on the judiciary reported the bill to enable soldiers to vote, without amendment. Messrs Bingham and Sinclair (dem.) presented a minority report, objecting to the passage of the bill on the ground, among other reasons, that the whole matter was left to the line officers, who, although bound by oath, were liable to no penalty under the bill for violations of it. Debate followed, during which the tattered remnant of the battle flag of the 11th Regiment was brought into the Hall and placed on the Speaker's desk, which was received with cheers. The motion indefinitely to postpone the bill was lost; yeas 106, nays 183.

The soldiers' voting bill passed the House on Thursday afternoon by seventy-one majority; to be void, however, if decided unconstitutional by the Supreme Court.

— A fire in Mott street, New York, Friday, destroyed 25 buildings,—tenement houses, factories, &c.

— About seven million one and two cent pieces were coined in July. Oh, where are they?

— The attendance at the Methodist camp meeting at Yarmouth is said to be larger than last year.

— The internal revenue receipts for the first ten days in August were six and a half millions.

— A fire at East Boston on Thursday evening destroyed a planing mill, and several other buildings used for mechanical purposes. Loss nearly $100,000.

— A meeting is to be held at the Ocean House, Salisbury Beach, next Friday, to take measures to build a plank way across the meadow—three quarters of a mile.

— A new spire, 554 feet high, is building on the church of St. Stephen of Vienna, and will, when completed, be the highest in Europe.

EDITORIAL JOTTINGS.

PORTLAND, Aug. 12.

Dear Chronicle:

A couple of days spent at the first Convention of the Editors, Publishers and Printers of Maine, has, I think, been most profitably, and I know very pleasantly, employed. Besides a large representation of the forty four newspapers in Maine, there were present Mr. Waters of the Boston Advertiser, two Boston job printers and publishers, Mr. S. M. Pettengill of New York Advertising celebrity, and yours truly representing the New Hampshire press by invitation. And a jolly social occasion, as well as one of much business, has it proved.

In the matter of printing, an Association has been formed, which will, without doubt, be of much service to the craft and profession, and aid materially in the increase and uniformity of charges throughout the State. Artists are proverbially but illy paid for their work, but the devotees to the art preservative of all arts might get better remuneration than they do, would the proprietors of offices themselves insist on higher prices for the talent, capital and labor employed.

The Printers' Convention has been presided over in a very able and agreeable manner, by Hon. Nelson Dingley, jr., of the Lewiston Journal, who is Speaker of the Maine Legislature, a young gentleman of ability and energy, who must be considered as one of the "coming men" of the State. The meetings have been held in the splendid City Building, in one of the rooms significantly called the Senate Chamber, in anticipation of the time when the Portlanders shall succeed in their efforts to remove the State Capital thither from Augusta.

And besides the consideration bestowed upon the printing profession, (which has been not a little) the social attractions of the two days have been neither few nor small. It so happened, that the Committee appointed by Congress to make personal examination of the coast defences of Maine, have been spending the same two days in Portland with the Convention, and the two bodies have joined, on more than one occasion. And, as usual, the Congressmen gain most by the union; for when did ever a newspaper make so much from public men, as they are benefitted by the press? However, we are speaking in general terms, and have no fault to find with the M. Cs. this time sure.

Hon. A. H. Rice, of Boston, is chairman of the said Congressional Committee; and to him and Mr. Patterson, of our own third district, is your jotter indebted for an invitation to join the excursion, and once more represent the New Hampshire press in a responsible position. And as I shall thus have plenty of occasion to speak of this affair hereafter, I will now tell you in brief of our joint doings here—first merely saying that the Congressional party, including Representatives from various States, with members of the press, clergymen, and other distinguished invited guests, leave Portland in U. S. steam cutter Mahoning this (Friday) morning: they will go to St. John, touching at various intervening points, and will consume about two weeks in the excursion. I will give you a list of the party to-morrow.

To Hon J. B. Hall, of the Portland Courier, (late Secretary of State) and Mr. Geo. O. Gouse of the Argus, as also Mr. Elwell of the Transcript, and a few others, is due the credit of originating the Convention, and pushing it through to success; and to their courtesy and attention is also to be attributed the social enjoyment of the occasion—which all concerned, and the citizens generally, seemed anxious to promote.

On Wednesday morning, the Congressmen and the Printers both met at the Preble House, (where yours truly is also stopping—and a good place it is to stop, too,) and the talkers escorted the writers, or the writers the talkers, down to the City Hall, where the City Government "received" them and all the rest of creation who wish to be received on such occasions.

Hon. Charles Holden, of the Maine Senate, an old type, formerly of the Argus, and one of the few of the profession who get rich, delivered a very able and interesting address to the Convention, Wednesday afternoon; and had the good sense to be brief, too. Mr. Elwell of the Transcript is to be essayist next year, and Mr. Weston of the Northern Monthly, (a new magazine,) poet.

A sumptuous dinner for the editors was afterwards spread at the Preble House, and speeches were made by John Neal, Judge Kingsbury, Mr. Holden, and others, and old Daniel Fowle, New Hampshire's first printer, was remembered in toast.

Then in the evening there was a joint grand Levee given, in the splendid City Hall, which of course was a great success. The beauty and fashion, wealth and station of Portland were were well represented; splendid music by the U. S. military band here, luxurious refreshments, gay dancing, &c. Then, Thursday, a "joint" huge clambake party down the harbor, in two steamers and the U. S. cutter Dobbin. Six hundred or so, ladies and gentlemen, participated in Jim Freeman's bake, at one of the islands, and had a grand time generally.

But I can't stop to tell you more now. I see Messrs. Rollins and others from New Hampshire are on hand to go with the eastern party. Ex-Gov. Goodwin also goes with us. We are off now. More anon, from Yours, truly, F.

SKETCHES OF NEWCASTLE, N. H.

From its earliest Settlement to the present time.

Compiled from various sources. BY T. R. P.

NO. 2.

This place was once the residence of Edward Cranfield, and the General Court frequently assembled here to transact the business of the Province. Many were the animated discussions that took place among its members, and many were the disputes occasioned by the acts of Cranfield while occupying the gubernatorial chair.

Being appointed Lieutenant Governor of the Province of New Hampshire by the King, at the solicitation of Mason, and vested with new and extraordinary powers, he consented to accept the position on condition that Mason would secure to him the payment of one hundred and fifty pounds annually for seven years. To secure this the estate of Mason was mortgaged for the term of twenty-one years. Though his commission was granted on the 9th of May, 1682, he did not arrive in this province until the 4th of October following.

Being a man of vindictive spirit, blended with an arbitrary disposition, and withal a man of unprincipled character, whose chief aim seemed to be the acquirement of wealth, he soon commenced exercising his authority in a tyrannical manner. He would assemble and dissolve the General Court at pleasure—an exercise of power hitherto unknown. Those of the Council not meeting with his views were summarily dismissed, and others appointed to succeed them who could be more easily induced to second any measures he might propose. Assisted by a few of his evil associates, among whom may be mentioned the ignoble Judge, Walter Barefoote, he, with the Council, gradually assumed the entire legislative control of New Hampshire. His conduct led the people to remonstrate, and the excitement at one time became so great that several persons tried to insure his overthrow, and effect a revolution. Not being encouraged by the principal men they met with no success, but were apprehended and punished. He was, however, openly opposed by the Rev. Joshua Moody, who was the first ordained pastor of the "First Church" in this plantation. Though he was preacher from 1658, he was not ordained until 1671. Moody was a firm friend of the people, and viewed with a zealous eye the interests of this province. Cranfield, knowing his hatred of wrong, made use of various means to bring him into difficulty, and at last succeeded in getting him indicted and sentenced to six months' confinement at New Castle, in the house of Capt. Elias Stileman, which was then used as a gaol. At the expiration of thirteen weeks, he was released from confinement and permitted to go to Massachusetts, where he remained several years.—The indictment consisted in his not administering the Lord's supper to the Governor according to the liturgy!

Cranfield was disappointed in acquiring riches by virtue of his office, yet he continued to sacrifice principle and make use of various evil schemes to increase his wealth. To fill his coffers he resolved to tax the people. Knowing that the General Court exercised no good feeling towards him, and the king having directed that no tax be levied without their consent, he determined to raise money upon false pretences. He assembled the legislature at this island Jan. 14th, 1684, and introduced a bill to raise money for the defence of the province. Prior to the day on which they were to assemble he was engaged in ordering supplies and ammunition for the various forts within his jurisdiction, to make it appear necessary to place the province in a state of defence in order to guard against an invasion, rumors of which he caused to be extensively circulated. The Legislature, upon an examination of this bill, voted for its rejection, which caused the Governor to be greatly enraged, and he quickly dissolved them. This act, with others, caused petitions to be sent to the king, complaining of his conduct, in consequence of which his removal was determined upon. Being informed by some of his friends concerning this decision, he immediately vacated his position and sailed from the colonies, to which he never afterwards returned. Barefoote succeeded him in the administration. At the present day, near the residence of Mrs. Card, may be seen the remains of the old Atkinson house, where, it is said, the General Court often convened. The house in which Gov. Cranfield resided cannot now be pointed out. That, with the cellar in which he kept his wine, shows no trace of its former site.

Until 1693 the designation of this town was *Great Island*, so named from being the largest island in the vicinity, having an area of 458 acres. It is exceedingly rocky, and is of a very irregular form. A large portion of land was originally included within its limits, but owing to the incorporation of Rye in 1719 its area was greatly reduced. New Castle, Rye, Greenland, Newington and Portsmouth formerly constituted but one town. On the 10th of March, 1693, the inhabitants petitioned the Lieutenant Governor and Council to be made a township by themselves. The charter was signed May 30th, and the town incorporated under its present name. It is written throughout in old English black letter, fairly engrossed upon parchment, and still preserved among the archives of the town. It once bore the royal seal of William and Mary, but owing to ignorance of some careless meddler, probably attracted by its antiquity, it was cut off, and is now destroyed. As the charter has several times been published we will forbear making extracts from it, hoping that all persons interested in the antiquity of this town will pay at least one visit to the office of the Selectmen for the purpose of perusing this ancient piece of parchment. It is a document of interest not only to the antiquarian but to all who wish to examine the ancient style of writing. It is signed by John Usher, Lieutenant Governor, and Thomas Davis, Secretary.

Smith's Catarrh Snuff.

For the cure and immediate relief of Catarrh Colds in the Head, Dryness of the Air Passages, &c.

This Snuff does not sneeze one in inhaling it. It will break up a Cold in the Head in a few minutes. It is softening and soothing in its effects Every one, as far as is known, is satisfied with its results. The large demand it is having, by thousands and dozens, shows its value. The Proprietor was cured last winter of Catarrh of many years standing, with his "Catarrh Snuff," and the cure is PERMANENT.

Brocksieper's Patent
Self-Acting Gas Regulator.
SOMETHING ENTIRELY NEW.
Patented 1864.

A brilliant and equal Light at a saving of 30 per cent. over any Gas Burner now in use.

This is not a Regulator to go on the Meter, but under every Burner in use.

Economy in the use of gas, with the advantage of having a more brilliant light than usual flame, is a point at once desirable. Inventors have for many years sought to attain this end by packing or checking in innumerable ways the flow of gas through the burner tips.

Not one of these has attained the result wished for, namely, "a pure, transparent flame, without waste at any and all pressures, obtained at any hour and in all localities."

The above results are fully obtained in

Brocksieper's Patent Gas Regulator.

We invite the most incredulous to examine and test in the most thorough manner.

RETAIL PRICE, EIGHTY CENTS.

A liberal discount made to Churches, Factories, Hotels, &c. The Regulators will be put on, and if they do not prove satisfactory may be returned. CHARLES T. EMERY,

"A Wonderful Discovery."
J. TEBBETTS' "PHYSIOLOGICAL HAIR RESTORATOR" is compounded in strict accordance with the well known laws of Physiology and the Vegetable Chemistry. It is not a "DYE," it will not stain a particle. It will "RESTORE HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It cools the hair from falling off and removes dandruff, heat, humors and itching from the head. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing has no superior. The "RESTORATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With its use "GREAT HEAD" in New England can be restored in less than sixty days.
J. TEBBETTS, opposite the Post Office and 12 Exchange Street, Portsmouth.—Geo. C. Goodwin, No. 38 Hanover street, Boston, Wholesale Agent for New England, and sold by Druggists everywhere. TEBBETTS BROTHERS, Druggists and Chemists, Proprietors, Manchester, N. H. Jel—tf

Local.

☞ The Board of Aldermen on Thursday evening granted the application of C. W. Gerrish for sidewalks on Deer and High streets; also, of G. H. Rundlett for crosswalk in Court street.

Resolutions were adopted authorizing the committee recently appointed to fill the quota of the city under the last call, to draw on the City Treasurer for such sums as they may require for the payment of State bounties, the assignments of the same to be deposited with the Treasurer and to be considered sufficient vouchers for sums thus paid by him: also providing, that this shall in no way conflict with a recent vote of the Board appropriating $5000 for the use of the committee in filling the quota,—the committee being thus authorized to make their draft on the Treasury as above specified and also for such amounts of the $5000 as they may need, their receipts for the latter amounts to be held by the Treasurer as vouchers of the payments thus made by him.

☞ The official list of the killed, wounded and missing in the 2d N. H. regiment during the months of May, June and July, just received at the Adjutant General's office, gives the following wounded in Co. K: Lieut. William H. Colcord, Robert C. Sides, James J. Locke, James T. Gammon, E. R. Stevens, Asaph Lumbeck, James W. Taylor, James Watson, Thomas O'Malley, J. Keiley, J. Saunders, Clark Allen.

☞ A Band from Northwood, which has been at the Beach for a couple of days, made music in our streets on Friday morning, and subsequently went on an excursion down the harbor. They returned home in the evening.

☞ The price of the Journal has necessarily been increased to $2 per year in advance.

THE COMET.—A diffusely luminous body (supposed to be the comet discovered by Mr. Hind July 9th,) the Newburyport Herald says was observed through the haze on Thursday evening at twenty minutes past 8 o'clock, in the west, at an elevation of about 10 degrees above the horizon, in the constellation Virgo. The atmosphere was so hazy that it was difficult to locate it among the stars, otherwise than to say that it formed with Jupiter and Arcturus a nearly equilateral triangle.

NEW HAMPSHIRE ITEMS.

—— Mr. Jacob Dow of Bristol has killed his favorite dog. He has a valuable cow, and the dog was a thief—in fact, maliciously purloined the cow's milk in the field. So says a correspondent of the Mirror.

—— Another man in Bristol don't believe in trying to raise chickens. He set one hen, eight chickens resulted—all roosters. Another brood contains two sadly deformed, their legs "sprawled out," feet turned upward—of course wholly unable to walk.

—— The New Hampshire General Association and Conference of Orthodox Congregational Ministers and Churches will meet at Manchester, on Tuesday, August 23, and, with the N. H. Mission Society and other associations, continue in session three days.

—— A young man in Manchester on Tuesday evening took up a revolver and supposing it to be unloaded, very foolishly snapped it at his sister. One of the barrels proved to be loaded with a blank cartridge, and it exploded, sending the wadding into her shoulder. Fortunately she sustained no serious injury.

☞ Three Revolutionary heroes were represented by descendants in direct line, and bearing their name, on the Kearsage, in the recent engagement with the Alabama. Judge Matthew Thornton and Josiah Bartlett, signers of the Declaration of Independence, from New Hampshire, represented by great-grandsons, Lieutenant Commander Thornton and Acting Master's Mate Ezra Bartlett, and the gallant Commodore Preble by Midshipman Preble. Thus we see those great and good men "still live," and are still at work in endeavoring to preserve that Government whose foundation-stone they helped to lay.

THE EXPLOSION.—A dispatch from Gen. Grant, reports the casualties by the explosion of the ammunition barge at City Point on the 9th as follows:—Killed, 12 enlisted men, two citizen employes, 1 citizen not employed by Government, 38 colored laborers. Wounded, 3 commissioned officers, 4 enlisted men, 15 citizen employees, 86 colored laborers. Besides these, there were 18 others wounded—soldiers and citizens—not belonging about the wharf. The damage to property was large, but Gen. Grant says he has not the means of reporting it. The cause of the explosion has not been ascertained.

— It is stated in the New York papers that Ericsson's caloric engine is to supply the motive power of the great ocean iron-clad Dictator, on her forthcoming European voyage.

— The decision of Acting Commissioner Rollins, that 7-30 treasury notes are liable to taxation, applies only to banks that hold them as part of their capital stock. The first section of the last loan act expressly exempts all U. S. treasury notes as well as bonds from State and municipal taxation.

— Molasses is now reaching California from the Sandwich Islands. Whereupon the Boston Journal gravely remarks: "The value of early missionary enterprise there thus comes back to us with profit, in our need." About how many gallons would make a fair thing of it, disregarding the profit?

BUSINESS NOTICES.

PRICES AND TERMS.

The price of the Daily Chronicle is $6 per year in advance; 60 cents per month—15 cents per week—3 cents per copy.

The (Weekly) N. H. Gazette $2 per year in advance—6 cents single copy.

Terms Cash—or all bills for Advertising, &c., to be presented at the pleasure of the publisher.

PARTICULAR NOTICE.—From this date our Carriers of Subscribers' lists are not allowed to sell copies of the Chronicle, nor to receive pay for any subscriptions, except when furnished by us with receipts for the same,—which will not be given for less term than 1 month, 60 cts., or 3 mos. $1 50, in advance. If any prefer to pay weekly, they can do so at our counting room only. Will all concerned please remember this, and thus aid in the more prompt and accurate delivery of our papers. July 18.

A TRUE AIM.—It has not been the aim of the proprietor of Hunnewell's great preparations, advertised on our inside columns, to base a false reputation by long and unmeaning advertising, but a real one by true results, to which all who try them will cheerfully assent. See advertisement.

SYMPATHY.—Sympathy is a lovely and beautiful thing, for it exhibits the angelic part of human nature. We deeply sympathize with those who cannot obtain Herrick Allen's Gold Medal Saleratus, for they are deprived of one of the greatest luxuries the world affords. But we have no sympathy with any family who will use any other Saleratus or soda, if this article can be purchased. We see most of our Merchants have it. One trial will convince any one. Their depot is 112 Liberty Street, New York.

SOLDIERS, ATTENTION!—Pain, disease and exposure, with a hot climate, muddy water and bad diet, will be unavoidable, but armed with Holloway's Purifying and Strengthening Pills, you can endure all these and still retain good health.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 220

Facts for the People.
The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.
We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to
THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.
Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.
One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.
A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.
These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

THE NEW OCEAN HOUSE,
RYE BEACH.

Notwithstanding the cry made in the Boston papers that though the old prices would still be received at the public houses at the beach, they would be payable in *gold,* (a cry by the way which other localities doubtless took pains to promulgate,) the houses, public and private at the beach are filled to overflowing. The old landlord of the Ocean, JOB JENNESS, Esq. presides at the Surf House, and is carrying forward the construction of the New Ocean House with as much speed as is requisite to have it proper order for the business season of next year.

The New Ocean House is a noble structure, more extensive in its size than any public house in New Hampshire. It faces the ocean, the grand arched entrance being in the centre on the south side. It is 190 feet in length, 95 feet wide in the centre, and the wings 38 feet in width. It is three stories in height—the lower story 18 feet. 2d story 11 feet, and 3d story 10 feet in height. There is also a fourth story in the centre. It contains 125 rooms. The rooms are white hard finished. There is no paint used inside the house, except an some pillars in the main hall and in the chief dining room. The door frames are trimmed with button wood, and the doors are finished with an oil coating. In the second and third stories there are entries the whole length of the house, 190 feet, from which rooms open on both sides. The spacious stairways, with easy flights of stairs, ascends from the centre hall, to the cupolar, which is about 80 feet from the foundation. The beach and ocean view from this cupola, as well as of the surroundings, is grand, and well repays for the long journey to reach it. The Piazzas, 450 feet long, extend around both wings of the house. From the beach, the beautiful symmetry of the building is apparent, sitting as pleasantly on the eye as a noble ship riding on the ocean.

STATE LEGISLATURE.

The extra session commenced on Tuesday. Gov. Gilmore gives a rather spicy Message, rather more valiant than discreet. From the spirit of the report of the committee on the message, there is some chance that his Excellency will feel like backing down on some of his charges. If, however, he is strictly right in his estimate of the Legislature, we glory in his independence. One thing every day becomes more apparent, that a smaller legislative body would do business better than it is done by what seems now almost a mass meeting of citizens.

VOICE FROM THE HOSPITALS.

REV. MR. PATTERSON, on Sunday evening, gave in his church to a crowded audience, a recital of what had come under his observation while two months at the hospitals and in the camps in Virginia. He was made the almoner of the contributions made in this city, and by his personal attention to the matter was the means of doing most good with the means provided. He saw that there was not only need of supplies at the Hospitals, but also in the ranks, and by his efforts this neglected duty has been attended to. His recital was deeply interesting, coming from a heart warm in the cause of his country, for which not only his personal comfort, but life also, if need be, he is ready to sacrifice. As many could not get admission, we think a repetition, or further recital of his experience, would be desirable as having a good effect on the community.

GEN. SHERMAN.

Accounts from the N. Y. Tribune and other correspondents give interesting details, and we here append an official list of figures from Gen. Sherman. His estimate of our loss on the 22d is the same as Gen. Thomas's—namely 3,500; and he gives the following complete, exact and interesting statement as to the two battles.

Total loss of Unionists, July 20	1,750
Rebel dead counted and buried, July 20	1,113
Rebel dead counted and buried, July 22	2,142
Rebel dead in front of 15th Corps not in our hands	100
Rebel colors captured, July 20	7
Rebel colors captured, July 22	18
Rebel prisoners captured	2,200
Union loss, all told, July 22	3,500
Union loss of cannon, pieces	10
Total Union loss	5,250
Total Union loss of artillery pieces	10
Total Rebel loss in killed	3,955
Total Rebel loss in prisoners	3,300
Total Rebel loss in colors	25

From Gen. Sherman's army we have the intelligence that Gen. Stoneman, on the 20th ult., sent a large force of cavalry, under command of Gen. McCook, to destroy the Macon and Western Railroad. They destroyed some 18 miles of the road, and then started to capture a rebel train of 500 wagons, going from Atlanta to Macon or Columbus. This they succeeded in doing, but were afterwards attacked by a greatly superior force under Gen. Ransom, and, after a desperate engagement, were obliged to surrender. It is said that the rebels captured at least two thousand of our men, which some of the accounts attribute to a too free indulgence in the whiskey captured. There is a rebel story that Gen. Stoneman is captured with 500 of his men; but our government has received nothing to confirm it.

Last evening's despatches state that the latest information from Gen. Sherman's army leaves no doubt of the capture of Gen. Stoneman with a portion of his force.

PIERCE TO BE NOMINATED.—The Niagara Falls correspondent of the New York Commercial Advertiser wrote that if George Sanders and Jacob Thompson failed to bring about an armistice with a call for a Convention of all the States, they will endeavor to procure as an alternative the nomination, by the Democracy, of Ex-President Pierce at Chicago.

The people of North Hampton recently made a visit to their newly settled pastor, Rev. J. A. O. Barrows, and left $57 in money, and other valuable presents.

Putnam Clothes Wringer.

It is the only reliable Self-Adjusting Clothes Wringer—No wood-work, to swell or split. No thumb-screws to get out and lose. Warranted, with or without cog.

It took the First Premium at fifty-seven State and County Fairs in 1863, and is, without an exception, the best Wringer ever made. Patented in the United States, England, Canada and Australia. Agents wanted in every town, and in all parts of the world. Energetic men can make a fortune by selling these articles. Wringers sent, express-paid, on receipt of price, No. 2, $6.50; No. 1, $7.50. No. 0, $8.50. No. 00, $9.50. Manufactured and sold, wholesale and retail, by

THE PUTNAM MANUFACTURING CO.,
No. 12 Platt street, New York; Cleveland, Ohio, and Bennington, Vt. S. C. NORTHROP, Agt.

WHAT EVERYBODY KNOWS, YET.

That iron will galvanized will not rust.
That a simple machine is better than a complicated one.
That a Wringer should be self-adjusting, durable and efficient.
That Thumb-screws and Fastenings cause delay and trouble to regulate and keep in order.
That wood soaked in hot water will swell, shrink and split.
That wood bearings for the shaft to run in will wear out!
That the Putnam Wringer has all the advantages and not one of the disadvantages above named.
That all who have tested it pronounce it the best Wringer made.
That it will wring a shred or a Bed-Quilt without alteration.
We might fill the paper with testimonials, but insert only a few to convince the sceptical. If such there be; and we say to all, test Putnam's Wringer, and if not satisfactorily with any dealer, and if not entirely satisfactory, return it.

PUTNAM MANUFACTURING CO: Gentlemen:—I know from practical experience that iron well galvanized will rust sooner than other iron or tin ware. The Putnam Wringer is as near perfect as possible, and I can cheerfully recommend it to be the best in use. Respectfully yours,
J. O. W. WHEELER, Cleveland, Ohio.

Many years' experience in the galvanizing business enable me to indorse the above statement in all particulars. ALFRED C. FLETCHER.
New York, Feb. 24. No. 100 Beekman St.

We have tested Putnam's Clothes Wringer by practical working, and know that it will do, and is cheap. It is simple; it requires no room when at work or at rest; a child can operate it; it does its duty thoroughly; it saves time and saves labor and tear. We earnestly advise all who have much washing to do, with all intelligent persons who have any, to buy this Wringer. It will pay for itself in one year at most.

DR. S. O. RICHARDSON'S

BLOOD ROOT ELIXIR

Has been thoroughly tested and proved in his medical practice, for a period of THIRTY YEARS, and is now presented to the public as an effectual cure for

COSTIVENESS,
and the best remedy ever prepared for

Diseases of the Liver,
SCROFULA,
All Humors and Impurities of the Blood, and Diseases of the Skin.

The preparing and combining the Blood Root Elixir is attended with results to medical science next in importance to the inhalation of ether in surgery. Roots and herbs are the most purgent and disagreeable, are, by a new and scientific process of extracting the virtues, rendered MOST EFFECTIVE AND PLEASANT OPERATION, entirely divested of the griping and distressing pain which attends the action of all other purgative medicine. They are also prepared to become HIGHLY PLEASANT AND AGREEABLE TO THE TASTE,

and by their peculiar combination work so perfectly in HARMONY WITH NATURE that no unpleasant sensation will follow its operation. It also possesses

A Diffusive and Alterative Effect,

which can only be attained by medicine in a fluid state. These are new elements in purgative medicines.

The hard and compact manner in which pills are prepared, renders them dangerous, because they are often found through the stomach and bowels, half-dissolved, causing only PARTIAL ACTION, thereby creating irritation and pain to the parts connected with their passage.

One pill dissolved, as above stated, will produce more medicinal and physical effect than five in a crude state.

The BLOOD ROOT ELIXIR has no partial action upon the bowels, but is equally diffused thro' and throughout the whole circulation of the blood, imparting a healthy tone and vigor to the STOMACH AND BOWELS, LIVER, LUNGS, KIDNEYS, and gently stimulating dormant and inactive secretions to healthy action.

A single dose will produce a cheerful and exhilarating COMMOTION, which will inspire the patient with confidence that a speedy and PERMANENT RELIEF. A continuance for a short period will DRIVE the obscure and hidden humors to the surface of the skin, and relieve or cure SCROFULOUS AFFECTIONS; and by thus purifying and strengthening the blood, will remove the most fruitful

CAUSE OF CONSUMPTION.

It excites the various organs of the system to act their allotted part, removing the causes which induce **RHEUMATISM, NEURALGIA, HEADACHE, LOSS OF APPETITE, DYSPEPSIA, COSTIVENESS,** and the various diseases which spring from a disorganized state of the Stomach and Bowels, and restricted circulation of the Blood.

COUGHS and COLDS, in their early stages, will immediately yield to the effect of the Elixir.

The BLOOD ROOT ELIXIR contains no mineral, no poisonous botanical element, no excitant, but stimulates the system in its mild and effective action. It is as effective and painless as spirit—has a decided, salutary action upon the Liver, and then has been as medicine prepared for common family use which possesses equal merit.

Travellers, both by sea and land, will find the Elixir a complete antidote for the evils which they are obliged to endure from a change of climate, of water, or diet.

Read the pamphlet around each bottle for a history of the Elixir.

The proprietor of the Blood Root Elixir, (Dr. S. O. Richardson) has been long and favorably known to the public by the celebrated SARSAPARILLA WINE BITTERS (the best tonic medicine ever discovered, and which has been in use over thirty years. He is a graduate of the New Hampshire Medical College, and many years associate member of the Massachusetts Medical Society, and has made the study of medicine his profession since 1834.

And so fully convinced is the Doctor of the wonderful curative effects of his Blood Root Elixir, that he hereby offers to any sick and suffering person who will use one-half of a bottle of his Elixir and not be conscious of a good effect therefrom, to refund to said person the amount he had paid for the same, by returning the village bottle to his office.

Price $1.50 per Bottle.

Sold in Portsmouth by J. H. THACHER, opposite the Post Office, and No. 19 Market Square; and by Dealers in Medicine generally, and at Dr. Richardson's Office, No. 51 Hanover street, Boston. ly6—3moeod & W

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and cod iron heater combined, by which the odor of broiling meats are prevented from escaping into the room, and the cooking top made so as to have a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, such as is required, without the use of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headaches so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over those already in use, and all have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off to the top of the chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which keeps them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat contained, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world.—and would refer them to the following named gentlemen, who have now in use:

Samuel Green, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Sise, and others.

PASSED JULY, 1862.
AN ACT to promote the interests of Agriculture.
Section 1. If any person shall, at any season of the year, take, kill or destroy any one of the birds called robins, thrushes, larks, blue-birds, orioles, sparrows, swallows, martins, woodpeckers, bobolinks, yellow birds, linnets, fly-catchers or warblers; or shall, between the first day of March and the first day of August, take, kill or destroy any of the birds called snipes, wood-cocks, plover, rails, yellow legs, or sand pipers; or shall, between the first day of March and the first day of September, take, kill or destroy any of the birds called partridges or grouse, or quails; or shall, within the respective times aforesaid, sell, buy, have in possession any of said birds, taken or killed, whether in this State or elsewhere, he shall forfeit for every said partridge or grouse, shall woodcock, snipe or plover taken, killed or had in possession, the sum of three dollars, and for each of the other birds named, the sum of one dollar, to be recovered by complaint before any justice of the peace.
Sec. 3. It shall be the duty of the selectmen of towns, and of the mayor and aldermen of cities throughout this State, to cause the provisions of this act to be enforced within their respective limits.
Sec. 4. All forfeitures or penalties recovered for violation of any of the provisions of this act, shall enure—one half to the use of the complainant, and one half to the use of the town or city where the same shall be recovered.

Please Look at This.
EPPING, N.H., Feb. 26, 1846. "I hereby certify that I have had the Salt Rheum for the most part of 7 years—some of the time so badly as to prevent my labor, or even rest—as it affected her hands very much. A large sum had been expended to procure celebrated physicians, for their advice, drugs, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWAYNE'S ALL HEALING, and the Lady of Balsamic Wash, which have effected a cure. There can be no mistake; as this cure was effected more than one year ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my neighbors, who have used it and witnessed the very full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with the scrofulous humor, and that previous to your visiting our house in the spring of 1860, she had been confined for a number of months, without a natural rest by day or night. She had applied to a number of physicians, but continued to get weaker till she commenced using your ANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicines one of the best that can be found for the disease above named." ISRAEL CHESLEY
☞ Any one returning the remainder of a bottle of DR. SWETT'S medicines shall have pay for it, if it do not agree with the case, or if it do not fill the price. All orders directed to DR. SWETT, No 7 High street, Portsmouth, N. H., promptly attended to. may20

Ayer's Cathartic Pills
Are the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly shown to the community how much the best of the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their searching properties stimulate the vitalities of the body, remove the obstructions of organs, purify the blood, and expel disease, purge out the foul humors which breed and give distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. It only do they cure the every-day complaints everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, a safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take, and entirely vegetable, and are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by testimony so unimpeachable that it would be folly to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our preparations contribute immensely to the relief of our afflicted suffering fellow men.
The Agents below named are pleased to furnish with our American Almanac, containing directions for their use, and certificates of their cures in the following complaints:
Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, and Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, and Jaundice, where a mild but efficacious cathartic is required to regulate an evacuant medicine. They also, by purifying the blood and stimulating the system, cure the complaints which it would not be supposed any could reach, such as Deafness, Partial blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and her hundred complaints arising from a low state the body or obstructions of its functions.
Do not be put off by unprincipled dealers with her preparations which they make more profit by. Demand AYER's and take no others. The world want the best aid there is for them, and they will have it.
Prepared by J. C. AYER & Co., Lowell, Mass., and sold by Brackett Hutchings, J. H. Thacher, J. H. Preston, David Kimball, and all druggists.

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered *at short notice* touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington, without delay.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unexpanded by; it not improbably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none EVER MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for original services so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such remarkable success argues skill and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made only *six* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided *in his favor*, by the Commissioner of Patents. R. H. EDDY.

VERNATELLA.
Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.
VERNATELLA
Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents per Bottle.**
At retail everywhere.
But its cost to the purchaser is really nothing, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.
☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.
Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dews.

MONDAY, AUGUST 15, 1864.

THE REBELLION.

The male inhabitants of McIntosh county Ga., met at the Court House Aug. 8, to form a coast guard, but an expedition sent out from the U. S. sloop-of-war Saratoga gobbled them all. There were but 22 of them. Two bridges were destroyed by our troops, and a large encampment burnt. Two salt mines on the Black river have been destroyed by an expedition from the steamer Potowaka.

The rebels are reported to be in strong force outside of Algiers, 6 or 7 miles from New Orleans. The Teche district is also occupied by the rebels.

1000 guerillas are reported to be in Union, Kentucky, and a large number in the western part of the State, near the Tennessee line. Gen. Payne has gone to clear them out.

The N. Y. Herald's Southwest Pass dispatch confirms the report of the blowing up of the Tecumseh and the capture of the Tennessee. It also says that the land forces under Gen. Granger invested Fort Gaines simultaneously with the passage of the forts by the fleet, taking the water batteries in the rear.

The Richmond Sentinel of the 10th reports that Gen. Grant is quietly moving large bodies of his troops from his front and sending them down the James river in transports. It does not know where they are being sent, but claims to be positive as to the movement.

An invasion across the Ohio, which is very low, into Indiana, is apprehended. 1000 rebels with two pieces of artillery, who are at Morganfield, Ky., threaten Mt. Vernon, Ind.

By Telegraph—Sunday noon.

No news of importance has been received in Washington, except from Gen. Sheridan in the Shenandoah Valley. The rebel Gen. Early as yet manifests no disposition to contest the advance of the pursuing forces, but seems rather anxious to get away with his plunder as rapidly as possible. At the latest advices Sheridan was in close pursuit, and there was a probability that Early would be brought to bay before reaching Strasburg. On Saturday last four trains, of 20 cars each, arrived in Richmond, bringing a body of troops from Petersburg, said to be a division, which left immediately on the Virginia Central railroad to reinforce Early. A large body of cavalry arrived on the same day by railroad, and departed for the same destination.

The news from Atlanta is not of a definite character, other than that everything was progressing favorably.

The N. Y. Commercial's Washington dispatch says there is positive and reliable information to the effect that Gen. Sheridan has defeated Early in every encounter, and that the latter is retreating down the valley, closely pursued by our cavalry and infantry.

The schooner A. M. Lee, Capt. Lee, arrived at Providence, R. I., on Saturday morning from Philadelphia, and reports that on Friday A. M. he was chased and nearly overtaken by the pilot boat recently captured by the Tallahassee, when six miles westward of Shinnecock Point, Long Island.—The boat tacked and stood for a bark which hove in sight. The Tallahassee has as tender a Nova Scotia bark, two-thirds loaded with coal. The first vessel captured by the Tallahassee was schooner Carroll, loaded with coal. She was bonded in the sum of $10,000, the singular provision being made in the bond that she is to be delivered in New York. The pirates were guilty of the greatest inhumanity to the ladies found on board the vessels captured, putting them ashore without food. The captains and seamen of the captured vessels were also stripped of every article of value. Two gunboats left New York on Friday afternoon, and another on Saturday morning, in pursuit of the Tallahassee. Two others have been dispatched from Fortress Monroe on the same errand.

— Hon. Daniel S. Dickinson refuses to be a candidate for Governor of New York.

— Gov. Evans of Colorado thinks that nearly all the Indian tribes of the plains are combined in the war against the whites, and that it will extend from Texas to the British lines.

— The families of 100 days' soldiers, who may be killed, will receive the same pensions as if they served three years. The law pays no regard to the term of service.

— The Baltimore correspondent of the New York World says that the strength of Lee's army, including the force in Shenandoah valley, is 104,000. Grant's force has been so recruited by the volunteers on the half million call that have been forwarded, that it is said to be as strong to-day as when it crossed the Rapidan. From seventy-five to a hundred thousand, however, are guarding Washington and repelling the invasion.

EDITORIAL JOTTINGS.

PORTLAND, Aug. 12.

Dear Chronicle:—Not quite off yet—and before we go I must say a few words more; then good bye, till next time. It were well to change base soon, else there would be nothing left of us; for what with going through the "joint" and several programmes gotten up for the Printers and the Congressmen, and the outside invitations from everybody else, public and private, to go everywhere and do everything—it has become necessary to retire to some more quiet place, to collect ourselves.

First to receptions, then dinners and levees; clam bakes which we did accept, and a steamboat offered for excursion to the Pool, which we could not. Mr. Myers opens his doors to Kate Reignold's splendid theatrical performances; and the Horse Railroad places cars at our disposal. It is too much—we must get out of this. Let us wish the party a pleasant trip, and a useful one.

BATH, 13th, 5 A. M.

A splendid sail hither, and excellent dinner on board the cutter. We did not go to Augusta, as designed, but spent the night here. On arrival, the party were welcomed by the City Government, and given the freedom of the city indeed—the hotels and best private houses being thrown open for our use by the reception committee and citizens. A special train was, in the afternoon, placed at the disposal of Mr. Rice, for conveying the party to Brunswick, where all visited the College, under direction of President Woods, and made a very pleasant excursion of it.

In the evening a brilliant dance was given at Columbian Hall, to the party and the cutter's officers, which was largely attended by the principal citizens, and passed off very agreeably. That night all the gentlemen composing the party were distributed by couples at various residences which were hospitably offered for their entertainment.

Early this morning the Mahoning starts for Rockland, where the town authorities invite the party to a public reception and dinner. Thence to Bangor, where it is arranged to spend the Sabbath.

Yours, F.

NEW HAMPSHIRE ITEMS.

—— Gen. S. G. Griffin is with his family in Keene, on a brief furlough.

—— Winthrop A. Stevens has been arrested in Boscawen, charged with having counterfeit bills on the Bay State Bank, Lawrence, and the Union Bank, Boston, in his possession.

—— William Clayton, of Windsor, Vt., was drowned in the Canal at Manchester on Thursday night. He lay down on the bank while drunk, and in his sleep fell in.

—— Walter Perley, son of Judge Perley, of Concord, has enlisted and been mustered into the 1st N. H. Cavalry. He is only 17 years of age, but his father gave his consent to his enlisting.

—— Maj. J. H. Whittlesey, 6th U. S. Cavalry, has been appointed commandant of the draft rendezvous in Concord. He has been of late acting as disbursing officer in Concord.

—— S.—T.—1860—X. These cabalistic characters blemish many natural objects of interest in the White Mountain region, and a purse is to be made up by tourists to employ a house painter to efface the offensive advertisement, by the application of paint as near as possible to the natural color of the objects disfigured. Both plantation manners and plantation bitters are at a discount among the mountains.

—— The Statesman says that on Tuesday afternoon, week before last, Mr. Asa Maynard, of East Concord, now in the 93d year of his age, went into the woods to procure hoop-poles. After cutting as many as he could carry upon his shoulder, he started for home; but the sky was overcast, rain was falling, he became bewildered, and night overtook him. He took shelter in a wood-choppers' camp, wrapped himself in straw as well as he could, and remained until morning. He then started in a wrong direction, but reached a house whence he was taken to his home. None but a man of unusual bodily vigor, at the extreme age of 93, could survive such fatigue and exposure.

THE NEW PIRATE.—The pirate Tallahassee burned five vessels off Sandy Hook on Thursday. She is described as a small, neutral-English-built, straight-stem, fore and aft schooner rigged vessel, painted white, with red bottom, carrying a pivot gun forward and aft, and four broadside guns.—She is very slow. She chased the New Orleans steamer Evening Star four hours, and fired three shots at her, but could not overtake her.

Another dispatch states that the pirate is an iron steamer, mounting 3 guns, and having a crew of 120 officers and men. She is said to have run out of Wilmington a few days since. Her crew are of all nationalities. All the officers and crews captured were paroled and sent ashore.

— The price of gas in Nantucket has been raised to $6 per thousand feet.

— The Saco Water Power Co. has declared an annual dividend of $15 per share.

— The Philadelphia Union League has sent into the field five full regiments.

— The Provost Marshal, who was drafted in New Jersey, has been held to answer.

— Richmond dailies are now forty cents a copy.

— The Philadelphia Ledger is the only penny paper of the country.

— The fare between San Francisco and New York has been increased on all the routes to $400.

— The Female College at Worcester, Mass., has been leased to the State for five years for a military hospital.

— The State of Iowa is about establishing an Orphan Asylum for the children of her slain soldiers.

— A man with $700 in his pocket was picked up drunk in the streets by the Boston police on Friday evening.

— One firm in Philadelphia has twenty thousand hogsheads of sugar stored in the Custom House.

— The Pepperell Manufacturing Co., Biddeford, have declared a dividend of 50 per cent., (150 per share) payable Aug. 1st.

— Substitutes, as well as volunteers, may enlist for one, two, or three years, as they prefer.

— Gen. Howard, in entering upon the duties of his new office, is surrounded by McPherson's old experienced staff.

— Fitz John Porter is at Central City, Colorado Territory, engaged in developing the mineral wealth of that country.

— A propeller was burnt on Lake Erie, Wednesday, and ten of the crew were lost in the rush for the small boats.

— Gen. Burnside says, in reference to the Petersburg affair, that the orders given him were carried out faithfully.

— They have struck oil in Kansas which has all the valuable qualities of Pennsylvania petroleum, and, it is said, is even better for lubricating purposes.

— Tom Thumb was recently robbed of $1267 at Whitehall, New York, and consoles himself by saying he never had a good opinion of the place.

— Devonshire strawberries attain to a great size. At Loxbere, they were recently picked six inches in diameter, and three and a half inches in length.

— A boy in Portland plunged his head so far into the mud while bathing that he was unable to extricate himself. When recovered life was extinct.

— L. C. Gilson of Chicopee, has invented a machine which drills fourteen keys per minute, much better than it has hitherto been done on ordinary machines.

— The New Bedford Flour Mill Corporation pay a dividend of 100 per cent., 50 per cent. in stock and a like amount in cash.

— The pop corn man in the cars diverging from Groton Junction, who has two assistants, sells 100,000 packages per year, at 5 cents each.

— Congressman Hall, of Missouri, has been arrested for saying at a railroad depot: "I hold President Lincoln to be as much an enemy to the Government as Jeff. Davis."

— Seven weekly journals have ceased publication in the State of New York within the past six weeks—the consequences of the high prices of paper and labor.

— The English papers state that notwithstanding the drought, which seems to have visited the eastern as well as the western world, crops generally bid fair to be very good.

— The editor of the Somerset, N. J., Messenger has been put under $2000 bonds for endorsing the article for which Mr. Fuller of the Newark Journal has been arrested.

— Ex-Sec. Chase was an unsuccessful candidate in the Convention recently held in Cincinnati to nominate a Member of Congress. Benjamin Eggleston received 84 votes, and Mr. Chase 39.

— The editor of the Republican Journal (which isn't Republican) at Belfast, Me., has been arrested, it is said, for alleged treasonable utterances and discouraging enlistments.

— U. S. Marshal Keyes, last Saturday, took possession of the two Lathrop estates in Northampton, Mass., with a view to their confiscation. Jere. S. Lathrop is alleged to be in the rebel military service.

— Farm laborers in Ireland have 25 cents a day; in Belgium and that section 30 cents; on the Rhine and generally over the continent 25 cents. In all cases they board themselves. The women in harvest time labor in the field for 18 cents. A day's work is from daylight to dark. No wonder they emigrate.

— The Richmond Sentinel of the 29th ult. says that "had not England prevented the coming out of port of the rams which we had bargained for and bought, we would be to-day able to cope successfully with the whole Yankee navy." This is the first full and complete avowal of ownership in the Laird vessels which has been published.

Notice.

PORTSMOUTH, Aug. 12, 1864.

Brocksieper's Patent
Self-Acting Gas Regulator.
SOMETHING ENTIRELY NEW.
Patented 1864.

A brilliant and equal Light at a saving of 30 per cent. over any Gas Burner now in use.

This is not a Regulator to go on the Meter, but under every Burner in use.

Economy in the use of gas, with the advantage of having a more brilliant light than heretofore, is a point at once desirable. Inventors have for many years sought to attain this end by packing or checking in innumerable ways the flow of gas through the burner tips.

Not one of these has attained the result wished for, namely, "a pure, transparent flame, without waste at any and all pressures, obtained at any hour and in all localities."

The above results are fully obtained in

Brocksieper's Patent Gas Regulator.

We invite the most incredulous to examine and test in the most thorough manner.

RETAIL PRICE, EIGHTY CENTS.

A liberal discount made to Churches, Factories, Hotels, &c. The Regulators will be put on, and if they do not prove satisfactory may be returned. CHARLES T. EMERY,

"A Wonderful Discovery."
DR. TEBBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off, and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

Local.

☞ The last number of a sheet printed in this city, whose principal business seems to be to abuse the Government and a few of its prominent supporters, contained an attack upon the Hon. Horton D Walker, which among copperheads can do Mr. Walker no harm, while it tends to prove to them the character of this organ of the rebels.

Mr. Walker is accused in a manner as much against good taste as the matter is against truth, of making $50 by putting into the army a substitute for his son. The facts are that Mr. Walker, on the 14th day of July, and before the call for 500,000 men, and before any provision for either State or City bounty, paid $550 for a substitute for his son. Subsequently the State and City bounty was fixed at $300 each, provided that *the State will not pay more* than what was *actually advanced.* Mr. Walker received $300 from the city, and is entitled, by the 7th section of the act to facilitate the raising of troops, to $250 from the State, so that the result will be that Mr. W. will be refunded the money he advanced, and the State save $50.

Such are the facts—the false representation of which is made for the purpose of defaming the reputation of a gentleman who has, in all positions, whether public or private, been found true and generous, and who will continue to enjoy the confidence of the community—democrats as well as republicans—even if that sheet shall hereafter employ as much ability as it has heretofore of malignity in assailing him.

There are several other mis-statements in the article, but it is unnecessary to correct them. The character of Mr. Walker cannot be made to suffer by abuse from such a source.

☞ A little activity is manifested by workmen among the ruins on the spot on Penhallow street burnt over on the 18th of July. All the projects for widening the street, etc., seem to have been given quietly the go-by, and such matters will probably remain as they were. The buildings which were only slightly damaged have nearly or quite all been repaired. Mr. E. D. Coffin has commenced the erection of a wooden building on the spot occupied by his paint shop, and it is now going up rapidly. Mr. Murphy has commenced excavating for an enlargement of his cellar, and will begin to build a new Dye House as soon as the materials can be obtained. The store on Market street, occupied by Mr. H. N. Dunyon, dry goods dealer, has been repaired, and he is just getting back again to his old quarters.—The boys have had their day, in picking out the nails and iron from the ashes, and doubtless many of them have made a good thing of it. Certainly the industry manifested by the small flocks of them merits! success.

☞ A week ago Saturday we gave a report from a Boston paper, of the death of Mr. Thomas Kennedy, 1st Mass. Heavy Artillery; formerly of this city, in hospital at Washington; and last Saturday we published his marriage in Roxbury! The latter statement we think can be relied on as correct, as it was furnished us by Mr. K. himself, who was looking remarkably well for a dead man. His three years having expired, he has been mustered out, but the regiment still retains its organization in the field, and among the officers is Lieut. Sam'l C. Hervey, formerly of this city, Quartermaster of the regiment.

☞ We learn that Lieut. Lyman P. French has been detached from the Marine Barracks, Portsmouth Naval Station, and ordered to the steamer Roanoke, now lying in James river.

Mr. Josiah Chandler, 3d Ass't Engineer, has been detached from the steamer Tallapoosa, at the Brookly Yard, and ordered to the Roanoke.

☞ Quite a number of farmers in Rye and vicinity are taking advantage of the present dry weather to sink new wells, rightly considering that where they strike water now, it will not be apt to fail in ordinary seasons.

☞ The workmen at the Navy Yard were being paid off on Saturday.

☞ Wilkes' Spirit of the Times has an editorial on Rebel Pirates and their Neutral Patrons. It condemns utterly the hollow and base double dealing of England and France, by which Anglo Confederate cruisers, that had no ports or prize courts, have dwindled down our commerce. As the remedy for this evil, the Spirit proposes that our Government notify England and France that we are ready to *resume* our commerce, and therefore invite them to *close* their aid and shelter for the pirates, by denying them belligerent rights. If they do this promptly, all well. If not, the Spirit advises to close our ports against the vessels of those powers that are now doing what our own vessels should do.

— The car and coach factory of Gilbert Bush & Co., at Troy, N. Y., was burnt on Saturday morning. Loss $200,000. Insured for $100,000.

THE LEGISLATURE.

THURSDAY.—Bills were reported in the House for the funding of the State debt, and authorizing towns to fund their debts. Also, a bill imposing a State tax of one half of one per cent. on deposits in Savings Banks, in lieu of all other taxes. A petition was received for the passage of a law prohibiting the taking of bass in Great Bay by the use of seines or nets, and such a bill was introduced by Mr. Walker. The bill to facilitate the raising of troops was introduced and ordered to be printed.

The House after much discussion indefinitely postponed the bill for the relief of towns by a vote of 148 to 109.

FRIDAY.—Each House passed in concurrence the resolution authorizing a temporary loan for the State, providing that the loan of $1,500,000 previously authorized be made in such sums and for such times, not exceeding one year, as the Treasurer may deem best, and on such terms as the Governor and Council may approve,—one-half of the loan, however, to be made in accordance with the best bids to be obtained by advertisement, unless the bids are for a higher rate of interest than the Governor and Council deem proper to pay.

In the House notice was given of a bill to prevent the defacing of private property and natural objects by quack medicine notices and other advertisements. A resolution from the select committee was adopted, that it is the duty of the Legislautre to elect a State Auditor at the present session. The bill to facilitate the raising of troops was taken from the table. After some deprecation of hasty action, the House adjourned.

The Senate made the bill to allow soldiers to vote the special order for Tuesday next, at 11 o'clock.

Mrs. Crocodile is an absent-minded lady. She bought a new bonnet not long since, and the first time she wore it on Montgomery St. she thought every one would notice it, of course. Presently, she met Mrs. Simpkins, who stopped her with a "Good Morning, Mrs. Crocodile." "I bought it only a few weeks ago." "How is your family?" "One hundred dollars." Mrs. S. perceived that the mind of Mrs. C. was on her bonnet, and tried her once more. "Anything new, Mrs. Crocodile?" "Yes, the feather is new, too—a new bonnet altogether." And so they parted.—*California paper.*

It results from the researches of Pouillet that the stars furnish heat enough in the course of the year to melt a crust of ice seventy-five feet thick—almost as much as is supplied by the sun.

BUSINESS NOTICES.

PRICES AND TERMS.

The price of the Daily Chronicle is $6 per year in advance; 50 cents per month—15 cents per week—3 cents per copy.

The (Weekly) N. H. Gazette $2 per year in advance—6 cents single copy.

Terms Cash—or all bills for Advertising, &c, to be presented at the pleasure of the publisher.

PARTICULAR NOTICE.—From this date our Carriers of Subscribers' lists are not allowed to sell copies of the Chronicle, nor to receive pay for any subscriptions, except when furnished by us with receipts for the same,—which will not be given for less term than 1 month, 60 cts., or 3 mos. $1.50, in advance. If any prefer to pay weekly, they can do so at our counting room only. Will all concerned please remember this, and thus aid in the more prompt and accurate delivery of our papers. July 18.

A TRUE AIM.—It has not been the aim of the proprietor of Hunnewell's great preparations, advertised on our inside columns, to base a false reputation by long and unmeaning advertising, but a real one by true results, to which all who try them will cheerfully assent. See advertisement.

SYMPATHY.—Sympathy is a lovely and beautiful thing, for it exhibits the angelic part of human nature. We deeply sympathize with those who cannot obtain Herrick Allen's Gold Medal Saleratus, for they are deprived of one of the greatest luxuries the world affords. But we have no sympathy with any family who will use any other Saleratus or soda, if this article can be purchased. We know most of our Merchants have it. One trial will convince any one. Their depot is 112 Liberty Street, New York.

SOLDIERS, ATTENTION!—Pain, disease and exposure, with a hot climate, muddy water and bad diet, will be unavoidable, but armed with Holloway's Purifying and Strengthening Pills, you can endure all these and still retain good health.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 220

"A Stitch in Time Saves Nine."
All Furnaces, Stoves and Funnels should be thoroughly cleansed out and put in order, as soon as fires are done being made in them. If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.
A full supply of Linings and Repair Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.
The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.
We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of *operating it.* All things considered, there is no Stove equal to
THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.
Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.
One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.
A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.
These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

NEW YORK STATE DRIED APPLES
CHAPIN & YEATON.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on the treatment of all

CHRONIC OR DELICATE NATURE.

By a long course of study and practical experience (unrivalled extent, Dr. D. has in his gradual limitation of professional practice, fully made out remedies that have never since he first introduced them failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Between a moderate all the horrors of venereal and blood impurity, Scrofula, Gonorrhœa, Gleet, Nodes, Ulcers, Blotches, Pimples, Pustules, Inflammation of the Bladder and Kidneys, Eyes, &c., Abscesses, Humors, Painful Swellings, and the long train of horrible symptoms attendant on the Mercurial Mode, and become as hideous as the simplest things of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and Limbs, Pains in the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. Mental Mental Mental and mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of company, shyness, misanthropy, and various evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be cured, and put to health and happiness.

Patients who wish to remain under Dr Dow's treatment, for a short time, will be provided with good board and lodging at reasonable charges for board and attendance.

Medicines sent to all parts of the country, with full directions for use, by addressing a letter to your cases. Dr. Dow has also for sale the French Capsules, imported the best procurable. Order by mail. Price $1 per box, with 4 cent stamp.

Highly Important to Females.

IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, Nos 7 & 9 ENDICOTT STREET, Boston, is consulted daily at his office, on the treatment of all Female Complaints, Uterine, or Falling of the Womb, Fluor Albus, or Whites, and other menstrual derangements, and all treated upon new pathological principles, and speedy relief guaranteed. The Doctor is probably certain is the new mode of treatment, that most obstinate complaints yield under it, and the efficacy of the remedy is not to be doubted.

Dr. Dow has no doubt, had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1835, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no competition in his treatment.

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. on the treatment of Private Diseases in all cases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which enable patients from all parts of the country to place

Among the physicians in Boston, none stand higher in the profession than the celebrated DR. DOW No. 7 Endicott Street, Boston. Persons in need the services of an experienced physician and surgeon should give him a call.

Dr. Dow's Medical Book has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1854.—eodly.

DR. S. O. RICHARDSON'S

BLOOD ROOT ELIXIR

Has been thoroughly tested and proved in his medical practice for a period of THIRTY YEARS, and is now presented to the public as the best remedy for

CONSTIVENESS,

and the best remedy ever prepared for

Diseases of the Liver,

SCROFULA,

All Humors and Impurities of the Blood, and Diseases of the Skin.

The preparing and combining the Blood Root Elixir, has been with the medical science next in importance to the tabulation of other in surgery. Roots and plants, in the hands of a skillful physician, are the most powerful agents in the process of extracting the vacuum, rendered MORE EFFECTIVE IN THEIR OPERATION, entirely divested of the griping and distressing pain which accompanies the use of all other purgative medicine. They are NO MORE to become HIGHLY PLEASANT AND AGREEABLE TO THE TASTE,

and by their peculiar mode of action work so perfectly in HARMONY WITH NATURE, that no unpleasant sensation will follow its operation. It also possesses

A Diffusive and Alterative Effect,

which can only be obtained by medicine in a fluid state. These are new characteristics in purgative medicine.

The hard and boring manner in which pills are prepared renders them indigestible—and when taken are bound through the stomach and bowels, half dissolved, and with PARTIAL ACTION, thereby creating irritation and pain to the parts connected with their passage.

One pill dissolved in a wineglass of water will produce more medicinal and physical effect than five in a crude state.

The BLOOD ROOT ELIXIR has no partial action, but goes through the whole circulation of the blood, imparting a healthy and invigorating action to the whole system, and particularly the KIDNEYS, and gently stimulating dormant and inactive organs to strengthen the whole system.

A single dose will convince a doubting and Mercurial COMMUNITY, that it is not the patient with confidence and assurance of IMMEDIATE RELIEF. A continuance for a short period will DRIVE the disease from the vital organs to the surface of the skin, and relieve or check SCROFULOUS APPEARANCE, and by this purifying and regulating of the blood will remove the most fruitful

CAUSE OF CONSUMPTION.

It heals the Lungs through the system to set about their diseased parts, and for the causes which induce RHEUMATISM AND NEURALGIA, HEADACHE, DIZZINESS, DYSPEPSIA, DYSPEPSIA, COSTIVENESS, and the various diseases which arise from a derangement of the Stomach and Bowels, and restricted secretion of the Blood.

COUGHS and COLDS, in their early stages, will immediately yield to the effect of the Elixir.

The BLOOD ROOT ELIXIR, for exciting general, as perilous chronical diseases, as cancer, and, but requires the exertions of a mild diffusive stimulant, to remove the cause of complaint—has a decided, salutary action upon the Liver, and does not use a mercurial preparation, nor does it leave a mercurial taint in the system.

Travellers both by sea and land will find the Elixir a complete antidote for the evils which they are obliged to endure from a change of climate, or water, or of diet.

See the pamphlet around each bottle for a history of the Elixir.

The proprietor of the Blood Root Elixir, (Dr. S. O. Richardson,) has been long and favorably known to the public by his celebrated SHERRY WINE BITTERS, the great medicine ever discovered, and which has been in use for many years. He is a graduate of the New Hampshire Medical College, and twenty years a member of the Massachusetts Medical Society, and has made the study of medicine his profession since 1825.

And is fully convinced in the Doctor of the wonderful curative effects of his Blood Root Elixir, that he hereby offers to each and every person who will purchase a bottle of the Elixir and not be convinced of a good effect from it, from refund of the entire price the amount which he paid for the same, by returning the village bottle to his office.

Price $1.50 per Bottle.

Sold in Portsmouth by J. H. THACHER, opposite the Post Office, and No. 13 Market Square; and by Pinkerton Medicine generally, and at Dr Richardson's Office, No. 24 Hanover street, Boston.

SPEER'S

SAMBUCI WINE,

PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,

For Physician's Use, Females, Weakly Persons and Invalids.

AS A DIURETIC it imparts a healthy action to the Glands and Kidneys, and Urinary Organs; very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is prepared from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by physicians and chemists as possessing medical properties superior to any other Wine. It is an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and invigorating ladies and children.

A LADIES' WINE, because it will not intoxicate weakness, as it contains no mixture of spirits or other liquors, and is admired for its rich grape flavor and native properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

CHEROKEE REMEDY

AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as gravel, inflammation of the Kidneys, Stone in the Bladder, Strictures, Gravel, Gleet, Gonorrhœa, and all sexually transmitted diseases in men and women. Even Albus or Whites is cured when all the old nostrums and medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times a day.

It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow with a healthy stream, and thus cures the cause, by purging a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

THE MAGEE

COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water, also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with, the fire regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about [illegible] building or erecting buildings, to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, mild and agreeable, and so unlike the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over the old fire-pot, while others have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 50 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly she is unfit for her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWEET'S PANACEA, and several bottles of his Humor Wash, which has wrought a perfect cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Sweet's in removing the most inveterate kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with diseases at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWEET'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. ROWE.

From ELDER I. CHESLEY, *Lee, May* 31, 1841

DR. SWEET: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWEET, No. 7 High street, Portsmouth, N. H., promptly attended to. may26

Ayer's Cathartic Pills

Are the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow disease, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Among the many cures which surpass belief, were they not substantiated by men of such exalted position and character as to put all doubt and suspicion to contrary. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our preparations contribute immensely to the relief of our afflicted, suffering fellow men.

The Agents below named are pleased to furnish gratis our American Almanac, containing directions for their use, and certificates of their cures of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid inaction of the Bowels and pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstructions of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand Ayer's and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by J. C. AYER & Co., Lowell, Mass., and sold by Brackett Hutchings, J. H. Thacher, W. R. Preston, David Kimball, and all druggists. jy26eod1w 2m Tu

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (*under the Act of* 1837,)
76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any patent published by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not unexcelled by any agency to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT NOT PATENT EXCEPT THAN this subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHARLES MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

Mr. R. H Eddy has made for me THIRTEEN applications, in the last one of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. **R. H. EDDY.**

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

YOUNG MEN.

Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoicing in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. Single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Nichols' Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unsupproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

Caution.—Females in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 9 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.

N. B.—Persons at a distance can be cured at home by addressing the subscriber, Dr. J. Teller, inclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

VERNATELLA.

Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.

VERNATELLA

Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,** at retail everywhere.

But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.

☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.

Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dew.

TUESDAY, AUGUST 16, 1864.

THE REBELLION.

All the Texas coast, Brownsville included, has been evacuated by our forces, with the exception of Brazos Island, where a small force has been left. Gen. Heron's forces are going into camp above New Orleans.

Gen. Sheridan's troops were skirmishing with the rebels near Middletown on Friday. The rebels were in line of battle on the opposite side of Cedar Creek, two or three miles distant, on high ground. They are said to have two lines of battle half a mile long. The rebels are reported to be largely reinforcing Early.

Gen. Burnside was relieved of his command on Saturday evening, and is now on his way to Rhode Island, having reached Baltimore Monday morning. Gen. Wilcox temporarily commands his corps—the 9th. Gen. Leflie, who commanded the 1st division of the 9th corps in the recent assault on Petersburg, has been relieved by Gen. Julius White.

A masked rebel battery, a few miles below Guiness Landing, fired into the steamer Empress, from New Orleans on the 10th. 60 shots and shell struck the steamer, which had 500 persons on board. Five were killed and 11 wounded. Capt. Malley, of the steamer, was killed while telling the pilot never to surrender. The engine was disabled, and the boat rendered unmanageable, but one of our gunboats opened on the battery, and towed the Empress away.

2000 rebel cavalry under Chalmers were defeated at Abbeyville, Miss, on the 10th, with the loss of their caissons and several prisoners, by our cavalry under Gen. Hatch.

— Three new one-year regiments are to be raised in Massachusetts.

— The French Emperor never takes change when making purchases.

— Gen. Meade sent sixty-four dispatches to Gen. Burnside during the attack on Petersburg.

— A little girl, 8 years old, was killed in North Reading, Mass., last week, by being hit on the head with a swing board.

— At the National theater, Memphis, a Mr. Jessel received a tin cup, a prize offered to the man of most surprising ugliness.

— It is stated that the culture of rice was introduced into South Carolina, in 1696, by the master of a vessel from Madagascar.

— The United States Service Magazine for August contains a fine portrait and short sketch of Gen. Sherman. It also contains many other valuable and pertinent articles.

— Mr. Jarrett, of the Boston Theatre, offers $500 for a dramatization of Tennyson's new poem, "Enoch Arden," to be completed Oct. 15. A three-act drama of this "domestic" type is is called for.

— Gov. Seymour, fearing an invasion, has placed the Northern boundary of New York under the charge of Brig. Gen. Green, and that officer is making military details to patrol the border.

— Many consciences might be relieved at a cheap rate just now by returning to their owners the "lost" umberellas. There seems very little use for the articles this season.

— The Paris police have given orders that hereafter in no cafe concert shall customers be requested to order refreshments a second time. Heretofore every half hour customers were forced to order something or to leave the cafe.

— Instructions for the commencement of the sea wall on Great Brewster Island, and the repairs of those on Deer and on Lovell's Island, Boston harbor, have been issued to Maj. Blunt, Engineer. Col. J. D. Graham, Engineer, has been assigned to the superintendence of these works.

—Peaches, pronounced to be a very fine article, are selling in Balimore at from forty to fifty cents per bushel, and in Philadelphia they are already a glut in the market, selling at from twenty-five to fifty cents per basket. We wish they would pass a good lot of them up this way, at reasonable prices.

— Dr. Brown of Liberty, Me., has been convicted in the U. S. District Court at Bangor of obstructing the draft. By the aid of powerful poisons he simulated diseases exempting men, and charged $100 each. He nearly ruined his patients in the operation. Sentence has not yet been passed.

— Sixteen rebel officers confined on Johnson's Island, escaped from the prison yard one day last week. Some workmen were employed within the enclosure, and were in the habit of passing through at will, being recognized by being without coats. The prisoners seeing the gate open, threw off their coats and passed out. One got on board a steamer just starting; the others scattered away and took to the water on such floating substances as they could procure. The U. S. steamer Michigan's boats made pursuit, and secured all of them.

NEW HAMPSHIRE ITEMS.

—— A substitute, attempting to escape from the camp in Concord on Sunday evening, was shot dead by the guard.

—— 40 residents of Concord enlisted in the Navy on Saturday. 46 were examined and only six rejected.

—— The Surgeon of the 2d District examined one hundred and eighty men on Saturday.

—— The Union House, Exeter, was robbed of silver spoons, tea, eggs, a coat, &c., on Friday night last.

—— Several citizens of Exeter have presented a sword to Lieut. Col. Freeman Conner, commanding the 44th N. Y. regiment—a native of that town.

—— Mr. Smith Seavy, the man drowned on the Lake on Wednesday last, was not connected with the steamer Lady of the Lake, as stated, but was employed on the steamer Winnequam, plying in Sanburton Bay.

—— Gov. Gilmore has succeeded in procuring an order for the immediate transfer of the wounded N. H. soldiers in the General Hospital at Brattleboro', Vt., and at the N. E. Soldiers' Relief Association, New York, to the Hospital in Concord.

—— At the request of Senator Clark permission has been given to raise a company of artillery in this State, to serve not less than one year. It is understood that this has been asked at the instance of citizens of Manchester, and that it will be raised by Capt. James O. Chandler.

BERWICK ACADEMY.—The advertisement of this long established and favorably-known institution appears in our columns this morning. Mr. Stockin, the principal, is a gentleman well qualified for the position; affable, finely-educated, and enthusiastic in his profession. And he has all necessary assistance in conducting the school, which has recently largely increased in numbers. Three scholarships, furnishing $100 each annually, and the Coggswell prize books (for which $60 are appropriated) will be presented at the close of the summer term to those scholars who in the opinion of the Trustees are most worthy. From a long personal acquaintance with Mr. Stockin we can most cordially recommend the school under his charge to parents, feeling assured that all youths entrusted to his care will receive the most faithful and thorough instruction in the branches pursued. Then the school is delightfully situated in a pleasant village, where the task of climbing the hill of science must have as many attractions as it is possible to throw around it.

— Yellow fever is on the increase at Key West.

— The blockade of Brownsville, Texas, is renewed, our forces having evacuated it.

— A ship from Liverpool reports having heard, 13th, lat. 40 40, lon. 72, heavy guns at intervals, from 10 until 1 o'clock.

— Unusual and refreshing promptness has been displayed in sending gunboats after the pirate Tallahassee. But she has not been seen since Friday.

— A Vermont drover was robbed of $4000 and a gold watch in a saloon on Hanover street, Boston, early Saturday morning,—it is supposed by a woman.

— A Boston reporter recently "by good luck and good management" came into possession of more than $20,000, say the papers of that city. Perhaps he married it.

— The news from the island of Porto Rico confirms the previous reports respecting the prospects of a good sugar crop. The cane looks very thrifty.

— A procession including 43 fire companies welcomed home on Saturday the Baxter Fire Zouaves, a popular Philadelphia regiment.

— Dembinski, the Pole just dead in Europe, was said by the ladies to have the handsomest eyes in Europe—and he improved his opportunities.

— A substitute broker in Poughkeepsie, in trying to get a countryman drunk, took too much himself, and was enlisted by the individual whom he hoped to sell. He found out his mistake the next morning.

— The Bangor Whig says it is highly probable that the 31st Maine, having been reduced by battle and capture below the minimum standard of members in the service, will be ordered home to recruit.

— In speaking of college commencements, the Boston Post well says: "There is something at fault in either the mind or the heart of the graduate who walks away from them and holds no communication with the associates of earlier days."

— A sudden and fatal mortality prevails among horses and cattle in some of the parishes in Louisiana. Animals perfectly well at night are found dead in the morning. One planter has lost every horse and mule on his place.

— The Rev. Dr. Storrs, (Congregational), of Braintree, Mass., has entered on the sixty-fourth year of his ministry. He is still in full possession of his mental powers, and has no colleague. He is the father of the Rev. Dr. Storrs, of Brooklyn, N. Y.

MOBILE.—New Orleans advices to the 7th give details of Adm. Farragut's success at Mobile. Four monitors went in first, followed by the Brooklyn, Hartford, Metacomet and others. Fort Morgan was silenced by the Hartford. The Monitors at the same time engaged the rebel ram Tennessee, which attempted several times to run our vessels down, but failed. The monitors finally closed with her, and she was rammed by two of the wooden vessels, when she surrendered, although but little injured. The rebel commander, Buchanan, is not expected to live. The Hartford and Metacomet attempted to run the Tennessee down previously, but collided, injuring the Hartford so much that she will have to come north for repairs. The Tecumseh, which was sunk by a torpedo, carried down with her her gallant commander, Capt. Craven, and all but ten of her crew. It is thought she can be raised. The loss on the Hartford was 23 killed and 42 wounded. A shell exploded in the boiler of the gunboat Oneida, scalding 30 men. Our whole loss was 249 killed and wounded, including Capt. Craven and crew of the Tecumseh. The rebel loss was not known.—Fort Powell was blown up on the night of the 6th. This fort was situated at Grant's Pass,—at the opposite end of Dauphin's Island from where the fight occurred. The troops had been landed, and were at the fort on Friday night. All our fleet were then inside the rebel obstructions, and would probably move for Dog River Bar immediately. The dispatch boat Philippi was burned at sea while the fight was in progress—how or why is not yet explained.

Adm. Farragut's official dispatches confirm the above, and state that on the Tennessee were captured 20 officers and 170 men, and on the Selma 90 officers and men.

The rebel force in Mobile is 15,000 men, under Maury. Farragut's vessels draw too much water to permit him to approach within shelling distance of the city, and the question of capture depends on the land forces.

PATRIOTIC WOMEN.—In his lecture on the Army and the Hospital, Rev. Mr. Patterson made the following allusion to women who are devoting themselves to the interests of the army and the country:

We have a very efficient woman (Mrs. Swain) at the rooms of the N. H. Relief Association, Washington. Whether receiving and acknowledging contributions, or preparing delicacies for hospitals in and around Washington, or packing boxes for the front, or buying goods, or keeping accounts, or corresponding with and imparting information to friends at the North or agents in the field, she is equally at home. And whatever may be sent to the matron of the 18th army corps, (Harriet P. Dame) is sure to reach the soldier needing it most. Among all benefactors of the soldier whom I have seen, she stands at the head. I believe she has alleviated more suffering and saved more life than almost any other one man or woman of our time. Her name might well be written in letters of gold, and hung in the houses of all loyal Americans. It is written in the hearts of hundreds of thousands patriot soldiers in letters brighter than gold. There are other noble women who have been angels of mercy to the army. Among them —from our own State—I would mention the name of Mrs. Marden, who, at the beginning of the war, gave to the country her two sons, and then following them into the field, has attended the army, and administered to the soldiers in camp and in hospital through all these years: and Mrs. Porter, an efficient matron, in a ward at Washington, who, when the need was greatest at White House, came to the front, and toiled by day and night, as though she needed neither rest nor sleep, until the wounded were all removed: and Mrs. Wood of Boston, her faithful co-laborer at Washington and in the field, who knows so well how to attend a kindly deed with a word of cheer, making the soldier almost feel that it is a privilege to bear scars in his country's service—scars which will be *stars* forever: and Miss Israel of our own city, whose skillful hand has introduced the grace and beauty almost of a parlor into a hospital ward, rendering it an attractive spot at which to spend a leisure hour;—all these, and many other sisters of mercy—Florence Nightingales—will receive favorable mention by and by, from abler pens and more eloquent tongues than mine,—and the soldier will bless them, and the Lord will reward them forever.

— We have received, from Mr. J. H. Foster, Harper's Magazine for September, —good as ever.

— A music hall is to be erected in Auckland, New Zealand, to cost $25,000.—New Zealand seems to be getting rather ahead of Portsmouth in some respects.

— Gov. O. P. Morton and Hon. J. E. McDonald, the rival candidates for Governor of Indiana, are stumping the State together.

— A sutler in New Orleans has been sentenced to pay $400 to a stable keeper for driving a horse so that he died from the effects thereof.

— Sanctus Spiritus—what a name!—has been before the New Orleans Provost Court for stealing a horse belonging to the captain of river police.

— It is considered at Lima a foregone conclusion that Spain intends to hold on to what she has seized, and carry matters to an extreme. They regard war certain and are making preparations accordingly.

☞ Under date of Aug. 2, Gen. Banks orders the enlistment of all able-bodied men of color, between 18 and 40, in his department, for military service of the United States. In order that mechanics whose services are indispensable to their employers, may be retained, one-fifth of the men liable to conscription under this order will be exempted, it being left to the discretion of the Provost Marshal and the employer which of them to exempt. If consistent with the interest of the Government and the defence of the Department of the Gulf, at the time the crops now under cultivation become ready for harvesting, the laborers taken from the various plantations under this order, will be temporarily returned.

☞ Of sleep it is said that women require more than men, and farmers less than those otherwise employed, though their occupation is conducive to sound slumber. Editors, reporters, printers, postoffice clerks and telegraph operators need not sleep at all. Public opinion is averse to their being permitted to do so, and as this is a free country they must act as public opinion requires.

— Rebel papers say, Vance is re-elected Governor of North Carolina by 40,000 majority in a vote of 70,000. He was the war candidate.

For sale by MASON & HAMLIN, Boston, Published by MASON BROS., New York.

New Music Book for Choirs.
The Key-Note,

BY WILLIAM B. BRADBURY.

This work is the result of Mr. Bradbury's collecting and composing for several years, and is everywhere being received with the greatest favor by the most experienced singers and musicians. The extent of Mr. Bradbury's popularity may be judged from the fact that of his last book, Shawm, over 200,000 have been sold, and of his entire works more than 2,000,000.

In addition to its rich collection of Tunes and Anthems, the KEY-NOTE has a great variety of Exercises and light Glee Choruses, suited to social or Singing School use, and in every particular it is believed the lovers of good music at church and at home will find the KEY NOTE just adapted to their wants. Sample copies by mail, free, postpaid, 60 cts. For sale by MASON & HAMLIN, Boston. Published by

Brocksieper's Patent
Self-Acting Gas Regulator.
SOMETHING ENTIRELY NEW.
Patented 1864.

A brilliant and equal Light at a saving of 30 per cent. over any Gas Burner now in use.

This is not a Regulator to go on the Meter, but under every Burner in use.

Economy in the use of gas, with the advantage of having a more brilliant light than heretofore, is a point at once desirable. Inventors have for many years sought to attain this end by packing or checking in innumerable ways the flow of gas through the burner tips.

Not one of these has attained the result wished for, namely, "a pure, transparent flame, without waste at any and all pressures, obtained at any hour and in all localities."

The above results are fully obtained in

Brocksieper's Patent Gas Regulator.

We invite the most incredulous to examine and test in the most thorough manner.

"A Wonderful Discovery."
DR. TEBBETTS' "PHYSIOLOGICAL HAIR RESTORATIVE" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATION" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

Local.

☞ On Saturday afternoon last we, with our esteemed friend B. F. Chandler, Esq., took a trip down river as far as the Narrows to witness an experiment with the new diving apparatus at the Navy Yard, the object of the diver being to find an anchor lost by the steamer Colorado on her passage up the river a few months since. The apparatus consists of a suit of canvas, covering the whole body, except the head, which is protected by a large globe-shaped copper armor, with a tube leading to the inside for the purpose of conveying fresh air to the wearer who presents a hideous appearance when in full dress. Accompanying this rig is a large air pump, with a number of feet of hose attached.

The diver, Mr. Reuben Wiley—employed in the Carpenter's Department at the Navy Yard,—is not a novice in the business, having made many successful visits to the bottom of the harbor of Sebastopol, at the time of the raising of the sunken vessels in that port. He appeared perfectly self-assured on Saturday, and had not the tide, or under-current, been so strong, he probably would have succeeded in securing the lost anchor. But, as the tide is still, in the Narrows, only about ten minutes, he was unable to find it, and the attempt was abandoned until another day.

An attempt at this kind of business was made on Tuesday last by Mr. Wm. Tindall of this city, an experienced diver, who succeeded in finding the anchor and, when about fastening a line to it, signalized for the tender to draw him up a little; but the signal-tender not understanding his business, continued to pay out instead of hauling in the line, and as a result, the diver came near losing his life, being almost exhausted when drawn to the surface of the water.—He has not recovered, but is doing well, and assured us that it is his intention to repeat the experiment whenever his health will permit.

It must be somewhat interesting to travel over the bottom of some portions of our river, but we deem it decidedly precarious, although those who ought to know better than we, regard the apparatus as perfectly safe.

We omitted to mention in our description of the armor that the diver is compelled to append a weight of ninety-two pounds to his shoulders, to counteract the density of the water.

NAVY YARD ITEMS.—The magnificent steamer Franklin is to be launched at the Navy Yard at 12 o'clock, Saturday noon, Sept. 17.

Ass't Surgeon C. H. White is detached from this Yard, and ordered to the Naval Academy, Newport, R. I.

Lieut. Com. E. Y. McCauley has been detached, as Capt Murray has sufficiently recovered from his late illness to resume command.

Assistant Secretary of the Navy Fox visited the Navy Yard on Monday and was received with a salute of thirteen guns.

We understand the contract for rebuilding the Marine Barracks has been awarded to Messrs. Clement & Crossey of Lawrence, Mass. The work is to be commenced at once, and is under the superintendence of Civil Engineer B. F. Chandler, of the navy. The bids were opened in Washington at 12 o'clock noon on Monday, and about half-past three in the afternoon an official dispatch was received in this city, announcing the names of the successful bidders. The affairs of that Department are evidently attended to with dispatch.

POLICE COURT, Aug. 12.—James Pickering, common drunkard, was sentenced to hard labor for five days in the House of Correction, and ordered to pay costs—$5.74.

Aug. 13.—Owen Kew, for assault on Lewis Jones, was fined $5, and costs $3.86, which he paid.

Aug. 15.—William Walker, for being drunk, was fined $3, and costs $4.80, which he paid.

Charles P. Johnson, same offence, was fined $3, and costs $4.80, which he also paid.

☞ The Creek bridge, on the Eastern Railroad, which has long been in a dilapidated condition, is being rapidly filled up to the grade of the road with earth, a culvert at the centre permitting the egress and ingress of the tide, and an abutment of masonry facing the old abutment on the opposite side of Creek street. Why not fill up that portion of the North Pond between the embankment and Islington street, which is now nothing better than a reservoir of disgusting stenches?

☞ A son of Michael Leary, 7 years of age, was drowned in the river on Sunday evening, having fallen overboard while playing around Walker's wharf. Tar and oakum were subsequently burnt in the vicinity, and his body was found. The only person who saw him fall was a little girl.

☞ An adjourned meeting of those liable to the draft in Ward One will be held at the Ward Room this (Tuesday) evening, at half past 7 o'clock, to devise some plan for filling the quota of the Ward.

☞ Capt. Thomas T. Craven, who lost his life when his vessel, the monitor Tecumseh, was sunk by a torpedo at Mobile, we are told, was born at the Portsmouth Navy Yard, where his father was stationed. He was appointed from this State, and was a brave and efficient officer, whose loss will be felt in the Navy.

☞ Brown & Pike's Combination Company at the Temple retain their popularity. They are meeting with good success and offer attractive bills every evening. Go and see them.

☞ John Griffin, Co. G, 10th N. H. regiment, was wounded July 30.

"Oh! Angelina," said a young horticulturist to his love one evening, "if you could only see my Isabella. How each day she develops new beauties—hanging over me so tenderly—no honey so sweet to the taste." Angelina suddenly fell to the floor like a flat iron. "Villian!" she cried, "you love another!" and swooned away. "Oh! I have killed her!" exclaimed the young horticulturist, jumping up and wringing his hands. "Oh, Angelina—don't—don't! You mustn't for the world, Angelina—I didn't mean it—I only meant the grapevine!" Angelina recovered.

A London curate, not long since, having been too outspoken on the vices of his flock, was by them strongly recommended to the Bishop for promotion, on the ground of his great usefulness. They thought to get rid of him by this plan. The rectorship of that very church became vacant, however, soon afterward, and he, to they dismay, was appointed, their chagrin not being lessened by his gratefully thanking them for their good opinion, and promising to continue all his life that freedom of speech which they had evidently taken in such good part.

BUSINESS NOTICES.

PRICES AND TERMS.

The price of the Daily Chronicle is $6 per year in advance; 50 cents per month—15 cents per week—3 cents per copy.

The (Weekly) N. H. Gazette $2 per year in advance—5 cents single copy.

Terms Cash—or all bills for Advertising, &c, to be presented at the pleasure of the publisher.

PARTICULAR NOTICE.—From this date our Carriers of Subscribers' lists are not allowed to sell copies of the Chronicle, nor to receive pay for any subscription, except when furnished by us with receipts for the same,—which will not be given for less term than 1 month, 60 cts., or 3 mos. $1 50, in advance. If any prefer to pay weekly, they can do so at our counting room only. Will all concerned please remember this, and thus aid in the more prompt and accurate delivery of our papers. July 18.

A TRUE AIM.—It has not been the aim of the proprietor of Hunnewell's great preparations, advertised on our inside columns, to base a false reputation by long and unmeaning advertising, but a real one by true results, to which all who try them will cheerfully assent. See advertisement.

SYMPATHY.—Sympathy is a lovely and beautiful thing, for it exhibits the angelic part of human nature. We deeply sympathize with those who cannot obtain Herrick Allen's Gold Medal Saleratus, for they are deprived of one of the greatest luxuries the world affords. But we have no sympathy with any family who will use any other Saleratus or soda, if this article can be purchased. We see most of our Merchants have it. A trial will convince any one. Their depot is 112 Liberty Street, New York.

SOLDIERS, ATTENTION!—Pain, disease and exposure, with a hot climate, muddy water and bad diet, will be unavoidable, but armed with Holloway's Purifying and Strengthening Pills, you can endure all these and still retain good health.

If the reader of this "Notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 220

"A Stitch in Time Saves Nine."
All Furnaces, Stoves and Funnels should be thoroughly cleaned out and put in order, as soon as fires are done being made in them. If allowed to remain filled with ashes and soot through the summer, they will decay very rapidly, and useless expense be incurred.
A full supply of Linings and Repair Pieces constantly on hand, and all orders attended to with dispatch. E. A. STEVENS.

Facts for the People.
The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.
We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to
THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.
Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.
One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.
A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a stove before he left, and there has been no complaint since.
These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

CHAPIN & YEATON.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 RADICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Gleet, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D., devotes a great part of his time to the treatment of these cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, nervous irritability, aversion to society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating marriage, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capotine, a warranted safe and effective. Order by mail. Three for $1 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, No 7 & 9 Radicott Street, Boston, offers his remedies daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new physiological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Secret Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the confidence of the sick than DR. DOW, No. 7 Radicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Boston, April 7, 1864.—eodly.

DR. S. O. RICHARDSON'S

BLOOD ROOT ELIXIR

Has been thoroughly tested and proved in his medical practice, for a period of THIRTY YEARS, and is now presented to the public as an effectual cure for

CONSTIVENESS,
and the best remedy ever prepared for
Diseases of the Liver,
SCROFULA,
All Humors and Impurities of the Blood, and Diseases of the Skin.

The preparing and combining the Blood Root Elixir, is attended with results to medical science next in importance to the humiliation of other in surgery. Scrofula and Syphilis, the most painful and disagreeable, are, by a new and scientific process of extracting (in vacuo) rendered MORE EFFECTIVE IN THEIR EXPULSION, entirely diverted of the griping and distressing pain which attends the action of all other purgative medicine. They are also made to become HIGHLY PLEASANT AND AGREEABLE TO THE TASTE,

and by their peculiar combination work so perfectly in HARMONY WITH NATURE that no unpleasant reaction will follow its operation it also preserves

A Diffusive and Alterative Effect,

which can only be attained by medicine in a fluid state. These are new elements in purgative medicines.

The hard and compact manner in which pills are prepared renders them indigestible—and when taken are *found* to pass through the bowels, half dissolved, causing only PARTIAL ACTION, thereby creating irritation and pain to the parts connected with the digestive organs.

The pill dissolved, *remains* *when*, will produce more medicinal and physical effect than five in a crude state.

The BLOOD ROOT ELIXIR has no partial action upon the bowels, but is *equally diffused* *thro'* and throughout the whole circulation of the blood, imparting a salutary and healthy action to the STOMACH AND BOWELS, LIVER, LUNGS, KIDNEYS, and gently stimulating dormant and morbid secretions through the whole system.

A single dose will produce a cheerful and invigorating COMMOTION, which will inspire the patient with confidence and assurance of IMMEDIATE RELIEF. A few doses according to period will DRIVE the obscure and hidden humors to the surface of the skin, and relieve or check Scrofulous and Syphilitic Humors, while purifying and strengthening the blood, will remove the most fruitful

CAUSE OF CONSUMPTION.

It incites the various organs of the system to act their allotted part, removing the causes which induce RHEUMATISM AND NEURALGIA, HEADACHE, LOSS OF APPETITE, DYSPEPSIA, COSTIVENESS, and the various diseases which arise from a derangement of the Stomach and Bowels, and restrict the circulation of the Blood.

COUGHS and COLDS, in their early stages, will immediately yield to the Blood Root Elixir.

The BLOOD ROOT ELIXIR contains no mineral, no pernicious botanical element, no excitant, but stimulates the secretions by its mild diffusive action. It is as effective and painless aperient—has a decided salutary action upon the *Liver, and there has been no medicine prepared for common family use which possesses equal merit.*

Travellers, both by sea and land, will find the Elixir a complete antidote for the evils which they are obliged to endure from a change of climate, of water, or of diet.

See the pamphlet around each bottle for a history of this Elixir.

The proprietor of the Blood Root Elixir, (Dr. S. O. Richardson,) has been long and favorably known to the public by his celebrated SHERRY WINE BITTERS, the best tonic medicine ever discovered, and which has been in use over thirty years. He is a graduate of the New Hampshire Medical College, and many years an associate member of the Massachusetts Medical Society, and has made the study of medicine his profession since 1826.

And so fully convinced is the Doctor of the wonderful curative effects of his Blood Root Elixir, that he hereby offer to any and every person who will use one-half of a bottle of his Elixir and not be conscious of a good effect therefrom, to refund to said person the amount which he paid for the same, by returning the village bottle to his office.

Price $1.50 per Bottle.

Sold in Portsmouth by J. H. THACHER, opposite the Post Office, and No. 11 Market Square; and by Dealers in Medicine generally, and at Dr. Richardson's Office, No. 51 Hanover street, Boston. ap6—3mecod&W

Glad News for the Unfortunate!

The Long Sought For Discovered at Last.

CHEROKEE REMEDY

—AND—

CHEROKEE INJECTION,

Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Intentiousness of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Gravel, Diabetes, Gleet, Gonorrhœa, and is especially recommended in those cases of Fluor Albus (or Whites in females) where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying and cooling the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have produced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are *healing, soothing and demulcent*; removing all scalding, heat, chordee and that painful sensation of the burning and almost unbearable pain that is experienced with nearly all the *cheap quack injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

INDIAN MEDICINE,

COMPOUNDED FROM
ROOTS, HERBS AND
LEAVES.

CHEROKEE CURE.

An unfailing cure for Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, and all diseases caused by self-pollution; such as Loss of Memory, Universal Lassitude, Pains in the Back, Dimness of Vision, Premature Old Age, Nervous Irritability, Dyspepsia, Trembling, Wakefulness, Eruptions on the Face, Pale Countenance, Insanity, Consumption, and all the dreadful complaints consequent by departing from the path of nature.

☞ This medicine is a simple vegetable extract and one on which all can rely, as it has been used in our practice for many years, and with thousands treated it has not failed in a single instance. Its curative powers have been sufficient to gain victory over the most stubborn cases.

☞ To those who have trifled with their constitution, until they think themselves beyond the reach of medicine, we say, *Despair not!* the CHEROKEE CURE will restore you to health and vigor, and after all quack doctors have failed!

☞ For full particulars, get a circular from any drug store in the country, or write the proprietors, who will mail free to any one desiring the same, a full treatment in pamphlet form.

☞ Price, $2 per bottle or three bottles for $5, and forwarded by express to all parts of the world.

Sold by all respectable druggists everywhere.

DR. WRIGHT'S

REJUVENATING ELIXIR,

OR ESSENCE OF LIFE.

Prepared from Pure Vegetable Extracts,

Containing nothing injurious to the most delicate.

The Rejuvenating Elixir is the result of modern discoveries in the Vegetable kingdom; being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems.

This medicine has been tested by the most eminent medical men of the day, and by them pronounced to be one of the greatest medical discoveries of the age.

One bottle will cure General Debility.
A few doses cure Hysterics in females.
One bottle cures Palpitation of the Heart.
A few doses restore the organs of generation.
From one to three bottles restore the manliness and full vigor of youth.
A few doses restore the appetite.
Three bottles cure the worst case of Impotency.
A few doses cure the low spirited.
One bottle restores mental power.
A few doses bring the rose to the cheek.

This medicine restores to manly vigor and robust health the poor debilitated, the broken-down and despairing devotee of sensual pleasure.

The listless enervated youth, the over-tasked man of business, the victim of nervous depression, and all suffering from general debility, or from weakness of a single organ, will all find immediate and permanent relief by the use of this Elixir or Essence of Life.

☞ Price, $2 per bottle, or three bottles for $5, and forwarded by express, on receipt of money, to any address.

Sold by all druggists everywhere.

THE MAGEE
COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovefuls up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR WARMING
FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable furnace, would invite those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pots, the gases, from their specific gravity, cannot descend, and are burned up by the passage of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Daily Morning Chronicle

ESTABLISHED 1852. PORTSMOUTH, N. H. WEDNESDAY, AUGUST 17, 1864. VOL. XXV. No. 40.

Morning Chronicle.

PENNSYLVANIA:—The Keystone State, by large popular majorities, has made three important amendments to her State Constitution.

The first amendment authorizes volunteers in the army of the United States who may be citizens of Pennsylvania to vote for State Officers when with the respective commands. For this, she gives 20,000 majority, is a light vote. The Tribune says:

"We find the Counties of Berks, Clinton, Centre, Clearfield, Fulton, Juniata, Lehigh, Monroe, Pike, Sullivan and Wayne, giving majorities against the soldier. Every one of these counties gave a heavy majority for the Copperhead candidate last year, their aggregate lift amounting to 15,000 for the wrong side. It is also worthy of note that five of the eleven counties named gave small majorities for Lincoln. The returns show that while Republican voters have gone to the front to save the country, their Democratic neighbors have remained at home to rob the brave boys of the right of suffrage.

The second amendment incapacitates the Legislature from passing any law embracing in it more than one subject—striking a blow against the omnipotence of the lobby. Vote for the amendment, except as before, 204,990; against, 78,765—majority, 131,225.

The third amendment prohibits legislation upon matters while they are the subject of judical investigation. Vote in favor, 202,686; against, 74,509—majority, 128,177.

All these amendments are great improvements. About 74,000 only vote against the two latter, while nearly 104,000 vote against the citizen soldiers! Does not this difference of 30,000 show the meanness and stupidity of ignorant partisans, in a very strong light?

NEW HAMPSHIRE BIRD LAW.
PASSED JULY, 1862.
AN ACT to promote the interests of Agriculture.
Section 1. If any person shall, at any season of the year, take, kill or destroy any of the birds called robins, thrushes, larks, blue-birds, orioles, sparrows, swallows, martins, woodpeckers, bobolinks, yellow birds, linnets, fly-catchers or warblers; or shall, between the first day of March and the first day of August, take, kill or destroy any of the birds called snipes, wood-cocks, plover, rails, yellow legs, or sand pipers; or shall, between the first day of March and the first day of September, take, kill or destroy any of the birds called patridges or grouse, or quails; or shall, within the respective times aforesaid, sell, buy or have in possession any of said birds, taken or killed, whether in this State or elsewhere, he shall forfeit for every said partridge or grouse, quail, woodcock, snipe or plover taken, killed or had in possession, the sum of three dollars, and for each of the other birds named above, the sum of one dollar, to be recovered by complaint before any justice of the peace.
Sec. 3. It shall be the duty of the selectmen of towns, and of the mayor and aldermen of cities throughout this State, to cause the provisions of this act to be enforced within their respective limits.
Sec. 4. All forfeitures or penalties recovered for violation of any of the provisions of this act, shall enure—one half to the use of the complainant, and one half to the use of the town or city where the same shall be recovered.

RYE, N.H., Feb. 26, 1846. "Thereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—she suffered her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWEET'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Sweet's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of the Medicines. JOSIAH CLENDENIN.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with dis tress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of Dr. S. SWEET'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. MARY B. LOWD.
From ELDER I CHESLEY, *Lee, May 31, 1841*
DR. SWEET: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY
☞ Any one returning the remainder of a bottle or box of Dr. Sweet's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWEET, No. 7 High street, Portsmouth, N. H., promptly attended to. may26

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate. The immense practice of the subscriber during twenty years, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
Thus, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHARLES MASON, Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on a large number of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part cannot but recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications for PATENTS, EVERY ONE of whom was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

The Old Established Hospital.
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the latest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER'S great work for the Married or those contemplating marriage—300 pages—full of plates—price 25 cts Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Nichol's Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married females in certain delicate situations should avoid their use. For reasons see directions which accompany each package. For the guidance of patients, the regular price of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 9 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice. N. B.—No students or boys employed. Notice this, address all letters to

VERNATELLA.
Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.
VERNATELLA
Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,** at retail everywhere.
But its cost to the purchaser is really NOTHING, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.
☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.
Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dews.

WEDNESDAY, AUGUST 17, 1864.

THE REBELLION.

Unofficial advices from Atlanta to the 10th state that Gen. Sherman is making gradual approaches and is very near the enemy's works with works very nearly as strong as theirs. Since Gen. Schofield's move on the 5th to reach the Macon road nothing of importance had been done. These movements were partially successful, and our right had assumed a position three miles north of East Point and about a mile from the railroad, thence extending around the city to the Chattanooga line. It was thought that Hood had received reinforcements.

The N. Y. Times' dispatch says Gen. Sheridan has pushed his advance from Winchester to Strasburg. Early retiring from that point westward. It also says Lee has sent Early at least 20,000 men.

The N. Y. World's dispatch says the enemy have discovered a canal built in front of Gen. Butler's position, and their fleet on James river is very active in consequence.

Gen. Canby officially reports the unconditional surrender of Fort Gaines, Mobile harbor, with 56 rebel officers, 818 men, 18 guns, and provisions for 12 months. Fort Powell was abandoned, its garrison escaping to Cedar Point, but its armament of 18 guns, like that of Fort Gaines, was in condition for immediate use. Gen. Granger would at once invest Fort Morgan, leaving garrisons in Forts Gaines and Powell.

The rebels are besieging Hendersonville, Ky., on the Ohio river, near Evansville, Ind., and have captured several boat loads of cattle in the river, near Shawneetown, Ill., a short distance below the Indiana line. They threaten to cross.

Gen. Grant is making important movements; and there is a report that Hancock by a sudden dash after dark has captured a large portion of Fort Darling and 1500 prisoners.

Gen. Sheridan reports from Cedar Creek 14th, that except Moseby's and White's guerrillas there are no rebels this side of the Blue Ridge. He asserts that they got very little plunder from Maryland, and that they have barely enough to subsist on, obtained almost entirely in the Shenandoah valley. His own trains were all up, and his army in fine condition.

— Hay sold in Eastport, Me., last week for $35 per ton.

— Wool is rapidly declining in Missouri. Last week it fell 10 or 15 cents a pound.

— The rebel "peace commissioners" at Niagara are reported to be still in council with leading Northern politicians.

— The rebel loan in England declined 2 1-2 per cent. on a report of the capture of Atlanta.

— The Canada papers agree in ridiculing the idea of an invasion of the Northern States by rebels from that quarter.

— In the Louvre a plan of Versailles, with all its court-yards, gardens, gates, statues, etc., has been placed. It is in wood, and took twelve years to make.

— Dickens is said to be very poor—we know not on what authority,—and to have used up the money for his new novel in advance.

— The Liverpool Courier says, "We believe a very great many Englishmen would rather be ignorant of most things than not know the points of a horse."

— A Mlle. Silly is making her mark as an actress on London boards. Mlle. Lovely is the name of a new opera singer. It is said that their names fit them well.

— The Dacotah Union of the 2d inst. says everything in the nature of crops in the Missouri valley, from Fort Pierre to Sioux City, has been ruined in the short space of two days by grasshoppers.

— The Turkish flag is to be altered. Instead of the red ground and white crescent, as heretofore, the colors are green ground with red ball in the centre, in the middle of which will be a white crescent.

— Pigeons drink differently from most other birds. Gallinaceous birds sip, and raise their heads; but pigeons take a long continued draught, as Gilbert White says,—like quadrupeds.

— On Tuesday, Sept. 6th, the day before Commencement, Brown University will celebrate the completion of its first century. President Sears will deliver the centennial address.

— On the night of Aug. 5th, the house of Seth B. Hunt, at Bennington, Vt., was entered and robbed of diamond bracelets, brooches, gold chains, rings, and other articles of jewelry, to the value of $8,000.

— Star-gazers must be on the lookout. In a few weeks a comet will be seen morning and evening, and display great brilliancy. So Mr. Hind, the astronomer, writes to the London Times. We shall welcome this "rowdy of the skies," as Dr. Lardner calls all comets.

NEW HAMPSHIRE ITEMS.

—— Jacob F. Smith has been bound over in Concord for trial, charged with enticing a soldier to desert.

—— Joseph Nichols, of Manchester, has been appointed Cigar Inspector for the 2d District. Does he sample them? It might be an eagerly-sought office if he did.

—— Mother Mary Philomena died on Sunday morning last of bilious fever at Mount St. Mary's Convent in Manchester. She was second in authority at the institution, and was a lady of rare accomplishments and of exalted moral character.

—— The new street in Concord, south of the State House grounds, was "opened" on Monday, 15th, amid the ringing of bells and the booming of cannon. It is not yet ready for permanent travel; and there has been more discussion about a name for it than would set up a moderate-sized sewing circle.

The Western papers are telling how much the women earn by labor in the fields. Before the war one of the great complaints against the slave system was that it forced the women to labor like brutes in the cotton fields and on the sugar plantations. Very well—as far as we could we have stopped that for black women.—*Exchange.*

This is a very shallow view of the subject. We could never see any good reason why women—of any color or nation—might not work in the fields, *if they chose* to do so, or if they did it to earn their bread or buy their clothing. We have known several very worthy and intelligent white women who did so. But to *drive* a woman to the field, to make her work there "like a brute" under the *lash*, and to *sell* her for such service, is quite another matter. If we confound *slavery* with *labor*, we either deceive ourselves or our readers, or both. Slavery is defined by Worcester to mean absolute subjection to the will of another, and a slave is said to be held by law *so si to be the property* of the master. *Labor in the field*, by men, women and children, of any color, within proper bounds, is healthful and pleasant, not irksome nor oppressive. Let us see no more pleas for slavery in so poor a dress as the above. It is not the labor, but the slavery, that imbrutes the slave and barbarizes the master. U. T.

☞ Decimal coinage is rapidly taking the place of all other. In Mexico, the new *real*, whose value is stated at ten cents, was issued on the arrival of Maximillian at Vera Cruz, and the dollars would be issued on his arrival at Mexico. In Spain, the Queen has remodeled the currency, making it decimal. The new doubloon of Isabella is but ten dollars, and there are smaller gold coins of four and two dollars in value; in silver—one and two dollar pieces, *peseta* 40 cents, half *peseta* 20 cents, and *real* 10 cents; in copper—half *real* 5 cents, *cuartilla* 2 1-2 cents, *decima* 1 cent, and *media decima* half a cent.

INSINUATIONS.—The editor of the Brownsville Journal seems to have a talent at implication by innuendo. He wants, for example, to inform the world that a certain person was once a tailor, and here is the way he does it:

He is somewhat pompous, or as he supposes, aristocratic in his bearing, and is not a bad looking man, though his mouth is twisted to one side, as one of his officers explained, owing to having contracted a habit of turning it awry by biting threads.

And in another column of the same paper how delicately he insinuates that another notable is a barber:

We hope we do not ever estimate his ability and accomplishments, but we believe he keeps a small shop in Chicago, which has a striped pole for a sign.

— The pirate Tallahassee was off Nantucket on Saturday.

— The latest idea for a show in London is a "donkey fair."

— It is stated that Fairfield, Vt., pays $1000 to volunteers for one or three years.

— Three Frenchmen, living in Hyde Park, (that's a town in Vermont) have collectively thirty-three children.

— A great choral festival of five thousand voices was held at the Crystal Palace, London, on Wednesday, June 15.

— Somebody has found out that the day assigned for the Chicago Convention is the birthday of Benedict Arnold.

— The ice dealers of New York refused to sell ice to the Navy, and Adm. Paulding on Saturday seized 600 tons, and shipped it to the brave tars at Mobile.

— The interior of the Cathedral of Cologne has just been completed. The external work is continued. The building was commenced in 1248.

— Ship Richard Busteed, of Boston, made the passage from Sydney, N. S. W., to Calcutta in 42 days, which is the shortest on record between the two ports.

— The great passion of the Belgians just now is linnet-fighting. The poor birds' eyes are put out, then the owner blows on their head, which excites them, and the battle begins. They do not fight, for they are blind, but they begin to sing all together, in a manner and with a noise that baffles description. The bird that sings most songs without interruption is the victor.

AFFAIRS IN TEXAS.

Messrs. Editors:—Friends have asked me to give them some description, through your columns, of the state of affairs in the far Southwest of Dixie's Land, and I will first attempt to describe *why* I left Dixie, and afterwards *how* I left it.

I feel some diffidence in attempting the task, for I am aware that it is almost impossible for a person whose mind has been matured, and whose ideas have been formed in this dear, quiet, law-abiding old town of Portsmouth, to conceive a state of affairs such as now exist in Texas, where the laws are set at defiance, or rather where there are no laws; where the only rule of action is that laid down by a strict military despotism; "where justice is forgotten and her courts are deserted;" where the wildest anarchy is the rule, and a reckless desperation the characteristic of both the so-called Government and the people; where

"The good old rule obtains
The simple plan,
That they shall take who have the power,
And they shall keep who can."

It is a common expression here at the North—"We hardly feel the war." All use it, but few understand, and Heaven forefend a close acquaintance with the reverse of the term, as it is understood in Texas. Here at the North, by a close examination of the industrial pursuits of the people, a slight inflation of prices, an attentive perusal of the public prints, or perhaps a casual glance at the sorrow bowed form of some mourner

"Haunted by the tone
Of some voice from this world gone,"

an observer might understand that there is a War going on somewhere, although there are some who seem to care very little whether at Richmond or Washington. Here the war is an abstraction to be reasoned upon; in Texas it is a fixed fact, patent to every sense—a shadow upon the land and an incubus upon the brain. There the trite reply—upon condoling with a friend at any misfortune that has happened to him—is now given with a mournful significance—"Oh, that's nothing; I consider myself in big luck to be alive!"

At the commencement of the war I, with many others, had no anticipation of the gigantic and threatening proportions it has since assumed. I deemed it a mere emeute, a political squabble, which would be some how compromised after the leaders had got the places that they had set their hearts upon. Absorbed in the duties of my profession, with an aversion to politics, and a general belief that things would somehow all come around right, I allowed the golden moments to slip by, when I could, unquestioned, easily have quit the country.

In the meantime, cordons of guards were established through the country upon the Borders. Secret societies—Knights of the Golden Circle, Sons of the South, and Sons of —— *je ne sais quoi*, sprang into life in every direction, having for their openly-avowed object the detection and punishment of every one suspected of Union proclivities. Vigilance Committees were organized in every community for the mock trial of those denounced through private enmity, or in the secret conclave of the Sons before mentioned. Societies were busily but secretly engaged, directed by the Heresiarchs of all this Blue Light Machinery, in arming and organizing men into companies and regiments, so that at once, as at the sowing of the fabled serpent's teeth, an army fully equipped sprang up in every direction.—Still with a supineness and lack of foresight, superinduced perhaps by feeble health, and absorbed by favorite pursuits, only appearing in public when compelled by important business, and living some distance from town, I had paid but little heed to the signs of the times, and was first awakened from my dreams by a notice served upon me, stating that the county was infested by abolitionists, incendiaries, unionists, and murderers, that a vigilance committee had been organized, and that I was chosen one of the members, further requesting me to meet with them the next day for the transaction of important business. This fully awakened me. I went to the meeting, determined at all risks to use my best endeavors to arrest the carnival of blood that I now plainly foresaw.

Upon my arrival I found the vigilance committee assembled to the number of fifteen, most of them men of wealth and influence in the county,—some of them, as I soon discovered, disapproving the whole proceeding, and secretly determined, like myself, to throw cold water upon it.

The committee was called to order, and a chairman chosen—one of the most prominent demagogues of the county—a man immensely wealthy, cruel and crafty, aspiring and ambitious, a leading member of the church, although it was well known that he had instigated the murder of more than one man in that very community; of consummate ability, hypocrisy and plausibility; a man who could creep like the serpent or spring like the tiger; with boundless wealth at his command, and a host of desperate and bloodthirsty kinsmen at his back, ready and anxious for an opportunity to shoot or hang any one at whom he should point his potent finger. He had here the opportunity he had long sought, of punishing those who had hitherto defeated by their opposition his multifarious endeavors to obtain a seat in the National Councils.

To be continued.

THE ANT TRAP.—As the season is now at hand for these pests, the ants, housewives and others who are troubled with them may probably use the following trap to advantage:

"Procure a large sponge, wash it well, and press it dry, which will leave the cells quite open; then sprinkle over it some fine white sugar, and place it near where the ants are troublesome. They will soon collect upon the sponge and take up their abode in the cells. It is only necessary to dip the sponge in scalding water, which will wash them out dead by the tens of thousands. Put on more sugar and set the trap for a new haul. This process will soon clear the house of every ant."

Brocksieper's Patent
Self-Acting Gas Regulator.
SOMETHING ENTIRELY NEW.
Patented 1864.

A brilliant and equal Light at a saving of 30 per cent. over any Gas Burner now in use.

This is not a Regulator to go on the Meter, but under every Burner in use.

Economy in the use of gas, with the advantage of having a more brilliant light than heretofore, is a point at once desirable. Inventors have for many years struggled to attain this end by packing or checking in innumerable ways the flow of gas through the burner tips.

Not one of these has attained the result wished for, namely, "a pure, transparent flame, without waste at any and all pressures, obtained at any hour and in all localities."

The above results are fully obtained in

Brocksieper's Patent Gas Regulator.

We invite the most incredulous to examine and test in the most thorough manner.

RETAIL PRICE, EIGHTY CENTS.

A liberal discount made to Churches, Factories, Hotels; by the Regulators will be put on, and if they do not prove satisfactory may be returned. CHARLES T. EMERY.

To the Readers of the Morning Chronicle, Portsmouth, N. H.

The undersigned would respectfully ask attention to the preparations known as

Hunnewell's Universal Cough Remedy

The Great Remedy for all Throat and Lung Complaints.

HUNNEWELL'S TOLU ANODYNE,

A perfect relief for Neuralgia, all Nervous Complaints, and Loss of Sleep.

HUNNEWELL'S ECLECTIC PILLS,

Declared to be the most perfect Cathartic and Family Pill; seldom requiring more than *One* for a dose, without *Griping*, and one that should be known to every family.

These preparations will be noticed each month, and originating from most eminent physicians in Medicine, enjoyed for ten years unbounded reputation, readers are invited to accept such notices as a true index of character, and give me their confidence to test them.

A Card to Invalids.

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge.*
Please inclose a stamped envelope, addressed to yourself.

Hair Dye! Hair Dye!!

BATCHELOR'S Celebrated Hair Dye
Is the Best in the World!
The only Harmless, True and Reliable Dye Known!
This splendid Hair Dye is Perfect—changes Red, Rusty, or Gray Hair instantly to a *Glossy Black or Natural Brown*, without injuring the hair or staining the skin, leaving the hair soft and beautiful; imparts fresh vitality, frequently restoring its pristine color, and rectifies the ill effects of bad dyes. The Genuine is signed WILLIAM A. BATCHELOR, all others are mere imitations and should be avoided. Sold by all Druggists, &c. FACTORY—31 BARCLAY STREET, N. Y. **Batchelor's New Toilet Cream** for Dressing the Hair. Jy9—1ydaw

"A Wonderful Discovery,"

DR. TEBBETTS' "PHYSIOLOGICAL HAIR REGENERATOR" is compounded in strict accordance with the well known laws of Physiology and modern vegetable Chemistry. It is not a "DYE," and will not stain a particle. It will "RESTORE GRAY HAIR" in all cases to its original color. It promotes a luxuriant growth of new HAIR in all cases on BALD HEADS, when the glands or roots of the hair are not completely disorganized. It prevents the hair from falling off and removes all dandruff, heat, humors and itching from the scalp. It keeps the hair soft, moist and perfectly healthy, and gives it a glossy and beautiful appearance. It is highly perfumed, and as a Dressing it has no superior. The "REGENERATOR" is warranted to produce the above results in all cases, if not the money to be refunded. With it every "GRAY HEAD" in New England can be restored in less than sixty days.

SERIOUS ILLNESS OF COMMISSIONER TILTON.—About three weeks since Capt. J. C. Tilton of the Provost Marshal's office, was taken ill while engaged at his duties and was advised by his physician to go to his residence at Sanbornton Bridge. After reaching there he was attacked with the typhoid fever and we regret to learn is now very dangerously sick.

Surgeon Hall of the Provost Marshal's office has been telegraphed to visit Capt. T. and will leave this morning. We hope under his attention Capt. Tilton will speedily recover.

OFFICIAL. — The following telegrams have been received by Capt. Daniel Hall, Provost Marshal of this District.

"The Secretary of War has forbidden the recruiting of men in one State to be credited to another except as provided by the act of July 4th, 1864 for recruiting in States in rebellion. He directs that you see to the execution of this order in your State and if necessary arrest recruiting officers and agents who may be found violating it."

Second.—"Men are entitled to exemption who have substitutes in service, whether such substitutes were put in for 3 years in 1862-3 or 4."

☞ We commence this morning the publication of an account of the experience of a young man, a native of this city, in Texas, and of his difficult escape from that State, where he had resided for a number of years. The narrative of the outrages perpetrated upon Union men by the rebels, who seem to have buried humanity and all sense of honor with their patriotism, we doubt not will be interesting and instructive to our readers.

☞ The alarm of fire about half-past five o'clock on Tuesday afternoon was occasioned by the burning of a husk bed in one of the chambers of the fourth story of the Piscataqua House. Engines were promptly on the ground but the fire was extinguished by water carried in buckets, and but little damage was done.

☞ The 1st District Union Convention for the nomination of candidates for Electors of President and Vice President will be held at the Court House in this city on Wednesday, Aug. 31, at 11 o'clock A. M. Towns and wards are entitled to elect twice as many delegates as they have representatives in the Legislature.

☞ The National Guards of Manchester, who were recently stationed at Fort Constitution, are to form the nucleus of the new battery to be raised in this State. They will immediately recruit to the number of one hundred and fifty, and will enter the service for one year, under Capt. James O. Chandler, their old commander.

☞ Dr. Charles A. Manson, of this city, has been appointed an Acting Assistant Surgeon in the Navy, and is ordered to report for duty on board the receiving ship Ohio, at the Charlestown Navy Yard.

— $1400 has been bequeathed to the New England Female Medical College, Boston, within the past year. In nine years it has received $47,000, $20,000 of which is a free scholarship fund.

— Some one suggests, to relieve the distress in Ireland, "a broth of a boy" as a cheap, nutritious and easily attainable article of food; sailors and fishermen to vary the bill of fare by using the broth of a buoy.

— There is a wooden railway in New Zealand, over which an 8 ton engine has made 4800 trips in five months, drawing loads of from 30 to 40 tons, with so little friction as not to efface the saw marks on the rails.

— A vessel was seized on Friday, at Philadelphia, having on board two locomotives, which had been shipped ostensibly for an English purchaser at Halifax. It was thought they were to go South by a blockade runner.

— The Yarmouth Camp meeting closed on Tuesday. Subscriptions were made sufficient to pay off the entire debt of the associations—$4200. David Snow, of Boston, gave $1400. 75 persons were converted during the week.

— A gentleman from Portland left a pocket book containing about $400 in a store in Saco last week, and was very much surprised when it was returned to him a short time afterwards. He had not missed it.

— Twenty pairs of quails, one ant eater, a fox and a musk pig, imported into New Zealand from California, have all been purchased by the Governor for the benefit of the colony, which has much to thank him for in the encouragement he has given to the acclimation of birds and animals.

— The New Zealand papers are filled with horror because the natives decapitate the English dead and after smoking the heads preserve them as trophies; but have the candor to say that the barbarous plan of cutting off the head was first practiced by an Englishman—Dr. Webber.

☞ The Salem Gazette states that there is no militia now lawfully existing in Massachusetts. The law passed at the late session of the Legislature disbanded the whole organization, excepting the two companies of Cadets which exist by charter. It is understood at the Adjutant General's Office that the whole organization is defunct; that the general and other officers in commission when the law was passed are, by its terms, discharged from service; that the military elections which have since taken place are illegal; and that the Boston Dragoons and Lancers, and the few companies of infantry still remaining, cannot appear in public as armed and organized bodies without subjecting themselves to arrest by the police as violators of the law. Gov. Andrew had better call a special session.

SYMPATHY FROM A SCOTCH LADY.—Mrs. Ann Williamson, a Scotch lady, eighty-one years of age, living in Edinburgh, recently sent to Mrs. Lincoln, as a present, a Scotch plaid pattern of elegant quality and finish. In her letter of presentation, in which she terms Mr. Lincoln "My Lord President," she says, "As one deeply interested in your present struggle, I trust the Lord will bless all your endeavors for the peace of your country and the freedom of the slaves." The President has written a reply, in which the following sentence occurs: "I thank you for that pretty and useful present, but still more for those good wishes to myself and our country which prompted you to present it."

— Connecticut voted on Monday to allow the soldiers to vote.

BUSINESS NOTICES.

PRICES AND TERMS.

The price of the Daily Chronicle is $6 per year in advance; 60 cents per month—15 cents per week—3 cents per copy.

The (Weekly) N. H. Gazette $2 per year in advance—6 cents single copy.

Terms Cash—or all bills for Advertising, &c., to be presented at the pleasure of the publisher.

PARTICULAR NOTICE.—From this date our Carriers of Subscribers' lists are not allowed to sell copies of the Chronicle, nor to receive pay for any subscriptions, except when furnished by us with receipts for the same,—which will not be given for less term than 1 month, 60 cts., or 3 mos. $1.50, in advance. If any prefer to pay weekly, they can do so at our counting room only. Will all concerned please remember this, and thus aid in the more prompt and accurate delivery of our papers. July 18.

☞ Special attention is asked to Hunnewell's preparations, advertised on our inside columns. They are based on true medical laws, used very largely by Physicians, and most undoubted testimonials are in the hands of the proprietor, always open to inspection. Let Portsmouth and its vicinity bear testimony by a confidence to test them, which will be sacred.

Would you save yourself from suffering after eating, or from acidity of the stomach, or burning sensation, or indigestion? Use Herrick Allen's Gold Medal Saleratus. Never use soda if you can procure this article. It will strengthen weak stomachs and relieve dyspepsia; it is saving in the quantity of flour, &c., &c. Try it. Grocers and Druggists most all sell it. The Wholesale Agents are Wholesale Grocers.

☞ What an amount of suffering and disease among the Volunteers would be prevented by the free use of Holloway's Pills and Ointment. For wounds, sores and scurvy the Ointment is a certain cure. For bowel complaints, fevers, small pox, &c., the Pills are the best medicine in the world.

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, 80 Maiden Lane, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make. 35 cents, 88 cents, and $1.40 per box or pot. 221

DELICACIES.—One of the special delicacies of modern times may be accounted Spear's Sambuci wine, which combines with rare purity and nicety of flavor the good qualities of port and claret; it is neither insipid nor bitter, but hits the happy medium most to be desired in a constant beverage or in a drink for the sick. For invalids it is invaluable by virtue of its tonic qualities, and particularly its absolute freedom from all adulterations. Actual trial will show that the Sambuci wine has excellence of its own unrivalled by any other wine in the market. —[New Yorker.

Facts for the People.

The enormous rise in price of Iron, Coal and Labor, has caused manufacturers to advance the price of STOVES and Castings several times since the war began; and it is now arranged to make a general advance of 25 to 50 per cent. this season.
We have not yet raised the price of Stoves in proportion to their increased cost, but shall be compelled to do so very shortly. Persons who expect to purchase anything in the Stove and Furnace line within a year or two, will save money by doing so at once. The price of a Stove is not so much an object, now, as its capacity and the cost of operating it. All things considered, there is no Stove equal to
THE MODEL COOK.
IT IS, IN FACT,
The Best Stove Out,
for economy, convenience and dispatch.
Many people think it best to use an old stove as long as possible, but it is far better to throw it away and purchase a MODEL COOK, than to keep it at the present high price of fuel.
One of our shrewdest citizens who purchased a MODEL COOK STOVE a year since, says he has saved more than its cost already.
A careful, prudent farmer purchased one, and after it had been in operation some days his son came into the store and said, "something was wrong at their house;" his father and himself used wood off the same pile, he burned three baskets full a day, and his father only one! We sold him a Stove before he left, and there has been no complaint since.
These Stoves are in use in many hotels and boarding houses, and in hundreds of private families in this city and vicinity, and give the best of satisfaction.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, No. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never failed when introduced to them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Ulcers, pain and distress in the region of procreation, inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, Frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those diseases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business, society, or the enjoyments of life and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dyspepsia or sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The mental effects are the mind is weak, be dull, confused, loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, irritability, easily startled, wakefulness, which persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow may also be called the French Capotine, warranted the best preventive. Order by mail. Three for $1 and a two stamp.

Highly Important to Females
IN DELICATE HEALTH.

DR. DOW, Physician and Surgeon, No. 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in every case. It is probably certain the new mode of treatment, that most obstinate complaints yield under it, and the afflicted persons soon rejoice in perfect health.

Dr. Dow has studied and had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow since 1835, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in this or other cities.

☞ All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and troublesome cases, of any nature or nature, having by his unparalled attention and extraordinary success gained a reputation which calls patients from all parts of the country to his office.

Among physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Persons from the country can see an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new and valuable PHYSICAL SECRET. Order by mail. Two for $1 and a red stamp.

DR. S. O. RICHARDSON'S

BLOOD ROOT ELIXIR

Has been thoroughly tested and proved in his medical practice for a period of THIRTY YEARS, and is now presented to the public as an effectual cure for

CONSTIVENESS,

and the best remedy ever prepared for

Diseases of the Liver,

SCROFULA,

All Humors and Impurities of the Blood, and Diseases of the Skin.

The preparing and combining the Blood Root Elixir, is attended with results to medical science next in importance to the inhalation of ether in surgery. Roots and plants, in themselves painful and disagreeable, are, by a chemical process, made powerful extractives (in vacuo) rendered MORE EFFECTIVE IN THEIR OPERATION, entirely divested of the griping and alternating pain which attends the action of all other purgative medicine. They are also made to become HIGHLY PLEASANT AND AGREEABLE TO THE TASTE,

and by their remarkable combination work so perfectly in HARMONY WITH NATURE that no unpleasant reaction will follow its operation. It also possesses

A Different and Alterative Effect,

which can only be attained by medicine in a fluid state. These are new elements in purgative medicines.

The hard and compact manner in which pills are prepared renders them indigestible—and when taken are found through the stomach and bowels, half-dissolved, and exert only PARTIAL ACTION, thereby creating irritation and pain to the parts connected with their passage.

One pill dissolved in a wineglass of wine will produce more medicinal and physical effect than five in a crude state.

The BLOOD ROOT ELIXIR has no partial action upon the bowels, but its specific effect flows and throughout the whole circulation of the blood, imparting a healthy and invigorating action to the STOMACH AND BOWELS, and extending to the SKIN, and by stimulating dormant and torpid secretions through the whole system.

A single dose will produce a DECIDED and ACKNOWLEDGED COMMOTION, which will inspire the patient with confidence in a guarantee of IMMEDIATE RELIEF. A continuance for a short period will DRIVE DISEASE and hidden humors to the surface of the skin, and relieve or check SCROFULOUS AFFECTIONS—and by thus purifying and strengthening the blood will remove the most fruitful

CAUSE OF CONSUMPTION.

It invites the vacillating organs of the system to act then allotted part, removing the causes which induce RHEUMATISM AND NEURALGIA, HEADACHE, LOSS OF APPETITE, DYSPEPSIA, CONSTIVENESS, and the various diseases which arise from a derangement of the Stomach and Bowels, and restricted circulation of the Blood.

COUGHS and COLDS, in their early stages, will immediately yield to the effect of the Elixir.

The BLOOD ROOT ELIXIR contains no mineral, no pernicious botanical element, no excitant, but stimulates the secretions by its mild diffusive action. It is an effective and painless operant—has a decided, salutary action upon the Liver, and there has been no medicine prepared for centuries, deserving more merit.

Druggists, both by sale and mail, will find the Elixir a complete antidote for the evils which they are obliged to endure from a change of climate, of water, or of diet.

See the pamphlet around each bottle for a history of the Elixir.

The proprietor of the Blood Root Elixir, (Dr. S. O. Richardson,) has been long and favorably known to the public by his celebrated SHERRY WINE BITTERS, the best liver medicine ever discovered, and which has been in use over thirty years. He is a graduate of the New Hampshire Medical College, and many years associate member of the Massachusetts Medical Society, and has made the study of medicine his profession since 1829.

And so fully convinced is the Doctor of the wonderful curative effects of his Blood Root Elixir, that he hereby offers to each and every person who will use one-half dozen bottles of the Elixir and not be conscious of a good effect therefrom, to refund to said person the amount which he paid for the same, by returning the village bottle to his office.

Price $1.50 per Bottle.

Sold in Portsmouth by J. H. THACHER, Apothecaries Post Office, and No. 19 Market Square; and by Dealers in Medicine generally, and at Dr. Richardson's Office, No. 51 Hanover street, Boston.

Glad News for the Unfortunate!

The Long Sought For Discovered at Last,

CURES FROM ONE — TO THREE DAYS

CHEROKEE REMEDY
—AND—
CHEROKEE INJECTION,
Compounded from Roots, Barks & Leaves.

CHEROKEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Strictures, Gravel, Gleet, Mucorrhœa, and is so powerfully recommended in cases of Fluor Albus or Whites as powerful where all the old nostrums meditated hope failed.

It is prepared in a highly concentrated form, the dose being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying the blood by being from one to two tablespoonfuls three times per day.

It is diuretic and alterative in its action; purifying the blood, strengthening the system, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an auxiliary or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are healing, soothing and demulcent; removing all scalding, heat, chordee and pain, inflammation of the urinary and adjacent parts, and in fact that is experienced with nearly all the cheap quack injections.

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

For full particulars get our pamphlet from any drug store in the country, or write us and we will mail free, to any address, a full treatise.

Price—CHEROKEE REMEDY, $2 per bottle or three bottles for $5.

Price—CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

THE MAGEE COOKING STOVE.

The subscriber, having received his Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, intending it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plastery, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats can be prevented from escaping to the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming oven in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR WARMING

FURNACES.

The subscriber, being the Sole Agent in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm-air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have, been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat into the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason thus is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 25 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of it can be made to burn up some the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Thomas H. Mendum,
Henry F. Wendell,	John Sise, and others.

NEW HAMPSHIRE BIRD LAW.
PASSED JULY, 1862.
AN ACT to promote the interests of Agriculture.
Section 1. If any person shall, at any season of the year, take, kill or destroy any of the birds called robins, thrushes, larks, bluebirds, orioles, sparrows, swallows, martins, woodpeckers, bobolinks, yellow birds, linnets, fly-catchers or warblers; or shall, between the first day of March and the first day of August, take, kill or destroy any of the birds called snipes, wood-cocks, plover, rails, yellow legs, or sand pipers; or shall, between the first day of March and the first day of September, take, kill or destroy any of the birds called patridges or grouse, or quails; or shall, within the respective times aforesaid, sell, buy or have in possession any of said birds, taken or killed, whether in this State or elsewhere, he shall forfeit the sum of one dollar for each partridge or grouse, quail, woodcock, snipe or plover taken, killed or had in posession, the sum of three dollars, and for each of the other birds named above, the sum of one dollar, to be recovered by complaint before any justice of the peace.
Sec. 3. It shall be the duty of the selectmen of towns, and of the mayor and aldermen of cities throughout this State, to cause the provisions of this act to be enforced within their respective limits.
Sec. 4. All forfeitures or penalties recovered for violation of any of the provisions of this act, shall enure—one half to the use of the complainant, and one half to the use of the town or city where the same shall be recovered.

Please Look at This.
RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWEET'S PANACEA, and several bottles of his HUMOR WAND, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Sweet's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since. I have acted as agent for the sale of it. JOSIAH JENNESS.
PORTSMOUTH, April 21st, 1862.
I have for several years been afflicted with distress in my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give my relief until about a year ago, when I took one bottle of DR. S. SWEET'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LINCOLN.
From ELDER I. CHESLEY, *Lee, May* 31, 1841
DR. SWEET: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA, and HUMOR WAND. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY
☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with them, if it not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. mav26

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1836.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in matters appertaining the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that more MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay thereby, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unanimous testimony of success in obtaining patents on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.
During eight months, the subscriber, in course of his professional practice, *never* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other Impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of the married state, are notified that in consulting Dr. J. Teller, they will find a friend, counsele and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures Dr. J. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Valois's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other difficulties to females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.
N. B.—Patients at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

VERNATELLA.
Warranted to make the Soles of Boots and Shoes water and dampness proof, and wear one-third longer.
VERNATELLA
Is a preparation from Copper, having no grease, linseed oil, or anything of the kind, and when the soles are once saturated with it, water can no more get through them than through copper itself. **Price 25 Cents Per Bottle,**
at retail everywhere.
But its cost to the purchaser is really nothing, as it makes the soles wear enough longer to more than pay for it, leaving as a net gain the making of them Water and Dampness Proof, and the preservation thereby of that priceless gem, the health.
☞ LADIES, READ THIS! ☜
SAVE YOUR HEALTH.
Use Vernatella on the Soles of your Shoes. It makes them water proof and thereby protects your feet from dampness, for the ground is always more or less moist, either from rain or the morning and evening dew.

UNFORTUNATE FEMALES!
DR. BRISCOE'S FEMALE DROPS are unsurpassed by virtue and efficacy in curing all complaints, of whatever nature, incident to females. He continues, with his usual success, to medically and surgically remove Obstructions, Engorgements, Leucorrhœa, Whites, General Debility, &c., and Suppressions of all kinds; also all complaints of the Lungs, Liver, Kidneys, Spleen, Bladder, &c.
His medicines will be sent to any part of the country by express or mail; addressed by a communication stating particulars, will receive prompt attention.
Office, No. 23 Endicott street.
Persons at a distance can consult DR. BRISCOE, by letter, describing the case, and have the medicines securely put up, and forwarded to any part of the United States, with full directions for use. Office arranged with separate apartments, so that patients see none but the Doctor himself.
Address Dr. Briscoe, at No. 23 Endicott St., Boston, Mass., stating symptoms; all communications are confidential.
Patients furnished with rooms and board if desired, and every care observed in every case.
Office hours from 9 A. M. to 9 P. M.
Boston, July 16, 1864. 1ThSly

DR. M. BRISCOE still continues his successful treatment of all Private Diseases and also Female Complaints, at his old established office, No. 23 Endicott street.
N. B.—The sick and afflicted will do well to give him a call. A short consultation will cost you nothing, but a word of friendly advice may save you years of suffering.
P. S.—ladies who wish to stay in the city under my care a few days, can be furnished with kind nurses. Charges moderate.
